INDEPENDENT AUDITOR'S REPORT

County Board of Commissioners
Lincoln County
North Platte, Nebraska 69101

Board Members:

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nebraska as of and for the year ended June 30, 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County Board. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As described in Note 1, these financial statements were prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective cash balances of the governmental activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nebraska as of June 30, 2009, and the respective changes in cash balances thereof for the year then ended in conformity with basis of accounting described in Note 1.

The management's discussion and analysis and the budgetary comparison information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

Independent Auditor's Report
Page 2

My audit was performed for the purpose of forming an opinion on the cash basis financial statements that collectively comprise Lincoln County's basic financial statements. The other supplementary information as listed in the financial section of the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the cash basis financial statements. Such information has been subjected to the auditing procedures applied in the audit of the respective financial statements, and in my opinion, is fairly stated in all material respects, in relation to the financial statements taken as a whole.

In accordance with *Government Auditing Standards*, I have also issued my report dated November 13, 2009 on my consideration of Lincoln County, Nebraska's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. This report is an integral part of an audit conducted in accordance with *Government Auditing Standards*, and should be considered in assessing the results of my audit.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

**LINCOLN COUNTY, NEBRASKA
MANAGEMENT DISCUSSION AND ANALYSIS**

This section of Lincoln County's financial report presents a narrative overview and analysis of the financial activities of the County for the fiscal year ending June 30, 2009. Please read it in conjunction with the County's financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to Lincoln County's basic financial statements. The County's basic financial statements have three components: 1) government – wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains information in addition to the basic financial statements.

Government- Wide Financial Statements. The Statement of Net Assets – Cash Basis and the Statement of Activities – Cash Basis provide a broad overview of the County's overall financial status. Over time, increases or decreases in the County's net assets are one indicator of whether its financial health is improving or deteriorating. The County's financial statements are prepared on the cash basis of accounting and do not include capital assets, or accounts receivable and payable, which would need to be considered to assess the financial health of the County. Non-financial factors also need to be considered to assess the overall health of the County. Government-wide financial statements divide the County into two kinds of activities:

Governmental Activities – The County's basic service are included here. These activities are generally financed through taxes, charges for services, and State and Federal grants/contributions.

Component Units – No component units for the County were identified.

Fund Financial Statements. Fund financial statements focus on the individual parts of the County, reporting the County's operations in more detail than the government-wide statements by providing information about the County's most significant "major" funds. Funds are accounting devices used to keep track of specific sources of funding and spending for particular purposes.

The governmental funds statements tell how general governmental activities were financed in the short term as well as what remains for future spending.

Fiduciary funds statements provide information about financial relationships in which the County acts solely as a trustee or agent for the benefit of others. Fiduciary funds are not included on the government-wide statements.

Notes to the Financial Statements. The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide essential information necessary for fair presentation of the financial statements.

Supplementary Information. This Management Discussion and Analysis and the Budgetary Comparison Schedules represent financial information which provides users of this report with additional data that supplements the government-wide statements, fund financial statements, and notes. This report also includes optional financial information such as combining statements for non-major funds (which are shown in the fund financial statements in a single column), budgetary comparison information for non-major funds, a schedule of office activities, and a schedule of taxes certified and collected for political subdivisions in the County. This information is provided to address specific needs of various users of the report.

BASIS OF ACCOUNTING

The County’s financial statements are presented on the cash basis of accounting, which is a basis of accounting other than generally accepted accounting principles. Basis of accounting is a reference to when financial events are recorded, such as the timing of recognizing revenues, expenses, and related assets and liabilities. Under the cash basis of accounting, receipts and disbursements and related assets and liabilities are recorded when they result from cash transactions.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for good or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. Also, capital assets (land, buildings, furniture, equipment and infrastructure) and the related depreciation are not recorded. Therefore, when reviewing the financial information and discussion within this report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Certain funds experienced noteworthy changes from the prior year and are highlighted as follows:

** The dramatic percentage increases in assets and capital outlay disbursements is due to the construction of a new Sheriff's Office and Detention Center. The sale of bonds to finance the project was approved by the voters of Lincoln County at the General Election in 2008.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final budget can be summarized as follows:

** The budget was amended to allow expenditures for the construction of a county jail facility. Funds for the construction will be provided by the sale of bonds as approved by the voters of Lincoln County.

CAPITAL ASSET

As noted earlier, the financial statements are presented on the cash basis of accounting and therefore do not include capital assets.

