Drug list

Our drug list (sometimes called a formulary) is a list of prescription drugs covered by your plan. It’s made up of hundreds of brand and generic drugs. We research drugs and select ones that are safe, work well and offer the best value. That’s because we think it’s important to cover drugs that help people stay healthy so they can work, go to school, and continue the activities of a busy life.

Sometimes we update the Drug List if new drugs come to market, or if new research becomes available. To view the current list, visit **anthem.com**. Click on “Customer Care” in the top-right corner. Select your state, and then click “Download Forms."You’ll find the Drug List on this page.

If you don’t have access to a computer, you can check the status of a drug by calling Customer Service at the phone number on your plan ID card.

Generic drugs

If you’re taking a brand name drug, you could save money by switching to an effective, lower cost generic drug. Your plan covers both brand and generic (or non-brand) drugs. When you choose a generic, you’ll get the effectiveness of a brand drug – but usually at a lower cost. Brand and generic drugs have the same active ingredient, strength and dose. And generics must meet the same high standards for safety, quality and purity.

Prescription drugs will always be dispensed as ordered by your physician. If you or your doctor requests a brand name drug when a generic is available, you will pay your usual copayment for the generic drug plus the difference in the allowable charge between the generic and brand name drug.

Why generics cost less

Developing a new drug is expensive. When a company creates a new drug, it gets a patent for up to 20 years. That means only the company that created it can sell it during that time. Once the patent expires, other companies can make copies of the same drug. These companies avoid the high costs of developing the drug – and that helps lower the price for you.

Talk to your doctor to see if a generic is right for you. Don’t switch or stop taking any drugs until you talk to your doctor.

Prior authorization

Most prescriptions are filled right away when you take them to the pharmacy. But, some drugs need our review and approval before they’re covered. This process is called prior authorization. It focuses on drugs that may have:

- Risk of serious side effects
- High potential for incorrect use or abuse
- Better options that may cost you less
- Rules for use with very specific conditions

If your drug needs approval, your pharmacist will let you know. To check in advance, call the Customer Service phone number on your ID plan card.
The Drug List also includes this information. To view it, visit **anthem.com**. click on “Customer Care” in the top-right corner. Select your state, then click on “Download Forms.” You’ll find the Drug List on this page.

Ins and Outs of Coverage

The ins and outs of coverage

Knowing that you have health care coverage that meets your and your family's needs is reassuring.

But part of your decision in choosing a plan also requires understanding:

- who can be enrolled
- how coverage changes are handled
- what's not covered by your plan
- how your plan works with other coverage

Who can be enrolled

You can choose coverage for you alone or family coverage that includes you and any of the following family members:

- Your spouse
- Your children age 26 or younger, which includes:
  - A newborn, natural child or a child placed with you for adoption
  - A stepchild, or
  - Any other child for whom you have legal guardianship

Coverage will end on the last day of the year in which they turn 26.

Some children have mental or physical challenges that prevent them from living independently. The dependent age limit does not apply to these enrolled children as long as these challenges were present before they reached age 26.

The ins and outs of coverage (continued)

1. On the employer level — which impacts you as well as all employees under your employer's plan — your plan can be ...

renewed	cancelled	changed	when ...
●			your employer maintains its status as an employer, remains located in our service area, meets our guidelines for employee participation and premium contribution, pays the required health care premiums and does not commit fraud or misrepresent itself.
	●		your employer makes a bad payment, voluntarily cancels coverage (30-day advance written notice required), is unable (after being given at least a 30-day notice) to meet eligibility requirements to maintain a group plan, or still does not pay the required health care premium (after being given a 31-day grace period and at least a 15-day notice).
	●		we decide to no longer offer the specific plan chosen by your employer (you'll get a 90-day advance notice) or if we decide to no longer offer any coverage in Virginia (you'll get a 180-day advance notice).
		●	your employer and you received a 30-day advance written notice that the coverage was being changed (services added to your plan or the copayment amounts decreased). Copayments can be increased or services can be decreased only when it is time for your group to renew its Lumenos coverage.

