

Young Talent Program- Engineering Supply Manager

Are you a young newly graduated or a final year student in
Engineering disciplines?

Are you eager to work in a multinational company, with the chance to have an experience in one of our affiliates present in more than 170 countries all over the world?

Do you have a very good command of English language, and have you had a study or job experience abroad?

If you answered yes to these questions, we are looking for you!

A Young Talent who will grow in the role of
Engineering Supply Manager.

During the program, you will be guided from a personal tutor through a journey within our R&D unit and you will have the chance to improve continuously your competences and to gain both practical and theoretical experience.

Tetra Pak will build with you and for you a training plan and career path that will include:

- **2 years training on the job and rotations plan**
- **Cross-functional experiences with clear deliverables**
- **International exposure and experience**

At Tetra Pak in Modena, Italy, you will find a multinational and stimulating environment and you will have the chance to learn updated working methods and enjoy multicultural and structured surroundings.

As a **Young Talent – Engineering Supply Manager** you will contribute to the successful delivery of new product development projects (related to Tetra Pak machines and equipments), from concept to full commercial release.

In this position your main activities will be:

- Develop predictive costs analysis of Tetra Pak machines components and modules during product development and product life cycle
- Analyze and control the cost structure of our module suppliers
- Deliver a concrete approach to equipment target cost definition
- Standardize the cost models through the creation and the application of recognized and replicable number of tools/methods
- Coordinate results and relationships with supply chain and production area

Who are you?

You have a University degree in **Material, Mechanical, Aerospace or Industrial Engineering** disciplines.

Experience abroad with a student exchange program or other international experience will be considered as a merit.

As a person you are structured, analytical and you have a systematic approach to problem definition. You are a collaborative team player, with good communications skills and the ability to create and maintain relations at different level with different kind of stakeholders. You are strongly motivated to learn and you are able to take initiatives and drive activities independently.

If you are interested, please submit your application on Tetra Pak website:

<https://tetrapak.taleo.net/careersection/2/jobdetail.ftl?job=MOD0000C1>

Male or Female applicants to the position are appreciated.

Only English applications will be considered.

Please submit your application online not later than April, 30th 2016.

The program will start at Modena (Italy) on September 2016.
