

Anomalous Aortic Origin of a Coronary Artery (AAOCA) Study

REASON FOR DIAGNOSIS

Study Number: _____ Institution Code: _____

Reason for diagnosis:

☐ Asymptomatic

☐ Murmur

☐ Screening evaluation for:

☐ Family history of congenital heart disease

☐ Family history of sudden death

☐ Family history of coronary anomaly

☐ Routine sports screening

☐ Other, specify: _____

☐ Other congenital heart disease, specify: _____

☐ Symptomatic

Date of Symptom Onset (mm/dd/yyyy)

☐ Chest pain / /

☐ Chest pain with exercise / /

☐ Presyncope / /

☐ Presyncope with exercise / /

☐ Syncope / /

☐ Syncope with exercise / /

☐ Palpitations / /

☐ Arrhythmia / /

☐ Gastrointestinal symptoms / /

☐ Aborted sudden death / /

☐ Myocardial infarction / /

☐ Other _____ / /
