# The Annual SPN Youth Group Cow Plop Bingo Fundraiser April 24, 2016

## Official Rules and Regulations

1. The SPN Youth Group Cow Plop Bingo Committee will establish all rules and regulations for the April 24, 2016 Cow Plop Bingo Fundraiser.
2. The Cow Plop Bingo event will take place on April 24, 2016 on the Saint Philip Neri soccer field. A field grid will be marked off in 1 yard square 'land parcels' for a total of 400 sequentially numbered 'land parcel' squares. On April 24, 2016, in the event that tickets are not sold for all 400 'land parcel' squares, the grid will be downsized accordingly.
3. The actual field grid on the ground will be clearly marked with all 'land parcel' squares being of equal shape and size. The field grid (and cow) will be protected by a barrier or fence. Spectators and 'land parcel' square holders must not interfere with the progress of the event.
4. Up to 400 'land parcel' tickets will be sold by the SPN Youth Group for \$20.00 per 'land parcel' square. Proceeds from the SPN Youth Group Cow Plop Bingo Fundraiser will benefit SPN High School Aged Youth Group.
5. 'Land parcel' square assignments will be randomly drawn at SPN, on or about 1:00pm on April 24, 2016.
6. Absolutely no 'land parcel' square tickets will be sold after 1:00 pm on April 24, 2016.
7. For each 'land parcel' square ticket sold, the sold ticket stub will be placed in a specifically marked container and secured by SPN Youth Group. On April 24, 2016 (on or about 1:00 pm) at SPN, the number of 'land parcel' square tickets sold and in possession of the SPN Youth Group Cow Plop Bingo Committee will be tallied and the actual grid number assignments will be determined. A poster or list will be printed, noting 'land parcel' ticket holder names and numbered square assignment; this will be on display in the vicinity of the SPN Soccer field to the Cow Plop Bingo event starting.
8. There will be at least one designated SPN Youth Group judge working the event. The event judges, as individuals, are not able to participate in the event as to keep them totally impartial to any outcomes.
9. At 2:00 pm on April 24, 2016, a cow will be led into the designated grid area by an appropriate handler and allowed to freely roam within the grid area (while tethered to a lead line of appropriate length) until the first cow plop or "plop" (NOT cow pee) is placed by the cow on a square. If the cow has not placed a cow plop within 2 hours (by 4:00pm on April 24, 2016), the prize money will be awarded by a random drawing.
10. The ticket holder of the 'land parcel' square on which the cow plop lands will win \$1500 (or in the event that not all 'land parcel' square tickets are sold, 20% of all 'land parcel' squares sold by 1:00pm on April 24, 2016, less SPN Youth Group expenses).
11. If the cow "plop" lands on bordering 'land parcels' (crossing the line connecting the squares), the prize money will be divided equally among the ticket holders of all affected 'land parcel' squares REGARDLESS of the volume on each parcel. The SPN event judge(s) have final say in determining the winning square(s).
12. 'Land parcel' square winner(s) will be responsible for all associated fees/taxes associated with the cash prize winning.
13. The decision of the designated SPN Youth Group event judge(s), with respect to the SPN Youth Group Cow Plop Bingo event winner(s), is final.
14. The winner will be recognized at the conclusion of the SPN Youth Group Cow Plop Bingo Fundraiser. If the winner is not present, the winner will be notified by phone and/or email and will then have 30 days to claim the prize money.
15. The event will proceed on April 24, 2016, rain or shine.
16. Any questions about the event can be sent to Michelle Kelly at [kellym@spnschool.org](mailto:kellym@spnschool.org) .

# SCIENCE EXPLORERS®

After-School

# SCIENCE CLUBS

## Anniversary Special: Mix It Up!

We've picked our top 3 favorite hands-on science activities for this special 3-session club! This is a great program to try if you've never participated in Science Explorers before, or if you want to experience some favorites, this is for you! We'll take some chemistry, throw in a little creativity, and mix in tons of fun! Create our ever popular foaming "Matter Monster", build your own motorized invention, and make groovy lava lamp test tubes!

## Abracadabra!

Hocus Pocus, you're the focus, as you amaze and astound your friends with some awesome science magic! Master the art of illusion and discover the scientific secrets behind these tricks. Use your newfound skills to make an egg sink or float on command, create invisible ink, make water disappear, and shock your family and friends when you walk through a piece of regular copy paper!

