Dear Parents / Guardians:

We are pleased to inform you that our program partner, Signature Health (www.signaturehealthinc.com) now has additional openings for families of Summit Academy Community School – Painesville students. Signature Health offers individual and group counseling sessions at the school for students and families who would benefit from additional assistance. If your child has Medicaid, this service would be free.

This is a great opportunity for your child to receive additional support if they continue to have concerns or struggles that may be affecting school performance and / or concerns at home. Signature Health will work with your child on many issues and help in your child's success.

To participate, a counselor from Signature Health will need to meet with you and your child to gather information. This appointment will be scheduled at your convenience, either at Summit Academy, in your home, or at the Signature Health office in Willoughby.

If you would like additional information or wish to have your child participate in this program, please sign the bottom of this letter and return it to school as soon as possible. You will then be contacted by an employee of Signature Health to set-up the initial appointment.

This service is offered in addition to services that your child may already receive at Summit Academy. These services will not replace any services your child currently receives. Only students enrolled with the Signature Health program will be eligible for their services. This program can provide additional wrap around services to keep us all (school staff, parents/guardians, and Signature Health Counselor) connected and working together to help your child.

This could be a very useful resource to you and your child. We have seen great success with this program for currently enrolled students. Please feel free to contact me directly if you have any questions regarding the program.

Sincerely,

Frank Cheraso
Principal
