

SIDI™ Template Form

Dietary Ingredient Datasheet (DIDS)

Product Regulatory Information – Botanical ingredients

This document is intended to be a template or example for how dietary ingredient suppliers might consider organizing the regulatory information on their product. This form is not intended to be binding or required, and has intentionally been developed in Word format to allow it to be modified by users, if they so choose, to a format or organization that best meets their needs. In addition, users are not expected to confine their product regulatory information to the space provided in this document. However, users are encouraged to follow the same basic flow of information, regardless of the specific format used.
