Workshop Registration (TLN)

Workshop Name: Roadway Management

Workshop Date: Nov. 2, 2009 **Time:** 9:00 AM - 5:00 PM (CT)

Workshop Location: Please select location from drop-down box below

Please select site

Workshop Objectives and Description

- Making road, street, and bridge funding decisions as an elected or non-elected official
- Making agency-wide planning and funding decisions as an elected or non-elected official
- Presenting budgets to political bodies, such as county commissions or town councils
- Managing a road or street network
- Advocating expenditures on a road or street network
- Prioritizing construction and rehabilitation projects
- Seeking funding for major projects
- Directing and overseeing the day-to-day activities of road or street crews
- Prioritizing road or street maintenance activities
- Preparing road or street maintenance budgets
- Purchasing materials, supplies, and equipment
- Setting up, collecting, and/or maintaining roadway-related inventory systems

Please check the session (s) you wish to attend:

Session 1 *Session 1: Roadway Management Basics* **9:00 AM - Noon**

This session is for those who want to develop a basic understanding of the principles and practices of roadway management. It is for those who wish to understand both the potential benefits of roadway management and the basic processes necessary for a roadway management system to be successful. This session is most appropriate for individuals with little or no knowledge about what a roadway inventory or management system can do for them.

Session 2 *Session 2: Improving Your Roadway Management Program* **1:00 PM - 5:00 PM**

This session is for those who have some experience with roadway management and inventories or who have taken Session 1 and who wish to learn how to get more out of their current inventory, cost tracking, and management practices. It is targeted towards those who wish to learn how to prioritize and better focus their cost tracking, inventorying, and roadway management practices to provide better and more useful information at both the project and the network levels. This session is most appropriate for individuals having some basic knowledge of roadway asset inventories and basic use of the data for managing their roadways, as well as for those who wish to learn how to get more out of their existing systems.
