Name of Interviewer _____

Hello, my name is _____. I work with the Save Our Sisters breast cancer program and I'd like to speak to _____.

[If not available] When would be a good time to call again? _____
date and time

Thank you. **[Hang up]**

[If available] Hello, Ms. _____, my name is _____ and I'm calling each lay health advisor just once a year to find out what kinds of things you're doing with the Save Our Sisters breast cancer program. I have some questions that will probably take about 15 minutes to answer. Do you have time to talk with me now? **[If YES, go to next paragraph]**

Finding out what you're doing with the Save Our Sisters project is important. This interview will help us learn what you actually talk about or do as a lay health advisor. But even if you didn't do anything as a lay health advisor this month, that's important information for us to know. We can learn about times when lay health advisors are not able to contact women about breast cancer screening. Keep in mind that you don't have to answer any question you don't want to. Let me know if you'd like to skip a question and we'll go on to the next one.
