The students have a large number of practical papers (two practical papers per semester). They also undergo two mini projects in the Second and Third year of study to get them a first hand experience in software development. In the sixth semester, students undergo project training of six months duration in reputed companies.

In the first year, Students learn “Communicative English” as an additional paper for improving the communication skills.

Extra credit course on “Hardware Maintenance & Troubleshooting”, “Network Maintenance & Administration”, “Internet & Web Page Design”, “Flash” and “Photoshop” are offered by the Department.

Institution develops software for its needs. The Examination work, Office work, College website, Online testing software, Library management software and student counselling and admission software have been developed by our M.C.A. Students.