2. On an individual level — factors that apply to you and covered family members — your plan can be ...

renewed	cancelled	when ...
●		you maintain your eligibility for coverage with your employer, pay your required portion of the health care premium and do not commit fraud or misrepresent yourself.
	●	you purposely give wrong information about yourself or your dependents when you enroll. Cancellation is effective immediately.
	●	you lose your eligibility for coverage, don't make required payments or make bad payments, commit fraud, are guilty of gross misbehavior, don't cooperate with coordination of benefits recoveries, let others use your ID card, use another member's ID card or file false claims with us. Your coverage will be cancelled after you receive a written notice from us.

The ins and outs of coverage (continued)

Special enrollment periods

Typically you are only allowed to enroll in your employer's health plan during certain eligibility periods, such as when it is first offered to you as a "new hire" or during your employer's open enrollment period when employees can make changes to their benefits for an upcoming year. But there may be instances other than these situations in which you may be eligible to enroll. For example, if the first time you are offered coverage and you state in writing that you don't want to enroll yourself, your spouse or your covered dependents because you have coverage through another carrier or group health plan, you may be able to enroll your family later if you or your dependents lose eligibility for that other coverage (or if the employer stops contributing towards your or your dependents' other coverage. But, you must ask to be enrolled within 30 days after you or your dependents' other coverage ends (or after the employer stops contributing toward the other coverage). In addition, if you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents. However, you must request enrollment within 30 days after the marriage, birth, adoption, or placement for adoption. Finally, if you or your dependents' coverage under Medicaid or the state Children's Health Insurance Program (SCHIP) is terminated as a result of a loss of eligibility, or if you or your dependents become eligible for premium assistance under a state Medicaid or SCHIP plan, a special enrollment period of 60 days will be allowed. To request special enrollment or obtain more information, contact your employer.

When you're covered by multiple plans

If you're fortunate enough to be covered by more than one health plan, you may not be so thrilled about the paperwork hassles that can come with it when you're trying to figure out which plan should pay for what. Our Coordination of Benefits (COB) program helps ensure that you receive the benefits due and avoid overpayment by either carrier. Because up-to-date, accurate information is the key to our Coordination of Benefits program, you can expect to receive a COB questionnaire on an annual basis. Timely response to these questionnaires will help avoid delays in claims payment.

If you are covered by two different group health plans, one is considered primary and the other is considered secondary. The primary carrier is the first to pay a claim and provide reimbursement according to plan allowances; the secondary carrier then provides reimbursement, typically covering the remaining allowable expenses.

The ins and outs of coverage (continued)

Determining the primary versus secondary carrier

See the chart below for how determination gets made over which health plan is the primary carrier. The term "participant" is used and means the person who is signing up for coverage:

How benefits apply when Medicare-eligible

Some people under age 65 are eligible for Medicare in addition to any other coverage they may have. The following chart shows how payment is coordinated under various scenarios:

When a person is covered by Medicare and a group plan, and	Then	Your Anthem Plan	Medicare is Primary
Is a person who is qualified for Medicare coverage due solely to End Stage Renal Disease (ESRD-kidney failure)	During the 30-month Medicare entitlement period	●

What's not covered (exclusions)

When it comes to your health, you're the final decision maker about what services you need to get and where you should get them from. Information You Should Know

Managing your care if you need to go to a hospital or get certain medical treatment

If you or a family member needs certain types of medical care (for example: surgery, treatment in a doctor's office, physical therapy, etc.), you may want to know more about these programs and terms. They may help you better understand your benefits and how your health plan manages these types of care.

Utilization management

Utilization management (UM) is a program that is part of your health plan. It lets us make sure you're getting the right care at the right time. Our UM review team, made up of licensed health care professionals such as nurses and doctors, do medical reviews. The team goes over the information your doctor has sent us to see if the requested surgery, treatment or other type of care is medically needed. The UM review team checks to make sure the treatment meets certain rules set by your health plan. After reviewing the records and information, the team will approve (cover) or deny (not cover) the treatment. The UM review team will let you and your doctor know as soon as possible.

