12. My project will demonstrate proficiency in the following three ASFG Learning Goals:

- a)
- b)
- c)

Date: _____ **Teacher Approval:** _____

Student/Parent Contract

As parents and guardians, we are aware that if the project is a product, it must be physically present at school as part of the presentation. If too large to physically take to school, the project will be subject to other methods of verification. If the project is a service or activity, it must be documented by photos or a video which will be a part of the presentations, showing the students doing the activities. We fully understand that this project selection decision is made independently of staff and administration of the high school, but is subject to school approval. The project selection and approval is student and parent centered. We therefore assume all responsibility for any risks and costs which might be inherent in the project chosen. We realize that ASFG will not have staff present during the time that our student is participating in senior project activities. We assume full responsibility for all activities involved in the senior project. Further, we a parent/guardian understand that faking any aspect of the assignment

(log, interview, research, etc) and/or plagiarism in the paper, including failing to appropriately document sources will result in a failure of the senior project.
