

Name _____ Date _____

Unit 2 Learning Targets

Lesson	Target	Yes	No
1	I can change fractions into decimals.		
2	I can change between different forms of mixed decimals including standard form, word form, expanded form, and expanded form using powers of ten.		
3	I can compare decimals and recognize equivalents when a zero is added at the end of a decimal.		
4	I can add and subtract decimals to the hundredths place.		
5	I can add decimals and mixed decimals when they are expressed different ways – for example as money (\$1.25 and 12¢).		
6	I can subtract whole numbers and mixed decimals in number and word problems.		
7	I know and can use the Commutative, Associative, and Distributive Properties to help me regroup numbers to make problems easier to complete using mental math.		
8	I can round decimals in mixed decimals from the thousands to the thousandths.		
9	I can create and use graphs to answer questions involving decimal numbers.
