Tariff Filing – Proposed Changes to Forms of Service Agreement  
Docket No. RP10-

Ladies and Gentlemen:

Pursuant to Section 4 of the Natural Gas Act and Part 154 of the regulations of the Federal Energy Regulatory Commission (“Commission”), Transcontinental Gas Pipe Line Company, LLC (“Transco”) hereby submits for filing certain revised tariff sheets to its FERC Gas Tariff, Fourth Revised Volume No. 1 (“Tariff”), which tariff sheets are enumerated in Appendix A attached hereto. The proposed effective date of the attached tariff sheets is December 28, 2009.

**Statement of Nature, Reasons and Basis**

The purpose of the instant filing is to revise certain of the *pro forma* forms of service agreement included in Transco’s Tariff to achieve uniformity among the agreements and to make other revisions consistent with the guidance provided by the Commission regarding non-conforming contracts in its October 22, 2008 order in a Southern Star Central Pipeline, Inc. proceeding (“Southern Star”)<sup>1</sup>, and the Commission Staff’s further guidance in its document entitled *Material Deviations Frequently Asked Questions*, available at <http://www.ferc.gov/legal/acct-matts/material-deviations-FAQ.pdf>.

Section 154.110 of the Commission’s regulations (“Regulations”) requires a pipeline’s tariff to contain unexecuted *pro forma* copies of the pipeline’s forms of service agreement. Section 154.1(d) of the Regulations requires that, if a service agreement deviates in any material respect from the approved form, the pipeline must file that “non-conforming” service agreement with the Commission for approval. Following the issuance of the Southern Star order, Transco reviewed its service agreements for deviations from the applicable forms of service agreement under its Tariff. That

review revealed that certain of Transco's active service agreements contained deviations that could be remedied through revisions to the applicable *pro forma* forms of service agreement. The revised *pro forma* forms of service agreement proposed herein will help minimize the occurrence of non-conforming service agreements that must be filed with the Commission.<sup>2</sup>

Transco is also making revisions to certain of its forms of service agreement to make its *pro forma* service agreements more uniform throughout the Tariff. The proposed revisions do not affect the substantive rights of the parties or the terms and conditions of service.

The specific Tariff revisions are detailed in Appendix B, and, with the exception of minor administrative corrections, are summarized below. Transco proposes to:

- Replace the date of April 1 with a blank as the beginning date of the term of agreement included in the Rate Schedule GSS Form of Service Agreement to allow the term of the GSS service to begin on a date other than April 1.
- Include a new section to the forms of service agreement for Rate Schedules GSS, LGA, S-2, LGS, SS-2, ESS, ISS, WSS-Open Access, and LNG where parties would provide addresses for the delivery of official notices pertaining to the agreement. Inclusion of a notices provision in these forms of service agreement will make them consistent with the other forms of service agreement in Transco's Tariff.
- Remove the unduly restrictive phrase "between the parties hereto" from the "Miscellaneous" Section of its forms of service agreement to achieve uniformity among service agreements. Further, for services that are releasable, this phrase may not apply if the agreement is the result of a permanent release, but the parties wish to identify the releasing shipper's agreement with Transco as having been superseded. Transco proposes to remove this phrase from the following forms of service agreement: Rate Schedules GSS, LGA, S-2, LGS, LSS, SS-1 7(C) Storage Service, SS-1 Open Access Storage Service, SS-1 Open Access Transportation Service, ICTS, FT-N, ESSWS, ISS, PAL, IT, LNG, and POOLING.
- Revise the contract execution section of the forms of service agreement for Rate Schedules GSS, LGA, S-2, LGS, SS-2, ICTS, IT, FT-G, FT-N, ESS, ESSWS, ISS, PAL, LNG, and POOLING to achieve uniformity throughout the Tariff.
- Revise Article IV (Term of Agreement) of the Rate Schedule LG-A form of service agreement to include an evergreen clause and creditworthiness provision. Rate Schedule LG-A service is a bundled storage and transportation service provided by Transco pursuant to Part 157 of the Regulations and a Natural Gas Act §7(c) certificate, originally issued in Docket No. CP63-228-000<sup>3</sup>. Certain of Transco's Rate Schedule LG-A service agreements were amended to include a termination date, an evergreen clause and a creditworthiness provision; however, the *pro forma* service agreement was not amended. Transco proposes to

---

<sup>2</sup> As explained by the Commission staff in its answers to frequently asked questions on material deviations (p. 2, number 3) "[i]f contracts containing a material deviation at the time of their execution later come into conformance with the *pro forma* service agreement due to a tariff filing, the pipeline would not have to file it because the deviation would be cured."

<sup>3</sup> *Transcontinental Gas Pipe Line Corp.*, 30 FPC 38 (1963), as amended, 40 FPC 22 (1968).

amend its form of service agreement under Rate Schedule LG-A to include these provisions in order to bring the existing service agreements into conformance with Transco's Tariff and to reflect Transco's contracting practice under this Rate Schedule.

- Revise Article IV (Term of Agreement) of the Rate Schedule LG-S form of service agreement to add an evergreen clause and notice period. Rate Schedule LG-S service is on-site LNG Service rendered by Transco pursuant to a Natural Gas Act §7(c) certificate issued September 21, 1972 in Docket No. CP72-255.<sup>4</sup> The form of service agreement for Rate Schedule LG-S provides a blank that permits parties to complete the term, and Transco and certain of its LG-S customers have completed that blank by including an evergreen provision and notice period to terminate the agreement. Transco proposes to amend its Rate Schedule LG-S form of service agreement to include an evergreen provision and a notice period to terminate the agreement in order to bring the existing service agreements into conformance with Transco's Tariff and to reflect Transco's contracting practices under this Rate Schedule.
- Remove the word "years" included in the Term of Agreement section of Rate Schedules FT, ESS, and WSS – Open Access forms of service agreement to allow for a term that includes a partial year.
- Revise Exhibit A of the Rate Schedule FT form of service agreement to include an optional column to specify agreed-upon receipt point maximum daily capacity entitlements. The addition of this column reflects Transco's contracting practice under Rate Schedule FT, and is reflects any limitations at the points consistent with Sections 4.3 and 4.6 of Rate Schedule FT. The associated footnote added to Exhibit A clarifies that the specified quantities do not include additional gas to be retained by Transco for compressor fuel and line loss make-up, which reiterates the requirements of Section 2 of Article V of the service agreement and Section 3.7 of Rate Schedule FT consistent with the Tariff.
- Revise Exhibit B of the Rate Schedule FT form of service agreement to include a column to specify, if applicable, the agreed upon maximum daily capacity entitlements at individual delivery points. The addition of this column reflects Transco's contracting practice, and reflects any limitations at the points consistent with Section 4.6 of Rate Schedule FT.
- Revise Exhibit C of the Rate Schedule FT form of service agreement, and Exhibit A of Rate Schedules ESS and WSS-Open Access (Specification of Negotiated Rate and Term) to add a clause that would, if agreed to, preclude Transco from filing under Section 4 of the Natural Gas Act to modify the negotiated rate set forth in the form of service agreement.
- Revise Article IV (Term of Agreement) of the Rate Schedule FDLS form of service agreement to add the phrase "[or, when applicable, "shall remain in force and effect for a primary term of \_\_\_\_"]. This insertion is consistent with Transco's Rate Schedule FT form of service agreement, and will allow the primary term of the agreement to be stated as a number of years from the effective date rather than stating an exact date as the expiration of the primary term. The proposed language will be used for Rate Schedule FDLS service agreements in situations where the effective date is unknown at the time of the agreement's execution due to the uncertainty of the in-service date of newly constructed facilities.

---

<sup>4</sup> *Transcontinental Gas Pipe Line Corp.*, 48 FPC 573 (1972).

- Update the Rate Schedule IT form of service agreement by removing the words “WHEREAS” and “NOW THEREFORE”. The “Whereas” clause is no longer used by Transco or its Buyers when completing the IT form of service agreement, which is accomplished electronically via Transco’s ILine system.
- Add spaces in the forms of service agreement for Rate Schedules ESS, ESSWS, ISS, WSS-Open Access, and LNG to include an additional “Whereas” clause to accommodate, when necessary, factual information about the agreement.

