The CORE of ADVENTIST EDUCATION CURRICULUM

PHILOSOPHY OF ADVENTIST EDUCATION

The Seventh-day Adventist Church recognizes God as the ultimate source of existence, truth, and power. In the beginning God created, in His image, a perfect humanity, a perfection later marred by sin. Education in its broadest sense is a means of returning human beings to their original relationship with God. The distinctive characteristics of this Adventist worldview, built around creation, the fall, redemption, and re-creation, are derived from the Bible and the inspired writings of Ellen G. White.

The aim of true education is to restore human beings into the image of God as revealed by the life of Jesus Christ. Only through the guidance of the Holy Spirit can this be accomplished. An education of this kind imparts far more than academic knowledge. It fosters a balanced development of the whole person—spiritual, physical, intellectual, and social-emotional—a process that spans a lifetime. Working together, homes, schools, and churches cooperate with divine agencies to prepare learners to be good citizens in this world and for eternity.

MISSION

To enable learners to develop a life of faith in God, and to use their knowledge, skills, and understandings to serve God and humanity

VISION

For every learner to excel in faith, learning, and service, blending biblical truth and academic achievement to honor God and bless others

CORE CURRICULUM GOALS

1. Learners will choose to accept God as the Creator and the Redeemer.
2. Learners will grow in their knowledge and understanding of God's Creation.
3. Learners will creatively apply their spiritual, physical, intellectual, and social-emotional knowledge.
4. Learners will demonstrate their commitment to the Creator through service to others.

ADVENTIST EDUCATION STANDARDS

Standards, what learners should know (content) and be able to do (skills), serve as the framework for curriculum development. Standards in NAD Seventh-day Adventist schools reflect the Adventist worldview across the K-12 curricula, as well as the integration of national and provincial/state standards.

The Adventist worldview accepts the Bible as the standard by which everything else is measured. Four key concepts emerge from a biblical worldview that can be used as a lens for curriculum development, as well as informing the essential questions and big ideas of any content area:

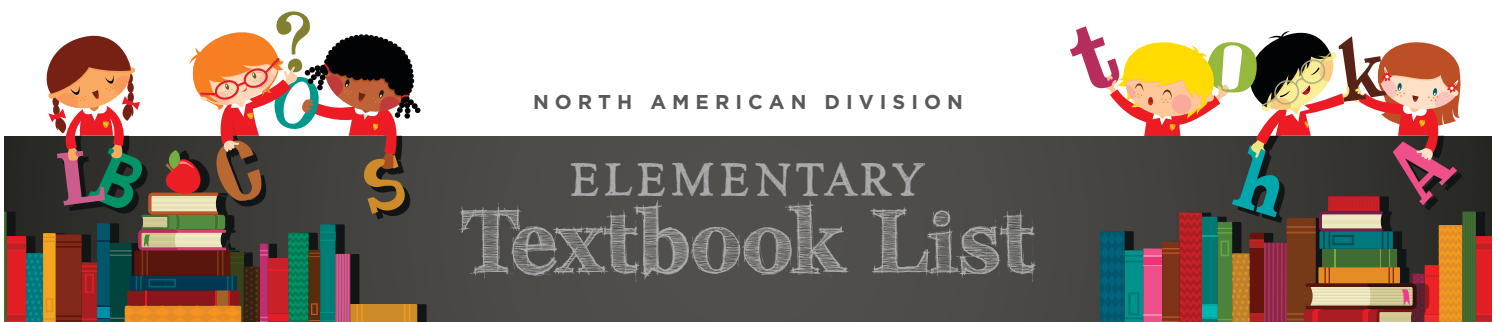

- 1. CREATION**
What is God's intention?
- 2. FALL**
How has God's purpose been distorted?
- 3. REDEMPTION**
How does God help us to respond?
- 4. RE-CREATION**
How can we be restored in the image of God?

As new textbooks are adopted, standards for the respective content areas are developed or revised.

EDUCATION RESOURCES STOREFRONT

This year NAD developed an Education Resources “Storefront” where schools can order the NAD Rainbow Resources such as BrainPOP, Reading A-Z, Typing Pals, etc., directly, online, with a credit card, and still receive the special SDA contract pricing.

