Grades K-2

Kids TO COLLEGE

Offered at 9:00 AM

Acting for Little Ones

They Will Sparkle and Shine ... Always a Favorite! Join us for theater games and lots of fun! Together, we will create a "playlet" based on one of your favorite fairy tales or stories. Then, we will add costumes, music, make-up, sound effects and YOU! Family and friends are invited to your performance in the final class. No experience necessary!

Instructor: Mary Valentine King

Materials Fee: \$5

Course Code: CSH349 CRN: 95525

New! Green Eggs and Ham

Have a whimsical time in the kitchen with Chef Jeff and do all kinds of cooking! Where does mayonnaise come from? Well, let's find out and make some for our specialty sandwiches we are going to create. Salad? Sure but wait 'til you make it yourself with your own salad dressing and croutons. Or try making homemade blueberry or strawberry syrup to go on the yummy waffles you just stirred up! *Note: No nuts will be used in this cooking class.*

Instructor: Jeffrey Austraw

Materials Fee: \$10

Course Code: CSH161 CRN: 91453

"Laugh, Play and Speak Spanish"

It is easy to learn when you are young! See how easy it is to acquire a second language while you "laugh, play, and speak Spanish." Taught by an elementary school Spanish teacher, you will be able to answer all kinds of questions in Spanish like: Where is Spanish spoken? What is the benefit of learning a second language? How do you greet someone in Spanish? How do you count in Spanish? Where might we use Spanish numbers? What is the date in Spanish? How do you say your birthday in Spanish? What are the colors in Spanish? What are the names of some animals in Spanish?

Instructor: Lynn Woods

Course Code: CSH120 CRN: 97503

Little Veterinarian

If you are the one who always has to pet that puppy or snuggle up with that kitty, then this all-time favorite is for you! Learn to interact with all types of animals and learn about their care and habitat. What is the best way to approach an animal, or safely handle a mouse, ferret, or dog? This and more will be taught to you as a new animal visits our campus each week.

Instructor: Courtney Ryan

Materials Fee: \$5

Course Code: CSH938 CRN: 97084

Passion for Painting

Turn your creative ideas into wonderful paintings in this fun art class. You will have so much fun trying all kinds of painting techniques. Use watercolor, poster and tempera paints, and collage materials for a morning of happiness!

Instructor: Suzanne Darrah

Materials Fee: \$5

Course Code: CSH101 CRN: 97080

Entering Grades: K-2

Saturday Morning with My American Girl Doll

Spend five weeks with your best friend and others who love their doll as much as you do! Meet historical dolls Kristen, Samantha, Felicity, Josephine and Rebecca. Make a food or a craft, star in a play, have a tea party, plant a Victory Garden and all that make American Girl dolls so special. *Note: An American Girl doll is not needed for this class, just a doll that you love to play with!*

Instructor: Rebecca Spencer

Materials Fee: \$10

Course Code: CSH440 CRN: 97076

Entering Grades: K-2

Offered at 10:40 AM

New! Magic Puppet Kingdom

The kingdom you create will be lovely indeed! In our land, tiny puppet people reside, inspired only by your rich imagination. Build your very own puppets, participate in writing a puppet playlet, and star in the magic of your new wonderland, with friends and family as your audience in the final class.

Instructor: Mary Valentine King

Materials Fee: \$2

Course Code: CSH350 CRN: 97576

Little Veterinarian

If you are the one who always has to pet that puppy or snuggle up with that kitty, then this all-time favorite is for you! Learn to interact with all types of animals and learn about their care and habitat. What is the best way to approach an animal, or, safely handle a mouse, ferret, or dog? This and more will be taught to you as a new animal visits our campus each week.

Instructor: Courtney Ryan

Materials Fee: \$5

Course Code: CSH938 CRN: 97502

New! Mad Scientist

This class will offer you one experiment after another! While unleashing your curiosity, you will be learning science too. Do fun experiments like mixing blue and yellow to make green. Next try to separate the green and see if you end up with blue and yellow! Explore how to make bubbles and what makes them shine so and why do they float? Come join us and find out!

Instructor: Christina Bash

Materials Fee: \$10

Course Code: CSH370 CRN: 94180

Introduction to Irish Step Dancing

Learn how to Irish Step Dance with an instructor who has been teaching little ones for years! Basic steps and dances will get you up and on the dance floor in just five weeks!