#### **Proposed Effective Date**

The revised tariff sheets submitted herein are proposed to be effective December 28, 2009. In the event the Commission elects to accept and suspend the revised tariff sheets submitted herein, in accordance with Section 154.7(a)(9) of the Commission’s Regulations (“Regulations”), Transco moves to place such tariff sheets into effect at the end of the applicable suspension period.

#### **Materials Submitted Herewith**

In accordance with Section 154.7(a)(1) of the Regulations, the following material is submitted herewith:

- (1) Appendix A which contains the enumeration and effective date of the revised tariff sheets, the revised tariff sheets, and a redlined version of such tariff sheets in accordance with the provisions of Section 154.201(a) of the Regulations;
- (2) As required by Section 154.4 of the Regulations, a diskette copy of the revised tariff sheets labeled TF112509.ASC;
- (3) Appendix B which contains the list of tariff sheets changed and an explanation of each change made.

#### **Posting and Certification of Service**

In accordance with the provisions of Section 154.2(d) of the Commission’s Regulations, copies of this filing are available for public inspection, during regular business hours, in a convenient form and place at Transco’s main office at 2800 Post Oak Boulevard in Houston, Texas. In addition, Transco is serving copies of the instant filing to its affected customers, interested State Commissions and other interested parties.

Second Revised Sheet No. 591 and Original Sheet No. 591A

Transco proposes to remove the word “years” from Article III (Term of Agreement) of the Rate Schedule WSS-Open Access Form of Service Agreement to allow for a term that includes a partial year. Transco further proposes to include a new Section 6 to Article V (Miscellaneous) of the Rate Schedule WSS Open Access Form of Service Agreement where parties would provide addresses for the delivery of official notices pertaining to the agreement, and to revise the contract execution section to add lines for printing the names and titles under the signature of the signatory parties.

TRANSCONTINENTAL GAS PIPE LINE COMPANY, LLC  
APPENDIX B  
EXPLANATION OF PROPOSED TARIFF CHANGES

Second Revised Sheet No. 592

Transco is revising Exhibit A of the Rate Schedule WSS-Open Access Form of Service Agreement (Specification of Negotiated Rate and Term) to add a clause that would, if agreed to, preclude Transco from filing under Section 4 of the Natural Gas Act to modify the negotiated rate set forth on Exhibit A of the Rate Schedule WSS Open-Access Form of Service Agreement.

First Revised Sheet No. 593

Transco proposes to add spaces in the Rate Schedule LNG Form of Service Agreement for an additional whereas clause to accommodate, when necessary, factual information about the contract.

First Revised Sheet No. 594 and Original Sheet No. 594A

Transco proposes to include a new Section 6 to Article VI (Miscellaneous) of the Rate Schedule LNG Form of Service Agreement where parties would provide addresses for the delivery of official notices pertaining to the agreement. Further, in Article VI, Section 2, Transco is deleting the phrase “between the parties hereto” since that phrase may not apply if the agreement is the result of a permanent release, but the parties wish to identify the releasing shipper’s agreement as having been superseded.

Transco also proposes to revise the contract execution section of the Rate Schedule LNG Form of Service Agreement to add lines for printing the names and titles under the signature of the signatory parties.

First Revised Sheet No. 601 and Original Sheet No. 601A

Transco proposes to revise the contract execution section of the Rate Schedule POOLING Form of Service Agreement to add lines for printing the names and titles under the signature of the signatory parties. Further, in Article V (Miscellaneous), Section 1, Transco is deleting the phrase “between the parties hereto” to make this section uniform with the other Forms of Service Agreement in Transco’s Tariff.

First Revised Sheet No. 603

Transco proposes to revise Article IV (Term of Agreement) of the Rate Schedule FDLS form of service agreement to add the phrase “[or, when applicable, “shall remain in force and effect for a primary term of \_\_\_\_\_”]. This insertion is consistent with the Form of Service Agreement under Transco’s Rate Schedule FT and will allow the primary term of the agreement to be stated as a number of years from the effective date rather than stating an exact date as the expiration of the primary term.
