

Evaluation form stage 2

Please send the completed form to ugotchallenges@gu.se no later than 21 October, 2015.

Evaluator name: _____

Proposal title: _____

Criteria	Score + assessment text
Significance of the challenge	Score (1-4*):
<ul style="list-style-type: none"> To what extent is the challenge addressed a well-defined and focused global societal challenge, and to what extent is it significant for a positive societal development? 	<u>Assessment</u> (please provide 1-5 sentences)
Potential for impact on the scientific perspectives on the challenge	Score (1-4*):
<ul style="list-style-type: none"> To what extent is the proposed approach in terms of width in perspectives, stipulation of research questions and hypotheses realistic and relevant to the defined global societal challenge? To what extent is there potential for creation of new knowledge or new perspectives that will enhance our understanding of the global societal challenge and how it could be met? To what extent does the consortium have the relevant research experience, expertise and scientific network for implementing the proposed research program? To what extent is the plan to recruit or otherwise involve international researchers and/or research environments in the proposed centre clear and compelling? 	<u>Assessment</u> (please provide 1-5 sentences)
Potential for impact on society	Score (1-4*):
<ul style="list-style-type: none"> To what extent is the plan for knowledge exchange and utilization of the research findings clear and compelling? To what extent does it involve introducing innovative research of the proposed centre in Higher Education at the University of Gothenburg? To what extent are relevant and strategic stakeholders involved in the research program and/or in the plan for knowledge exchange and utilization of the research findings? 	<u>Assessment</u> (please provide 1-5 sentences)
Implementation	Score (1-4*):
<ul style="list-style-type: none"> To what extent is the plan for implementation of the proposed research centre clear and compelling? Is the general design, including management structure, time schedule, personnel and other resources optimal for implementing the proposed research program? Does the implementation plan include availability and accessibility of relevant personnel, skills, equipment, facilities and other necessary resources? To what extent is the proposed budget feasible and relevant? 	<u>Assessment</u> (please provide 1-5 sentences)

* Please refer to "Guide for evaluators" for score definitions.

Overall summary

Summary (please provide 1-5 sentences that can be given to the applicants in a decision letter)