## Burps, Belches & Bad Breath

Did you know that mucus is part of your daily diet? Or what part of your body are you producing a cement-like substance? Are there little creatures living on you? What happens to our cells when we sweat? Find out the wacky science going on inside all of us! We'll make our own mucus, create body spray to keep us smelling good, make an explosion of gas bubbles, mix up noisy putty, and use chemistry to show how to neutralize stomach acids. We like to call it a "cool kind of gross"!

## Freaky Physics

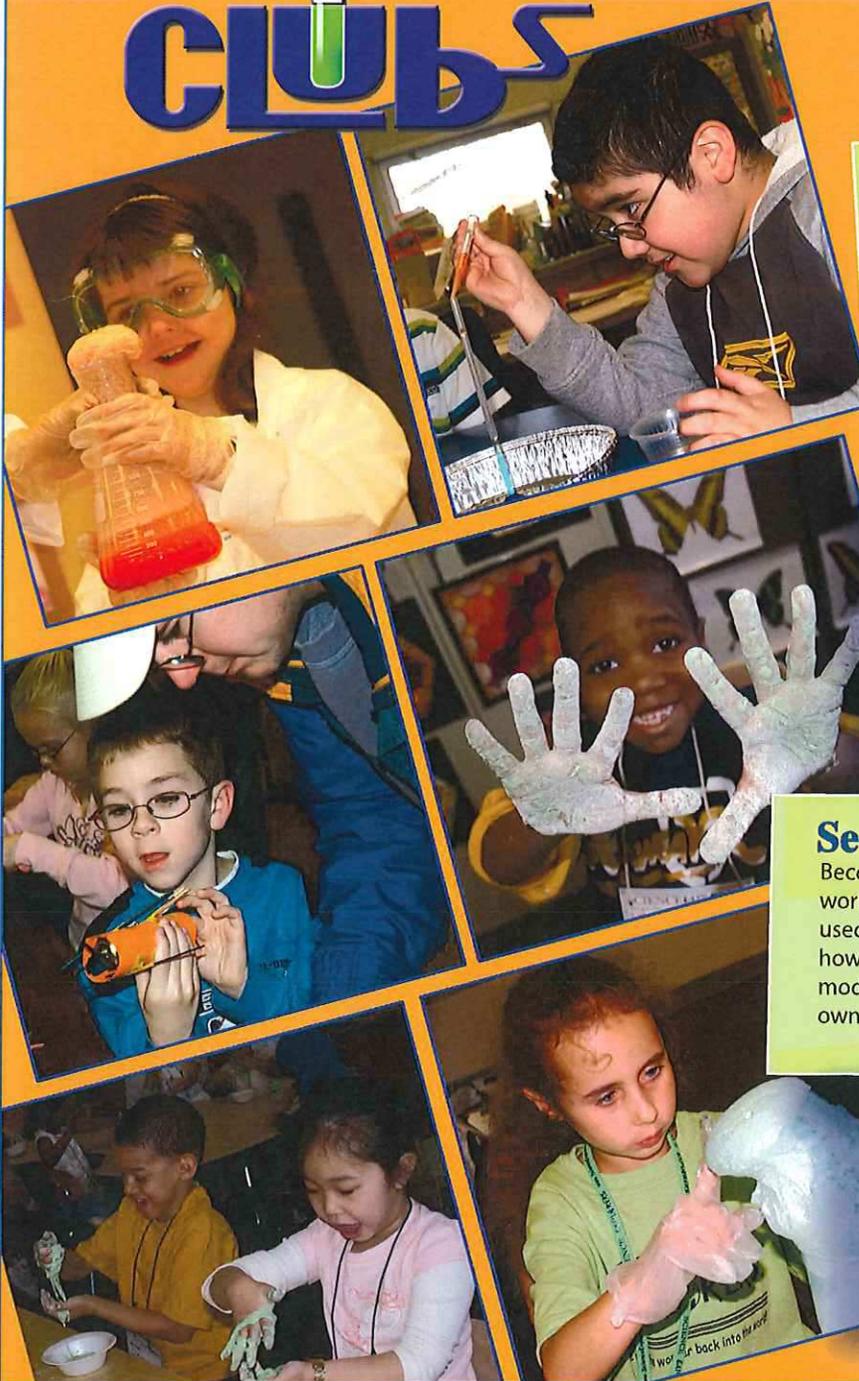

What do you get when you take matter and mix in some energy? Freaky Physics! We'll mix up a gas that is heavier than air, change states of matter to make slippery slime, and build a circuit to create an awesome motorized "drawing-bot". Plus see how physics and building are related as our engineering teams compete to see who can build the tallest towers. Test your science skills as we freak out with physics!

## Secrets of Ancient Egypt

Become an Egyptologist as we explore the fascinating world of ancient Egypt. We'll discover how Egyptians used science every day as we construct pyramids, learn how to tell time using the sun, mummify apples, build a model shadoof that was used for irrigation, create your own mummy, and decode Egyptian writings!

## Is There a Doctor in the House?

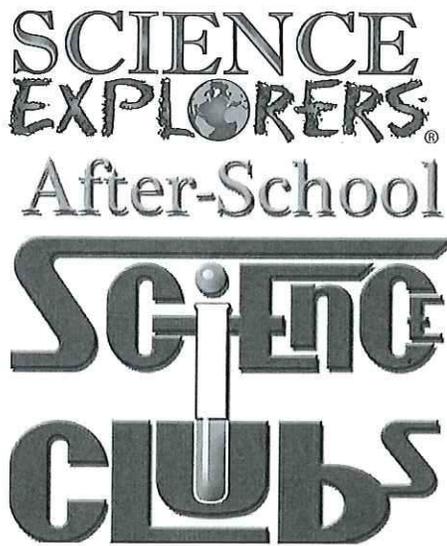

If you have ever wondered what is running through your veins and what happens to your lunch after you eat it, then join Science Explorers for five fun filled "office visits" that are guaranteed to kick your senses into high gear and stimulate your mind. We'll create edible blood, make a model of the digestive system, build a working lung model, and investigate a real sheep brain! Make no bones about it, the doctor is in!

Dear Mrs. Venezia:

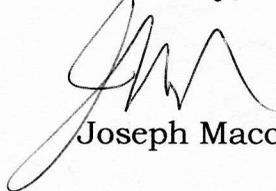

On behalf of the Patrician Society Board of Directors, staff, volunteers, and patrons, I thank you and the students of Saint Philip Neri School for your donations in the recent food drive organized by the Ancient Order of Hibernians.

As you may know, the Patrician Society Emergency Food Center is the largest program of its type in Montgomery County serving nearly 1,500 different verifiably needy households all through the year. Our volunteers will sort, package, and then distribute your donations among these deserving families. The food given by your students will make a real difference in the lives of the members of those families.

We greatly appreciate your involvement in our mission to alleviate hunger in our area through the good graces of the AOH Notre Dame, Division 1!

With sincere best wishes in this Easter season, I am

Gratefully,

Joseph Maccolini

# AOP TECH PARENTS

## Parent Resources

Looking for more resources to help you make more informed parent technology decisions? These sites offer great resources and advice!

- [Common Sense Media](#) is the premier site for technology and families. This site offers advice, recommendations, and discussion for parents looking to engage kids in responsible technology use.
- [Edutopia](#) has long been a teacher favorite website for best practices and classroom resources. However, they also have wonderful articles for parents on digital and media literacy.
- [NetSmartz](#) is a fantastic resource for schools, students, and parents alike for helping our children be safe and responsible online.

## Fostering Creativity in Our Children

From the time our children are young, it is no secret that they are naturally creative. As parents, we can continue to foster this creativity both on and off devices. Check out these awesome apps and web tools that can promote all kinds of creativity in your child. And remember! Having open conversations with your child about what they're working on fosters happy, healthy family relationships, as well as, models good technology habits!

- For the Coder - Coding promotes problem solving, "outside the box" thinking, and is fun! Try [Kodable](#) (app for ages 2-6), [Hopscotch](#) (app for ages 7-12), or [Scratch](#) (website for 12+)
- For the Writer - Writing is so important for our children, both for personal expression and in life. Try [Kid in Story Book Maker](#) (app for ages 4-7), [Write About This](#) (app for ages 8-12), or [NaNoWriMo Young Writers Program](#) (website for National Novel Writing Month for ages 13+)
- For the Artist - Encourage the digital artist in life! Digital art can range from drawing to photography and editing. Try [Drawing Pad](#) (app for ages 3-8), [MoMA Art Lab](#) (app for ages 8-12), or [PicsArt](#) (app for ages 13+)
- For the Director - From animation to movie making, inspire that future filmmaker! Try [Disney Animated](#) (app for ages 5-8), [iMovie](#) (app for 8-12), or [Vyclone](#) (app for 13+)
- For the Musician - Everyone connects through music; time for a jam session! Try [Music Sparkles](#) (app for ages 2-7), [Garage Band](#) (app for 8+), and [Noteflight](#) (website for 13+)

Encourage students to share their creations with their family, friends, and eventually the world. Students can create positive digital footprints through the creativity and talents. Next month, AoP Tech Parents will explore helping children to create a positive digital footprint online!