All orders must be placed between August 1 and September 12. Subscriptions run October 1 through September 30.

Visit the NAD [Technology Subscription Resources](#) web page for more information.

SCIENCE BYDESIGN

ByDesign

The new, [ByDesign](#), faith-based inquiry science texts and teacher resources are currently available for grades 1-8. Multi-grade Student Journals (Cycle 1 for 2014-2015), and accompanying teacher edition, are available for use in small schools. ByDesign Science is available to order at [Kendall Hunt Publishing Company](#).

When ordering, please be sure to fill out the “teacher resource tab” so teachers will be able to access online resources

ByDesign Science Kits are also available to purchase for grades 1-8, and for multi-grades 1-4 and 5-8. For those teachers who wish to create their own, science kit supply lists are posted on the [NAD ByDesign Kits](#) web page.

STEPPING STONES PROGRAM

Kindergarten Stepping Stones program is available to order at [Kendall Hunt Publishing Company](#).

Also, listed on the website is a sneak preview of BRIDGES, a multi-grade correlation to help K-2 teachers teach Pathways across the grades. These materials are being developed as a collaboration between the Southern Union Conference (SUC) and the NAD. Visit the [SUC website](#) for additional information.

For an overview of the themes and components of the Kindergarten Stepping Stones program along with training videos and other resources, visit the [NAD Stepping Stones](#) website.

NAD Textbook SELECTION PROCESS

Elementary education textbooks are reviewed and adopted/developed by the NAD Curriculum Committee, in conjunction with NAD Summer Committees, on a six-to-seven year cycle. Textbooks are selected based on their alignment with Adventist Education Standards. Bible, language arts, and science textbooks are developed so the content intentionally integrates the Adventist worldview. Multi-grade guides for textbooks are available for most content areas.

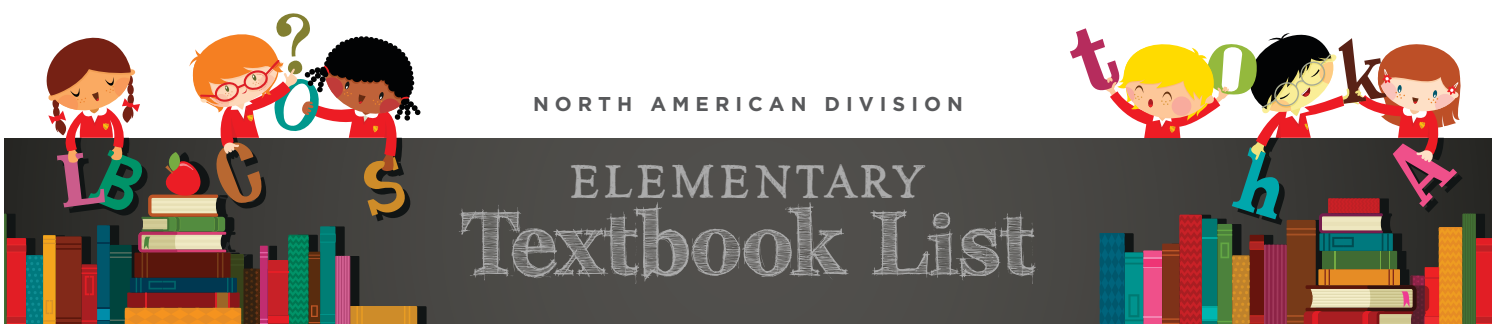

Summer Committees are organized by the NAD Curriculum Committee to assist in the adoption or development of textbooks. Elementary teachers, school/conference/union administrators, and higher education professors, from

across the NAD, are selected to serve on the committees based on their content area expertise. Elementary union associates serve as the chairpersons of the Summer Committees. The responsibilities of the committees include the

review of current content area textbooks, and development of textbook recommendations or materials that align with Adventist Education Standards. Recommendations are then voted by the NAD Education Advisory Committee.

PROJECTED ELEMENTARY CURRICULUM DEVELOPMENT TIMELINE

Textbook ADOPTION LEVELS

Materials classified in **Level #1** are to be adopted by each conference as basic and required for use in the schools.

Materials classified in **Levels #2 through #5** may be re-classified by a conference curriculum committee for use in the schools of that conference. Any adaptations or revisions are to be made only with the permission of the author(s) or union(s) responsible for the development of the materials.

