Please correct your proofs and return them within 7 days together with the completed reprint order form. The editors reserve the right to publish your article with editors' corrections if your proofs do not arrive in time.

After having received your corrections, your paper will be published online soon in the Wiley Online Library (wileyonlinelibrary.com).

Please keep in mind that reading proofs is your responsibility. Corrections should therefore be clear. The use of standard proof correction marks is recommended. Corrections listed in an electronic file should be sorted by line numbers. Please do not incorporate your corrections into the electronic PDF file.

Manuscript files are sometimes slightly modified by the production department to follow general presentation rules of the journal.

Note that the quality of the halftone figures is not as high as the final version that will appear in the issue.

Check the enclosed proofs very carefully, paying particular attention to the formulas (including line breakings introduced in production), figures, numerical values, tabulated data and layout of the pages.

A black box (■) or a question at the end of the paper (after the references) signals unclear or missing information that specifically requires **your attention**. Note that the author is liable for damages arising from incorrect statements, including misprints.

The main aim of proofreading is to correct errors that may have occurred during the production process, **and not to modify the content of the paper**. Corrections that may lead to a change in the page layout should be avoided.

Note that sending back a corrected **manuscript file is of no use**.

Return the corrected proofs within 7 days by e-mail.

Please do not send your corrections to the typesetter but to the Editorial Office:

E-MAIL mlq-science@uva.nl

Please limit corrections to errors in the text; cost incurred for any further changes or additions will be charged to the author, unless such changes have been agreed upon by the editor.

If your paper contains **color figures**, please fill in the Color Print Authorization and note the further information given on the following pages.

Information regarding VAT

Please note that from German sales tax point of view, the charge for **Reprints, Issues or Posters** is considered as “supply of goods” and therefore, in general, such delivery is subject to German VAT. However, this regulation has no impact on customers located outside of the European Union. Deliveries to customers outside the Community are automatically tax-exempt. Deliveries within the Community to institutional customers outside of Germany are exempted from German tax (VAT) only if the customer provides the supplier with his/her VAT number.

The VAT number (value added tax identification number) is a tax registration number used in the countries of the European Union to identify corporate entities doing business there. It starts with a country code (e.g. FR for France, GB for Great Britain) and follows by numbers.

The charges for publication of **front/back/inside cover pictures, color figures or frontispieces** are considered to be “supply of services” and therefore subject to German VAT. However, if you are an institutional customer outside Germany, the tax can be waived if you provide us with the VAT number of your company. Non-EU customers may have a VAT number starting with “EU” instead of their country code if they are registered with the EU tax authorities. If you do not have an EU VAT number and you are a taxable person doing business in a non-EU country, please provide certification from your local tax authorities confirming that you are a taxable person under local tax law. Please note that the certification must confirm that you are a taxable person and are conducting an economic activity in your country. **Note:** Certifications confirming that you are a tax-exempt legal body (non-profit organization, public body, school, political party, etc.) in your country do not exempt you from paying German VAT.
