

# Region 4 MCIR News

## Michigan Care Improvement Registry (MCIR) Summer 2012

### MCIR Updates

#### HPV Vaccine Assessment

- MCIR is **now assessing and forecasting for male HPV4 (Gardasil) doses**. HPV4 (Gardasil) is the only vaccine licensed for use in males.
- MCIR **forecasting for both female and male doses will be displayed as** accelerated at 9 years of age, recommended at 11 years of age and overdue at 12 years of age. Doses of HPV4 (Gardasil) and HPV2 (Cervarix) vaccines administered to persons less than 9 years of age will display in MCIR as a dose administered, but will be flagged as invalid "due to does not meet minimum age."
- **HPV2 (Cervarix) and HPV Historical doses** entered as administered to males and gender unspecified will display in MCIR as a dose administered, but will be flagged invalid based on "vaccine not licensed for use." MCIR will forecast for a dose of HPV4 (Gardasil).
- For more information on HPV vaccines please review the MDCH Quick Look at:  
[http://www.michigan.gov/documents/mdch/3QuickLookHPV032608\\_230841\\_7.pdf](http://www.michigan.gov/documents/mdch/3QuickLookHPV032608_230841_7.pdf)

#### New MCIR Functionality and Enhancements

- PCV13 message has been removed from Recall letters.
- Rotavirus is no longer shown as being due on Recall letters for children too old to receive vaccine.
- Gender filter is available for Profile and AFIX reports. Options are Male, Female or ALL. The Default is ALL
- Hepatitis A and Rabies is added to the Titer/Immunity Antigens dropdown list on the Add Immunizations screen.

#### New Vaccines for Children (VFC) Inventory/E-Ordering Functionality and Enhancements

- Shipping Information on the Vaccine Order screen is enhanced to allow users to pick a "Ship to" person from a dropdown list of contact names. This name is saved as the shipping contact for the site and will also appear on the box shipping label.
- Shipping Hours Tab is changed to VFC Shipping on the Site Information screen. This tab now includes the shipping contacts, shipping address and shipping hours, which automatically updates if changed during the ordering process to reflect closure for holidays, vacations or other special closing hours.
- Notification emails will be received by the person who ordered when a VFC order is submitted or adjusted by the Local Health Department or the Michigan Department of Community Health.
- Order Confirmation screen has changed with the "Continue Order" button now labeled "Submit Order."
- Cervarix has returned to e-ordering for the VFC program in the new presentation of 10 pack single dose syringes.
- Shipping hours now include both AM and PM indications.

## Don't Forget

- When adding a new record into MCIR put the middle name in the middle name field and not in the same field as the first name. Also use the suffix field for Jr., Sr., etc. instead of inserting the suffix next to the last name. This will make it easier to find a person in MCIR.
- Notify the Region 4 Helpdesk when there is a **change of supervising physician** for your office. A new MCIR agreement will need to be completed to reflect that change. Also let Region 4 MCIR know if your office has moved or a MCIR user has left so that those changes can be updated in MCIR.
- Remember that **your User ID and Password can be moved** from one MCIR site to another MCIR site if changing offices. A new ID and Password **does not** need to be created when changing to another worksite with MCIR access. A user can also be attached to more than one MCIR site if they work at multiple offices. Immunizations should always be entered under the MCIR site for the office that provided the shots. Contact the Region 4 MCIR Helpdesk for assistance.
- Submit corrections that you are unable to make in MCIR records to the Region 4 MCIR Helpdesk on the Petition for Modification form available at <http://www.gchd.us/Services/CommunityHealth/MCIR/P4Mform.pdf>. FAX the form to 810-257-3809.

## Contest !

### Answer the following questions for a chance to win!

Participants with all the correct answers will be placed in a drawing for the **choice of a \$10 gift card from either Target or McDonalds**. Email or FAX the answers to the Region 4 office by **August 20, 2012**.

- MCIR is now assessing and forecasting for \_\_\_\_\_.
- Notify the Region 4 Helpdesk when there is a change of \_\_\_\_\_ for your office.
- Your \_\_\_\_\_ can be moved from one MCIR site to another MCIR site if changing offices.

Congratulations to our **Spring 2012** contest prize winner **Pat Entrekin** from the office of **Dr. Bruce Forsyth** at **St. Mary's Chesaning Health Center** in Chesaning.

### Wondering if you answered correctly last time? The answers for the **Spring 2012** contest were:

- MCIR is now assessing for routine adolescent doses of **MCV4**.
- The **No Inventory Vaccine Report** will identify those doses that did not deduct during transfer of data.
- Always enter **other provider** immunizations as **Historical** from the Type drop down on the Add Immunizations screen.
