

## They're Back!!! Miniature replicas of Trane chillers being transported on a tractor trailer.

The CenTraVac™ is the first chiller in the reintroduced Chiller Miniatures series.

These finely detailed CenTraVac chillers are produced from pewter and painted in authentic color with decals that display the Trane logo and CH530 panel. The CenTraVac measures 3-1/4" long by 1-3/8" wide by 1-7/8" high.

The white tractor trailer carrying the chillers features a Trane logo. The entire rig is 12" long and 1-1/2" wide. The flatbed measures 8 1/2" long.

You may purchase miniature Trane CenTraVacs at this time for the prices shown below which includes the cost of shipping to your location, or preorder the Horizon absorption chiller. Other chillers will be made available once their molds have been created.

Fill out the order form below and fax or mail to the location listed and your individually boxed sets will arrive at your location within two weeks.
