Step 1 Income

| Monthly Income | $\mathbf{1}^{\text {st }}$ Person | $\mathbf{2}^{\text {nd }}$ Person |
| :--- | :--- | :--- |
| Primary Net Income <br> (take home pay) |  |  |
| Part Time Net <br> Income |  |  |
| Support / Alimony |  |  |
| Pension / Social <br> Security |  |  |
| Other |  |  |
| TOTALS |  |  |

$1^{\text {st }}$ Person Income $+2^{\text {nd }}$ Person Income $=$ Total Monthly Income
Step 2. Loans

| Creditors Name | Balance Owed | Monthly Payment |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

Total Monthly Payments $\qquad$

## Step 3. Expenses

|  | Monthly Payment |
| :--- | :--- |
| Cable |  |
| Cell / Home Phone |  |
| Child Care |  |
| Child Support / <br> Alimony |  |
| Clothing \& Hygiene <br> (Include cost of <br> clothes \& toiletries) |  |
| Dry Cleaning / <br> Laundromat |  |
| Entertainment (meals <br> out, movies, sporting <br> events, vacations) |  |
| Gas \& Electric |  |
| Groceries |  |
| Homeowner Assoc. / <br> Condo Fees |  |
| Insurance |  |
| Internet Access |  |
| Mortgage / Rent |  |
| Newspaper |  |
| Other Medical (Co- <br> pays, glasses, VET <br> bills) |  |
| Miscellaneous |  |
|  |  |
|  |  |

$\qquad$
Step 4. Work It Out

| Total Income |  |
| :--- | :--- |
| Minus Total Loans | - |
| Balance |  |
| Minus Total Expenses | - |
| Over / Under Budget |  |

Monthly Over/Under $\qquad$
To calculate your bi-weekly payroll to monthly, Multiply your earnings by 26 then divide by 12 .
(For example, $\$ 500$ biweekly $\quad \$ 500 \times 26=\$ 13,000$

$$
\$ 13,000 \div 12=\$ 1,083.33 \text { per month) }
$$