LONG TERM COMMITMENTS:

Following is a description of long-term commitments activity during the year:

1. Road Equipment lease in the amount of \$171,244.49 remaining as of June 30, 2009.
2. Jail Bond principal in the amount of \$15,230,000 as of June 30, 2009.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Describe any currently known facts or conditions expected to have a significant effect on net assets or receipts, disbursements, changes in net assets, budget and tax levies:

Insurance rates are expected to increase again in the health insurance line item. This is an item over which the county has no control and would anticipate increases in the next budget year. Lincoln County has tried to be proactive and as July 1, 2009 has changed to a \$1500 deductible with the county self-funding the difference in the deductible for the employees. Lincoln County has contracted with a third party administrator to facilitate the program. We anticipate savings by having a lower premium and not all employees meeting the deductible amount.

Insurance rates for liability, motor vehicles and workmen's compensation are also anticipated to increase.

Lincoln County is beginning construction of our new Sheriff's Office and Detention Center and these costs will have a large impact on the financial statements for the next year.

Declining interest rates have had an adverse effect on the interest earned by the County.

The economy of the nation may have an adverse effect on property tax collections and property valuations.

LINCOLN COUNTY, NEBRASKA

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies and procedures adopted by Lincoln County, Nebraska:

A. Reporting Entity:

A Reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the county are not misleading. The County, for financial purposes, includes all of the funds relevant to the operation of Lincoln County. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from Lincoln County. The financial statements of the County include those of separately administered organizations that are controlled by, or dependent on, the County. Control or dependence is determined on the criteria of appointing a voting majority of an organization's governing body and (1) the ability of the county to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the county.

Other individual County offices maintain accounting records and account for monies received and disbursed directly by these offices. Only that portion of these monies which is subsequently receipted by the County Treasurer is reflected in the County's financial statements. Accountabilities of the monies for the various other offices of the county is presented on Schedule 8 of this report.

B. Basis of Presentation:

Government-wide Financial Statements:

The Statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government.

The statement of net assets presents the county's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in two categories:

Restricted Net Assets – result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation. The amount of restricted net assets was \$14,539,385 as of June 30, 2009.

Unrestricted Net Assets– have constraints on resources that are imposed by management, but can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function.

LINCOLN COUNTY, NEBRASKA

NOTES TO FINANCIAL STATEMENTS - CONTINUED

For the Year Ended June 30, 2009

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued):

Government-wide Financial Statements (Concluded):

Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contribution that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements:

During the year, the county segregates transactions related to certain county functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the county at this more detailed level. The county uses two categories of funds, governmental and fiduciary. The focus of governmental fund financial statements is on the major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

The following are Lincoln County's major governmental funds:

General Fund:

The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the county for any purpose provided it is expended or transferred according to the general laws of Nebraska.

Road Fund (Special Revenue):

The Road Fund is used to account for revenues and expenditures for necessary road and bridge construction and improvements in accordance with Nebraska State Statute.

Inheritance Tax (Special Revenue):

The Inheritance Tax Fund is used to account for inheritance tax collected in accordance with Nebraska State Statute. The fund balance is available to the county for any purpose.

Jail Building (Capital Project):

The Jail Building Fund is used to account for the proceeds of a bond issuance, and the expenditure of such funds for the purpose of constructing a new jail.

Fiduciary Funds:

Fiduciary fund reporting focuses on net assets and changes in net assets. The County's only fiduciary funds are agency funds. The agency funds account for assets held by the County for political subdivisions in which the county acts as a fiscal agent and for taxes, state-levied shared revenues, and fines and forfeitures collected and distributed to other political subdivisions.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

B. Basis of Presentation (Concluded):

Reservation of Fund Balance:

Reservations of fund balances are reported for amounts that are not available for appropriations or are legally restricted by outside parties for use for a specific purpose.

C. Basis of Accounting:

The funds of the County and the financial statements have been prepared on the cash receipts and disbursements basis of accounting. Revenues are taken into account only when received by the county and expenditures are recorded when warrants are issued. This differs from generally accepted accounting principles, which require governmental fund accounting to follow the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become susceptible to accrual and obligations are generally recognized when they are incurred.

D. Capital Assets:

Capital assets, which include property, equipment and vehicles, and infrastructure assets (e.g., roads, bridges, culverts, and similar items which are immovable and of value only to the government), are not reported in the governmental activities column in the government-wide statement of net assets. The capital assets acquisitions are reflected as expenditures in governmental funds, and not capitalized.

