The premier offering for *Quality* and **POWER**

SYNERGY SHOWCASE

The Synergy Showcase is an annual event sponsored by Synergy members. Show calves purchased from a Synergy member are eligible for Synergy VII to be held October 26. Contact any Synergy member for details and rules of the unique, one-of-a-kind showcase. Entry card and class breaks are on page 72. Heifers purchased in the sale can show in the Showcase, October 26.

BROADCAST VIDEO, MAIL OR PHONE BIDS

If you are unable to attend the sale in person, please feel free to contact Terry Reagan or any Synergy member (see cover for cell numbers) to place your bid which will be handled with the utmost confidence. We thank you for all bids and feel confident that our cattle will assist you in accomplishing your genetic goals.

Sale day phones 512-587-7896 or 956-207-1447.

Sale will be broadcast live on www.dvauction.com

AUCTIONEER

Terry Reagan 210-414-4411

SALES STAFF

Representatives from the Gulf Coast Cattleman, Weekly Livestock Reporter, Southern Livestock Standard, Simbrah World and American Simmental Association will be at the sale.

EPDS

All of the EPDs printed in this catalog are the latest available. The average EPDs for the Simbrah breed are as follows:

Ave.	CE	BW	WW	YW	MCE	MM	MWW	API	TI
EPDs:	2.4	3.8	62.4	84.2	6.8	22.1	53.2	68.8	52.1

GLOSSARY

All-purpose Index (API): Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI): Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using API and TI: First, determine which index to use; if you're keeping replacements use API, if not, TI. Then just as with EPDs zero in on the unit difference between the bulls. The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. X 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org.

PARTNERSHIP LOTS

In the case of bull partnership lots, the new partner will have first choice to decide what 60 days they will be able to breed the bull. All decisions relating to the possession, showing, promotion, collecting of semen, and marketing will be mutually agreed upon prior to the transaction with both parties dividing all future expenses and net revenue.

Female partnership lots will be owned 50/50 with all future production being co-owned. The partner with possession will receive \$250 per year for maintenance from the other partner. A partner that is selling their interest must give the other partner the right to match any bona fide guaranteed offer prior to selling their interest to a third party. Contract on these lots will be available on sale day.

SALE TERMS AND CONDITIONS

All cattle sell under the ASA terms and conditions. Copies will be available on sale day.

CATTLE TRANSPORTATION

Professional haulers will be on hand to assist you with the delivery of your cattle. We will assist you in making the most economical trucking arrangements.

HEALTH

All sale cattle of age will be brucellosis and tuberculosis tested and will have the necessary health papers to travel to other states. Any export health papers will be provided at the seller's expense.

Welcome to Simbrah Synergy VII Sale and the \$15,000 Synergy Showcase

Syn-er-gy n. The action of two or more to achieve an effect of which each is individually incapable.

Participants in Synergy have committed to marketing their best genetics and making this event more by working together rather than as individuals. Synergy was developed to be a showcase for the breed. Please come join us.

ANNOUNCEMENTS

Buyers will receive two units of semen with each female purchased from any of the bulls owned and collected by that particular consigning Synergy member of that lot. This semen is solely for use on your purchased female. Your choice of semen must be made prior to May 1, 2015.

SEMEN POLICY

Synergy consignors reserve the right to collect 300 units of semen from any of our bulls in this sale at our expense and at the buyer's convenience.

RANCH LOCATION

Directions From Giddings-Hwy 290 leads to Giddings, at the intersection of Hwy 290 and Hwy 77, go South on Hwy 77 approximately 2 miles and turn left on Road #223 (just past the large beige water tower), go about ½ mile and turn left on gravel road #2231. Stay on Road #2231 until you cross the cattle guard and follow trailer and parking signs.

Directions From LaGrange-From LaGrange go North on Hwy 77 approximately 16 miles and watch for sign to County Rd. #223 and turn right on Rd. #223 (just before the large beige water tower) go about ½ mile and turn left on gravel road #2231. Stay on Road #2231 until you cross the cattle guard and follow trailer and parking signs.

Physical address: 1316 Private Road 2231, Giddings, Texas 78942

AIR TRANSPORTATION

We are 60 minutes from Austin Bergstrom Airport which is serviced by most airlines including Southwest and American.

CATTLE LOAD OUT

We will not load any of the sale cattle until after the sale.

Sale Participants

MCCRARY FARMS

We are proud to mark our 15th year as Simbrah breeders and excited for Synergy VII! Mark and I continue working to improve the quality of our herd, by utilizing the best sire power the Simbrah and Simmental breeds have to offer. Our current herd includes sire genetics of Smith Evan, Smith Nu Approach, NF Smith Sargeant, Smith McCrary Andy, Smith McCrary Matt, Smith Isgrig Charismatic, and our new herd sire out of Matt, McCrary Smith Inspired.

We are long time supporters of the junior program, and have been avid supporters and sponsors of many local FFA and 4-H programs. Our place is located in the northeast corner of Texas in the town of De Kalb, just a few miles from the Oklahoma, Arkansas, and Louisiana borders near Texarkana. Come see our cattle and now four grandchildren. We are proud to announce our new addition to our family, Elijah Joseph McCrary, born to Christopher and Coral. Christopher was why we initially purchased Simbrah. A special THANKS goes to Tim Smith, who has worked so hard to make all of this possible!

TRIPLE P RANCH

Once again it is with great pleasure that Triple "P" Ranch invites everyone to Synergy VII. We hope our offering will fit your program. We continue to improve our herd through some very selective breeding with a strong emphasis on AI and embryo transfer. We feel that we have put together a very appealing offering. As always our ranch door is always open. Stop by or give us a call to talk cattle or just to "shoot the bull."

BARING CATTLE COMPANY

All of us at Baring Cattle Company want to welcome you to Synergy VII and all the activities associated with this event. Our family has deep roots in agriculture and we are proud to

be the fourth and fifth generations to ranch in Texas. We are pleased with the cattle we have assembled in our herd and the predictability we are producing. We are located just outside of San Antonio, Texas at Elmendorf and we would love to have you visit us when you're in the Alamo City.

TRIPLE J RANCH

The Triple J Ranch has been owned by the Tortorice family and has been breeding Simbrah cattle for over 25 years. Triple J has undergone a few changes. Jake and Amber have taken the reins and the largest part of the registered herd as part of their own operation,

Tortorici Ranch. Mary and Jake look forward to more free time for travel and grandchildren and less responsibility and farm work! We will continue to work together to produce quality animals as a family for years and generations to come.

