

The Fire Island Lighthouse Preservation Society

The Board, staff and volunteers are dedicated in time and spirit to providing diverse day and night programs for school groups and thousands of guests who visit throughout the year. They are also dedicated to the maintenance and preservation of the Lighthouse Tower, Fresnel Lens Building, Keeper's Quarters and the Boat House.

We need your financial support in our continuing effort to maintain the budget so that we can keep the doors of the Lighthouse open and continue with these endeavors.
