PHILIPSBURG.

Mr. Henry Harkstein, and Mr. Con. L. Forst, were in Berlin on business on Saturday.

Mr. Adam Doering is still on the sick list, laid up with lumbago.

Garden making is the order of the day among the women folks.

Mr. Geo. Oetzal and his sister Annie of Waterloo were this week the guests of Miss Emma Doering.

Mrs. Schmidt, of Amulree, is spending a few days with friends in the village.

Mr. Paul Heinbecker and Mr. J. K. Schmidt, spent Sunday at Mr. Wm. Heidman's, North Easthope.

Great excitement was caused here on Sunday by a horseless carriage which passed through the village. After close inspection it proved to be a surrey drawn by a span of mules.

Word was received from Mr. Christensen that he escaped injury in the late San Francisco disaster.

Mr. Chas. Scott, of Plattsville, was renewing old acquaintances here on Sunday.

Mr. Henry Both is busily engaged among the farmers with his portable sawmill, cutting lumber.

Mr. Wm. Heidman is having his barn remodeled and when finished will be one of the finest in the district.

A very happy event took place one day last week when Miss Lizzie Lemp, and Mr. Theodore Knechtel were married in Waterloo.

LINWOOD.

Spring seeding is well along and most farmers expect to be finished this week.

Work on the railway is steadily proceeding and there are good prospects that the road will be running as far as here before next winter sets in.

The roads are not very good hereabouts as yet. The Maple Leaf some time ago started an agitation for a permanent road running from the 7th line to Macdon. That move was in the right direction.

By the looks of the large number of Hats the The T. Buggle Co. is selling these days, both Ladies and Gentlemen's, is good proof that they must have the proper fashions at the proper prices.

FROM SPOKANE, WASH.

Editor Maple Leaf, - I am a former resident of your community and one of the most unique clubs ever formed in the West I believe Maple Leaf readers will be interested to learn something about this remarkable organization and the city in which it had its origin. The club is known as the "Boosters" of Spokane, and its avowed intention is to double the population of this city in five years. To accomplish this we have 2,250 men and women organized as "Boosters." The club works along modern lines and the novel organization has gained a wide popularity in a very short time. The plan of the club may appeal to your readers and induce them to form such a society in your own community for the welfare of the community.

To double a city's population in five years after that city has 80,000 would seem a big contract but we enthusiastically believe it can be done. The society is quite cosmopolitan, including in its membership bank presidents and laborers, teachers and carpenters. The dues are one dollar a year, every person joining signing a pledge to pay this sum annually until Spokane has a population of 150,000.

The club does not encourage the immigration of laborers and mechanics but seeks to increase the city's growth by inducing eastern city owners and commercial houses to locate here. A publicity campaign through the medium of advertising and personal correspondence, is in full sway, each member of the club making it a point to inform himself on the subjects available here and then to persons who may be interested or turning over his suggestions to the secretary or one of the subcommittees. The club also entertains persons who are induced to stop over here for a day or two and the advantages of the city and surrounding country are shown upon the visitor in every way possible.

I am an enthusiast over Spokane because I am positive it has the greatest future of any inland western city. Located on the slopes rising gently from either bank of the Spokane river, the city has an absolute perfect system of drainage. The beauty of such a location could not be surpassed and the view from the hills in the southern residence portion is one never to tire of. Forty per cent of the residents own their own homes. Civic pride is shown on every street and citizens take pride in having Spokane referred to as the "cleanest big city in the United States." From the mansions of the wealthy to the humblest homes shade trees, beautiful lawns and arbors of all kinds are the rule. Well paved streets and continuous sidewalks with parking between the walks and the street add to the attractiveness of the place.

No other western city has such a variety of advantages as Spokane, with an extensive distributing territory as big as the states of New York and Pennsylvania combined. There is 32,000 horse power available by the succession of falls in the river through the heart of the city. The water power has been developed on every street and the abundance of raw material is a strong inducement to manufacturing establishments. Our resources include agriculture, lumbering, horticulture, drying, market gar-

dening, mining and stock raising. Opportunities are open to the man of small means to acquire wealth in the dairy, poultry and market gardening business. For these products the highest prices are paid all the year round, the demand increasing constantly. Farming on larger tracts has brought riches to thousands of men who both wheat and hay. Land can still be had cheaply with returns sufficient to pay half the purchase price inside of two years. The climate is equable with no extremes of heat or cold. Spokane is a remarkably healthy city.

My brother and I left Wellesley more than eight years, we have seen Spokane grow from a small village to a splendid modern city of 84,000 people. We like this city better all the time.

Yours truly,
JAKE HILL.

APRIL WEDDING.

The following from the Berlin Daily Telegraph, refers to a former Wellesley girl, and a niece of Mrs. J. G. Reiner.

