Dear Friend,

Although Alberta is a rich province, 91,000 children live in poverty. Without intervention, the trauma, stress and instability of living in poverty puts a child at higher risk for lifelong health problems, development delays, behavioural disorders and lower life outcomes. Sadly, children born into poverty are likely to remain in poverty and to repeat the cycle with their own children.

Over the past 10 years, your support has helped break the intergenerational cycle of poverty for hundreds of children attending CUPS Pre-Natal to Three and One World (3 - 6 year olds) Child Development Centres. These programs help children early in life, minimizing the negative effects of poverty. They offer specialized early intervention programs that help prevent and reverse child developmental delays caused by living in poverty.

Through the Centres, children also receive pediatric and dental care and specialist interventions as needed including: speech and language, art, play and music therapy and physiotherapy. While the children are growing, parents attend CUPS Nurturing Parenting Program and receive additional supports, including a family support worker, counselling, health care and home visits.

Your support is essential to giving these innocent children a fair chance in life. On behalf of the CUPS Child Development Centres and the families we serve, thank you for your generosity

Warm Regards,

Milan Cacic  
Tournament Chair
