Dear Mr/Mrs. (____First and Last Name____),

I am concerned about an issue of equity for all elementary and secondary schools within the Region of Waterloo especially as it pertains to current DC bylaws and the fees collected from independent schools. These are significant fees that can significantly weaken the operations of schools that provide quality instruction and a diversity of educational options throughout the region.

The excessive development charges applied to independent schools while publically funded schools are being exempted is an obvious inequity and injustice. The minority of independent schools provide the same public benefit and services as their fully funded partners in education.

Please address this inequity and invest in our community by defeating the current motion to do nothing and support a motion to defer the DC charges for Woodland Christian High School until such time as the bylaw is reviewed by committee and reports back to Council.

Thank you for taking the time to look into this—I look forward to hearing from you.

Sincerely,

Your Name