LEVEL #1

Adopted for basic use.

All texts and materials listed in the [Curriculum by Grade](#) section are at Level #1 unless otherwise noted.

LEVEL #4

Approved for information only.

The materials placed in this category are acceptable and may be used in Adventist schools.

LEVEL #2

Approved for basic, supplementary or enrichment use.

The materials placed in this category are highly recommended but not required for use in Adventist schools.

LEVEL #5

Approved in concept, but referred for additional study.

The materials placed in this category are those which require revision or additional editing prior to re-classification and use in Adventist schools.

LEVEL #3

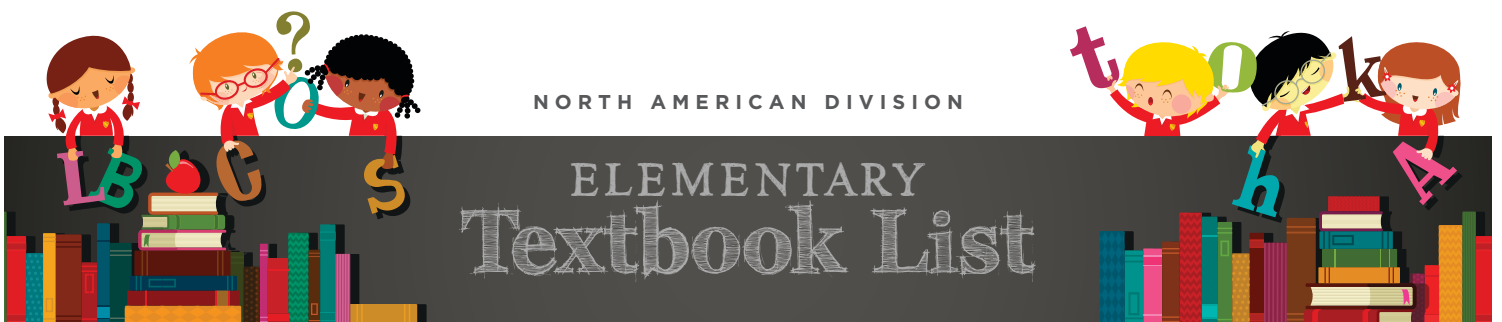

Approved for use in pilot or experimental programs.

The materials placed in this category are those which need field testing or which may be used in pilot or experimental programs. Such material may be returned to the NAD Curriculum Committee for consideration and re-classification.

LEVEL #6

Reviewed, but not approved.

The materials placed in this category are not approved for use in Adventist schools.

MUSIC TEXTBOOKS

KH/PS

Kindergarten Stepping Stones: A Journey to Excellence through Discovery is an integrated curriculum that utilizes literature-based themes with strong spiritual connections so children may come to know God better and love him more.

Silver Burdett Making Music, 2002 by Pearson Scott Foresman has been adopted by the North American Division. It offers a solid music program with numerous connections to other content areas. There is a variety of activities to choose from for both the trained musical educator as well as the regular classroom teacher.

The [Making Music Implementation Guide, 2002](#) is available on the North American Division website and has been developed to make the music program manageable as well as affordable. **Only grades 3 and 5 materials need to be purchased from Pearson Scott Foresman.** Based on a four-year cycle, grades 1-4 are to be taught using the grade 3 materials, and grades 5-8 are to be taught using the grade 5 materials. This guide also includes information on incorporating hymnology with the program as well as "cautions" which are always needed when using a secular program.

The Teacher's Edition and the Compact Disk Package are essential components for the classroom. Although the student editions are not crucial for the program to be successful, some schools may want to purchase enough for every three to four students. Materials can be ordered directly from [Pearson School](#).

GRADES 1-8

Pathways: A Journey to Excellence through Literacy is a comprehensive literacy program that integrates all the language arts skills. The goal of *Pathways* is to provide a balanced literacy program that presents students with integrated and interconnected language arts experiences that are both receptive (reading, listening, viewing) and expressive (writing, speaking, visually representing).