Instructor: Sheila Bremer

Course Code: CSH395 CRN: 97500

Grades 3-5

Offered at 9:00 AM

Become a Young “Star” Acting Class

Calling all drama kings and queens! This class will focus on preparing you to become comfortable, confident and aware onstage. Through a series of fun theatre games, warm-up activities and on-stage action, you will learn the basics of acting in front of an audience, resulting in a last day performance for family and friends.

Instructor: Jape Payette

Course Code: CSH492 **CRN:** 96782

New! Cupcake Decorating

Become an amazing decorator! Learn fun and creative ways to transform a simple cupcake into an edible delight! Each week you will create new wonders in the kitchen that can be used for special party treats or entertaining the family with these special desserts. Come join the fun!

Instructor: Linda Sessa

Materials Fee: \$15 plus a sturdy container to bring home your cupcakes each week

Course Code: CSH426 **CRN:** 96786

Geology Rocks

Geology Rocks! Ever wonder what's going on beneath your feet? The earth is a very dynamic system! Learn more about it as we take a journey to the center of the earth during this hands-on, engaging program. Explore rock samples including rocks that spark, float,

fizzle, magnify, and more. Try some flint knapping, explore fossil rock samples, and break open your own geode. You'll come away from this program with a new appreciation for the exciting field of Geology.

Instructor: Joann Healey

Materials Fee: \$10

Course Code: CSH113 **CRN:** 97507

Irish Step Dancing

Learn how to Irish Step Dance with an instructor who has been teaching students of all ages for years! Basic steps and dances will get you up and on the dance floor in just five weeks!

Instructor: Sheila Bremer

Course Code: CSH395 **CRN:** 97499

LEGO® Robotics ... Transformers Mission to Planet Pantheon

If you want to make your own robot out of LEGO®s, go on special missions with your commander, then it is time to report for your mission to Planet Pantheon. Each class session will take you on a new and magical journey. You may use solar power to move your creation from one planet to another or it may be powered by wind! This class will give you some new skills in the world of science, engineering, math and technology. No matter what you work on, you will love being on this special mission.

Instructor: John LeBlanc

Materials Fee: \$10

Course Code: CSH102 **CRN:** 97081

New! Mad Scientist 2

Science class has never been this fun! Participate in all types of hands-on, science experiments that will make you realize just how cool science can be! Discover the science of bubbles, or just how much you know about shadows, just how important gravity is, and “I didn’t know I could have so much fun with water.”

Instructor: Christina Bash

Materials Fee: \$10

Course Code: CSH371 **CRN:** 94181

Magic 101!

Have you ever seen a magic show and wondered, “How’d that happen?” Now is your chance to find out how! In Magic 101 you will learn the tricks of the magician! With this course you’ll be given everything you need to do some of the coolest magic tricks! At the end of the session students will host an open house for family and friends where they will put on their very own magic show! No prior magic experience needed; come as you are, ready to learn.

Instructor: Jonas Cain

Materials Fee: \$5

Course Code: CSH429 **CRN:** 95668

Video Gaming for Kids

Using video game editing software specifically designed for kids, students will make their own 2D game that can be played and shared with friends, family, and peers. The possibilities are endless!

Instructor: Ryan Cox

Course Code: CSH276 **CRN:** 91478

Offered at 10:40 AM

New! Future Aviators Flight School

If you dream to be a pilot someday, take this class! Your instructor is a real pilot who will teach you all about the magic of flight. You will learn how to make paper airplanes, use a real flight simulator to take off and land on your special trip, and enjoy all kinds of activities in this class related to the wonder of flight. Plus we will work with the area airports to try and schedule a tour!

Instructor: Derek Conant

Materials Fee: \$10

Course Code: CSH100 **CRN:** 97078

Adventures with My American Girl Doll

There is something so special about taking your doll and enjoying tea parties, storytelling, and cooking time with her. Now is your chance to spend five Saturdays with your doll, meeting new friends, and participating in fun activities. *Note: Any doll is welcome to this class.*

Adventures with My American Girl Doll

Instructor: Rebecca Spencer

Materials Fee: \$10

Course Code: CSH104 **CRN:** 96438

Cartooning For Kids

Instead of watching cartoons on Saturday morning, learn techniques for creating your own. Explore how to draw cartoon characters. Concentrate on capturing facial expressions, drawing action figures, writing letters in bubbles and illustrating perspective and space. Invent a character and develop a story line for a comic book that you will take home and treasure.

