

Giving Back to the Community. *It only makes cents!*

Giving back to our communities is a big part of what Iowa Lakes Electric Cooperative is all about. Join us and our member-owners by participating in Operation Round Up[®] and make a difference in someone's life by donating your "spare change."

Your monthly electric bill is rounded to the next dollar amount and the "spare change" is used to help organizations throughout the community as approved by your Cooperative's board of directors. The Estherville Fire Department, Little Mavs Childcare and Albert City Threshermen are just a few organizations who have benefited from the Operation Round Up fund.

Small Change, *Changing Lives.*

By rounding up your monthly electric bill, the minimum amount you could contribute in any given month is 1 cent, and the maximum would be 99 cents or \$11.88 annually. The Operation Round Up[®] fund has reached over \$19,500 by member-owners contributing just a small amount each month.

Your small change, together with other member-owners, will make a big difference in our communities. If you would like to volunteer to participate, please fill out the information below.

Yes, I would like to participate in Operation Round Up