The scope and sequence at each grade level is organized around five target areas:

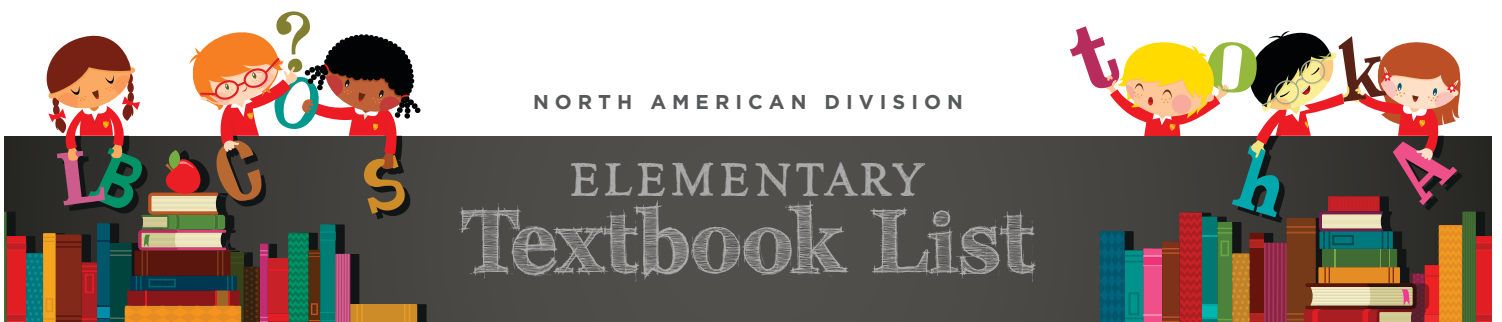

- Extended reading and writing
- Comprehending, studying, and evaluating ideas
- Reference skills
- Word study
- Sentences skills - usage, punctuation, and grammar

Pathways instruction focuses on four overlapping instructional components:

1. Theme Books and Daily Lesson Guides
2. Guided Reading Groups
3. Reading Workshop
4. Writing Workshop

THEME BOOKS

Books are the driving force behind Pathways. Each of the nine thematic studies is launched by theme books. These books, selected for their high interest, literary, and content values, represent a range of topics and genres.

GUIDED READING BOOKS

It is through Guided Reading, the heart of a balanced reading program, that Pathways can show students how to read and support them while reading. When students read with others on similar levels of proficiency at their instructional level, they gain additional opportunities to become readers. Leveled books to use with guided reading groups:

Pathways' Seedling Guided Readers are the basic recommended set of leveled readers to be used in the first and second grades.

Reading A-Z provides a wide range of leveled readers. Order information can be found on the [NAD website](#).

A Reason for Reading by The Concerned Group offers nearly 100 leveled books featuring Scripture and Values. Each title has a detailed Teacher Guide. Teachers can preview each page of every book by visiting [The Concerned Group website](#).

Pearson Scott Foresman Online Leveled Readers offers downloadable titles for K-6. There are thousands of downloadable titles in the reading, social studies, and science collections for grades K-6. The cost is normally \$200-600 per collection. However, the Adventist school contract is \$341 per school for all three collections. There are still three years left in the contract. To order contact: [Teresa Morrison](#) (202) 368-5638 or [Matt Robeson](#) (804) 836-3906. Ask about the leveled readers for Seventh-day Adventist schools. This price will appear on their website.

WRITER'S HANDBOOK

The Writer's Handbook is primarily a student resource. Students keep this guide at their desks as a handy reference to use throughout the day. During Writing Workshop this handbook serves as a tool for teaching mini lessons about strategies or forms of writing. Teachers and students will also find this handbook useful while studying grammar, mechanics, etc.

PHONICS

The Chall-Popp Phonics program assists students in learning the major phonological patterns in English. The student book is a write-in text, and phonics readers are incorporated into the phonics program for grades 1 and 2.

DESCRIPTION OF PATHWAYS TEACHER MATERIALS:

Order from [Kendall/Hunt](#) unless otherwise noted.

DAILY LESSON GUIDE

The Daily Lesson Guide accompanies each theme and is the day-to-day teaching plan for each thematic study. The Daily Lesson Guide contains a detailed instructional plan for teaching language arts skills within a cross-curricular and thematic focus. Spiritual connections are integrated into the reading instructional plan.