We can do medical reviews like this before, during and after a member's treatment. Here's an explanation of each type of review:

The prospective or pre-service review (done before you get medical care)

We may do a prospective review before a member goes to the hospital or has other types of service or treatment. Here are some types of medical needs that might call for a prospective review:

- A hospital visit
- An outpatient procedure
- Tests to find the cause of an illness, like magnetic resonance imaging (MRI) and computed tomography (CT) scans
- Certain types of outpatient therapy, like physical therapy or emotional health counseling
- "Durable medical equipment" (DME), like wheelchairs, walkers, crutches, hospital beds and more

The concurrent review (done during medical care and recovery)

We do a concurrent review when you are in the hospital or are released and need more care related to the hospital stay. This could mean services or treatment in a doctor's office, regular office visits, physical or emotional therapy, home health care, durable medical equipment, a stay in a nursing home, emotional health care visits and more. The UM review team looks at the member's medical information at the time of the review to see if the treatment is medically needed.

Managing your care if you need to go to a hospital or get certain medical treatment (continued)

The retrospective or post-service review (done after you get medical care)

We do a retrospective review when you have already had surgery or another type of medical care. When the UM review team learns about the treatment, they look at the medical information the doctor or provider had about you at the time the medical care was given. The team then can see if the treatment was medically needed.

Case management

Case managers are licensed health care professionals who work with you and your doctor to help you learn about and manage your health conditions. They also help you better understand your health benefits.

Preauthorization

Preauthorization is the process of getting approval from your health plan before you get services. This process lets you know if we will cover a service, supply, therapy or drug. We approve services that meet our standards for needed and appropriate treatment. The guidelines we use to approve treatment are **based on standards of care in medical policies, clinical guidelines and the terms of your plan**. As these may change, **we review our preauthorization guidelines regularly**. Preauthorization is also called "precertification," "prior authorization," or "pre-approval."

Here's how getting preauthorization can help you out:

Saving time. Preauthorizing services can save a step since you will know if you are eligible and what your benefits are before you get the service. The doctors in our network ask for preauthorization for our members.

Saving money. Paying only for medically necessary services helps everyone save. Choosing a doctor who's in our network can help you get the most for your health care dollar.

What can you do? Choose an in-network doctor. Talk to your doctor about your conditions and treatment options. Ask your doctor which covered services need preauthorization or call us to ask. The doctor's office will ask for preauthorization for you. Plus, costs are usually lower with in-network doctors.

If you choose an out-of-network provider, be sure to call us to see if you need preauthorization. Non-network providers may not do that for you. If you ever have a question about whether you need preauthorization, just call the preauthorization or precertification phone number on your ID card.

There are times when we may need to do a benefit review for a health care service you plan to receive or have already received. We do this to find out what your plan will cover for that service. During the review, we take a look at the terms, benefits, limitations and exclusions of your particular plan. This means we may check to see if your plan covers the service, if you've already reached a benefit limit for the service, and if you can see a provider outside of the network. We may also review other aspects of your plan.

Your rights and responsibilities as a member

As a member you have certain rights and responsibilities to help make sure that you get the most from your plan and access to the best care possible. That includes certain things about your care, how your personal information is shared and how you work with us and your doctors. It's kind of like a "Bill of Rights". And helps you know what you can expect from your overall health care experience and become a smarter health care consumer.

You have the right to:

- Speak freely and privately with your doctors and other health professionals about all health care options and treatment needed for your condition, no matter what the cost or whether it's covered under your plan.
- Work with your doctors in making choices about your health care.
- Be treated with respect, dignity, and the right to privacy.
- Privacy, when it comes to your personal health information, as long as it follows state and federal laws, and our privacy rules.
- Get information about our company and services, and our network of doctors and other health care providers.