Instructor: Marie Barry

Materials Fee: \$10 plus please bring a small sketch

pad and colored pencils to the first class

Course Code: CSH260 **CRN:** 95523

New! Cupcake Decorating

Become an amazing decorator! Learn fun and creative ways to transform a simple cupcake into an edible delight! Each week you will create new wonders in the kitchen that can be used for special party treats or entertaining the family with these special desserts. Come join the fun!

Instructor: Linda Sessa

Materials Fee: \$15 plus a sturdy container to bring

home your cupcakes each week

Course Code: CSH426 **CRN:** 96787

Geology Rocks 2

Ever wonder what's going on beneath your feet? The earth is a very dynamic system! Learn more about it as we take a journey to the center of the earth during this hands-on, engaging program. Explore rock samples including rocks that spark, float, fizzle, magnify, and more. Try some flint knapping, explore fossil rock samples, and break open your own geode. You'll come away from this program with a new appreciation for the exciting field of Geology.

Instructor: Joann Healey **Materials Fee:** \$10

Course Code: CSH920 **CRN:** 92779

New! I Can Make Dinner!

You will love this class as you learn how to make things from scratch like homemade mayonnaise, with variations to use for our Chesapeake Tuna Melts! Homemade whipped cream will look so grand as you top it on your homemade “Thanksgiving” shortcakes. Of course you will be a hit when you make homemade salad dressing to go with the fresh and crunchy salad you have made. Plus, who doesn’t want to learn how to make fruit smoothies – or oatmeal waffles. You even make a fruit syrup! Come have fun with Chef Jeff!

Instructor: Jeffrey Austraw **Materials Fee:** \$10

Course Code: CSH310 **CRN:** 97083

More Classes on back

The Basics

Five weeks of fun,
educational classes.

at NSCC's **Beverly Campus**
100 Cummings Center
Suite 121E

CONTACT

Nancy Tracy at
978-236-1232
or 978-236-1200
ntracy@northshore.edu

Greetings for Fall!

Here's what's new: Let's Talk STEM!

More and more studies are telling educators and parents that science, technology, engineering, and math (STEM) proficiency for today's kids gives them a better advantage in the classroom, as well as in the workplace down the road. North Shore Community College's youth programs have been offering classes like these for years! LEGO® Robotics, Veterinary Science and Mad Scientists, Culinary Arts, Video Gaming and so many other classes offer kids fun ways to learn STEM skills while exploring an area of interest. We certainly don't need a study to tell us our children learn things much easier when it is something they like to do. And you can

always count on us to offer a balance of the arts through cartooning classes, acting, dance, and language.

Please read through our brochure with your child and see what classes they would like to take, that will give them the edge in whatever areas of interest they enjoy! See you all this fall.

Nancy Tracy,
Youth Programs

NEW Afterschool Programs

NSCC'S BEVERLY CAMPUS at 100 Cummings Center, Suite 121E

Along with our traditional Saturday morning classes for kids, the College is excited to offer some afterschool programs for kids at our Beverly Campus at the Cummings Center! Plus, the first half hour of our afternoon classes will be for kids to bring along a snack and water, and get a start on their homework if they like. Check out these cool classes!

Afterschool Video Gaming Creation

Using video game editing software specifically designed for kids, students will make their own 2D game that can be played and shared with friends, family, and peers. The possibilities are endless.

Instructor: Ryan Cox
Time: 3:00–5:00 PM
Dates: Wednesdays, 10/16 – 11/13
Cost: \$150
Course Code: CSH118 CRN: 97514
Grades: 3–5

Classes fill up quickly so sign up early. Plus, classes with insufficient enrollment as of **October 11th will be cancelled so your early registration matters!**

Afterschool LEGO® Robotics

Work with retired science teacher John LeBlanc, learning the ins and outs of robotics to design and build a robot using the LEGO® MINDSTORMS® NXT Robotics kits, Bluetooth wireless technology, and problem solving skills.

Instructor: John LeBlanc
Dates: Thursdays, 10/17 – 11/14
Time: 3:00–5:00 PM
Cost: \$150
Course Code: CSH108 CRN: 97513
Grades: 3–5

Afterschool Magic Class

Have you ever seen a magic show and wondered, "How'd that happen?" Now is your chance to find out how! In Magic 101 you will learn the tricks of the magician! With this course you'll be given everything you need to do some of the coolest magic tricks! At the end of the session students will host an open house for family and friends where they will put on their very own magic show! No prior magic experience needed; come as you are, ready to learn.

Instructor: Jonas Cain
Dates: Tuesdays, 10/15 – 11/12
Time: 3:00–5:00 PM
Cost: \$150
Course Code: CSH123 CRN: 97515
Grades: 3–5

9:10 and 10:45 AM

Parents to College

Do Your
Own Thing

Parents to College (PTC) classes are scheduled to coincide with children's classes so you can do your own thing! Offered on five Saturday mornings, October 19 – November 16, classes are held at NSCC's Danvers Campus, 1 Ferncroft Road. **Tuition: \$99 per course.**

Yoga instructor Carol Trecartin

Art Classes for Adults

"I can't even draw a stick figure!" Think you cannot draw anything more than a smiley face and a straight line? Yes you can! Get out of your comfort zone and try different methods of observational drawing using pencils, charcoal, markers and more. It is amazing to see what happens when you let go of those creative inhibitions! Bring a sketchbook and let's get drawing!

Instructor: **Jennifer Dubis**

• Session I: 9:10-10:25 AM

Course Code: CSH179 CRN: 97510

• Session II: 10:45 AM-12 Noon

Course Code: CSH179 CRN: 97580

Materials Fee: \$15

Yoga – A Time for You

Navigate through postures to stretch and tone the body. Find inner and outer balance and resiliency: yoga has been called, "the science of positive mental health." Bring your own mat.

Instructor: **Carol Trecartin**

• Session I: 9:10-10:25 AM

Course Code: CSH702 CRN: 92815

• Session II: 10:45 AM-12 Noon

Course Code: CSH702 CRN: 92813

Zumba

Here is your chance to let go of the tensions and frustrations of the week by dancing your way to a stress free YOU! Try this fun Latin-based dance aerobics class with music that will make you want to "move like Jagger!" You will get in shape while "having the time of your life" dancing to some fun, upbeat tunes!

Instructor: **Irene Torres**

• Session I: 9:10-10:25 AM

Course Code: CSH742 CRN: 96805

• Session II: 10:45 AM-12 Noon

Course Code: CSH742 CRN: 96806

More Classes *for grades 3 – 5 offered at 10:40 AM*

Little Veterinarian

"Let's Speak Spanish"

Upper elementary students can easily express themselves in a second language when pronunciation and patterns are modeled for them. Plus, it can be fun to share information about your interests, your family, your pets etc. in another language. Where is Spanish spoken? What is the benefit of learning a second language? How do you greet someone in Spanish? Learn the answers to these and many more questions.

Instructor: **Lynn Woods**

Course Code: CSH216 CRN: 97504

Best Painting Class Ever

One of your favorite memories will be the colorful paintings you proudly painted for your mom or dad! This class will let you take your paintbrush and unlock your imagination! Learn to mix great colors, use different brushes for different techniques, and learn how to paint from a very caring, creative art teacher! See your ideas in paint – it's magical!

Instructor: **Suzanne Darrah**

Materials Fee: \$5

Course Code: CSH406 CRN: 95072

Sea Glass Jewelry and Diorama Workshop

Explore these vanishing gems of the sea through creative jewelry making and the development of an underwater diorama. Emphasis will be on their rich history of origin and the seafaring people behind them! Fun science facts will be used to learn about the best conditions for sea glass hunting!

Instructor: **Carol Redinger**

Materials Fee: \$15

Course Code: CSH199 CRN: 97577

Introduction to Veterinary Science

This is a class all about animals, where they live, what they eat, how to care for them, how to handle them, tons of fun factoids and much more! Learn about and handle mice, rats, chinchillas, rabbits, guinea pigs, snakes, lizards, tortoises, birds, dogs, cats and many, many more animals.

Instructor: **Casey Worthington**

Materials Fee: \$10

Course Code: CSH431 CRN: 95550