TEACHER MANUAL

The Teacher Manual contains information on guided reading implementation, comprehension strategies, reading and writing workshops, word study (daily oral language, phonics, handwriting, spelling), assessment options, working with the exceptional child and the homeschool partnership.

WRITER'S HANDBOOK

Teachers will want to have their own copies of the Writer's Handbook for mini lessons in grammar, writing, mechanics, etc., throughout Pathways. The Writer's Toolkit provides additional resources for mini-lesson instruction and is available on the NAD website or from AdventSource.

PHONICS TEACHER'S EDITION

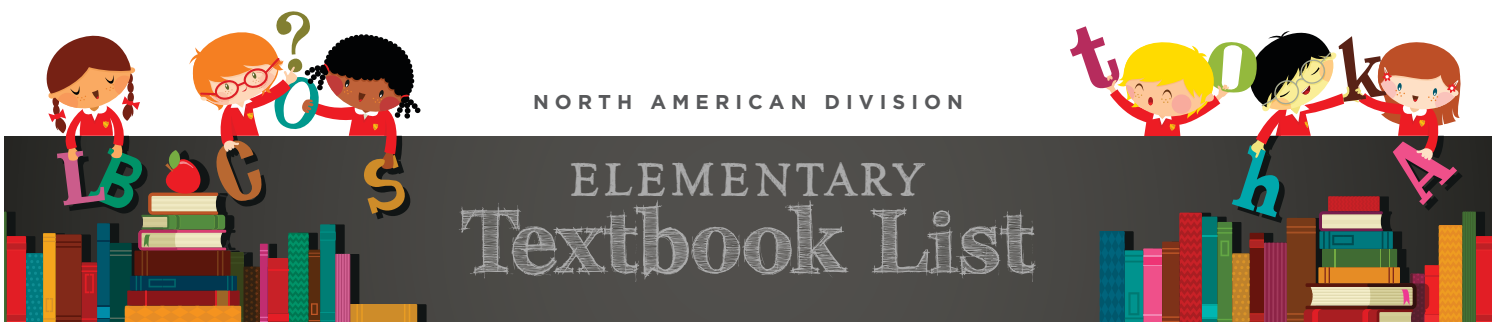

The Chall-Popp Phonics program forms the basis for the explicit, sequential approach to phonics instruction in Pathways. The Teacher's Edition contains hands-on student activities, intervention strategies, and numerous instructional techniques to enrich phonics instruction. Phonics will be formally taught in grades 1 and 2.

POETRY

Poetry is used throughout the themes, thus it is recommended that a copy of the Random House Book of Poetry for Children be provided for each school.

BASIC READING INVENTORY

Pre-primer through Grade 12 and Early Literacy Assessments. This book by Jerry L. Johns contains individually administered informal reading tests (six forms) that can be used by teachers as an aid in assessing student reading.

Houghton Mifflin Harcourt, *Big Ideas Math*, 2012 is the adopted hardback edition math program for grades 6-8. It is a “narrower and deeper program,” combining discovery and direct instruction approaches that addresses the Common Core State Standards for Mathematics. A deeper understanding of the math concepts is achieved by narrowing the focus to fewer topics and developing concepts through inductive reasoning, engaging activities, examples, and thought-provoking exercises. The program supports differentiated instruction as well as the 3-tier RTI model.

ByDesign: A Journey to Excellence through Science program for grades 1-8 is the new creation-based program published by Kendall Hunt under the direction of the North American Division. The program is based on a 5-step instructional model: Engage, Discover, Explain, Extend, and Assess/Reflect. This teaching model is used to promote inquiry-based learning and to stimulate a natural desire for knowledge and better understanding of God's creation.

A multi-grade correlation is available for grades 1-4, Cycle 1. It is anticipated that the multi-grade correlation for grades 5-8, Cycle 1 will be available by Fall 2014.

Each grade level is organized by four units: (1) Life Science, (2) Human Body, (3) Earth and Space Science, and (4) Physical Science. Lessons provide many hands-on opportunities to explore and experiment with science. Faith connections that reflect the Adventist worldview are developed throughout the lessons.

DIVISION OF CONTENT GRADES 5-8

U. S. History is taught in grades 5 and 8. World History and World Studies are taught in grades 6 and 7. Because these content areas contain massive amounts of subject matter, they have been subdivided to provide a manageable amount of information at each grade level.

