Declaration for Re-Designation

The following declaration applies in the event of a re-designation of a Network Resource. The resource to be re-designated satisfies the following conditions:

1. the Network Customer owns the resource, has committed to purchase generation pursuant to an executed contract, or has committed to purchase generation where execution of a contract is contingent upon the availability of transmission service under Part III of the Tariff;
2. at the end of the un-designation period, the resource is not committed for sale to non-designated third party load or otherwise cannot be called upon to meet the Network Customer's Native or Network Load on a non-interruptible basis; and
3. all the information contained in the Network Customer's Application pursuant to Section 29.2 of the Tariff remains in effect and has not changed.
