Now read the lyrics of the international version of the theme song.

You are the Legend

Open your eyes  
The moment that you've been waiting for  
Deep in your heart  
There is one dream worth fighting for

Breaking the barrier to deliver  
Your spirit flying high  
To the unseen future.

You are the Legend, this is your time  
You are the light of the stars that shine  
Across the sky  
Now you are shining with bright light  
You are the Legend, the Legend of your life.

Open your eyes  
Watch your dreams fly and soar  
Your heart's beating  
To show the strength you are having.

Feel the flame, see the passion burning  
Breaking down the walls  
With your heart, filled with passion  
Salute your rival  
And stride towards victory.

You are the Legend, this is your time  
You are the light of the stars that shine  
Across the sky  
Giving all you've got to win the prize  
Standing stronger, feeling alive  
You are the Legend, the Legend.

You are the Legend, this is your time  
You are the light of the stars that shine  
Across the sky  
Giving all you've got to win the prize  
Standing stronger, feeling alive  
You are the Legend, the Legend of your life.

#### Cue Sports – Marco Fu

Source: <http://www.2009eastasiangames.hk/html/en/athletes/cuesports.html>

Marco Fu's first-ever victory in a ranking event at the Royal London Watches Grand Prix at the end of 2007 made headlines in the media and renewed public awareness and interest about the "Wonder Kid" of cue sports.

Encouraged by his father, Marco developed a passion for cue sports at an early age. Renowned professional cue sports Steve Davis was his childhood idol. His enthusiasm continued after he emigrated to Canada at the age of 12; and he was urged to become a professional player, a step that he took in 1998.

That same year, he gained worldwide renown and the "Wonder Kid" title from the media by becoming the first Chinese ever to make it to the final of the Grand Prix, where he became first runner-up. Afterwards, he went on to win gold medals in the Billiards Team events at the 1998 Bangkok Asian Games and the 2002 Busan Asian Games.

One of the few cue sports players to have become well-known by the public, Marco has a personal philosophy to explain the success he has achieved in a number of championships over the years.

"Winning can be the start of your downfall," he warns. "Pride can take over, and criticisms of your performance can go in one ear and out the other. My way of dealing with success is to remind myself constantly that it is just something that inevitably happens to all athletes sometimes.

"Cue Sports is always unpredictable, just like chess. It helps to train your logical thinking and analytical powers, and it also enhances your psychological competence and mental well-being. Cue sports definitely deserves to be promoted

more. I hope the government will organize a greater number of training programmes for teenagers and encourage them to take up the sport."

Many elite athletes, like Australian swimmer Ian Thorpe and Chinese diver Tian Liang, retired at their 20s. But retirement is not yet on the agenda for the 30-year-old "Wonder Kid". Instead, he continues to strive to gain more titles. Hong Kong will soon be hosting its first-ever East Asian Games in 2009, and cue sports will become one of its events for the first time. Marco has already set his sights on capturing the gold medal in his home town. We look forward to seeing him standing at the top of the podium, winning this honour for Hong Kong!

While Marco may be the only local cue sports player you know of just now, more and more "wonder kids" will emerge and demonstrate their excellence in the sport in the coming years.

You are Dick Lau, a squash player. A reporter, Student B, is going to interview you. Based on the following profile, answer his questions. If you cannot find the information to his questions in the profile, make up your answers. Remember, you a Dick Lau, make sensible reply to the reporter's questions.

Like the boy next door, Dick Lau is a tall, dark-skinned guy with a pair of bright and clear eyes. Dick described himself as a shy person who has ever accepted any TV interview until winning the Hong Kong Closed Squash Championships title in 2007, "It wasn't comfortable at all. Talking in front of the camera is much harder than I thought."

"My parents are very delighted because I made their dreams come true. When I got the match point, I gazed at my mum on spectator stand immediately with pride and joy and tears coming out from my eyes."

It may be just an ordinary competition to many who are not involved in the sport. Yet, that was the turning point of Dick's career. "I went to the Netherlands to horn my skill before the competition. Luckily, it's paid off."

"I am determined to win this competition and I got it! I want to share my victory with my parents," he said.

After completing Form 5 in 2004, Dick became a full-time athlete. As a Hong Kong junior champion, Dick had big plans on his sporting career. But life was always more difficult than he had expected.

One can hardly believe that a junior champion got beaten in the first round in professional tournaments. "I expected I could enter the world top 100 soon after joining the tournaments. It really depressed me after continuous defeats and I started to doubt my ability and skill. The plan of withdrawing was pounding in my mind a year ago. Would it be a right time to give up when I was still young? Would it be a better decision to return to school and get higher academic qualifications?"

“I understand clearly that playing squash is my dream. I don’t want to give up this dream so easily,” Dick said. After considering carefully, he finds squash is still at his top priority.

“To me, being rich is not the most important thing. I am playing for the love of sport but not for the monetary rewards.”

In the second half of the year 2007, Dick stayed in Europe, striving for improving his technique and strategy, “I have set a new goal for 2008 – to boost my world ranking from world number 124 to top 100. And in 2009, I want to represent Hong Kong to compete in East Asian Games and then the 2010 Guangzhou Asian Games. If I am chosen to the team, I swear I will contribute my best endeavours.”

Dick failed to enter the quarter-final in the Hong Kong Squash Open in November 2007. Nevertheless, with his talents and passion in this sport, he can certainly move forward and reach the pinnacle in the future.