SOCIAL STUDIES MULTI-GRADE IMPLEMENTATION

The So.S.M.A.R.T.
Notebook is available
as a free download
on [CIRCLE](#).

The *Social Studies Multi-grade Implementation and Organizational Notebook* (So.S.M.A.R.T.) is an organization manual produced by the North American Division that responds to the needs of teachers who have been challenged to complete a social studies textbook, particularly when teaching multiple grades. Topics for grades 1-4 have been correlated with those of grades 5-8, allowing a teacher with combined grades to teach the same topic across levels.

Kindergarten Stepping Stones: A Journey to Excellence through Discovery is an integrated kindergarten curriculum utilizing literature-based themes. As children explore the themes and interact with their teachers and peers, it is the primary purpose of this curriculum to help make the invisible God visible to each child, guiding them into a loving relationship with Jesus so that through service they may each uniquely reflect His love to others.

Kindergarten Stepping Stones is a complete curriculum for kindergarten that covers all subject areas. The following materials are included:

TEACHER MATERIALS

TEACHER MANUAL – gives an overview of Kindergarten Stepping Stones and presents the philosophy and practices used.

BIBLE STORY LAPBOOKS – contain the four Bible stories that will be taught during the month.

STAIRWAY TO READING PHONICS KIT WITH TEACHER'S GUIDE – provides instruction for implementing the Stairway to Reading phonics program.

DAILY LESSON GUIDES AND BLACKLINE CDS – provide the details needed for lesson planning. There are 10 Daily Lesson Guides, one for each monthly theme.

TRADE BOOKS – read by the teacher to the class which sets the stage for the weekly activities. There are four trade books for most monthly themes.

POETRY RESOURCE BOOK – provides a starting point for presenting related poetry throughout the themes.

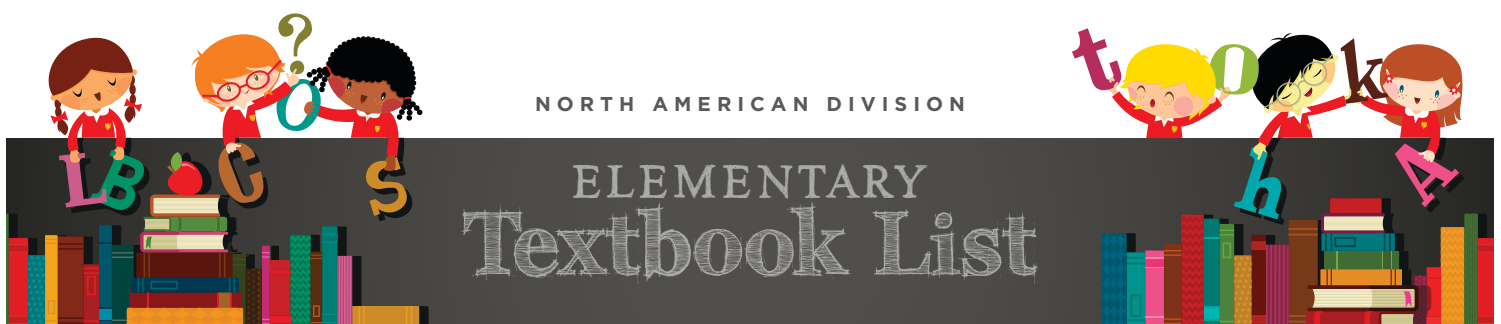

STUDENT MATERIALS

BIBLE STORY READERS provide each child a take-home copy of the week's Bible story.

BIBLE STORY/MUSIC CDS contain a recording of the Bible story and songs for each child to take home.

STAIRWAY TO READING STUDENT ACTIVITY BOOK reinforces the phonics concepts and skills.

