<input type="checkbox"/>	20%	20%	60%
Poor	Satisfactory	Good	Excellent

h) Are there any topics you would like to address for the next workshop or any other prospective educational activities?

- Falls prevention
- Palliative Care

i) please provide any comments you have regarding the venue (i.e. accessibility, car parking etc)

- Venue good- although difficult to gain access as the door on port road was locked. No signs or meeter/greeter from AIM around. Then after walking around to the back and gaining access by car park- all door to gain entry were locked!!!
- Registration at 8.30am- Door on Port Road locked. No signage or indication where to go. Very confusing. A person remaining at the front door to inform and direct would have been more welcoming for people who have not attended the venue before.
- Car parking great on Saturday morning. I was not aware of the car park entrance until I walked around the block.

j) Other comments:

- I could not make the entire day because I worked night duty
- Organisation and flow of the conference was outstanding. Thanks to Justin I gained a lot from networking with the other attendees and speakers.
- Disappointing numbers. Needs to be advertised more widely. Perhaps we could repeat it for other divisions- They could pay.
- I enjoyed each presentation and thank you for the opportunity to come to the conference.

Thank you for your feedback – it will assist us to continually improve our programs.