The past few years both our programs have been utilizing more embryo transfer and artificial insemination to capitalize on some of the most powerful animals in the breed. Through the careful guidance of Tim Smith, we have been adding quality genetics to our programs through sire power and proven cow families. The influence of these powerful genetics on our herd has been incredible. We are excited about new females introduced to our program from She Moves, Priceless, Annie Lou, and Tulipe families. We strive to produce gentle, hardy cattle that are structurally correct, made to perform and built to last. Our herd continues to improve with every calf that hits the ground. We are pleased to present a beautiful reflection of our combined herds to offer at this year's Synergy Sale. We will have Rao's coffee and breakfast at the show! Come see us!

HAGAN CATTLE COMPANY

Cattle have always been a part of our lives as we are involved in the registered, commercial and sale barn segments of the beef cattle. Our registered program started as an extension of our boys, Reinhard and Reese's show projects. Our seed stock program has become synonymous with show ring champions and we believe our offering is our strongest yet, with many candidates headed to the winner's circle. We are a family operation with Reese heading up the sale and show management for our purebred operation. All three generations of our family want to welcome you to the sale and thank you for your interest in Simbrah.

PINE RIDGE RANCH

The history of Pine Ridge Ranch is an unusual story. After a decade in the ranching business, Bill and Jane Travis decided to pursue the goal of breeding the most efficient hot weather cow with a quality carcass...

in the world. A beef cow that would prosper in warm environments with very efficient use of resources, and that produced a heart healthy, juicy, flavorful and very tender meat. They designed a breeding formula with over 50 breeding characteristics that were used along with early adoption of technology and genetic science without the use of hormones that could help develop this cow. After 33 years, Pine Ridge Ranch has succeeded in developing an exceptional hot weather animal with an excellent quality carcass. Pine Ridge Ranch's goal is 100% Choice, YG 1,2, and 3. We believe we have eliminated the YG 4, 5 carcass through genetic identification.

In addition, the Pine Ridge carcass is very tender. In the 2012 Illinois Carcass Merit evaluation, which can be viewed on our website, calves sired by PRR bulls out-performed leading Angus genetics. Our program does not have any known genetic defects. A broad genetic base has been utilized with frequent introduction of worldwide genetics from fellow Simmental, Simbrah, Fleckvieh breeders to improve characteristics in the herd and harness the magic of heterosis. Internationally known for high quality Simbrah, Pine Ridge genetics can be found in many foreign countries such as South Africa, Mexico Central America, Australia and Columbia.

Pine Ridge enjoys supporting junior exhibitors and the Texas Junior Simmental Simbrah Association every year. Many of our juniors have won Grand Champion and Reserve Grand Champion at major shows. Pine Ridge Ranch is located in Athens, Texas with over 600 Simbrah for fellow breeders to study and purchase by private treaty.

Please give us a call or schedule a visit; we would love to show you our exciting results and help you reach your program goals. Visit our website www.simbrah.com for more information on Pine Ridge Ranch. Welcome to all the new Synergy participants and we look forward to seeing everyone.

BURCH FARMS

2014 has been a very good year at Burch Farms. We have been blessed with a lot of rain, which have our cattle in good shape and we are making a good hay crop. We have been blessed with good health and a wonderful set of grandkids, which is the

future of Burch Farms. Martha and I want to extend an invitation to join us at Synergy this year. We have a very good offering of Simbrah cattle with some of the best genetics in the breed. I want to thank Tim and Smith Genetics for asking us to be part of this wonderful sale and weekend. I have seen many of the cattle in the sale and I know there are some fine cattle that will be sold. I hope you can join us for this premier Simbrah event. We are located close to Hempstead Texas and we hope you will come by and visit if you are in the area. SEE YOU AT SYNERGY!

NIESCHWIETZ 7N RANCH

Our roots in the Simmental/Simbrah breeds trace back to 1977, when dad purchased Simmie heifers for us to show and then in 1978 we added some Simbrah heifers. Mom and dad continued buying heifers for all five kids and one grandson to show and along the way we built a herd. We realized early on that Simbrah cattle excelled in South Texas and the Rio Grande Valley, as we have locations in Falls City and Donna, Texas, where we are also involved in produce farming. 7N Ranch feels youth is important to the success of the breed and we support the youth programs of Falls County and the Valley, as well as the Simbrah breed.

In the past few years, we have really stepped up our program by selecting females that carry some of the most proven lines in the breed and our bull power consists of Simply Great, Smooth Operator, LMC Gumbo, and LMC WFC Wave Amigo. We are proud to be part of Synergy and want to thank Tim Smith for all he does for the Simbrah breed and the guidance he has provided our program.

SOUTHWESTERN FARMS

The Hill family may be new to Simbrah, but they've been raising cattle commercially since 1972 in deep East Texas, near Kirbyville. The family operation is headed by Ray and Suzanne Hill, along with their two

daughters and their families. They were introduced to Simbrah through a calf scramble certificate won by one of their granddaughters. That research led them to Smith Genetics and as they say the rest is history. They made purchases at Synergy IV-VI, including the donors, Oprah, Diva, Rita, Juliet and Black Mystic. They have also added the bull power of RFI Real Deal, Xtra Ordinary, and Blackfoot. This year, their granddaughter, Sophie Palmore showed Smith Wentz Diamond Diva to the 2014 International Grand Champion title and they enjoy the family time that Simbrah provides.

They are thrilled to be a participant in Synergy VII and want to extend a special thanks to Tim Smith for introducing them to the breed and helping them establishing a quality herd based on some of the most elite genetics in the breed.

REAVIS FARMS

We are a diversified family operation with Simbrahs, cotton, grain sorghum, onions and watermelons. We have been involved with Simbrahs since 1987 and are still excited about the breed. We have our best calves, yet, on the ground

from sires including Charismatic, Nu Wave II, Sargeant, Smith Evan, RFI Thunderstruck and Smith N Red. We continue to add donor power to our home raised RFI Smith Tinkerbelle, the 2009 San Antonio Grand Champion and the 2009 AJSR Champion. Recent Reavis standouts include RFI Ritzzy, the 2011 National Champion Female for Winston Walters; RFI Smith Fresh Approach, the 2011 National Reserve Grand Champion Female; RFI Real Deal, the 2014 ASA National and National at San Antonio. We are very proud of our offering for Synergy VII and extend an invitation to you to the fall event of the breed.

