## Spokane Humane Society Car show

Thank you to everyone coming out to the 4<sup>th</sup> Annual Orphaned Cars for Orphaned Animals car show and poker run a benefit for the Spokane Humane Society. The weather started out questionable but as the day went on the sun came out and stayed. There were some great cars, trucks and motorcycles and even a 1965 Mercedes Benz Unimog 404 utility vehicle. Rumor has it that the Unimog did the Bogs for Dogs at the Spokane Humane Society the following weekend and didn't even get dirty. Then what is in the fun of that? The car show winners were Rick Murray who took "Peoples Choice" and Larry Becker of Doc's Muffler who took the "INCCC pick". Congratulations! The animals also want to thank everyone also for helping keep a roof over their heads, food in their bowls, fresh water, and a real good chance of finding a great home.

**The Next Meeting  
is:  
June , 29th  
2010  
@  
Timber Creek Grill  
Buffet  
At: 7:00 P.M.**

**Motorcycle Awareness Day aka MAD** was on a new day and at a new place this year. Even with the changes we had a great turn out. This year's event was held at Northern Quest Resort and Casino, the staff and facility were outstanding, looking forward to holding it there again next year. For those of you that missed this year's ride, you missed a good one. The ride was about 130 miles long with a free BBQ at Lone Wolf Harley Davidson in CDA along the way. We ended the day by giving away several cash prizes and lots of great door prizes donated by local shops. We will be donating the proceeds to the local Shiners Hospital for Children.

### **TEN THOUSAND, FIVE HUNDRED DOLLARS AWARDED IN SCHOLARSHIPS**

A total ten thousand, five hundred dollars in scholarships will be given away this year to some very deserving students. This amount brings a total of \$137,250.00 in scholarships awarded since the beginning of the INCC Scholarship Fund. For this year, seven INCC Scholarships in the amount of \$1,500.00 each will be awarded to the following students:

Brittany Barton - Spokane Valley, WA  
Chelsey Denzin - Spokane Valley, WA  
Leah Griffith - Cashmere, WA  
Sarah Kritz - Newman Lake, WA  
Shaleesa Mielke - Spokane, WA  
Christopher Mullins - Spokane, WA  
Gary Smith II - Spokane Valley, WA

A very big thank you goes to the panel of judges who had the very difficult task of deciding who would be selected for these awards. Also we would like to thank all students who applied for these scholarships.

**70 YEARS OLD AND STILL GOING STRONG!**

Dick turned 70 later in May and because he never thought he'd make it to 45. Dody set up a room to have some friends over to celebrate this great achievement! We met in the banquet room at Barlow's Restaurant, 1400 Meadowwood Lane, Liberty Lake, 7:00 p.m. on Saturday, May 22. Barlow's is 1 block directly behind (east) of the Albertson's store.

Since Dick is such a weird person, Dody thought that gag gifts or funny cards would be in order. We had have cake, ice cream, soda, coffee, and a no-host service bar. Most importantly, we need to roast him thoroughly or tell a story about something he did that would embarrass him. Charlie Almeda roasted Dick for about 30 minutes. It was a great time. Dody said "It's time he got his pay-back for all the tricks he's pulled on everyone over the years", and it was done in style. Dick Dodd was in fine humor, and give it out as good as he got it. Dody said Dick didn't offend easily, so we poured it on. Thanks for the great time!

time. They had a good turn out but not as many as they wanted but it was still a lot of fun. There was a lot of nice and unusual cars. One we called EL-STUBAKER, it is a 81 El Camino and the front and rear ends of the car are from a 53 Studebaker. The owner said the Studebaker people were unhappy to see Studebaker parts used that way. Every year seems to bring out more unusual and unique cars for everyone's enjoyment. Out of the 4 Mustangs that went down, three took trophies and approximately 5 or 6 more cars from the Spokane area also took trophies. The rest went to the Idaho cars who had some outstanding cars. All the cars that took trophies deserved the time.

On May 01, 2010 - Mustang- Camaro shake down

On the first of May the Mustang and the Camaro clubs had a run out to Reardon and took Hwy 231 to Long Lake Dam. We stopped at the dam and Denny from the Mustang Club had a quiz in groups of 5 and the winners got snacks. While returning to Spokane we ran into some heavy rain but it was still a lot of fun. There was a total of 23 cars and 45 people. The cruise ended at Wandermere where everyone went to find some comfort food. It was great to see Mustangs and Camaros together, hope there will be more runs together in the future

The day did not start with a lot of sunshine but turn out to be a nice day. The Spokane Valley Heritage Museum and the Inland Empire Steam and Gas Buffs had a great turn out of some old time work motors. There were tractors of all sizes, several one lung running steam engines, an airplane and several Model T's. CAT 98 showed up to give out prizes and supply the area with music and Suzie Stacey took them out for a ride in her Model T.

If you have not taken a tour through the Spokane Valley Heritage Museum at 12114 East Sprague in the Spokane Valley call them at 922-4570 to make an appointment they are open Wednesday through Saturday. They are expanding so they will have more room for more exhibits.

# June 2010 - 'NUFF SAID !

This column will be dedicated to things you need to know, already knew, or couldn't care less about. Submit items to [dickanddody@msn.com](mailto:dickanddody@msn.com).

Hey guys, when you are in the middle of a Honey Do project, does your wife feel the need to supervise? You know, like "There's a streak on that window you just washed." or "There are still some weeds that you missed in the flower bed." Is that just their way of asserting their authority or are they on a power trip or what. Why not ask them? That ought to get an argument started. Just trying to help.

As they rebuild the Spokane Street bridge on I-90 in Post Falls, the contractor placed a porta-potty right under a sign that says SPOKANE STREET. That pretty much describes the condition of our city streets, as they are in the crapper also.

On our desk is an 18" by 24" calendar that you tear off the pages as the month ends. Ours hasn't been torn off since October of 2008, as all the squares get filled up with phone numbers, names, events, etc. If you tear off the page, you lose all that information. Why doesn't someone just make an 18" by 24" Post-It Note Pad, then when you tear off the page because it's too full, you could just stick it to the inside of the closet door?

Well, putting a rubber snake under the sheets didn't keep her on her own side of the bed. Have you ever been whipped with a rubber snake? Man, that hurts!! Our bed is 80 inches wide, so I'm going to put a 60 inch pillow on my side and a 20 inch pillow on her side. When she comes to the end of her pillow, she'll think she's in the middle of the bed. Brilliant, huh?

For you do-it-yourself mechanics, check out the AutoZone website. There is a section on there about how to fix your car yourself and it goes into great detail about how to determine what the problem is, plus pictures of the part and where it's located. The website is [www.autozone.com](http://www.autozone.com).

As I traveled past the I-90 construction zone, I was amazed to see a woman busting up old concrete with a jack hammer. It kinda put new meaning to the word "jiggle". If they wanted to be politically correct, they should change the signs from "MEN WORKING" to "PEOPLE WORKING".

I drive I-90 twice a week to Hamilton, Mt. and they have had one half of the highway blocked off for months. All of the traffic is forced onto the eastbound lanes in some areas and into the westbound lanes in other areas. This goes on for miles, yet there are very few people working on the road. I think what they are trying to do is save one half of the road while the other half gets worn out. Then they will switch to the half that is still good. Sounds like government-thinking to me.

Alongside the highway in Corvallis, Mont., there is a large dairy farm. The sign at the entrance to the farm says "MOO POO COMPOST" and a phone number. I wonder what they make their compost from?