E. Revenue Recognition – Property Taxes:

Property taxes are levied by October 15 based on valuations as of April 1. Real Estate taxes become due and attach as an enforceable lien on property as of December 31. Real Estate and Personal Property taxes are payable in two installments and become delinquent on May 1 and September 1, following the levy date. Motor Vehicle taxes are due when application is made for registration of a Motor Vehicle. Counties are permitted by the State Constitution to levy a tax of up to \$.50/\$100 of assessed valuation for general governmental services, except that \$.05 of \$100 of taxable valuation of property subject to the levy may only be levied to provide financing for the County's share of revenue required under an agreement executed pursuant to the Inter-local Cooperation act. The County may allocate up to fifteen cents of its authority to other political subdivisions including: Fire Districts, Cemetery Districts, and a Historical Society. The County may levy taxes in addition to the .50-cent limitation upon a vote of the people.

The levy set in October, 2008 for 2008 taxes which will be materially collected in May and September, 2009, was set at \$.305920/\$100 of assessed valuation. Assessed valuation for Lincoln County for the 2008 tax levy was \$2,715,094,898.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONCLUDED):

E. Revenue Recognition – Property Taxes (Concluded):

Additionally, there is currently a legislatively imposed lid limitation, which limits taxation to the prior year's level, with provisions for growth and the reduction of state aid. It may be increased by 2.5%, plus allowable growth, and an additional 1% by a three-fourths majority of the County Board, or to any level by a vote of the people in the county.

NOTE 2: CASH AND POOLED INVESTMENTS:

The County Treasurer has generally pooled the cash resources of the various funds for investment purposes. Cash and cash equivalents are considered to be cash on hand and demand deposits. Interest earned on pooled funds is credited to the County General Fund in accordance with Section 77-2315, R.R.S. 1943. Investments made specifically from and for a particular fund are summarized as "Designated Investments". Interest on these investments is credited to the fund from which the investment is made, also in accordance with the above-cited statute.

The types of investments the County is authorized to invest funds in are enumerated in State Statutes and generally include U.S. government obligations, certificates of deposit, time deposits and securities in which the state investment officer is authorized to invest. As defined by Governmental Accounting Standards Board Statement #3, the County had no investments as of June 30, 2009.

Lincoln County is a participant in an external investment pool, the Nebraska Public Agency Investment Trust (NPAIT). NPAIT is a separate legal and administrative entity organized and existing pursuant to the Inter-Local Cooperation Act and other Nebraska law. NPAIT was established as of July 11, 1996, by the adoption of an Inter-Local Agreement and Declaration of Trust by the Initial Participants and Settlers. The County Treasurer had \$12,453,862 invested with NPAIT as of June 30, 2009. Securities held by NPAIT are not held in the County's name.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government policy requires pledged securities to be at least 120% of the amount of deposits over and above the amounts insured by the FDIC. State law restricts the type of collateral securities allowed. The deposits for Lincoln County as of June 30, 2009 were entirely covered by federal depository insurance or by collateral securities pledged to the County Treasurer and held by the safekeeping department of the depository's correspondent bank.

NOTE 4: RETIREMENT PROGRAM:

The Retirement Program for Nebraska Counties is a multiple-employer cash balance benefit plan or a defined contribution plan administered by the Nebraska Public Employees Retirement Board (NPERB) in accordance with the provisions of the County Employees Retirement Act beginning at State Statute Section 23-2301.

Each member who is employed and participating in the retirement system prior to January 1, 2003, may either elect to continue participation in the defined contribution benefit plan or elect to participate in the cash balance benefit plan. All new members as of January 1, 2003 will participate in the cash balance benefit plan. In a cash balance benefit plan, benefits depend on amounts contributed to the plan plus interest credits. In a defined contribution plan, benefits depend on amounts contributed to the plan plus investment earnings. All elected officials and full-time employees who have attained the age of twenty will begin immediate plan participation upon hire. Permanently employed part-time employees may exercise the option to begin immediate participation. Employees contribute 4.5% of their salary and the county match is 6.75% of the salary. Commissioned law enforcement personnel employed by the county contribute 5.5% of their salary and the county match is 7.75% of the salary. The employee and employer's contributions are kept in separate accounts. The employer's account is fully vested. The employee's account is vested 100% after three years participation in the plan. Prior service benefits are paid directly by the County to the retired employee. The county's contributions to NPERB for the years ended June 30, 2009, 2008, and 2007 were \$428,354, \$415,453, and \$378,029, respectively. LINCOLN COUNTY, NEBRASKA

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY REPORTING**

For the Year Ended June 30, 2009

NOTE 1: GAAP REQUIREMENTS:

Generally Accepted Accounting Principles (GAAP) requires budgetary comparison schedules for the General Fund, and for each major special revenue funds that have a legally adopted annual budget. GAAP further requires the budgetary comparison schedules to include the original budget and final budget amounts. The original budget is the first complete appropriated budget adjusted by reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes before the beginning of the fiscal year. The final budget is the original budget adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes applicable to the fiscal year as approved by the County Board.

