- MADE IN THE USA
- DEVELOPED BY LEE CULP, CDT

ZEUS ZIP is a Zirconia Implant-retained Prosthesis that helps dentists treat the rapidly growing number of edentulous patients. Made of all Zirconia, ZEUS ZIP is more durable and esthetic than the often high-maintenance hybrid denture alternatives, which makes it easier to clean and more convenient.

To create a predictable treatment experience for patients, MicroDental uses a unique and systemized three-step appointment verification process. The custom ZEUS ZIP verification temporary ensures fit, so no chairside adjustments of the final Zirconia product are needed. Our CAD design experts and higher performance mills provide a predictable result and a variety of esthetic options. This includes monolithic and layered ZEUS ZIP—the only ZIP to offer a digital cutback and micro-layering option to enhance esthetics. Two fixed rate packages are available:

MONOLITHIC ZEUS ZIRCONIA IMPLANT-RETAINED PROSTHESIS.....\$5,800
Includes denture transfer/setup, verification temp, monolithic ZEUS Zirconia bridge, 4 implant sites. Additional implant sites \$500 per site.

LAYERED ZEUS ZIRCONIA IMPLANT-RETAINED PROSTHESIS.....\$6,800
Includes denture transfer/setup, verification temp, facially layered ZEUS Zirconia bridge, 4 implant sites. Additional implant sites \$500 per site.

ESTHETIC TEMPORARY.....\$750