- Give us your thoughts and ideas about any of the rules of your health care plan and in the way your plan works.
- Make a complaint or file an appeal about:
  - Your health care plan
  - Any care you get
  - Any covered service or benefit ruling that your health care plan makes
- Say no to any care, for any condition, sickness or disease, without it affecting any care you may get in the future; and the right to have your doctor tell you how that may affect your health now and in the future
- Participate in matters that deal with the company policies and operations.
- Get all of the most up-to-date information about the cause of your illness, your treatment and what may result from that illness or treatment from a doctor or other health care professional. When it seems that you will not be able to understand certain information, that information will be given to someone else that you choose.
- Get help at any time, by contacting your local insurance department.

Your rights and responsibilities as a member (continued)

You have the responsibility to:

- Choose any primary care physician (doctor), also called a PCP, who is in our network if your health care plan says that you to have a PCP.
- Treat all doctors, health care professionals and staff with courtesy and respect.
- Keep all scheduled appointments with your health care providers and call their office if you have a delay or need to cancel.

- To the extent possible, understand your health problems and work with your doctors or other health care professionals to make a treatment plan that you all agree on.
- Follow the care plan that you have agreed on with your doctors or health care professionals.
- Tell your doctors or other health care professionals if you don't understand any care you're getting or what they want you to do as part of your care plan.
- Follow all health care plan rules and policies.
- Let our Customer Service department know if you have any changes to your name, address or family members covered under your plan.
- Give us, your doctors and other health care professionals the information needed to help you get the best possible care and all the benefits you are entitled to. This may include information about other health care plans and insurance benefits you have in addition to your coverage with us.

For details about your coverage and benefits, please read your "Subscriber Agreement".

HIPAA NOTICE OF PRIVACY PRACTICES

This notice describes how health, vision and dental information about you may be used and disclosed, and how you can get access to this information with regard to your health benefits. Please review it carefully.

We keep the health and financial information of our current and former members private, as required by law, accreditation standards and our rules. This notice explains your rights. It also explains our legal duties and privacy practices. We are required by federal law to give you this notice.

Your Protected Health Information

We may collect, use, and share your Protected Health Information (PHI) for the following reasons and others as allowed or required by law, including the HIPAA Privacy rule:

For Payment: We use and share PHI to manage your account or benefits; or to pay claims for health care you get through your plan. For example, we keep information about your premium and deductible payments. We may give information to a doctor's office to confirm your benefits.

For Health Care Operations: We use and share PHI for our health care operations. For example, we may use PHI to review the quality of care and services you get. We may also use PHI to provide you with case management or care coordination services for conditions like asthma, diabetes, or traumatic injury.

For Treatment Activities: We do not provide treatment. This is the role of a health care provider such as your doctor or a hospital. But, we may share PHI with your health care provider so that the provider may treat you.

To You: We must give you access to your own PHI. We may also contact you to let you know about treatment options or other health-related benefits and services. When you or your dependents reach a certain age, we may tell you about other products or programs for which

Important legal information you should take time to read (continued)

you may be eligible. This may include individual coverage. We may also send you reminders about routine medical checkups and tests.

To Others: In most cases, if we use or disclose your PHI outside of treatment, payment, operations or research activities, we must get your OK in writing first. We must receive your written OK before we can use your PHI for certain marketing activities. We must get your written OK before we sell your PHI. If we have them, we must get your OK before we disclose your provider's psychotherapy notes. Other uses and disclosures of your PHI not mentioned in this notice may also require your written OK. You always have the right to revoke any written OK you provide. You may tell us in writing that it is OK for us to give your PHI to someone else for any reason. Also, if you are present and tell us it is OK, we may give your PHI to a family member, friend or other person. We would do this if it has to do with your current treatment or payment for your treatment. If you are not present, if it is an emergency, or you are not able to tell us it is OK, we may give your PHI to a family member, friend or other person if sharing your PHI is in your best interest.