DIAMOND RF FARMS

Diamond RF Farms is excited to participate in Synergy once again and want to THANK everyone who will be attending the fun filled weekend at Smith Genetics. Thanks also to Tim Smith for hosting this event. We have

had some recent changes in our location, earlier this year Richard II was transferred to San Antonio and we have moved from Wallis, Texas to Floresville, Texas. We have been in the cattle business for 13 years and we think we are making improvements each year to our herd. We are still under the direction of Richard III and with his guidance we are expecting calves from RFI Real Deal; Smith Satisfies and New Wave II this upcoming year. We would like to invite you to visit our new location if you are in area. Thank You again for showing an interest in Simbrah and Simmental cattle and look forward to visiting with each of you during Synergy VII.

HALLAK RANCH

Billy Hallak first came to Texas in 1985 from Egypt. It was always his dream to own a ranch and cattle. He made good on that dream and from 1985-1998, ranched outside of Athens, Texas and established one of the premier Simbrah herds.

HR Power House I carry is a product of Hallak Ranch, as well as the female HR Memphis Belle. Billy returned to Egypt for several years to handle family business. He and his wife, Malika, who is from Paris, France, returned to Athens in 2011 and began building their Simbrah program again. They were able to purchase an embryo that was a full sib to HR Power House I, (Lot 31 in the sale) and a daughter of Memphis Belle. In addition, they are using Mr Strack Y254 heavily in their herd. This is their inaugural year as a Synergy sponsor. Their ranch is 6.5 miles on FM 1615 from Hwy 19S near Athens.

SMITH FARMS

Ronnie Smith's love for Simgenetics can be traced back to Simmental's arrival in the U.S. He built a Simmental herd and was also a breeder of Brahmentals, which was the original name of today's Simbrahs. In

addition, for more than 10 years, he was involved with SimAngus genetics in New Mexico. Today, he and his wife, Susan are focusing their efforts on raising Simbrahs and SimAngus HT. Their herd sire battery features top lines, including William N Black, Smith Hi Caliber to name a few.

Females lining their embryo transfer program include a LMC She Moves daughter, as well as the 2011 Houston Junior Show Reserve Grand Champion Female. Smith Farms has also purchased embryos from the Smith Bella Bella cow that won every major and junior show in Texas and a flush in the great Diva, the dam of Dream Girl, who also won the purple at all the Texas shows. In addition, they are maintaining an elite herd of 1/4 x 3/4 foundation females for the purpose of outcrossing new bloodlines into their Simbrah herd. Ronnie and Susan are excited to be part of Synergy and invite you to visit their program, outside of Denton, Texas, just 35 miles north of Fort Worth.

SMITH GENETICS

We want to thank everyone for your involvement in Synergy. The success of events I, II, III, IV, V and VI were overwhelming and it drives Smith Genetics to raise the bar on quality in Synergy VII's offering. Smith Genetics includes Simbrah, Simmental and a registered horse division in Tim's home state of Kentucky.

We have developed a number of elite cow families and we are proud to be the breeders of the following sires, who are being utilized heavily in this breed: Smith Nu Wave I and II, Sargeant, Charismatic, Evan, Nu Approach, Satisfies, Xtra Ordinary Ronen, Andy, Matt and William. Our cattle have been very well received this year in the show ring, with many major wins, including the first time a Simbrah, Smith Charming Moves was named the Supreme American Champion at the Houston Junior Show.

This event happens because of the hard work of a lot of people, quality cattle from the participants and the attendance and support of buyers and junior exhibitors. We are thankful to each for your part and we are proud to host Synergy. Here's to big welcome to you to the event and to Smith Genetics.

Donation Lot, Group Effort 223B

SMITH GREY MIST					LMC VICTORS MARIAH				

All proceeds from the sale of this heifer will be split between the AJSR Scholarship fund and the Simbrah Breeders Council to assist with the publication of the monthly newsletter and breed promotion. Group Effort is a March born baby doll sired by Smith Satisfies and out of the beautiful black baldie three-quarter cow that carries the breeding of Dream On and Victors Mariah. This heifer is a stunning solid black female, who is loaded with body, and femininity, yet maintains a very functional set of feet and legs. Help support the kids and the breed by purchasing a banner worthy female who's got the pedigree to go with it. **Selling full interest and full possession with 50% of the proceeds going to the AJSR Scholarship Fund and 50% of the proceeds going to the Simbrah Breeders Council.**

The Synergy VII Participants

THANK YOU
for your interest in our programs,
our cattle and the Simbrah Breed!

Bella Bella COW FAMILY

Lot 1

Market demand played a major role when purchasing genetics to build our Smith Farms breeding program around and that is why we invested heavily in the Smith Bella Bella Cow Family that has been so successful within the breed and a major profit maker at Smith Genetics. We are sharing five descendants of this phenomenal cow family in this sale representing our commitment to sharing our best. We are retaining an additional daughter, Smith Ima Bella 322W, out of this breed great to serve as a lead donor in our embryo transplant program as well as a Bella Bella son, Smith Hi Caliber, that is serving as one of our lead herd sires. Bella Bella is without a doubt one of the best cows in the Simbrah breed and several breeders claim her to be the best all around. She is ideal in type and structure as a cow. Smith Bella Bella was the 2007 International Houston Champion and then her daughter, Smith Ciao Bella followed mom's footsteps when crowned the 2011 International Houston Champion. Then to no surprise the third generation continued the winning tradition when Smith Charming Moves was named "The Supreme American Breed Champion at 2013 Houston International." Smith Charming Moves is sired by the Bella Bella son, Smith Evan and this was the first time a Simbrah ever won this title! That makes three generations of International Champions!! Bella Bella has generated over \$325,000 in revenue from progeny and embryo sales which addresses the demand for her genetic power! Study the offspring selling from this breed leading cow family and take advantage of the opportunity to own one of her proven daughters as lot #1 and/or purchase her purebred granddaughters offered as lots 1A, 2 and/or her three-quarter foundation granddaughters selling as lots 3A and 3B. All of these individuals have the proven pedigree and breed notoriety to make great additions to the most elite of breeding programs.

Smith Bella Bella, grandam of Lots 1A, 2, 3A and 3B.

Smith Hi Caliber, a Bella Bella son.

DAM: SMITH SWEET BELLA
 SMITH BELLA BELLA

Smith Sweet Bella, dam of Lot 3A and 3B.

Serious buyers have the opportunity to purchase true genetically superior foundation females in this lot out of the Smith Sweet Bella donor, that represents the Bella Bella Cow Family, and also bring in the unique genetics of the Simmental breed great, STF Dominique R170, to the table. This elite genetic combination is backed by a superior set of EPDs that ranks them in the top 2% of the breed for the important all purpose index (API). Their dam, Smith Sweet Bella, is a leading donor in the Smith Genetics' program and she is sired by the breed-leading sire, Smith NF Simply Great that traces back to Dream On and the Madam X Cow Families. These heifers will prove to be great breeding tools following their successful show careers in the percentage shows and for juniors they can compete in the ARB category at the majors. Study these heifers and think of the mating possibilities – three-quarter females have proven to be great producers. Sells open. **Selling full interest and full possession in Lot 3A and Lot 3B.**

 SMITH PRICELESS PRR MISS OPTIMA 46R

When you combine the cow families of Smith Priceless and LMC She Moves, that are represented in this pedigree, you not only have phenomenal maternal power, but you have that added value of built in promotion and breed recognition. This heifer will catch your eye with her added length of side and femininity, plus on paper her 3% breed ranking for API should draw some attention. Replacement females with top pedigrees will be harder and harder to find while cattlemen continue to rebuild herds – take advantage of this opportunity. Sells open.

Selling full interest and full possession. This multi-generation three-quarter female is out of our top young donor, SF135Z, that is a member of the LMC She Moves Cow Family. The meat and muscle this heifer possesses, while still maintaining her femininity, will catch any breeder's or judge's eye. She is backed by a tremendous set of EPDs that rank her in the top 1% for API, CE, and MCE -- WOW! Her pedigree not only includes the She Moves Family but on the paternal side she represents the Smith Priceless Family as well ---- note she is also a double bred Dream On. Here is a truly proven pedigree. Our breed history has shown that many of the top producers are three-quarter females. Keep in mind this heifer can show in the percentage shows and for juniors she qualifies for the ARB breed division – take advantage of our sponsorships at the Synergy Showcase and Superbowl shows!

We are selling full interest/full possession of the 2014 National Show Grand Champion Percentage bull. This is a great opportunity to own all of a bull that you can lead your program, build your program or change your program. Red Raider is a long sided, heavily muscled bull with a great hip. He has an in demand pedigree, as he is sired by Evan, making him a paternal brother to the 2014 National Champion bull, Real Deal. Red Raider is an outcross on the maternal side, as he is out of our young Simmental donor RFI Teddy Bear 210Y. Keep in mind that on most of our bulls, and partnership bulls, we only allow foreign semen sales, but that is not the case with Red Raider. If you are an Aggie don't let the name keep you from owning this bull, because even Aggies love coach Kliff!

SMITH ALSO N RED
DAM: RFI ALSO REGAL 274Z
 RFI L24

Regal is a really attractive, fancy, and well balanced female. This female excites me, because she is a result of a new "magic mating". When we refer to the magic mating it is the result of crossing Nu Wave II genetics with Sargeant genetics. However, we have stumbled across something special with the mating of Evan with Also N Red daughters and that's the new magically cross. That mating produced the 2014 National Champion Simbrah bull in RFI Real Deal and Regal is also a result of that mating. In addition we have a tremendous set of calves from this mating that are very exciting. Whether you view Regal as a show heifer or a breeding asset her value going forward is untapped! Two units of semen from any RFI herd bull are included with this female. Sells open.

 MALLETT STELLA U801

This solid black, three-quarter blood heifer has all the parts and pieces to make a great ARB show heifer deluxe. Alexa has the added look we all strive for as breeders to put into our calf crop. Her sire Hazard is breed to perfection. He's a Nu Wave II x MS 4G N50 and in the Simbrah breed is doesn't get any better than that! We sold a heifer in last year's Simbrah Synergy for \$7,000 that was bred just like Alexa! Remember juniors kids, San Antonio has a \$10,000 scholarship for the ARB show. Sells open.

Lot 27

Lot 28

Lot 28 Our feature lot for this year's Synergy sale was a no brainer, Miss Fancy Pants is straight from the replacement pen and here for the taking. Fancy stems from one of the most maternal cow families to ever graze the pastures of Giddings, Smith Annie Lou. That's right Fancy is a second generation Annie Lou daughter out of Smith Nu Approach. This cherry red heifer combines two of the most predictable pedigrees into one beautiful package. This heifer has always been my mother's favorite and I tend to agree with her. Mom always said this heifer reminded her of a beautiful young cow, packed with body and broodiness, yet very elegant and lady like in her appearance. And thanks to my mother this heifer has a personality, an attitude almost any little kid would love. Fancy pants will come to you bred come sale day or buyer will receive 2 units of semen on RFI Real Deal. Breeding her to the reigning National Champion RFI Real Deal was a clear choice when considering the genetic combination and the outcome of possibilities. Bred to RFI Real Deal ASA# 2660539 on 8/14/14.

SMITH NU APPROACH
DAM: SMITH ABIGAILS APPROACH
 SMITH REFLECT E NUFF

Due to the recent move of my parents, the cows and everything involved, we decided to sell a few select cows. Abby has always been a great producing cow for us and has raised some exception show heifers, including one that resides with the Palmore family. Abby stems from a Nu Approach sired female on the maternal side, and is sired by a Sargeant son, who was shown by the McCrary family. Abby is a striking red female, whose femininity and elegance can go for miles, not to mention her skeletal make up is nearly flawless when on the move. If you were looking to invest in quality cows to make excellent show heifers Abby is definitely one of those cows that can do it. She has been exposed to RFI Real Deal the current National Champion bull, and should be confirmed pregnant by sale date. If she is not pregnant than the buyer will receive two units of semen on Real Deal for breeding services. Bred to RFI Real Deal ASA# 2660539 on 6/20/14.

DAM: JY 31/D
 JY JACEY

Here's another one of those functional, good producing cows that's going to get an opportunity to find a new home. Sandy has been a key cow for us around the ranch, I've tried breeding her several different ways and I'm not sure which mating has been better than the next. Her most notable progeny was the champion female at the Belt Buckle Bonanza for the Brandon Family, who was sired by Red Buck. Here's a stout made, big bodied female, whose mass and femininity is always something to be admired by all who have seen her. It was an easy decision at breeding time to breed her to the popular RFI Real Deal bull, who combines some of the freshest and most sought after genetics in the breed. Come this November, Sandy's new owner is going to be very excited when she lays down and has what could be her best calf to date. Don't miss out on this bred cow come sale day she's built right, and bred to the right bull to pay big dividends later this fall. Bred to RFI Real Deal ASA# 2660539 on 2/21/14. Safe in calf.

