To be conducted in May 2015 at the Sydney Showground, the AMPEAK conference will be a milestone event in next year's calendar. We will be delivering our renowned, world-class technical program, with a focus on the current and emerging themes of people and culture, data and analytics, risk and governance, and regulation and standards. Technical papers and short form presentations will be invited on these themes and related aspects of asset management. We will also be introducing some innovative exhibition and presentation forums, including options for exhibitors and speakers to demonstrate and crowd source product ideas or hypotheses in specially allocated spaces.
