

TESTING INFORMATION

(The Graduate Record Examination is **REQUIRED** for Admission into the Department of Sociology)

Our Graduate School requires you to take the Graduate Record Examination. You do not have to take the Advanced Test. We require only the **VERBAL, QUANTITATIVE and ANALYTICAL** scores.

All exams will be computer testing and are done just about everyday of every month. You may want to check with your local colleges/universities for availability.

Candidates are urged to file their registration forms at least four weeks before the testing date and, in the case of requests for special and foreign centers, six weeks prior to testing date.

Detailed information about registration dates, examination centers, fees, and score reporting is contained in the GRE INFORMATION BULLETIN. The Bulletin also contains a description of the Aptitude Test (Verbal and Quantitative) with sample questions. There are two editions - a domestic edition for testing in the 50 United States and Puerto Rico and a foreign edition for testing elsewhere. Request a copy of the appropriate bulletin and registration form from the Counseling Center for Placement Office at your university or college, or write to:
