

## **US electronic manufacturing service sales forecast breakdown in dollars for each of six company sizes as revenues, from \$5 million to over \$500 million, in 1999, with percent change from 1998**

Description: Database Table Name: US electronic manufacturing service sales forecast breakdown in dollars for each of six company sizes as revenues, from \$5 million to over \$500 million, in 1999, with percent change from 1998  
Database tables provide quantitative market research information in a concise tabular format. Over one thousand database tables are currently available from Research and Markets. These tables / charts allow you to quickly understand market trends and drivers and can form the basis for making market forecasts. Please note that these database tables are very focused one or two page tables / charts. They are great as a quick snapshot of a given market, or to incorporate into your own presentations / forecasts. But they do not give the detailed analysis and the comprehensive information found in the full industry / market reports. If you do require more detailed market research please search the Research and Markets site.
