Beginning of Summer PITA Shoot Recap

Hello Gun Club Mem- thank all of the volun- make our 2015 Begin- shoot such a success. number of shooters at- have ever seen at fact after doing some highest attended PITA in the state of Wash-

year. Way to go Black Diamond. We had several shooters from Ore- gon who attended, a couple from Sequim, two from Othello, and al- most a dozen shooters from the Wenatchee area. We had a very suc- cessful shoot with many compliments from shooters about how nice our gun club looked and that our targets were perfect was a phase that I heard many times.

We had several non-trap shooting members who volunteered and either loaded Trap machines or helped by keeping score. The weath- er was a big help too, although it did get to be very uncomfortable for those who were working all day long. Saturday was a very long day with the three events, but we got through it just fine. We threw a total of 27,000 targets over the two days of shooting.

Twelve year old Gage Wade- Huber shot his very first 100 straight perfect score on Satur-

bers. I would like to teers that help to ning of Summer PITA We had the largest tend our shoot that I Black Diamond. In research, we had the shoot of any gun club ington so far this

(Continued on page 5)

2015 Nora Ross Clinic

I had the opportunity to attend the 2015 Nora Ross clinic May 6-7. There were 9 people attending this year including a father/son from Eastern Washington.

For those of you who are not familiar with who Nora Ross is she is a 34-time Amateur Trapshooting Association (ATA) All-American. One of her most amazing accomplishments came in 1990 when she became the first woman to break 100 straight doubles at the Grand American Trap Shoot, where she scored a 120x120 in a shoot off to capture the ATA Championship. Nora became the youngest person ever inducted into the Amateur Trapshooting Association Hall of Fame in 1999.

At the clinic in May Nora starts out with some class room work where she gets some idea of each participants skill level and what everyone's handicap yardage is to form groups for shooting. After the class room it was off to the trap field where Nora has everyone shot one round of singles while she video tapes (yes she still uses video tape). After everyone is finished shooting we returned to the club house for lunch provided by Chef Jim (Bradbury).

After lunch Nora reviewed the video with everyone pointing out things that we were doing incorrectly or things that we need to work on. After the video review was done it was back out to the trap field to work on shooting, we did another couple rounds of singles. During these rounds Nora was going back and forth behind the shoots helping to correct any problems she saw or to give encouragement.

On day 2 we started again with some class room work and then out to the trap field to shoot some handicap. Again Nora would walk be-

(Continued on page 4)

Do you have a favorite shirt, vest, or other item(s) that you would like the Black Diamond Gun Club Logo (or any other embroidery) stitched onto? Bring it into the Black Diamond Gun Club, attach your name with phone number and instructions and Michelle Detwiler will contact you with a quote. Most logos range from \$15 - \$30. Embroidering a first name, or stitching a patch on - \$5. Call Michelle at 253-332-1631 for questions or quotes.

Black Diamond Gun Club

General Membership Meeting Minutes

May 19, 2015

Meeting started at 6:51 with the pledge of allegiance.

Board members in attendance:

Pat Manyon, Larry Gardner, John Griffin, Merv Vincent, Marilyn Manyon, Bob Sadesk, Andy Newell, Kevin Barrows, Jim Bradbury, Marion Dukes

Members: Cody Ballard, Allen K., Tom Hunt, Phil Erickson

Jim made a motion to accept the meeting minutes, Merv 2nd, passed.

Treasurers report, club is solvent and bills paid. Pat made motion to accept, past

Pat Manyon:

Made a motion to get some flowers sent to Cleat's services, passed.

Andy Newell:

Turns out that there is a problem with the installation of the new card reader system, looks like the hardware used a cellular connection that is not working so Washington Alarm needs to bring out a network board so that the system can be connected via the internet.

Kevin Barrows: nothing

Bob Sadesk:

We are going to have a work party on August 1st to clean up the pistol/rifle ranges. Bring your shovels, rakes, and wheelbarrows.

Merv Vincent:

RCO grant was discussed and we will be submitting our expenses to the RCO to get a started on the reimbursement process.

Hunter Ed class starts next Tuesday.

John Griffin:

Cleat passed away and suggested making a plaque or something to commemorate his work to the club. Pat asked John to look into what it would cost.

Jim:

We had the Nora Rose clinic a couple weeks ago. Nora will be coming back again next year and there are already 4 people that have expressed interest.

(Continued on page 8)

hind the shoots helping those that seemed to have some problems. While we were waiting for Chef Jim to finish preparing lunch we shot an Annie Oakley round. Those that may not be familiar with this (I was not) this is when everyone lines up on the 27 yard line and the first 3 shooters get prepared to shoot. The bird is called for and the 1st shooter takes a shot, if the first shooter missing then the 2nd shooter takes a shot and if the 2nd shooter misses the 3rd shooter takes a shot, all before the bird hits the ground. If you miss and the next shooter hits the bird or if you fire out of order then you're out. Once the bird is hit then the shooting order moves down one and starts again.

After lunch we went back out to shot doubles, again Nora was there to help give pointers.

There are some that describe the clinic as trying to get a drink of water from a fire hose and that is close. When you go out to the trap field you have a thousand things running through your mind of what to do and what not to do but the most important thing to remember is to have fun and enjoy the sport of trap shooting. If you're interested in attending next years clinic contact Jim Bradbury.

Kevin Barrows

Pat pulling duty down in the trap house

day. Tom Hunt took pictures of President Pat Manyon and myself presenting Gage with his 100 straight Black Diamond patch. This picture is on Trapshooters.com for anyone who is interested. Rusty Bunn who was on the same squad as Gage also shot a 100 straight his second perfect score and interestingly enough. Both of Rusty's perfect scores have been shot at Black Diamond, congratulations to both of you. Great shooting!!

We had 66 shooters for singles on Saturday and 49 singles shooters on Sunday. We had 31 scores of 97 or better shot in single over the week-end!! Two shooters shot scores of 98 in doubles on Saturday. A score of 95 won Handicap on Saturday, and a score of 96 won handicap on Sunday. We had a lot of very good scores shot during our shoot. Good scores equal happy shooters that will come back to our gun club.

Once again, I want to pass out a big Thank you to all of our volunteers. The volunteers during these shoots are what makes our gun club great. Many shooters are very impressed with our members

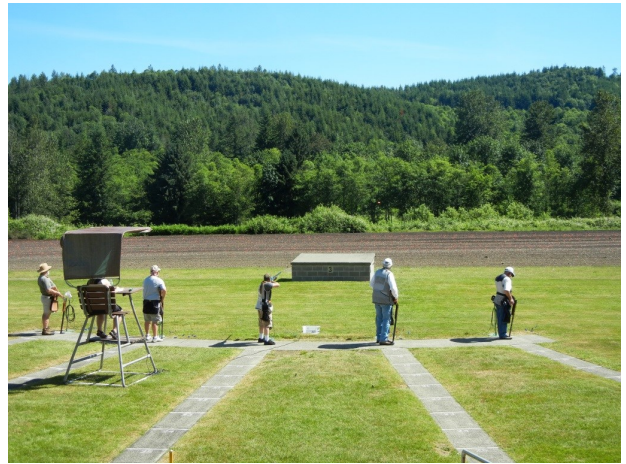

volunteering for these shoots. I think we have the best gun club with the best group of people who volunteer at any gun club that I have gone to. I am proud to say that I am a member of the Black Diamond Gun Club.

See you at the Gun Club soon,
Jim Bradbury

Cruisier and the rabbits showed up to help out as well.

2015 CMP Rimfire and Garand High Power Shoot Dates

Rimfire (.22LR) shoots will be on Tuesdays

5:30PM to 7:30PM

5/26, 6/2, 6/16, 7/7, 7/21, 8/4

200yrd Garand high power shoots will be
on the first Sunday of the month April thru
October

Open to the following rifles:

30-40 Krag,

M1903 and variants

M1917

M1 Garand

M1 Carbine

M14/M1A

9:30AM registration

10:00AM shooting starts

PITA shot June 6-7, work party on the 30th to load the trap houses. Jim has been getting prizes for the June shoot.

Jim has a sample of the trophies for the August shoot and passed it around for all to see. Multiplex shoot will start next month.

Larry Gardner:

We lost one of the LEO groups to another range.

Marilyn Manyon:

200+ membership renewals and counting for 2015.

Tom Hunt:

Has the continental trophy down at the trophy shop to get referbed.

Cody Ballard: nothing

Phil:

Had a good woman's pistol class.

Andy made the motion to adjourn, Bob 2nd, adjourned @ 7:40.

Respectfully Submitted,

Kevin Barrows

Question: *Thanks for explaining what Sporting Clays is all about, but I'm still a little confused. I know 5-Stand is similar to Sporting Clays, but can you explain the differences and why do we have both games offered at the club?*

5-Stand Sporting (The Basics)

A full-size Sporting Clays course can use as much land as a nine-hole golf course, and many gun clubs are simply restricted to the space they have available. So, they've taken the Sporting Clays concept and condensed it down into a compact presentation of basically the same targets. Sporting Clays is usually a 12 to 15 station walk-thru course, with a wide variety of target presentations. Where as, the 5-Stand Sporting course can be set-up utilizing existing skeet and trap fields and offers basically the same type of targets displayed. It can also be run by one operator, and a squad of shooters can cycle through the course in about the same amount of time it takes to shoot a round of trap or skeet.

Many gun clubs across the country have embraced the idea of investing in this new, scaled-down version of traditional Sporting Clays. With the proper set-up, 5-Stand Sporting can be shot day or night, rain or shine, and year around, bringing in a solid stream of much needed club revenue. Even though it can be a money-maker for a club, it still requires an investment in equipment, computers, components, and operators to make it all work. Like anything at the club, good volunteer member support is vital to being successful. Don't get the idea that 5-Stand Sporting is something less than the real game. It can be every bit as challenging as traditional Sporting Clays... even harder in some cases.

In 1992 the National Sporting Clays Association (NSCA) took 5-Stand Sporting and standardized it. Targets are now thrown in a known order, and can be read from a menu posted at each shooting station. This standardizing allows for the same game to be shot anywhere across the country, which was important for formalizing competition with registered targets. Though the criteria is not tightly defined, to qualify as a sanctioned course, the following array of targets must be presented: A tower launched outgoing bird; an incoming bird; a right-to-left crosser (quartering away); a left-to-right crosser (quartering away); a rabbit; and a vertical or springing "teal-type" target. If more machines and fields are available, additional target presentations can be provided.

A sanctioned NSCA 5-Stand Sporting field must have six or eight individual traps, and the machines must be automatics, except for one specialty trap. The game has three different levels, with three degrees of difficulty. At Level (1), the shooter will see all single targets; at Level (2), the shooter will be presented three singles and a true pair of targets; and at Level (3), the shooter will be offered one single and two true pairs of targets. Again, the order of targets presented is known to the shooter and posted at each station. Even though the NSCA-sanctioned version of 5-Stand Sporting has set criteria, a lot of versatility is built into the equipment layout, which can be quickly reconfigured allowing for a variety of oth-

(Continued on page 10)

er target presentations.