A very pretty wedding took place at the home of Mr. and Mrs. Henry Roeder, Water street, on Wednesday evening at seven o'clock, when their eldest daughter, Miss Elvina, was wedded to Mr. Harry W. McLeod, a popular G. T. R. brackeman, of Stratford. The interesting ceremony was performed by Rev. W. A. Bradley, of St. Andrews Presbyterian church, in the parlor underneath a horseshoe arch of roses, in the presence of a large number of relatives and friends of the contracting parties. The pretty bride, who was given away by her father was beautifully attired in a gown of cream taffeta, trimmed with pearl lace and Duchess satin, and carried a bouquet of bridal roses. Her sister, Miss Sarah Roeder, carried orange blossoms. She carried a bouquet of pink roses. The groom was assisted by Mr. Pruit, of Stratford. The wedding march was played by Miss Gladys Bradstone, of Stratford. After the usual congratulations a dainty wedding supper was served in the elegantly decorated dining room. The young couple were the recipients of numerous and costly wedding gifts, among which was a handsome metal clock from the employe of the Chas. H. Davis Clothing Company, Stratford.

Mr. and Mrs. McLeod left on the 9.30 train for London, Sarnia, Port Huron and other points, followed by the best wishes for a long and happy wedded life of the young couple. The bride's going-away dress was of brown lady's cloth, with hat to match. Among those present from a distance were: Misses Minnie and Laura Abraham, Miss Jean Dawe, Miss Gladys Bradstone, Miss Jessie MacLaren, Mrs. Fred Adams, Mrs. W. S. Lowery, Mr. Bert Pratt, Stratford; Mrs. N. J. Ingram, Jackson, Mich. Mr. and Mrs. McLeod will reside in Stratford after May 2nd.

GOLDEN WEDDING.

One of those rather rare family gatherings commonly called golden weddings was held at the home of the postmaster Ruppel yesterday it being the 50th anniversary of their marriage. Mr. Ruppel was married on the 27th of April, 1856, to Mary Heeh, daughter of Geo. Heeh, of the neighborhood of Heidelberg. Rev. W. Underlich, of Waterloo performed the ceremony. Mr. Ruppel came to Elmira in 1853 and on the 29 of April 1856, the birthday of Mrs. Ruppel he brought the latter to Elmira, where they have resided ever since and where they experienced good days and bad days, sunshine and shadow, in short the many changes that fifty years of life in this world are likely to bring. Through all changes, however, they could feel the wise guidance and merciful providence of God, in whom they put their trust. To Mr. and Mrs. Ruppel was born a family of 11 children, two of whom died young and a third, Mrs. Eix, a few months ago. The children living in the village, also Mr. and Mrs. Henry Ruppel, of Tavistock, and their son-in-law, Rev. S. B. Eix, of Fisherville, met with the aged couple, and had dinner with the aged couple.

Mr. Ruppel is in his 79th year and Mrs. Ruppel will be 69 next Sunday. Both are quite smart, the former doing a hard day's work at the post office daily and the latter performing her household duties. The many changes that fifty years of life in this world are likely to bring, through all changes, however, they could feel the wise guidance and merciful providence of God, in whom they put their trust.

THE STOPPING OF THE CLOCK.

Surprising falls the instantaneous calm,
The sudden silence in my chamber small -
I, starting, lift my head in half alarm -
The clock has stopped - that's all!
The clock has stopped! Yet why should I be so dumb?
An instant feeling almost like dismay?
Why note its silence sooner than its sound?
For it has ticked all day.
So may a life beside my own go on,
And such companionship unheeded keep,
Companionship scarce recognized till gone,
And lost in sudden sleep,
And so the blessings heaven daily grants,
Are in their very commonness forgot;
We little heed what answereth our wants -
Until it answers not.
A strangeness fatheth on familiar ways,
As if some pulse were gone beyond recall -
Something unthought of, linked with all our days -
Some clock has stopped - that's all.

A Good Suggestion.

Mr. C. B. Walnwright of Lemon City, Fla. has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking 16 in water as hot as can be drunk. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by A. J. Saunders, druggist, Wellesley.

EDITORIAL NOTES.

Work on the Guelph-Goderich extension of the C. P. R. is progressing steadily. It is expected that the line will be open for traffic from Guelph as far as Elmira by the first of July or August and it is possible that Linwood will be reached before winter in which case the entire line will be completed and trains running on schedule time by the middle of 1907.

Next Monday, at the Wellesley council meeting, the Brenner drain petition will again be presented to the Board. The petition is from the owners of a long stretch of swamp lands extending from the Ninth line at the Linwood side line northwesterly to the thirteenth line where it finds an outlet in Morington township. The principal objection to the scheme seems to come from those whose land naturally drains towards this swamp and who will be obliged to help pay for the drain. The promoters of the drain complain that the petition is left open too long at the council meetings, so that the "antis" have an opportunity to influence the signers to take their names off the petition thus leaving it in the minority when it is thrown out by the Board. This has twice occurred at the council meetings, the expense in each instance falling upon the petitioners. Those who are interested in having the drain built seem confident that the signers they now have secured to the petition will "stand pat" this time, but there will likely be a lively canvassing time at the meeting next Monday if the council leaves the petition open until late in the day as they did on the former occasion.

The Queen's Own regiment was in New York last Friday and Saturday taking part in the military parade and drill contest. The Canadians showed up well and won great applause, but British flags and British music were, according to dispatches, conspicuous by their absence.

Why Suffer From Rheumatism? Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after a while the relief became permanent. Mrs. V. H. Leggett, of Yum Yum, Tennessee, U.