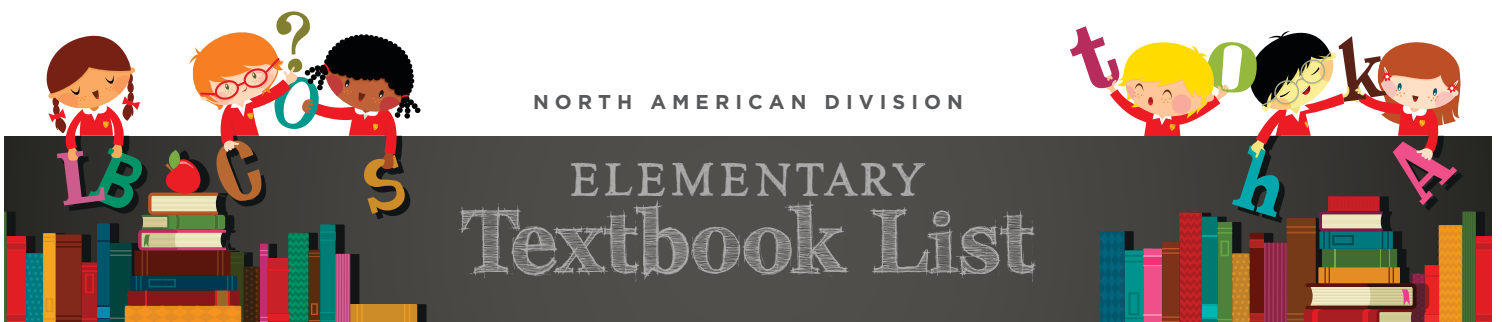

Visit the NAD website for other materials related to [Kindergarten Stepping Stones: 2012 Teachers' Convention PowerPoint Presentations](#), Kindergarten News documents, Lead Teacher PowerPoint Presentations, Math Tracking Cards, Phonics Lesson Bag Labels, Pinterest Idea Boards, etc.

FRENCH AS A SECOND LANGUAGE

GRADES 1-3

French as a second language is optional at these grade levels, so no texts are listed.

GRADES 4-6

ACTI-VIE (Levels 1-3)

Acti-Vie is a core French program designed to meet the Canadian curriculum expectations and outcomes. Each of the three levels (used in Gr. 4-6 or Gr. 5-7) contains 8 themes built around experiential goals that relate to students' lives. With each theme individually packaged, you can customize Acti-Vie to suit your classroom needs and your budget.

Learn more about the *Acti-Vie* program on the [Nelson Website](#)

Features of *Acti-Vie* include:

- Strategies for teaching in combined grades and multilevel classes
- Language outcomes and expectations developed through practical hands-on activities related to students' lives
- A complete formative and summative evaluation package for each unit

VISAGES (1-3)

This highly visual, full-colour magazine provides theme-related games and models for tasks and projects. Reading selections are recorded on the audio CD package. French-English glossary also included. *Visages* actively engages students in a wide variety of authentic learning experiences using French. The unique design of *Visages* provides maximum flexibility for a variety of students' needs and interests.

Learn more about *Visages* magazine on the [Nelson Website](#)

Features of *Visages* include:

- Engaging themes
- Theme projects that engage students in creative contexts
- Group and individual

GRADES 7-8

ON Y VA! A complete core program for Gr. 7-8 students.

Learn more about the *On y va* program on the [Nelson Website](#)

Features of *On y va!* Include:

- Interesting, age-appropriate themes
- Oral communication, reading, writing, and grammar/language expectations addressed several times throughout the themes
- 3 review units that address previously learned expectations

2014-2015
ODD YEAR

A French curriculum for multigrade schools—3-year cycle (beginner to intermediate)

The curriculum is put into a 11/2" binder and includes the following:

- Handbook
- Teacher Manual
- 1 CD - including Teacher Guides and Flashcards for Year 1-2-3, Year 1, Year 2 and Year 3
- 19 CDs - including songs, dialogue, vocabulary, oral comprehension, stories and dictation for Year 1-2-3, Year 1, Year 2 and Year 3
- 1 CD - including activity black line masters and answer key

This program has been created to help teachers who teach French as a Second Language in a multi-grade class, and who are not bilingual. The goal is to help teachers foster in their students those skills, abilities, and attitudes required for the development of communicative competence in the French language. Communicative competence can be defined as the ability to comprehend, and to negotiate and convey meaning in an effective, creative, and culturally appropriate manner. All the material presented in this program aims to stimulate in students the desire to continue to enhance their ability to use French. It aims to nurture these aspirations by providing a solid foundation on which students can build throughout life.
