

Hearthstone

Historic House Museum • World's First Home Lit by Hydroelectricity

About Hearthstone:

Built in 1881 and 1882 for the Appleton Paper and Pulp Mill manager, Henry J. Rogers and his family. Hearthstone is the first house in the world lit by hydro-electricity from a central power plant using the Edison system.

After the Rogers' family left in 1894, Hearthstone was privately owned for the next 100+ years. In 1986, a group of concerned citizens formed The Friends of Hearthstone to save the home from destruction. Renovation continues to this day to restore the home to its original grandeur. The original Edison switches and electroliers remain in use today.

Hearthstone is listed on the registry as a national landmark. The museum is a private, non-profit museum and receives no funding from the City of Appleton or the State of Wisconsin. Hearthstone relies solely on membership, private donations and grants for the funding of programs and restoration projects.

Hours

Tuesday - Friday 10a.m. - 3:30p.m.

Saturday 11a.m. - 3:30p.m.

Sunday 1p.m. - 3:30p.m.
