ABC's of Employee Engagement

Keys to Attracting and Retaining a Motivated Workforce

Organizations today are often flatter and leaner - meaning fewer promotional opportunities and smaller raises. How can supervisors and managers provide an atmosphere that will help motivate employees to continue to contribute, even in the absence of traditional rewards and or perks?

In this course you will learn many of the easy-to-adopt techniques used by managers in some of the leading U.S. companies and agencies. You will learn what motivates you, as well as what makes your employee tick. You will leave this workshop feeling more inspired and motivated yourself - and better able to create the motivational atmosphere that will power your team's productivity and morale!

Topics cover include:

- * The Leadership Challenge
- * Motivation Factors Quiz
- * Motivational Models
- * Act like you want them to stay
