The International Guide to Speech Acquisition

by
Sharynne McLeod (Editor)
ISBN 1-4180-5360-0

The first comprehensive resource of its kind *The International Guide to Speech Acquisition* is for speech-language pathologists working with children from a wide variety of language backgrounds. This title has been carefully compiled to provide a comparison of each adult dialect or language with General American English, then provides comprehensive information about the typical speech acquisition for that dialect or language. This information will assist speech-language pathologists in identifying children who are having speech difficulties and providing age-appropriate intervention targets.

- Assessment and intervention tools for each dialect or language are provided.
- This resource saves SLPs valuable time by alleviating the search through various resources.
- Over 35 combined English dialects and non-English languages covered.