Basically, the rules are the same for 5-Stand Sporting and Sporting Clays. Here are the significant differences from standard Trap and Skeet: **1)** There may be up to a three second delay after the call before the target appears. **2)** The shooter must have the gun in a low gun position (entire buttstock visible below the armpit) when calling for the target. **3)** Allowances for malfunctions are limited to three per day. **4)** Shooters can use 12 gauge or smaller, and are allowed to use different guns at different stations. **5)** Up to five different sizes and styles of targets can be used in a single round. **6)** Targets can be presented as *single* targets; *true pairs* (both targets appear at once); *following pairs* (the second target follows the first); and *report pairs* (second target appears upon the report of the gun). **7)** Poison Targets (with a clear and discernable difference) can be inserted anywhere in the event.

Again, shooting at one of these Poison Targets is considered a miss. If you can refrain from shooting one of these targets, it's considered a hit. Like Sporting Clays, the preferred guns seem to be 12, 20, or 28 gauge autos or over/unders with barrel lengths 28"-32". A variety of choke tubes seems to be a necessity. Loads will range from a light skeet load for close range shots, to heavy handicap trap loads for the long range shots. As in Sporting Clays, Remington, Browning, Beretta, Kolar, SKB, and Kreighoff, seem to be the guns of choice for the 5-Stand Sporting shooter. As always, no matter what gun you choose, safety, accuracy, and reliability, should be you're main considerations.

Like with Sporting Clays, this is just a brief snap-shot of what 5-Stand Sporting has to offer. Even though it's a scaled down version of Sporting Clays, most of the top shooters tell me it's every bit as challenging. The target presentations are very similar to Sporting Clays, but simply presented in a more compact arena. Because 5-Stand Sporting utilizes existing Trap and Skeet fields, more clubs across the country will be constructing one of these courses. As with any new clay target game, I encourage you to support your club and go out and experience shooting 5-Stand Sporting for yourself. As far as being another fast flying and fun target game... you better look out, you may get hooked!

If you'd like more information visit my website at www.claybrakn.com , or if you have a specific question send me an email at claybrakn@msn.com and I'll do my best to get it answered.

See you at the club... Frank

Legend: ● Events ○ General ● Range Hours

When reading the calendar, if there is a NAME on the calendar, it means that there is an RSO for that time. Public shooting is Wednesday's and Saturday's. All other times are MEMBER'S ONLY

Thanks to the Black Diamond shooters and supporters that have stepped up to cook our Wednesday night dinners. We are having some wonderful meals. Our schedule is:

1st Wednesday - Vicky Wagner
 2nd Wednesday - Marilyn Pedersen
 3rd Wednesday - Danielle Penner & Nelson
 4th Wednesday - Al Hope
 5th Wednesday - Jim Bradbury

There are opportunities to be a fill-in cook when one of our regular cooks can't make it. If you would like to be on our Go To Cooks list you can either; leave your name and number with Sharon or put your name in the Secretary's box hanging by the file cabinets to the side of the front counter and Marilyn will give you a call.

Plan on coming out to shoot and have dinner!

Women's Basic Pistol Shooting Classes

This class is for ladies only. You will learn the basic knowledge, skills and attitudes necessary for safely owning and using a pistol. Class size is limited to 10 students. Guns and ammunition are included in the tuition, along with lunch. The class utilizes 22lr pistols, .38 revolvers, and 9mm semi-automatic pistols. Basic training includes: stance, grip, sighting, trigger pull, loading/unloading/dry fire and live fire. Tuition is \$125.

Upcoming Classes For 2014

March 15, 2015	July 19, 2015	October 18, 2015
April 19, 2015	August No Class	November 15, 2015
May 17, 2015	September 20, 2015	

Range Closures

The following dates are for range closures due to the rental of the range. No members should be out on the range during these scheduled times unless approved by the board of trustees.

The following dates have been scheduled:

- July 1, 8, 9, 19, 23, & 24 - 8am to 4pm each day
- Aug 6, 7, 14, 15, 16, 20, 27, & 28 - 8am to 4pm each day
- Sep 3, 9, 10, 20, 24, & 25 - 8am to 4pm each day
- Oct 8, 15, 18, 22, & 23 - 8am to 4pm each day
