

SNOWPLOW DRIVER TRAINING

This program has been specially developed by NIPSTA in order to introduce new snowplow operators to basic snow plowing principles and techniques. It also serves as a refresher program for seasoned drivers.

The curriculum focuses on local concerns and provides a forum for experienced drivers to share their knowledge with others who encounter similar challenges.

Discussion topics include:

- Plowing patterns
- Snow removal techniques
- Pre-trip preparation
- Effective salting techniques

Each training session includes classroom instruction and hands-on driving exercises on the NIPSTA Driver Training Pad with both department vehicles and other various snow removal equipment. Instruction is delivered by public works professionals who will address issues related to personal responsibility, job quality, workplace safety, and resident satisfaction.

These sessions are dedicated specifically for medium and heavy duty (single or tandem-axel dump trucks) vehicles.