“Never Give up! Never Lose Hope” – Dick Lau

## Activity 7 (I)

**\*\* Do not show this

You are Chan Yun To, a bodybuilder. A reporter, Student A, is going to interview you. Based on the following profile, answer his questions. If you cannot find the information to his questions in the profile, make up your answers. Remember, you a Chan Yun To, make sensible reply to the reporter's questions.

There is an unofficial formula of success for most professional athletes:

1. Intensive training since their childhood.
2. Reach his/her peak and become a star during their 20s, and
3. Retire at their 30s.

Chan Yun To is an exception. Though having been a bodybuilder for over 20 years, Chan used to work at the office and just spent his leisure time on bodybuilding. In 2003, he gave up the job and decided to be a full-time athlete. In the same year, Chan was being selected as a member of Hong Kong team. Three years later at the age of 40, he participated in the Asian Games for the first time ever and won a Gold Medal, the first gold medal in bodybuilding and in Hong Kong's history.

Winning his first Asian Games gold medal at the age of 40 is unusual for professional athletes. And for Chan, it was the dream he had been pursuing for more than 20 years.

"I was very excited as Asian Games is a quadrennial event which gathers high-level athletes," he said.

"On the other hand, after competing for many years, I don't feel much pressure in the competition. Most of my competitors have become friends of mine. We are rivals on stage, yet when walking off the stage, we chat with each other just like having a reunion."

Chan was calm and punctilious; he rarely overreacts to the others and thinks carefully before he acts. Chan was a surprise medalist to the general public who has little knowledge of bodybuilding. After winning the Games, he was engaged with seas of media interviews and coverage. The public is eager and desperate to uncover his story and the focus is on his favorite food, sticky rice wrapped in lotus leaf ( 糯米雞 ), which had been forbidden from him for months, so as to maintain his 'power and beauty' for the Games.

The game is not just about muscle and power; it is also a "beauty pageant". Judges pick the winners based on various factors and even the size of head, the strength of muscles and of course the gesture on the stage count. A performance on stage lasts only for a few minutes, which is miniscule compared to the amount of time bodybuilders take to prepare for the event. Chan, a veteran with 20-year experience, has his own method of success, 'Striving for the best, always!'

Chan has become a full-time athlete since 2003 and his living is now mainly supported by government allowance. The Asian Games Gold Medal gave him a taste of glory but does it change his life?

"If I could be 20 years younger, my bodybuilding career would be driven onward by the medal. When you grow older, you start to view everything differently. I really want to have a shot at 2009 East Asian Games but it hugely depends on my financial status. I am always prepared to give up my career and get a nine-til-five instead, if that is what's best for my family."

Although the three-time Asian Championship winner is considering a career switch, his heart is still with the sport he loves. "Gold is the only medal I want to win in 2009 East Asian Games! I aim at gaining my weight to 80kg from 75kg and hope to vie in the 80kg category in 2009 East Asian Games,"

"It is because there are dozens of talented Hong Kong bodybuilders whose weight are 75kg. I will pave the way for them to compete against strong competitors from Korea and Japan."

Bodybuilding will make its debut as a competition event in 2009 East Asian Games. It is hoped that the Games will boost its popularity in the region. We all look forward to the moment Chan is on stage, showing off his muscles and beauty to us.

# What makes a good 'photo caption'?

## Content and features

- ✚ A photo caption is usually a one-sentence description that answers some of the following questions, usually in this order:
  - *Who or what is being pictured?*
  - *What are they doing?*
  - *Where is it? (Sometimes this may be omitted, e.g. when writing a caption for a picture of an object)*
  - *When was it? / When was the picture taken?*
- ✚ An additional sentence can be written to add more details if needed.

## Language and structures

- ✚ Appositives (words or phrases that define or provide a synonym for a noun or pronoun) often follow the subject of the sentence and provide information regarding the subject's significance.  
Examples:  
*Nicholas Tse, Hong Kong screen star, ...*
- ✚ The present tense is almost always used  
Example:  
*Jacky Chan, famed martial arts star, appears at the Tsunami Aid Concert ...*
- ✚ Active verbs are used  
Examples:  
*Donald Tsang, Chief Executive of the HKSAR, addresses a Legco session...*
- ✚ Prepositions of place are used to describe where the subject was  
Example:  
*Faye Wong, Canto pop diva, launches a spring/summer shoe collection at a department store in Causeway Bay, Hong Kong...*
- ✚ Prepositions of time are usually not used. The date is written at the end of the sentence  
Example:  
*Faye Wong, Canto pop diva, launches a spring/summer shoe collection at a department store in Causeway Bay, Hong Kong, 12 April 2005.*

## *Activity 10*

You are going to design a poster to promote 2009 East Asian Games. In groups of 4, discuss what to include in the poster and how to make it attractive. You can refer to the following tips.

### **Creating an effective poster requires planning, art, science and attention to detail.**

Each of the following aspects of poster creation is considered in detail ...

#### Planning

- Before starting work on your poster, consider message, space, budget, format (single sheet or multi-panel), and deadlines.

#### Focus

- Stay focused on your message and keep it simple. Create a mock-up and dispense with unneeded details.

#### Headings

- Use headings to orient readers and convey major points.

#### Graphics

- Clear graphics should dominate your poster.

#### Text

- Text should be minimized in favour of graphics, and large where used.

#### Colours

- Colours can make a poster attractive and improve readability, but be cautious.

#### Editing

- Edit ruthlessly to reduce the amount of text and focus on a results-oriented message.

#### Software

- There are many packages you can use to create your poster.