NOTE 2: BUDGET POLICY:

The County follows these procedures in establish the budgetary data reflected in the schedules in accordance with the statutory requirements of the Nebraska Budget Act.

On or before August 1 the finance committee or other designated budget-making authority prepares and transmits a budget for each County fund showing the requirements, the outstanding warrants, the operating reserve to be maintained, the cash on hand at the close of the preceding fiscal year, the revenue from sources other than taxation, and the amount to be raised by taxation. The budget, like the County financial statements, is prepared on the cash receipts and disbursements basis of accounting. The budget contains only those revenues, which have actually been received by the County Treasurer.

The County Board must hold at least one public hearing. Prior to September 20, after the action of the State Board of Equalization and Assessment has been certified to the County Clerk, the budget, as revised, is adopted and the amounts provided therein are appropriated.

The County Board is authorized to transfer budgeted amounts between departments within any fund through resolution; however, revisions that alter the total expenditures of any fund require that an additional public hearing be held. Appropriations lapse at year-end.

NOTE 3: AMENDED BUDGETS:

The Adv., Insurance and Bonds budget within the general fund was properly amended per state statute by transferring \$24,040 budget authority from miscellaneous general.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

County Board of Commissioners
Lincoln County
North Platte, Nebraska 69101

Board Members:

I have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lincoln County, Nebraska, as of and for the year ended June 30, 2009, which collectively comprise the County's basic financial statements and have issued my report thereon dated November 13, 2009. The report notes the financial statements were prepared on the basis of cash receipts and disbursements. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Lincoln County's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lincoln County's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Lincoln County's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, I identified certain deficiencies in internal control over financial reporting that I consider to be a significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects Lincoln County's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such there is more than a remote likelihood that a misstatement of Lincoln County's financial statements that is more than inconsequential will not be prevented or detected by Lincoln County's internal control.

Report on Internal Control over Financial
Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed
In Accordance With *Government Auditing Standards*

Page 2

I consider the following deficiency to be a significant deficiency in internal control over financial reporting:

The County Offices had a lack of segregation of duties since one person could handle all aspects of processing a transaction from beginning to end. Good Internal Control includes a plan of organization, procedures, and records designed to safeguard assets and provide reliable financial records.

Management Response: Due to a limited number of personnel, an adequate segregation of duties may not be possible without additional cost.

A material weakness is a significant deficiency or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Lincoln County's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and accordingly would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, I consider the lack of segregation of duties described above to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lincoln County's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use by County Board, management, the Nebraska State Auditor's Office and other state and federal regulatory authorities, is not intended to be, and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH
OMB CIRCULAR A-133

County Board of Commissioners
Lincoln County
North Platte, Nebraska 69101

Compliance

I have audited the compliance of Lincoln County with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. Lincoln County's major federal programs are identified in the summary of auditor's result section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Lincoln County's management. My responsibility is to express an opinion on Lincoln County's compliance based on our audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lincoln County's compliance with those requirements and performing such other procedures, as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of Lincoln County's compliance with those requirements.

In my opinion, Lincoln County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of Lincoln County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs.

Report on Compliance With Requirements
Applicable to Each Major Program and on
Internal Control Over Compliance In
Accordance with OMB Circular A-133

Page 2

In planning and performing my audit, I considered Lincoln County's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Lincoln County's internal control over compliance.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects Lincoln County's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by Lincoln County's internal control.

A material weakness is a significant deficiency or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by Lincoln County's internal control.

My consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider material weaknesses, as defined above.

This report is intended solely for the information and use of the County Board, management, the Nebraska State Auditor's Office and federal awarding agencies and pass-through entities and is not intended to be, and should not be used by anyone other than those specified parties.

LINCOLN COUNTY, NEBRASKA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONCLUDED)
YEAR ENDED JUNE 30, 2009

SECTION II - FINANCIAL STATEMENT FINDING

2009-1 Lack of Segregation of Duties:

Good internal control requires authorization or approval of transactions, recording of transactions, and custody of assets should normally be segregated from each other.

During my audit, I noted that there is a lack of segregation of accounting functions among various county offices and personnel. This lack of segregation of duties results in an inadequate overall internal control structure design.

The County should be aware of the inherent risks associated with improper segregation of accounting functions. The County should also develop mitigating controls to reduce the risk of errors or fraud associated with improper segregation of accounting functions.

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS
