# Introduction

The Regulation respecting the public accountancy permit of the Ordre des comptables généraux accrédités du Québec (the “Regulation”) stipulates that to obtain the designation “auditor” and practice public accountancy, you must satisfy certain requirements, including those associated with a training period as specified in the Regulation.

You must also demonstrate to the Ordre that you have maintained your competency and knowledge acquired up to date. Upon submission of the Form evaluating competencies and experience acquired in public accountancy, various departments of the Order will evaluate your application.

The competency map presents all of the professional competencies that a member must have to practice public accountancy. For the purposes of the evaluation to obtain the public accountancy permit and not to diminish the importance of the others, only those competencies deemed essential have been selected. These are: assurance, taxation and performance measurement.

**The requirements concerning the obligatory training period pursuant to the Regulation include the following elements:**

1) Extract from the Regulation [...] Standards for issue of the public accountancy permit, section 3.

“The training period required to obtain a public accountancy permit shall be of a duration of 24 months and shall consist of not less than 2,500 hours of professional services rendered to the public. Of those 2,500 hours, 100 hours shall be rendered in taxation and not less than 1,250 hours in assurance.

Of those 1,250 hours, not less than 625 hours shall pertain to auditing.

For the application of the first and second paragraphs, the following hours shall be taken into consideration:

(1) the hours completed by the member during his training period for the issue of his certified general accountant’s permit and which meet the conditions of the training period for obtaining a public accountancy permit;

(2) the hours completed by the member as part of a review or audit engagement in the practice of his profession as a certified general accountant.”

2) Extract from the Regulation, Standards for issue of the public accountancy permit, section 10

“A member holding a public accountancy permit in respect of whom the hours required for the training period in public accountancy were completed more than 5 years prior to the date of application for the public accountancy permit shall successfully complete the monitoring program.”

# Definitions

## Assurance:

"An assurance engagement is an engagement where, pursuant to an accountability relationship between two or more parties, a practitioner is engaged to issue a written communication expressing a conclusion concerning a subject matter for which the accountable party is responsible." CICA Handbook, section 5025.03

## Review engagement:

"In a review engagement, the practitioner provides a moderate level of assurance by designing procedures so that, in the practitioner's professional judgment, the risk of an inappropriate conclusion is reduced to a moderate level through procedures that are normally limited to enquiry, analytical procedures and discussion. Such risk is reduced to a moderate level when the evidence obtained enables the practitioner to conclude the subject matter is plausible in the circumstances." CICA Handbook, section 5025.12

## Audit engagement:

"In an audit engagement, the practitioner provides a high, though not absolute, level of assurance by designing procedures so that in the practitioner's professional judgment, the risk of an inappropriate conclusion is reduced to a low level through procedures such as inspection, observation, enquiry, confirmation, recalculations, reperformance and analytical procedures." CICA Handbook, section 5025.11

Participate actively in an audit engagement means that the practitioner is actively involved in all steps of the execution of the audit engagement, including planning, risk assessment, meetings, recording data in file and drawing conclusions.

In relation to the issuance of the public accountancy permit, the hours devoted to preparing an audit record without actively participating in the execution of the audit engagement as defined in the preceding paragraph are not considered by the Order to be relevant experience for the purposes of obtaining such a permit.

# FORM

## Read this before completing the form.

The Order will only process applications for permits which are complete.

A complete file consists of:

- 1° Public Accountancy Permit Application
- 2° Duly completed Public Accountancy Competency and Experience Evaluation Form
- 3° Current professional liability insurance in force
- 4° Continuing education report as provided by regulation
- 5° Up-to-date Mandatory Annual Declaration
- 6° Dues paid
- 7° Declaration of any professional liability claim (sec. 62.2 of the Professional Code)

Only the Public Accountancy Permit Application and the Public Accountancy Acquired Competency and Experience Evaluation Form must be submitted to the Order. The other requirements (listed above) will be verified and reviewed by the Order.

Moreover, in every case, you must complete Section V *Declaration before a commissioner of oaths about experience acquired*.

Furthermore, Section VI *Attestation by the employer of experience acquired by the member in a public accounting firm* must be completed for each firm where experience was acquired, up to a total of 2,500 hours, starting with your most recent experience. You must also attach a description of the main tasks performed as part of your duties (CV or any other document you consider relevant).

# Evaluation of competencies acquired to practice public accountancy

**IMPORTANT:** This form has been prepared by the Order. However, in order to complete it properly, you must refer to the *Grille de compétences* which is the main reference document for the analysis of all public accountancy permit applications. Furthermore, the *Competency Guide* provides information that supplements the descriptions appearing below.

This section must be completed **without exception** by all members who apply for a public accountancy permit. It evaluates the level of your knowledge with regard to each of the competencies appearing in the *Grille de compétences*.

### Definition of levels of knowledge:

- Level 1: Your knowledge is theoretical and you are not able to implement/demonstrate this competency
- Level 2: Your knowledge does not allow you to implement/demonstrate this competency without supervision
- Level 3: Your knowledge is such that you are proficient in this competency and can make recommendations to clients.

At the end of each statement, you will find the reference to the *Competency Guide – Public Accountancy* (e.g. D-1.1).

Moreover, you must prove the level of knowledge and experience acquired with appended elements, such as:  
(i) elements from your continuing education;  
(ii) explanations in reference to your task descriptions.

### Example:

For the element on taxation competency, i.e. "Identify the applicable tax legislation provisions and inform the management about them," you could add "*I attended all the training courses on the taxation of companies and individuals.*"

### Identification of the period in which the experience was acquired

For each experience for which you enter a yes, please specify if it is **prior** experience (you no longer practice it) or **current** experience (you currently practice it).

In its analysis, the Order will check that the answers provided concerning acquired experience are consistent with the information about your experience (sections III and IV of this form) and the list of training activities appearing in your *Continuing education report* submitted annually.