As Allowed or Required by Law: We may also share your PHI, as allowed by federal law, for many types of activities. PHI can be shared for health oversight activities. It can also be shared for judicial or administrative proceedings, with public health authorities, for law enforcement reasons, and to coroners, funeral directors or medical examiners (about decedents). PHI can also be shared for certain reasons with organ donation groups, for research, and to avoid a serious threat to health or safety. It can be shared for special government functions, for workers' compensation, to respond to requests from the U.S. Department of Health and Human Services and to alert proper authorities if we reasonably believe that you may be a victim of abuse, neglect, domestic violence or other crimes. PHI can also be shared as required by law.

If you are enrolled with us through an employer sponsored group health plan, we may share PHI with your group health plan. We and/or your group health plan may share PHI with the sponsor of the plan. Plan sponsors that receive PHI are required by law to have controls in place to keep it from being used for reasons that are not proper. If your employer pays your premium or part of your premium, but does not pay your health insurance claims, your employer is not allowed to receive your PHI — unless your employer promises to protect your PHI and makes sure the PHI will be used for legal reasons only.

Authorization: We will get an OK from you in writing before we use or share your PHI for any other purpose not stated in this notice. You may take away this OK at any time, in writing. We will then stop using your PHI for that purpose. But, if we have already used or shared your PHI based on your OK, we cannot undo any actions we took before you told us to stop.

Genetic Information: We cannot use or disclose PHI that is an individual's genetic information for underwriting.

Your Rights

Under federal law, you have the right to:

- Send us a written request to see or get a copy of certain PHI or ask that we correct your PHI that you believe is missing or incorrect. If someone else (such as your doctor) gave us the PHI, we will let you know so you can ask them to correct it.

Important legal information you should take time to read (continued)

- Send us a written request to ask us not to use your PHI for treatment, payment or health care operations activities. We are not required to agree to these requests.
- Give us a verbal or written request to ask us to send your PHI using other means that are reasonable. Also let us know if you want us to send your PHI to an address other than your home if sending it to your home could place you in danger.
- Send us a written request to ask us for a list of certain disclosures of your PHI.
- Right to a restriction for services you pay for out of your own pocket: If you pay in full for any medical services out of your own pocket, you have the right to ask for a restriction. The restriction would prevent the use or disclosure of that PHI for treatment, payment or operations reasons. If you or your provider submits a claim to Anthem, Anthem does not have to agree to a restriction (see Your Rights section above). If a law requires the disclosure, Anthem does not have to agree to your restriction.

Call Customer Service at the phone number printed on your identification (ID) card to use any of these rights. They can give you the address to send the request. They can also give you any forms we have that may help you with this process.

How we protect information

We are dedicated to protecting your PHI. We set up a number of policies and practices to help make sure your PHI is kept secure. We have to keep your PHI private. If we believe your PHI has been breached, we must let you know.

We keep your oral, written, and electronic PHI safe using physical, electronic, and procedural means. These safeguards follow federal and state laws. Some of the ways we keep your PHI safe include offices that are kept secure, computers that need passwords, and locked storage areas and filing cabinets. We require our employees to protect PHI through written policies and procedures. The policies limit access to PHI to only those employees who need the data to do their job. Employees are also required to wear ID badges to help keep people, who do not belong, out of areas where sensitive data is kept. Also, where required by law, our affiliates and non-affiliates must protect the privacy of data we share in the normal course of business. They are not allowed to give PHI to others without your written OK, except as allowed by law.

Potential Impact of Other Applicable Laws

HIPAA (the federal privacy law) generally does not preempt, or override other laws that give people greater privacy protections. As a result, if any state or federal privacy law requires us to provide you with more privacy protections, then we must also follow that law in addition to HIPAA.

Complaints

If you think we have not protected your privacy, you can file a complaint with us. You may also file a complaint with the Office for Civil Rights in the U.S. Department of Health and Human Services. We will not take action against you for filing a complaint.

We reserve the right to change this notice. A revised notice will apply to PHI we already have about you as well as any PHI we may get in the future. We are required by law to follow the privacy notice that is in effect at this time. We may tell you about any changes to our notice in a number of ways. We may tell you about the changes in a member newsletter or post them on our website. We may also mail you a letter that tells you about any changes.
