

TANK SUMP

Western Fiberglass offers a complete range of comprehensive, computer designed tank sums available in multiple diameters and shapes. Unique continuous filament wound construction produces the strongest cylindrical shapes available. Western Fiberglass tank sums are compatible with all piping systems, approved by major tank manufacturers and by environmental and fire inspectors nationwide.

FEATURES / OPTIONS:

- **30-Year Warranty**
- **Available With or Without a Bottom**
- **Multiple Lid Configurations**
- **Single Wall and Double Wall Now Available**
- **Standard or Custom Designs**

TANK SUMPS SINGLE WALL SPECIFICATION

Summary

The Flame round sump riser and riser reducer shall be installed onto the underground storage tank and in accordance with the manufacturer's installation instructions. The UST sump riser and riser reducer shall provide an open piping termination and inspection/service area that is non-permeable to hydrocarbons, compatible with all fuel blends, and will not hold a static electrical charge. The sump system shall contain environmentally hazardous fluids that might leak from piping terminations, fittings and flex-hoses contained within the sump, require no internal backfill or bracing and be self supporting. The sump shall be manufactured by Western Fiberglass, Inc.

System Specifications

1.01 System Suitability

The Tank Sump Riser Tube and Riser Reducer Assembly shall:

- A. Attach to the UST manway, bung fitting or containment collar to prevent the intrusion of ground water into the sump assembly.
- B. Be of sufficient size to allow all piping terminations, fittings, equipment, and flex-hoses to be contained within the Sump Assembly.
- C. Provide ample area to allow servicing and inspection of all piping terminations, fittings, equipment, and flex-hoses within the Sump Assembly.
- D. Contain a dry release of environmental contaminants from the tank fittings and equipment contained within the Sump Assembly.
- E. Provide an interface to the access "street" manway system with sealed watertight or friction "lift-lid" Tank Sump Riser Tube Reducer Assembly.
- F. Be available as a UL Listed device if required.

1.02 Construction Specifications

- A. Meet or exceed United States National Bureau of Standards PS 15-69 for Custom Contact Molded Redi-Poststeric Chemical-Resistant Process Equipment or UL Listing if applicable.
- B. Be constructed of materials that are not harmful to the environment.
- C. Be non-permeable to the hydrocarbons and not weakened by exposure to these materials.
- D. Be suitable for petroleum products and blends including methanol and ethyl alcohol mixtures.
- E. Have a thirty (30) year warranty against corrosion.

1.03 Release Monitoring System shall:

- A. Allow full visual and physical access/inspection of all piping reductions, fittings, hoses, and equipment.
- B. Provide a monitor point for electrical monitoring and evacuation of fluids.

1.04 Piping Penetrations

- A. Provide locations for the installations of fluid tight pipe and conduit penetrations to be installed according to manufacturer's instructions.

TANK SUMPS DOUBLE WALL SPECIFICATION

Summary

The Double wall filament wound sump riser and riser reducer shall be installed onto the underground storage tank and in accordance with the manufacturer's installation instructions. The Double Wall UST sump riser and the riser reducer shall provide an open piping termination and inspection/service area that is non-permeable to hydrocarbons, compatible with all fuel blends, and will not hold a static electrical charge. The sump system shall contain environmentally hazardous fluids that might leak from piping terminations, fittings and flex-hoses contained within the sump, require no internal backfill or bracing and be self supporting. The sump shall provide access to the interstitial space to allow for pressure testing to 5 psi and constant, real-time monitoring. The sump shall be manufactured by Western Fiberglass, Inc.

System Specifications

1.01 System Suitability

The Tank Sump Riser Tube and Riser Reducer Assembly shall:

- A. Attach to the UST manway, bung fitting or containment collar to prevent the intrusion of ground water into the sump assembly.
- B. Be constructed in a double wall configuration with interstitial access provided for constant, real-time monitoring.
- C. Be of sufficient size to allow all piping terminations, fittings, equipment, and flex-hoses to be contained within the Sump Assembly.
- D. Provide ample area to allow servicing and inspection of all piping terminations, fittings, equipment, and flex-hoses within the Sump Assembly.
- E. Contain any release of environmental contaminants from the tank fittings and equipment contained within the Sump Assembly.
- F. Provide an interface to the access "street" manway system with sealed water-tight or friction "lift-lid" Tank Sump Riser Tube Reducer Assembly.
- G. Be available as a UL Listed device if required.

1.02 Construction Specifications

- A. Meet or exceed United States National Bureau of Standards PS 15-69 for Custom Contact Molded Reinforced-Polyester Chemical-Resistant Process Equipment or UL Listing if applicable.
- B. Be constructed of materials that are not harmful to the environment.
- C. Be non-permeable to the hydrocarbons and not weakened by exposure to these materials.
- D. Be suitable for petroleum products and blends including methanol and ethyl alcohol mixtures.
- E. Have a thirty (30) year warranty against corrosion.

1.03 Release Monitoring System shall:

- A. Allow full visual and physical access/inspection of all piping reductions, fittings, hoses, and equipment.
- B. Provide a monitor point for electronic monitoring and evacuation of fluids from both within the sump body and for the interstitial space of the double wall.

1.04 Piping Penetrations

- A. Provide locations for the installations of fluid tight double wall pipe and conduit penetrations seals to be installed according to manufacturer's instructions.

FIBERGLASS LIMITED PRODUCT WARRANTY

This limited warranty constitutes our only responsibility and obligation to repair and/or replace materials or components. We make no other express or implied warranties or any warranty of merchantability or fitness for a particular use except for the limited conditional warranty stated below.

1. CONDITIONS OF WARRANTY

This warranty applies only to materials and components manufactured by Western Fiberglass, Inc., and is subject to notification by the original customer within (30) days of the first discovery of each cause, effect or occurrence which may cause any claim under this limited warranty, further:

- A. The components manufactured by Western Fiberglass, Inc. be used only for the purpose for which they were designed, intended, and installed, further;
- B. That the use of said systems and components be for the normal uses, service conditions and installation in accordance with the manufacturer's instructions approved by Western Fiberglass, Inc.

2. LIMITED WARRANTY

Subject to the conditions herein, Western Fiberglass, Inc. warrants, for the period and conditions below, that components manufactured by Western Fiberglass, Inc.:

- A. Will conform to manufacturer's specifications at time of sale and will be free from defects in materials and workmanship for one (1) year from date of original purchase, further;
- B. Will not fail due to external corrosion for a period of thirty (30) years from the date of original purchase while remaining undisturbed in the original installation configuration, further;
- C. Will not fail due to internal corrosion in any application designed and used for the containment of the materials specified upon original order for the same period, as described in paragraph B, in section 2 Above.

3. LIMITATION REMEDIES

Western Fiberglass, Inc. will at its option, repair or replace the defective materials and/or components found to be defective by Western Fiberglass, Inc. in accordance with the specifications. These repairs or replacements will be furnished by Western Fiberglass, Inc. at no cost other than shipping fees hereunder. Any claims not covered by Western Fiberglass, Inc., will be the sole responsibility of the customer.

Western Fiberglass, Inc. will not be liable for any direct, incidental, special or consequential damages or other loss, including, but not limited to, damage to or loss of other property or equipment, loss of contents or service, environmental damages and cleanup costs, loss of facilities or income, and personal injuries, whether to customers, its owners, officers, agents, employees, invitee, or otherwise, resulting from natural causes including, but not limited to, flood, fire, earthquake or the act of God, negligence, willful misconduct or other cause not expressly described herein, regardless of when the same might occur.