Lot 31

Lot 31 This is the full sib to HR Power House 1, a two time Houston International Grand Champion and the leading sire of Simbrah progeny in the last 10 years. HR Power House 2 is from the same flush. HR Power House 1 is the producer of some of the most noted leaders in the breed, including herd sires such as LMC-RFI-Smith Red Bullet, PRR Red Ammo 506P and LMC Full House 5L/133. He also has produced the donors LMC Oprah 5P/50 and PRR Morning Star 502P to name a few. Oprah of course is the dam to LMC Miss Diva, who went on to produce LMC WFC Dream Girl. This is a breeding opportunity for any Simbrah breeder. **Selling 10 units of semen.**

HR Power House 1, Lot 31 is a full sib to this past Houston champion.

SMITH NF SIMPLY GREAT					SMITH ALWAYS IN STYLE				
SIRE: SMITH SATISFIES					DAM: SMITH MCCRARY STYLIN 105Z				
SMITH GREY MIST					SMITH ANNIE MAY				

Her name says it all! Full Of Style is another great show heifer prospect, that will be a nice addition to your cowherd after her show career is over. This red polled heifer will surely get your attention with her length of body, square hip, and extension in her front end, plus her EPD ranking for all purpose Index is in the top 10% of the breed. With Satisfies on the top side, and the Priceless and Annie cow families on the bottom side, she has some of the top genetics in the breed in her pedigree. Another heifer that was tough to let go. Two units of semen are available from any herd sire owned by 7N Ranch for future production on this female. Heifer qualifies for Synergy Showcase, Superbowl, and any other shows sponsored by 7N Ranch. Sells open.

Selling 3 Purebred Simbrah embryos, Guaranteeing 1 Pregnancy

A good program always starts with a solid foundation and we are bringing you two very great opportunities to build on a foundation that has done well for us, as well as our clients. Our first offering of elite embryos are out of one of our many donors that have known the spotlight and passed it along to her progeny. SCC Queen Anne, was crowned National Champion at the San Antonio Livestock Show as well as International Champion at the Houston Livestock Show. In being one of the greats, she has proven herself time and time again in producing cattle that can win and go on to produce phenomenal champions as well. She was the dam of the 2004 International Champion Betty Boop and was the granddam of the 2008 International Champion BCC Shady Lady. This donor was perfection in the flesh and has produced numerous donors and sires that have that same trait. These embryos are a total outcross of any program that is used today with "Q" in this genetic package, along with the well known sire "Crossroads," who is out of the proven sire, HR Power House 1, we are sure to see products of this mating do some great things in the near future. We have dug deep in our bank here to offer such a great offer with big time bloodlines and lots of potential in this lot of embryos. Guaranteeing 1 Pregnancy if the work is done by a certified embryologist.

 SIRE: SMITH SATISFIES DAM: LMC MISS DIVA
 SMITH GREY MIST LMC OPRAH 5P/50

This will be a tough decision for the buyer trying to decide on choice of these outstanding ladies! These heifers are both sired by Satisfies and out of Diva, full siblings to Darling Diva and maternal sisters to Diamond Diva, Dream Girl, Rita, Wave Amigo, Blackfoot and the list goes on! Diva has proven herself as a top donor in the breed and these two heifers are the type to carry on her winning tradition in the cow herd, as well as the show ring! Any serious Simbrah breeder will recognize the Diva Cow Family lineage and that is built in promotion and marketability for future calves from these heifers when they become brood cows following successful show careers. This lot allows you to select between a March or May heifer depending on which class you want to compete. Both heifers are competitive and qualify to show at the Synergy Showcase, Superbowl, MAS Showdown and the Elite events, which total over \$75,000 in awards. Great show heifers and fantastic breeding tools! Sells open. **Selling full interest and full possession in buyer's choice.**

 SMITH BELLA BELLA

JE ELI J60M
DAM: MARIA X102
 5K102T

This three-quarter Simbrah heifer stems from a Fleckvieh genetic base on the Simmental side of her pedigree with lots of built in performance and ease of keeping. She is also sired by our Bella Bella X Sargeant son, Red Chief. Long term breeders have repeatedly said that three-quarter cows are some of the best producers because they are heavy milking, easy keeping, high performing cows that still carry enough ear to tolerate the heat. Maria should develop into a great replacement female and when it comes time for breeding you have the opportunity to utilize two straws of semen from any sire in our herd bull battery - we are continuing to add young cutting edge pedigreed bulls to that line up annually! Sells open.

This red female moves with lots of style, she's deep bodied, heavy muscled, classy as she can be and she's just the kind to head straight to the donor pen following a successful show career. Check out her elite proven pedigree including Smith Evan (Bella Bella Cow Family) and Andy (Andi Lou Simmental Cow Family) which when combined in a pedigree produce EPDs of all purpose index (API) in the top 1% and terminal index (TI) in the top 10% of the breed! She qualifies for the ARB show division at San Antonio with the \$10,000 coveted scholarship in addition to the Super-bowl, Synergy Showcase, Elite and MAS events. This lot number should have a big circle around it with a note "NEED to BUY"! Sells open.

Eleanor - Ava COW FAMILY

The Eleanor – Ava Cow Family has three generations of donors in our embryo program – that should tell you something about the consistency of this lineage. Other donors or prospect members of this cow family include Smith Eleanor Swagger (donor prospect for Walters Livestock), Smith Ellie (donor for McCrary Farms), Smith Isgrig Joellie (donor prospect for Southwestern Farms), plus don't forget Smith Isgrig Charismatic is also an Eleanor son and he is among the top ten in EPD ranking within the breed! Two lots from this cow family sold in last year's sale and averaged over \$20,000 indicating the market demand for these genetics. These donors have proven themselves in the show ring as well as the pasture and their EPDs reflect and back up their producing ability --- no matter which embryo set you select you will have resulting calves with current planned mating EPDs ranking them in the top 10% of the breed for API (All Purpose Index). The path you choose to travel from the resulting calves out of these females will be highly marketable!

The Golden Glory Cow Family comprises a "Don't Miss" set of females that produce great ones on an assortment of sires as represented in the offerings on this family. Lil Glory has been a heavy milking, low maintenance female that is sired by the great Sargeant bull, who is known for daughters with excelling maternal strength. This female is the caliber that could enter an embryo program considering the performance of her calves. She sells bred to the ASA National and San Antonio National Champion bull, RFI Real Deal. His first calves are big league babies and you will be able to see them yourself at the sale. This female has a tremendous performance pedigree while ranking in top 4% of the breed for WW (weaning weight) and top 2% for YW (yearling weight) for an overall top 10% for TI (terminal index). We are allowing the new owner to utilize two straws of semen from any of the Smith Genetics or McCrary Farms herd sires for future use with this female. Sells bred to RFI Real Deal ASA #2660539 on 7/30/14.

SMITH NU WAVE II
DAM: SMITH MCCRARY RED STELLA
 SMITH STELLAS LIL GLORY

This replacement female has a booming set of EPDs with breed rankings in the top 4% for API and top 1% for TI – exceptional! This Smith Satisfies daughter traces back to Smith Nu Wave II and NF Smith Sargeant in her pedigree and then we bred her to RFI Real Deal to incorporate Evan and Nu Approach in the resulting calf pedigree. You can't write a better lineage with more built in marketability! Sells bred to Real Deal ASA #2660539 on 8/6/14.

Lot 85

Lot 85 This donor quality female represents the third generation in the Golden Glory Cow Family. Angel has all the volume, mass and substance you could ask for in a futuristic brood cow. Now take a glance at her EPDs: top 1% for WW, 1% for YW, 10% for API, and 1% for TI and you will see that her beautiful phenotype is backed up with a strong set of numbers. She will be a great producer. This heifer still has one year of show eligibility and her gentle disposition is ideal for first timers. She qualifies for Showcase, Superbowl, MAS and the Elite. Calley McGinley showed this heifer throughout the past year and has reinvested in a younger heifer for 2015 show season, but would like to show Angel at this years Synergy Showcase unless a fellow junior purchases her. Great job Calley! Angel is bred to Rhett, who is a son of the Bella Bella cow and sired by Matt, this will be one of his first calves. Sells bred to Smith Rhett ASA #2793246 on 8/19/14.

 SMITH ISGRIG ELEANOR MADAM X

Selling 30 units of semen on Smith Xtra Ordinary

This tremendously stout son of Smith Isgrig Charismatic and Smith Madam W has the bone and muscling desired by progressive cattlemen. His first calves are on the ground at Reavis Farms and they came unassisted with lots of vigor, are fast gaining and high performing in type. Study the numbers on this young herd sire; they speak for themselves when you notice that his dollar indices of API and TI are both in the top 1% for the breed! We are asked by several breeders to sell semen on some of our bulls and with lots of persuasion the joint owners agreed to make this semen package available to other breeders. This lot has unreal profit potential considering how you can use it in ET, IVF and AI!

SMITH NF SIMPLY GREAT CNS DREAM ON L186
SIRE: SMITH SATISFIES DAM: SMITH MADAM W
 SMITH GREY MIST MADAM X

This beautiful dark red Satisfies daughter out of Madam W has caught the attention of several visitors, because she is so stylish and really thick structured. Keep in mind she was just born the last of May and gets better every day. Check her out on the video with a little more age! She is a full sister to the Madam A heifer that we own in partnership with Diamond RF Farms and after calving will go into our embryo program. Her EPDs are excellent and will be an asset in a PTP (Progress Thru Performance) Show since she ranks in the top 2% of the breed for API and top 10% for TI. This heifer will make her mark in the show ring, but more importantly she will make a great producer being backed by this outstanding cow family. She qualifies for the Synergy Showcase, MAS Showdown, Elite and Superbowl shows, plus all of the Smith Genetics junior benefits. Sells open.

This beautiful Smith Isgrig Charismatic daughter is out of a maternal sister to the famed She Moves cow. Anyone that has been around Simbrah knows about the She Moves Family and their tremendous accomplishments as donors, brood cows, show heifers and herd sires. They have won in all aspects of the business. This young female sells bred to Smith Satisfies. Keep in mind that the buyer has the option to utilize two straws of semen for future production on this female from any Smith Genetics herd sire. Juniors need to note that she still qualifies to show this season and can compete at the Synergy Showcase, Superbowl, MAS Showdown, and Elite events. This is a great young female that deserves your attention! Sells bred to Smith Satisfies ASA #2530807 on July 2, 2014.

Smith Charming Moves, 2013 Houston Livestock Show Supreme American Champion, 2013 International and National Champion Female, plus many other bigtime wins! A maternal sib to Lots 100 and 101.

Lot 100 Selling 1/2 interest and 1/2 possession.

Get out of the way she is coming thru! This heifer is as wide and as stout as anything in the offering. "Got the Moves" is a She Moves daughter sired by Satisfies and she is as stout and square hipped as they come. Here is a future big-time producing donor cow prospect that has the EPDs to back her up with an API ranking in the top 2%. Smith Genetics is looking for an open minded progressive breeder to share in her production! She Moves progeny have done their fair share of winning including the Smith Charming Moves heifer that was the 2013 Supreme Champion of the American Breeds with Kaleb Fontenot on the halter and everyone knows that a book could be written on accomplishments of this family. Heifers of the quality offered from this cow family do not come around every day, so do yourself a favor and analyze them and think of the quick impact they can make on your program. All of the Smith Genetics herd sires will be available for future production with this female. Sells open.

SIRE: SMITH ISGRIG CHARISMATIC **DAM: SMITH TAKING CHANCES**
 SMITH ISGRIG ELEANOR SMITH NF VALENTINE

This is an excellent bred heifer with a pedigree to produce you champions of your own. Rosy certainly lives up to her name with that desirable deep red color and easy going disposition, with an impeccable pedigree built in and an EPD ranking in the top 1% for TI. This Charismatic sired heifer is out of a Smith Ronen daughter making for the famous Nu Wave X Sargeant combination that fellow breeders mentioned they love to breed off of. Thinking for the future, we bred her to our new Simmental sire, Fierce N Black, a "Fat Butt" son out of a capacious Dream On daughter. Fierce was Reserve Grand Champion at the 2014 Houston International Show for his owners Southwestern Farms and Smith Genetics. This replacement female is the kind that could pay for herself with her first calf, and don't forget two additional straws of semen are available from our herd bull battery for future use on this heifer. Sells bred to Fierce N Black ASA #2799800 with an AI date of 7/30/14.

 SMITH RFI CALAMITY JANE

The Charlene Cow Family is an extension of the Calamity Jane and Joyful Cow Families. She is actually the third generation and serves as a donor for Smith Genetics and the Atzenhoffer Family. This female and her sister selling as lot 105 are prime examples of the ability Charlene has to stamp her calves with a beautiful feminine front end that blends into a smooth shoulder and then extends into a deep body cavity. Study these heifers. They are made just like Charlene herself! Charming has a great set of EPDs with top 1% rankings in WW and TI while posting a top 2% ranking in YW and then 4% in API – very respectable and indicative of her performance. Charlene sells safe in calf to our young herd sire, Smith Specialist, who also sired the 2014 Houston International Reserve Champion Female. Take advantage also of our future semen offer on these females. Sells bred to Smith Specialist ASA #2610906 on 6/15/14. Safe in calf.

SMITH SPECIALIST
DAM: RFI LADY CHARM 33A
 RFI STELLETO

Selling 1/2 interest in one embryo pregnancy from this mating with a guarantee of a heifer calf.

Lady Charm was the 2014 Houston International Reserve Champion Female and she made lots of friends on the circuit because of her broodiness, stoutness, and structural correctness. Several folks asked why I showed one with that much color and I said because she is that good and I believe it to this day. That is why I flushed her as a virgin heifer. I went way out on a limb when mating this female and selected a Simmental bull, JF Milestone 999W, that is a total outcross to all Dream On progeny and he has made his mark in the elite of Simmental herds such as Hudson Pines, Circle M Farms, and Janssen Farms. The resulting three-quarter calf will be the first Milestone sired Simbrah calf in the breed and take note of the planned mating EPDs that post numbers in the top 1% API and top 1% TI. You asked for cutting edge genetics and this package is just that. Keep in mind you will own 1/2 interest and 1/2 possession in a resulting heifer calf from this pregnancy. I am excited about the future of this mating, even if it has additional color – only time will tell about the color but I am confident in the quality!

Selling half interest and half possession with the option to double the bid and own 100%.

The Priceless cow is among the top-producing females here at Smith Genetics with live calves, embryos and flushes generating over \$300,000 in revenue. Priceless has been mated to several bulls over the years and generated lots of attention and this mating to Satisfies has again proven, she doesn't miss. Evaluate Vanity and her full sister, Priceless Gem, who was successfully shown by Kaleb Fontenot this past season for proof. Priceless has numerous daughters in production including Smith Hi Price and Priceless Wish owned with McCrary Farms, Smith Priceless Passion owned with Walters Livestock, Smith Johnson Top Price raised and owned with Johnson Cattle, Smith Sheza Priceless owned with Southwestern Farms and the list goes on. Priceless has produced herd sires including Smith Highly Recommended owned with Smith Farms, a bull who's influence can be seen in this sale; RFI Thunderstuck owned with Reavis and Monte Christo, and Smith Always In Style owned by Barth Farms. Now we are going to introduce a new junior herd sire for Smith Genetics named Smith McCrary Fireball, who to no one's surprise is a Priceless grandson sired by Smith Satisfies. You will be hearing lots about him – check out his photo. This cow family has made their mark on the breed and we are confident that Vanity will carry on the tradition of the cow family. Think of the genetic possibilities and combinations with matings when you consider the entire Smith Genetics herd bull battery is available for future breedings with this heifer.

 SMITH GREY MIST SMITH TULIPE 765L

Selling 1/2 interest and 1/2 possession.

Bella Bella has already written a book with her impact on the breed and a more detailed write up on her accomplishments is in the front of the catalog associated with Smith Farms' Lots 1-3. But to say it simply, I consider her to be the best cow in the breed and her track record continues to confirm my thoughts! Smith Genetics is looking for an excited progressive breeder that wants to invest in a young heifer that will compete, if we decide to show her, but more importantly she will make a great brood cow that we can utilize in an aggressive embryo program. This is the only Satisfies daughter out of Bella Bella that has ever been offered to the public. Study the length of side and profile this heifer possesses. She reminds me of her dam at this age. All junior benefits are available with this heifer if you decide to show her. Sells open.

SMITH NF SIMPLY GREAT SMITH MATT N BLACK
SIRE: SMITH SATISFIES **DAM: SMITH CRC BELLA VIVE**
 SMITH GREY MIST SMITH BELLA BELLA

Lubbock's dam is the Bella Vive cow that is out of Bella Bella and sired by Matt, making her a three-quarter female. Caleb Rodenbeck hauled Bella Vive and competed in the ARB division at the 2014 San Antonio Stock Show and won Grand Champion honors, as well as winning many other events such as the AJSR in both years 2013 and 2014. She is an amazing female. Lubbock is the first calf out of Bella Vive and he has done his momma proud with his abundant muscling, strong top and excellent weight per day of age to date. This young bull calf is sired by Satisfies and he post a super set of EPDs ranking him in the top 1% for all purpose index. If you are looking for a young herd sire prospect then you need to study this solid red high performing prospect.

Smith Bella Bella, dam of Lot 117 and grandam of Lot 118.

Smith CRC Bella Vive, dam of Lot 118.

SMITH EVAN
SIRE: RFI REAL DEAL
 RFI DOMINOE

SMITH HAGAN TSUNAMI
DAM: SMITH RAINDROP
 HAGAN GO GIRL 040W

One of the first heifers to be born out of the reigning National Champion Bull, RFI Real Deal, and out of a past champion show heifer for Caleb Rodenbeck, Smith Raindrop. This solid red heifer is sure to impress you come sale day. She is attractively made, with a beautiful hip and hind leg. Along with an attractive look, Sun Shower has an impressive set of EPDs including ranking in the top 3% of the breed for API and TI. This heifer has what it takes to make a junior competitive in the show ring – keep in mind she qualifies for the Synergy Showcase, Superbowl, MAS Showdown, and Elite events, which is over \$75,000 in premiums and awards will be offered at these shows. Sells open.

Thank You

to Ray and Suzanne Hill Family of Southwestern Farms for providing \$500 sponsorship of awards for the educational contests at Synergy VII.

Lots 120-127 CONSISTENCY, CONSISTENCY, CONSISTENCY! Smith Highly Recommended was consistent when he sired these eight high quality purebred Simbrah females! Without a doubt one of the most uniform set of paternal sisters to ever be offered and that is because they not only are sired by the same bull, but all of their dams carry Pine Ridge Ranch pedigrees. Highly Recommended is a CNS Dream On son out of the Smith Priceless cow who stamps her calves with quality, and consistency. You will see all these heifers have lots of body capacity, are structurally correct and have eye appeal and style. Each female is unique in her own way but as a group they are all high quality females who carry lineage from one of the top producing cows in the breed, Priceless. These heifers not only have style and balance but they have strong EPD profiles, which is indicative of the selection process that goes on at both Smith Genetics and Pine Ridge Ranch. Juniors take note of these special little ladies, they have what it takes to put you in the winner's circle and make great cows when they are done showing. All heifers sell with the benefits offered by 7N Ranch and Smith Genetics breeding programs. All sell open.

Smith Priceless, paternal grandam of Lots 120-127.

SIRE: RFI REAL DEAL
 RFI DOMINOE

DAM: SMITH RFI HIDDEN JEWEL
 SMITH PURE JEWEL

Selling 1/3 interest and 1/3 possession.

The opportunity to purchase a son of the ASA National Champion Simbrah Female, Smith RFI Hidden Jewel. She won the respect of many cattlemen during her show career as a bred heifer, because of her broodiness and moderation, but gained even more respect showing as a pair when they saw her beautiful udder and maternal power. In addition to being the ASA National Champion Female, she was also Grand Champion at the Synergy Showcase VI, Ft Worth Stock Show, Star of Texas, and San Angelo Stock Show to name a few highlights. Red Jewel is one of the first sons to be offered out of our popular 2014 ASA National and San Antonio National Simbrah Bull, RFI Real Deal. Real Deal is gaining admirers daily as breeders are evaluating his first calf crop and these type of calves assure this young bull a spot in the who's who of Simbrah rankings. Red Jewel has all the muscle, volume, and substance a progressive breeder could ask for in a young herd sire prospect. We are offering a one-third interest in this exciting calf to a progressive breeder that would like to campaign this calf on the show circuit with us and then enjoy the benefits of his powerful genetic package and performance based pedigree.

UNIQUE OPPURTUNITY! Offering a flush in this Simbrah percentage donor female that allows our customers to join in the production of some first generation purebred Simbrah. Think about the possible Simmental sires she can be flushed with in the embryo program. But wait, be sure and study her Smith William N Black heifer calf at side that will gain her fair share of attention come sale day. Broody and capacious in her design, yet structurally correct in her movement Nu Impression has a lot to offer her new owner and she sells with all our junior benefits. This beautiful percentage cow is the type to stand the test of time and Rica Suave delivers the versatility, and adaptability it takes in today's market to produce performance driven calves that meet today's seed stock demands. With this lot we are offering semen on our lineup of proven and consistent sires like William, and Andy and a few of our new fresh sires like Stout N Black or Smith Fierce N Black, who was recently named 2014 Houston International Reserve Champion bull, and lastly Devils Cut, our exciting red sire who is a direct son of Sierra the \$84,000 donor for Whispering Hills. This flush is not limited to Smith Genetics sires, you can utilize any Simmental bulls of your choice.

Smith William N Black, sire of Lot 129A.

Smith Andy N Black, grandsire of Lot 129A.

Smith Stout, think of what the progeny from Stout and 298Z could produce in a flush.

 SMITH BLACK MYSTIC SMITH KNOCK OUT N BLACK

Wow, these three-quarter cattle seem to get better and better each year, and here is one that's not going to be playing catch up. A Smith Ronen daughter out of a Simmental cow handpicked by the Barth family right off the ranch here in Giddings. Come October, Enthralled is going to get the chance to show you why she earned the name she did. Sound structured and big bodied makes a deadly combination when you put that with a great hip and hind leg and don't forget those high ranking EPDs. Built like a cow but ready to show, this heifer would definitely put you in a good position to win a banner this spring. Keep bidding until you own her, if not you will have to beat her down the road. Remember she can show in the ARB Division at San Antonio and compete for the \$10,000 coveted scholarship as well as compete at all the shows sponsored by Smith Genetics – that includes the Synergy Showcase to be held on Sunday after the Saturday Sale. Sells open.

Selling half interest and half possession or the buyer can double the bid and own 100%.

Straight from the heart of the program comes an investment opportunity into a proven cow family with unlimited potential. Holly stems from the original foundation cow family at Smith Genetics and what has been the backbone to our herd, the 4P cow family. Holly is sired by Vintage, a full brother to the Simmental breed great Power Stroke, and out of Tazzy-N-Red, a past San Antonio Champion for the Hagan

family, and a direct daughter of 4PS Struttin N Red. Holly possesses an abundance of body and mass and carries a beautiful udder. She sells bred to the proven and highly sought after Smith Satisfies bull for an October three-quarter percentage Simbrah calf, a mating we think could bring great returns in the future. Don't miss this opportunity to purchase half interest and half possession in a high quality foundation female that we think not only can produce elite Simmentals but also introduce some great three-quarter Simbrah to the breed. Sells bred to Smith Satisfies ASA #2530807 on 12/24/13. Safe in calf.

2013 SIMBRAH SYNERGY SHOWCASE

awards \$15,000 in prizes and money

Kaleb Fontenot exhibited the grand champion purebred heifer at the Simbrah Synergy. He won \$3,000 with this Smith Genetics sponsored heifer.

Sophie Palmore exhibited the reserve grand champion purebred heifer at the Simbrah Synergy and won \$1,500 with her Smith Genetics sponsored heifer.

Caleb Rodenbeck won the percentage Simbrah show at the Synergy with this Smith Genetics sponsored heifer. He won \$600.

Sophie Palmore saw her heifer from Smith Genetics take the reserve grand honor in the percentage show. She won \$400.

Kaleb Fontenot won the Simmental show and \$600 at the Synergy with a Smith Genetics heifer.

Ryan Todd won the reserve grand title at the Synergy Showcase with a Smith Genetics heifer.

Winners in the 9 and under division of showmanship (l to r; 1st-3rd) include: Bradley Meuth, Lorelai Hill, and Gage Spence.

Winners in the 10-11 year old division are (l to r; 1st-5th) McKenna Tschirhart, Leroy Stavinoha, Dawson Raub, Kylie Sellman, and Madison Landry.

Winners in the 12-13 year olds (l to r; 1st-8th) include Amelia Stavinoha, Payton Meuth, Jacob Friedrich, Zachary Mills, Logan Perry, Calley McGinley, Brody Hill and Kendyl Sellman.

Winners in the 14-15 years old division of showmanship are (l to r; 1st-8th): Kennedy Wilde, Paige Hovey, Kelly Salyer, Ryan Todd, Caryle Rodenebeck, Sophie Palmore, Winston Walters, and Tyler Jenkins.

Division winners in showmanship for 16 years and older were (l to r; 1-10th) Hope Onstot, Kaleb Fontenot, Faith Onstot, Brooke Springer, McClaine Pawelek, Blake Schultz, (not pictured) Micah Perkins, Caleb Rodenbeck, Colton George and Kevin Koehl.

Cattle purchased Saturday PM can show on Sunday AM.

Showmanship is Saturday, Show is Sunday, in this order: Simmental, Percentage and Purebred Simbrah.

PREMIUMS AND CLASSES

\$15,000 in prizes and premiums = \$7,500 in showmanship with five age divisions, paying ten places per division in an effort to spread the premiums plus \$7,500 in the heifer shows.
