## CITY COUNCIL AGENDA BILL

---

**Subject:**

Sammamish Commons Park – Sween House Renovations (Phase IIC) – Authorization of Construction Contract

**Meeting Date:** September 1, 2009

**Date Submitted:** August 26, 2009

**Originating Department:** Parks and Recreation

**Clearances:**

**City Manager**

**Police**

**Public Works**

**Fire**

**Building/Planning**

**Attorney**

**Action Required:**

Authorize the City Manager to award and execute a contract with Elite Commercial Contracting for the Sween House renovations at the Sammamish Commons Park.

**Exhibits:**

1. Bid Tab
2. Construction Contract

---

**Budgeted Amount:** \$268,000 is allocated in the 2009-10 General Capital Improvement Fund for the Sween House Remodel. An additional \$775,000 is allocated in the Parks CIP as capital contingency.

---

**Summary Statement:**

The Sween House is an existing City-owned building, formerly a private residence, located in the Lower Sammamish Commons. The proposed renovation will convert the building to office space for use as a youth counseling center. The space will be leased to Youth Eastside Services (YES), a local non-profit, who will be working in partnership with Friends of Youth to provide counseling services to the Sammamish Community. The lease agreement is scheduled for council review and approval at the meeting on Tuesday, September 15.

The existing Sween House structure consists of a basement (481 sf) and main floor (2,284 sf). The main floor will be renovated as office space. The existing garage will be converted to a conference room. Plumbing, electrical, and communications systems, as well as ADA compliance and access will be brought up to date with current code.

The basement will be used for storage by the City's maintenance department. A small amount of potential mold abatement work is necessary in the basement, and is not included in the current contract. Staff are following up on this work item separately.

The Exterior work includes demolition of the existing solarium, a new composition roof and painting. Parking and access for the Sween House is being constructed as part of the Phase IIB Parking lot improvement project, currently underway at the Lower Sammamish Commons. This project is expected to reach substantial completion by November of this year.

The design package for these improvements was advertised for public bid in August 2009. Bids were opened on August 18, 2009 and a total of 7 bids were received. Staff evaluated the bids and Elite Commercial Contracting was identified as the lowest responsible bidder.

The bid included a total of seven schedules (A through G); 'Schedule A' was the base bid and the rest of the schedules were deductive alternates, proposed due to a limited construction budget for the renovation. In accordance with the contract documents, the lowest responsible bid was based on the total bid price for all schedules.

Staff proposes to award 'Schedule A' which includes all the proposed improvements in the construction drawings and specifications, as it is well within the available funds for the project.

### **Background:**

A preliminary evaluation of the Sween House was done by RVLA, Inc. P.S. in the Spring of 2008. A structural evaluation, an HVAC evaluation, project cost estimates, and a list of improvements were identified as part of the preliminary work. The conceptual design and layout were approved by YES and Friends of Youth.

In September 2008, a contract was awarded to Johnston Architects, PLLC to prepare construction documents for the Sween House Remodel. A conditional use permit and a building permit were obtained on July 31, 2009.

Construction is expected to be complete by the end of this year.

### **Financial Impact:**

A total of \$268,000 is allocated in the 2009-2010 General Capital Improvement Fund for the Sween House Remodel. This amount is intended to fund construction, remaining design costs, and the anticipated mold abatement project.

The total authorization amount requested for this agenda bill is \$239,113.88. This includes a total bid price of \$219,113.88 and a \$20,000.00 construction contingency to be administered by the City Manager.

The total budget for the Sween House Remodel project is \$300,000, a portion of which was spent in 2008 for consulting services (design, survey, structural assessment, etc.) A summary of project expenses follows:

Consultant Services	\$ 42,490.00
Construction Contract	\$ 219,113.88
Capital Project Contingency	<u>\$ 20,000.00</u>
	<b>\$ 281,603.88</b>

The only remaining anticipated expense is a small mold abatement project for the basement of the house. Cost estimates are not yet available for this aspect of the project.

**Recommended Motion:**

Move to accept the bid from Elite Commercial Contracting as the lowest responsible and responsive bid for the Sween House Renovations project at the Sammamish Commons Park and authorize the City Manager to award Schedule A and execute a contract with Elite Commercial Contracting in the amount of \$219,113.88 and to administer a \$20,000.00 construction contingency on the project.

## City of Sammamish - BID OPENING

Department of Parks and Recreation  
Sammamish Commons Park - Sween House Renovations

### Notes:

Schedule A Sween House Renovations - Base Bid

Schedule B Deductive Bid Alternate #1 - Flooring (Carpet in lieu of new wood flooring)

Schedule C Deductive Bid Alternate #2 - Re-Roofing (Patch & Repair ex. wood shingle roof in lieu of replacing entire roof)

Schedule D Deductive Bid Alternate #3 - Exterior Re-Painting (Paint only areas affected by new construction)

Schedule E Deductive Bid Alternate #4 - Sound Isolation Clips (Do not provide sound isolation clips at all new interior walls)

Schedule F Deductive Bid Alternate #5 - Conference Room Windows (Do not install new windows; provide typical exterior wall assembly)

Schedule G Deductive Bid Alternate #6 - P1-6 Shear Walls (Do not install P1-6 Shear walls)

### Apparent Low Bidder: Elite Commercial Contracting

Construction Allowance: \$300,000

Lowest responsible bid is based on the **TOTAL BID PRICE for ALL** Schedules. All, none or any combination of bid schedules A through G may be awarded. (Award date anticipated September 1, 2009)

## CONSTRUCTION CONTRACT

THIS AGREEMENT, made and entered into this 2<sup>nd</sup> day of September, 2009 by and between THE CITY OF SAMMAMISH, Washington, a municipal corporation of the State of Washington, hereinafter referred to as "CITY" and Elite Commercial Contracting, Inc., hereinafter referred to as "CONTRACTOR."

### WITNESSETH:

- 1) The Contractor shall within the time stipulated, (to-wit: within 80 calendar days from date of commencement hereof as required by the Contract, of which this agreement is a component part) perform all the work and services required to be performed, and provide and furnish all of the labor, materials, appliances, machines, tools, equipment, utility and transportation services necessary to perform the Contract, and shall complete the construction and installation work in a workmanlike manner, in connection with the City's Project identified as Sammamish Commons Park – Sween House Renovations Project for improvement by construction and installation of: building renovations, associated demolition, asbestos abatement, roofing, painting, septic, electrical and communications systems, ADA compliance and access and other work, all in accordance with the attached Contract Plans, Special Provisions, and the 2008 (or most current) edition of the Washington State Department of Transportation Standard Specifications.

All the foregoing shall be timely performed, furnished, constructed, installed and completed in strict conformity with the plans and specifications, including any and all addenda issued by the City and all other documents hereinafter enumerated, and in full compliance with all applicable codes, ordinances and regulations of the City of Sammamish and any other governmental authority having jurisdiction thereover. It is further agreed and stipulated that all of said labor, materials, appliances, machines, tools, equipment and services shall be furnished and the construction installation performed and completed to the satisfaction and the approval of the City's Public Works Director as being in such conformity with the plans, specifications and all requirements of or arising under the Contract.

- 2) The aforesaid Contract, entered into by the acceptance of the Contractor's bid and signing of this agreement, consists of the following documents, all of which are component parts of said Contract and as fully a part thereof as if herein set out in full, and if not attached, as if hereto attached.
  - a) This Agreement
  - b) Instruction to Bidders
  - c) Project Proposal
  - d) Specifications
  - e) Maps and Plans
  - f) Bid
  - g) Advertisement for Bids
  - h) Special Provisions, if any
  - i) Addenda, if any and all modifications or changes issued pursuant to the Contract Documents

- 3) If the Contractor refuses or fails to prosecute the work or any part thereof, with such diligence as will insure its completion within the time specified in this Contract, or any extension in writing thereof, or fails to complete said work with such time, or if the Contractor shall be adjudged a bankrupt, or if he should make a general assignment for the benefit of his creditors, or if a receiver shall be appointed on account of the Contractor's insolvency, or if he or any of his subcontractors should violate any of the provisions of this Contract, the City may then serve written notice upon him and his surety of its intention to terminate the Contract, and unless within ten (10) days after the serving of such violation or non-compliance of any provision of the Contract shall cease and satisfactory arrangement for the correction thereof be made, this Contract, shall, upon the expiration of said ten (10) day period, cease and terminate in every respect. In the event of any such termination, the City shall immediately serve written notice thereof upon the surety and the Contractor and the surety shall have the right to take over and perform the Contract, provided, however, that if the surety within fifteen (15) days after the serving upon it of such notice of termination does not perform the Contract or does not commence performance thereof within thirty (30) days from the date of serving such notice, the City itself may take over the work under the Contract and prosecute the same to completion by Contract or by any other method it may deem advisable, for the account and at the expense of the Contractor, and his surety shall be liable to the City for any excess cost or other damages occasioned the City thereby. In such event, the City, if it so elects, may, without liability for so doing, take possession of and utilize in completing said Contract such materials, machinery, appliances, equipment, plants and other properties belonging to the Contractor as may be on site of the project and useful therein.
- 4) The foregoing provisions are in addition to and not in limitation of any other rights or remedies available to the City.
- 5) Contractor agrees and covenants to hold and save the City, its officers, agents, representatives and employees harmless and to promptly indemnify same from and against any and all claims, actions, damages, liability of every type and nature including all costs and legal expenses incurred by reason of any work arising under or in connection with the Contract to be performed hereunder, including loss of life, personal injury and/or damage to property arising from or out of any occurrence, omission or activity upon, on or about the premises worked upon or in any way relating to this Contract. This hold harmless and indemnification provision shall likewise apply for or on account of any patented or unpatented invention, process, article or appliance manufactured for use in the performance of the Contract, including its use by the City, unless otherwise specifically provided for in this Contract.

In the event the City shall, without fault on its part, be made a party to any litigation commenced by or against Contractor, then Contractor shall proceed and hold the City harmless and he shall pay all costs, expenses and reasonable attorney's fees incurred or paid by the City in connection with such litigation. Furthermore, Contractor agrees to pay all costs, expenses and reasonable attorney's fees that may be incurred or paid by City in the enforcement of any of the covenants, provisions and agreements hereunder.

- 6) Any notice from one party to the other party under the Contract shall be in writing and shall be dated and signed by the party giving such notice or by its duly authorized representative of such party. Any such notice as heretofore specified shall be given by personal delivery thereof or by depositing same in the United States mail, postage prepaid, certified or registered mail.
- 7) The Contractor shall commence performance of the Contract no later than 10 calendar days after Notice To Proceed, and shall complete the full performance of the Contract not later than eighty (80) calendar days from the date of commencement. For each and every working day of delay after the established day of completion, it is hereby stipulated and agreed that the damages to the City occasioned by said delay shall be a sum calculated and imposed in compliance with 2008 WSDOT Standard Specifications (or most current edition), Section 1-08.9, Liquidated Damages (and not as a penalty) for each such day, which shall be paid by the Contractor to the City.
- 8) Neither the final certificate of payment nor any provision in the Contract nor partial or entire use of any installation provided for by this Contract shall relieve the Contractor of liability in respect to any warranties or responsibility for faulty materials or workmanship. The Contractor shall be under the duty to remedy any defects in the work and pay for any damage to other work resulting therefrom which shall appear within the period of one (1) year from the date of final acceptance only that work listed in Group(s) none of the Summary of quantities in the Contract Plans, i.e. the "Federal Non-participating Items," unless a longer period is specified. However, all manufacturer's warranties or guarantees on electrical and mechanical equipment, consistent with those provided as customary trade practice, shall be assigned to the City at the time of project acceptance. The Contractor shall further be required to supply warranties or guarantees providing for satisfactory in-service operation of any mechanical and electrical equipment and related components involved in Group(s) none of the Summary of Quantities in the Contract Plans, i.e. "Federal Participating Items" for a period not to exceed 6 months following project acceptance. The City will give notice of observed defects as heretofore specified with reasonable promptness after discovery thereof, and Contractor shall be obligated to take immediate steps to correct and remedy any such defect, fault or breach at the sole cost and expense of Contractor.
- 9) The Contractor and each subcontractor, if any, shall submit to the City such schedules of quantities and costs, progress schedules, payrolls, reports, estimates, records and miscellaneous data pertaining to the Contract as may be requested by the City from time to time.
- 10) The Contractor shall furnish a surety bond or bonds as security for the faithful performance of the Contract, including the payment of all persons and firms performing labor on the construction project under this Contract or furnishing materials in connection with this Contract; said bond to be in the full amount of the Contract price as specified in Paragraph 11. The surety or sureties on such bond or bonds must be duly licensed as a surety in the State of Washington.

## CITY COUNCIL AGENDA BILL

---

**Subject:**

244<sup>th</sup> Avenue improvements: NE 8<sup>th</sup> Street to SE 8<sup>th</sup> Street – Wetland Construction Observation

**Meeting Date:** September 1, 2009

**Date Submitted:** August 24, 2009

**Originating Department:** Public Works

**Clearances:****Action Required:**

Authorize the City Manager to execute a contract with Shannon and Wilson, Inc. for wetland construction observation of the 244th Avenue improvements: NE 8th Street to SE 8th Street project.

**City Manager**

**Police**

**Public Works**

**Fire**

**Building/Planning**

**Attorney**

**Exhibits:**

1. Contract

---

**Budgeted Amount:** \$15,522,000 in the adjusted 2009-2010 project budget (Transportation Capital Improvement Fund and and Surface Water Capital Fund), including carry forward of unexpended project appropriations from the 2008 budget.

---

**Summary Statement:**

The Public Works Department recommends that the City Manager be authorized to execute a contract with Shannon and Wilson, Inc. for wetland construction observation services on the 244<sup>th</sup> Avenue Improvements project. The project includes construction of a bridge across a Class 1 wetland adjacent to Allen Lake. The corresponding bridge piers and abutments have a permitted impact on the wetland. This proposed contract provides construction observation services by a geotechnical and environmental consultant firm. The contract scope also includes the preparation of a detailed planting plan for the required wetland mitigation.

The existing construction plans and specifications provide direction for the construction practices and mitigation, but certain details of plant locations and depth of road removal and wetland restoration were left to be determined once the construction had begun to expose underlying conditions of the wetland allowing review by a geotechnical firm.

---

**Background:**

On June 2, 2009, City Council authorized the City Manager to accept Ceccanti, Inc. as the lowest responsible and responsive bidder for the construction of 244<sup>th</sup> Ave Improvements. Construction is currently underway. Wetland mitigation work is expected to begin early next year.

**Financial Impact:**

A total of \$15,522,000 is included in the current 2009/2010 budget (including carry forward of unexpended project appropriations from the 2008 budget) for the completion of this project. Construction costs, including construction management/inspection/design support and estimates for the remaining right of way purchases, wetland mitigation, utility relocation and construction contingency, and the costs associated with this contract are well within the budgeted amount.

**Recommended Motion:**

Authorize the City Manager to execute a contract with Shannon and Wilson, Inc. for wetland construction observation services on the 244<sup>th</sup> Avenue Improvements project in an amount not to exceed \$27,115.

**CITY OF SAMMAMISH  
AGREEMENT FOR SERVICES**

Consultant: SHANNON AND WILSON, INC.

This Agreement is entered into by and between the City of Sammamish, Washington, a municipal corporation, hereinafter referred to as the "City," and SHANNON AND WILSON, INC., hereinafter referred to as the "Consultant."

WHEREAS, the City desires to have certain services performed for its citizens; and

WHEREAS, the City has selected the Consultant to perform such services pursuant to certain terms and conditions;

NOW, THEREFORE, in consideration of the mutual benefits and conditions set forth below, the parties hereto agree as follows:

**1. Scope of Services to be Performed by Consultant.** The Consultant shall perform those services described in Exhibit "A" of this agreement. In performing such services, the Consultant shall comply with all federal, state, and local laws and regulations applicable to the performance of such services. The Consultant shall perform services diligently and completely and in accordance with professional standards of conduct and performance.

**2. Compensation and Method of Payment.** The Consultant shall submit invoices for work performed using the form set forth in Exhibit "B".

The City shall pay Consultant:

[Check applicable method of payment]

According to the rates set forth in Exhibit "A"

A sum not to exceed \$27,115

Other (describe): \_\_\_\_\_  
\_\_\_\_\_

The Consultant shall complete and return to the City Exhibit "C," Taxpayer Identification Number, prior to or along with the first invoice submittal. The City shall pay the Consultant for services rendered within ten days after City Council approval.

**3. Duration of Agreement.** This Agreement shall be in full force and effect for a period commencing upon execution and ending December 31, 2010, unless sooner terminated under the provisions of the Agreement. Time is of the essence of this Agreement in each and all of its provisions in which performance is required.

**4. Ownership and Use of Documents.** Any records, files, documents, drawings, specifications, data or information, regardless of form or format, and all other materials produced by the Consultant in connection with the services provided to the City, shall be the property of the City whether the project for which they were created is executed or not

**5. Independent Contractor.** The Consultant and the City agree that the Consultant is an independent contractor with respect to the services provided pursuant to this Agreement. The Consultant will solely be responsible for its acts and for the acts of its agents, employees, subconsultants, or representatives during the performance of this Agreement. Nothing in this Agreement shall be considered to create the relationship of employer and employee between the parties hereto.

**6. Indemnification.** The Consultant shall defend, indemnify and hold the City, its officers, officials, employees and volunteers harmless from any and all claims, injuries, damages, losses or suits including attorney fees, arising out of or resulting from the negligent acts, errors or omissions of the Consultant, in performance of this Agreement, except for injuries and damage caused by the sole negligence of the City.

## 7. Insurance.

A. The Consultant shall procure and maintain for the duration of the Agreement, insurance against claims for injuries to persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, or employees.

### Minimum Scope of Insurance

Consultant shall obtain insurance of the types described below:

1. Automobile Liability insurance covering all owned, non-owned, hired and leased vehicles. Coverage shall be written on Insurance Services Office (ISO) form CA 00 01 or a substitute form providing equivalent liability coverage. If necessary, the policy shall be endorsed to provide contractual liability coverage.
2. Commercial General Liability insurance shall be written on ISO occurrence form CG 00 01 and shall cover liability arising from premises, operations, independent contractors and personal injury and advertising injury. The City shall be named as an additional insured under the Contractor's Commercial General Liability insurance policy with respect to the work performed for the City.
3. Workers' Compensation coverage as required by the Industrial Insurance laws of the State of Washington.
4. Professional Liability insurance appropriate to the Consultant's profession.

### Minimum Amounts of Insurance

Consultant shall maintain the following insurance limits:

1. Automobile Liability insurance with a minimum combined single limit for bodily injury and property damage of \$1,000,000 per accident.
2. Commercial General Liability insurance shall be written with limits no less than \$1,000,000 each occurrence, \$2,000,000 general aggregate.
3. Professional Liability insurance shall be written with limits no less than \$1,000,000 per claim and \$1,000,000 policy aggregate limit.

### Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions for Automobile Liability, Professional Liability and Commercial General Liability insurance:

1. The Consultant's insurance shall not be cancelled by either party except after thirty (30) days prior written notice has been given to the City

### Verification of Coverage

Consultant shall furnish the City with original certificates and a copy of the amendatory endorsements, including but not necessarily limited to the additional insured endorsement, evidencing the insurance requirements of the Consultant before commencement of the work.

## 8. Record Keeping and Reporting.

A. The Consultant shall maintain accounts and records, including personnel, property, financial, and programmatic records, which sufficiently and properly reflect all direct and indirect costs of any nature expended

and services performed pursuant to this Agreement. The Consultant shall also maintain such other records as may be deemed necessary by the City to ensure proper accounting of all funds contributed by the City to the performance of this Agreement.

**B.** The foregoing records shall be maintained for a period of seven years after termination of this Agreement unless permission to destroy them is granted by the Office of the Archivist in accordance with RCW Chapter 40.14 and by the City.

**9. Audits and Inspections.** The records and documents with respect to all matters covered by this Agreement shall be subject at all times to inspection, review, or audit by the City during the performance of this Agreement.

**10. Termination.**

A. This City reserves the right to terminate or suspend this Agreement at any time, with or without cause, upon seven days prior written notice. In the event of termination or suspension, all finished or unfinished documents, data, studies, worksheets, models, reports or other materials prepared by the Consultant pursuant to this Agreement shall promptly be submitted to the City

B. In the event this Agreement is terminated or suspended, the Consultant shall be entitled to payment for all services performed and reimbursable expenses incurred to the date of termination.

C. This Agreement may be cancelled immediately if the Consultant's insurance coverage is canceled for any reason, or if the Consultant is unable to perform the services called for by this Agreement.

D. The Consultant reserves the right to terminate this Agreement with not less than fourteen days written notice, or in the event that outstanding invoices are not paid within sixty days.

E. This provision shall not prevent the City from seeking any legal remedies it may otherwise have for the violation or nonperformance of any provisions of this Agreement.

**11. Discrimination Prohibited.** The Consultant shall not discriminate against any employee, applicant for employment, or any person seeking the services of the Consultant under this Agreement, on the basis of race, color, religion, creed, sex, age, national origin, marital status, or presence of any sensory, mental, or physical handicap.

**12. Assignment and Subcontract.** The Consultant shall not assign or subcontract any portion of the services contemplated by this Agreement without the prior written consent of the City.

**13. Conflict of Interest.** The City insists on the highest level of professional ethics from its consultants. Consultant warrants that it has performed a due diligence conflicts check, and that there are no professional conflicts with the City. Consultant warrants that none of its officers, agents or employees is now working on a project for any entity engaged in litigation with the City. Consultant will not disclose any information obtained through the course of their work for the City to any third party, without written consent of the "City". It is the Consultant's duty and obligation to constantly update its due diligence with respect to conflicts, and not the City's obligation to inquire as to potential conflicts. This provision shall survive termination of this Agreement.

**14. Confidentiality.** All information regarding the City obtained by the Consultant in performance of this Agreement shall be considered confidential. Breach of confidentiality by the Consultant shall be grounds for immediate termination.

**15. Non-appropriation of funds.** If sufficient funds are not appropriated or allocated for payment under this Agreement for any future fiscal period, the City will so notify the Consultant and shall not be obligated to make payments for services or amounts incurred after the end of the current fiscal period. This Agreement will terminate upon the completion of all remaining services for which funds are allocated. No penalty or expense shall accrue to the City in the event that the terms of the provision are effectuated.

**16. Entire Agreement.** This Agreement contains the entire agreement between the parties, and no other agreements, oral or otherwise, regarding the subject matter of this Agreement shall be deemed to exist or bind either

16. **Entire Agreement.** This Agreement contains the entire agreement between the parties, and no other agreements, oral or otherwise, regarding the subject matter of this Agreement shall be deemed to exist or bind either of the parties. Either party may request changes to the Agreement. Changes which are mutually agreed upon shall be incorporated by written amendments to this Agreement.

17. **Notices.** Notices to the City of Sammamish shall be sent to the following address:

City of Sammamish  
801 228<sup>th</sup> Avenue SE  
Sammamish, WA 98075  
Phone number: (425) 295-0500

Notices to the Consultant shall be sent to the following address:

Company Name Shannon E Wilson, Inc  
Contact Name Katrina Walker  
Street Address 400 N 39th Street Suite 100  
City, State Zip Seattle WA 98103  
Phone Number 206 632 8020  
Email klw@shannonwilson.com

18. **Applicable Law; Venue; Attorneys' Fees.** This Agreement shall be governed by and construed in accordance with the laws of the State of Washington. In the event any suit, arbitration, or other proceeding is instituted to enforce any term of this Agreement, the parties specifically understand and agree that venue shall be exclusively in King County, Washington. The prevailing party in any such action shall be entitled to its attorneys' fees and costs of suit, which shall be fixed by the judge hearing the case and such fee, shall be included in the judgment.

19. **Severability.** Any provision or part of this Agreement held to be void or unenforceable under any law or regulation shall be deemed stricken and all remaining provisions shall continue to be valid and binding upon the City and the Consultant, who agree that the Agreement shall be reformed to replace such stricken provision or part with a valid and enforceable provision that comes as close as reasonably possible to expressing the intent of the stricken provision.

**RE: CONSTRUCTION OBSERVATION AND PLANTING PLAN, 244<sup>TH</sup> AVENUE  
IMPROVEMENTS PROJECT, SAMMAMISH, WASHINGTON**

Dear Jorge:

Shannon & Wilson is pleased to submit this scope of work to conduct construction observation and complete a planting plan for the 244<sup>th</sup> Avenue Improvements project. This proposal has been developed based on our knowledge of the project and based on e-mail correspondence with Gerry Wilhelm from Lochner, dated June 16, 2008.

### **BACKGROUND**

The City of Sammamish Public Works Department (the City) is planning to improve the 244<sup>th</sup> Avenue corridor by widening the paved portions of the roadway and connecting 244<sup>th</sup> Avenue via a two-lane bridge in the Allen Lake Vicinity. The proposed bridge is a two-lane structure that would be constructed over a Category I wetland (under the City of Sammamish Code) associated with Allen Lake.

The City proposes to mitigate wetland impacts associated with the project with a combination of wetland creation, reestablishment, rehabilitation, and enhancement. On-site mitigation will include removing existing gravel roads in the wetland within the project vicinity. Off-site mitigation will include enhancing portions of the wetland on an adjoining property and purchasing credits at the East Lake Sammamish Plateau wetland mitigation bank.

This proposal includes conducting construction observation for the earthwork and the planting activities in the wetland creation, reestablishment, rehabilitation, and enhancement areas, and completing a planting plan after the final hydrology of these areas can be observed.

### **SCOPE OF WORK**

Our scope of work for this project will consist of performing the following tasks:

Mr. Jorge Garcia  
Lochner  
June 20, 2008  
Page 2

### **Task 1. Construction Observation**

Shannon & Wilson will provide limited construction observation for the natural resource elements of the 244th Avenue Improvements project during earthwork and planting activities. Specifically, Shannon & Wilson will provide limited observation during the following activities:

- ▶ Excavation of peat for the northern and southern abutments. Shannon & Wilson will observe the excavated peat and provide recommendations on whether the peat is appropriate to use as topsoil in part of the restoration area.
- ▶ Final grading associated with restoring the temporary construction access areas (after the bridge construction is complete) and earthwork associated with the wetland rehabilitation/reestablishment areas.
- ▶ Construction of pit and mound features, and placement of large woody debris (LWD), on the wetland enhancement site.
- ▶ Planting of wetland restoration, rehabilitation, reestablishment, and enhancement areas.

Observations and recommendations will be documented in field memorandums and submitted to the City after each site visit.

### **Task 2. Planting Plan**

The depth of existing roadbed fill in the rehabilitation and reestablishment areas is unknown at this time. It is also unknown how much the peat soil in the temporary construction access areas will be compacted during construction. Because of these uncertainties, the final depth of hydrology in these areas is not known at this time. In our conceptual mitigation plan for this project, we recommended a variety of native plants that may be installed in the wetland rehabilitation and reestablishment areas depending on how much saturation and/or inundation these areas receive after the final grading activities are completed.

Once earthwork is complete and final hydrology levels can be observed in the wetland restoration, rehabilitation, and reestablishment areas, Shannon & Wilson will provide a planting plan that will include appropriate plant species, quantities, and planting diagrams for each area.

## **COST ESTIMATE**

Our services are offered under the enclosed Standard General Terms and Conditions. Our cost estimate for the above scope of services is \$27,115, as detailed in the enclosed cost estimate. We

**SHANNON & WILSON, INC.**

Mr. Jorge Garcia  
Lochner  
June 20, 2008  
Page 3

assume that construction observation for the natural resource elements of this project can be completed during twelve 8-hour days. If additional observation is needed, the cost for this service will need to be increased.

In the event that additional services are necessary, due to changes in your request or other unforeseen circumstances, we will notify you immediately and obtain your authorization for the additional work and costs.

### **CLOSURE**

Shannon & Wilson, Inc. has prepared the enclosed, "Important Information About Your Wetland Delineation/Mitigation and/or Stream Classification Proposal." Although this document was not written specifically for the 244<sup>th</sup> Avenue Improvements project, it should be useful in assisting you and others in understanding the use and limitations of our proposals.

If this proposal meets with your approval, please sign the acceptance section below and return a copy to Shannon & Wilson, which will serve as our notice to proceed. This proposal is valid for a period of 60 days from the date of issue.

We appreciate the opportunity to assist you with this project. If you have any questions, please contact me at (206) 695-6673.

Sincerely,

**SHANNON & WILSON, INC.**

Date: June 20, 2008  
To: Mr. Jorge Garcia/Lochner  
Re: 244th Avenue Improvements Project, Sammamish, Washington

## **STANDARD GENERAL TERMS AND CONDITIONS (ALL PURPOSE)**

### **ARTICLE 1 – SERVICES OF SHANNON & WILSON**

Shannon & Wilson's scope of work (Work) shall be limited to those services expressly set forth in its Proposal and is subject to the terms and conditions set forth herein.

Shannon & Wilson shall procure and maintain all business and professional licenses and registrations necessary to provide its services. Upon Client's request (and for additional compensation, if not already included in Shannon & Wilson's Proposal), Shannon & Wilson shall assist Client in attempting to obtain, or on behalf of Client and in Client's name attempt to obtain, those permits and approvals required for the project for which Shannon & Wilson's services are being rendered.

Client acknowledges, depending on field conditions encountered and subsurface conditions discovered, the number and location of borings, the number and type of field and laboratory tests, and other similar items, as deemed necessary by Shannon & Wilson in the exercise of due care, may need to be increased or decreased; if such modifications are approved by Client, Shannon & Wilson's compensation and schedule shall be equitably adjusted.

If conditions actually encountered at the project site differ materially from those represented by Client and/or shown or indicated in the contract documents, or are of an unusual nature which materially differ from those ordinarily encountered and generally recognized as inherent for the locality and character of the services provided for in Shannon & Wilson's scope of work, Shannon & Wilson's compensation and schedule shall be equitably adjusted.

Without increasing the scope of work, price, or schedule contained in Shannon & Wilson's Proposal, Shannon & Wilson may employ such subcontractors as Shannon & Wilson deems necessary to assist in furnishing its services.

If Shannon & Wilson's scope of work is increased or decreased by Client, Shannon & Wilson's compensation and schedule shall be equitably adjusted.

### **ARTICLE 2 – FEES AND EXPENSES FOR RENDERING SERVICES**

Fees for Shannon & Wilson's services are based on the actual time expended on the project, including travel, by our personnel. Shannon & Wilson's fee will be computed by multiplying the actual number of hours worked by each employee times the employees direct salary rate plus 198.36% of the direct salary for overhead plus 10% of the direct salary and overhead for profit.

The hourly rates for the services of our staff will be doubled for time spent actually providing expert testimony.

### **REIMBURSABLE EXPENSES**

Expenses other than salary costs that are directly attributable to our professional services will be invoiced at our cost plus 15 percent. Examples include, but are not limited to, expenses for out-of-town travel and living, information processing equipment, instrumentation and field equipment rental, special fees and permits, premiums for additional or special insurance where required, long distance telephone charges, local mileage and parking, use of rental vehicles, taxi, reproduction, local and out-of-town delivery service, express mail, photographs, film, laboratory equipment fees, shipping charges and supplies. A unit price of \$7.00 per hour will be charged for computer time to prepare spreadsheets, \$25.00 per hour for AutoCAD and modeling software use, and \$35.00 per hour for GIS computer work.

### **ARTICLE 3 – TIMES FOR RENDERING SERVICES**

Shannon & Wilson shall perform its services in accordance with the schedule set forth in its Proposal.

If Shannon & Wilson's Proposal sets forth specific periods of time for rendering services, or specific dates by which services are to be completed, and such periods of time or dates are extended or delayed through no fault of Shannon & Wilson, Shannon & Wilson's compensation and schedule shall be equitably adjusted.

If Shannon & Wilson's schedule is increased or decreased by Client, Shannon & Wilson's compensation shall be equitably adjusted.

### **ARTICLE 4 – PAYMENTS TO SHANNON & WILSON**

Invoices shall be prepared in accordance with Shannon & Wilson's standard invoicing practices and shall be submitted to Client by Shannon & Wilson monthly. The amount billed in each invoice shall be calculated as set forth in Shannon & Wilson's Proposal.

Unless Shannon & Wilson's Proposal contains a fixed lump-sum price, Shannon & Wilson's actual fees may exceed the estimate contained in its Proposal. Shannon & Wilson shall not exceed the estimate contained in its Proposal by more than ten percent (10%) without the prior written consent of Client; provided however, unless the Client authorizes additional funds in excess of the estimate contained in Shannon & Wilson's Proposal, Shannon & Wilson shall have no obligation to continue work on the project.

Invoices are due and payable within 30 days of receipt. If Client fails to pay Shannon & Wilson's invoice within 30 days after receipt, the amounts due Shannon & Wilson shall accrue interest at the rate of one and one-half percent (1.5%) per month (or the maximum rate of interest permitted by law, if less) after the 30<sup>th</sup> day. In addition, Shannon & Wilson may, after giving seven (7) days written notice to Client, suspend services under this Agreement until Shannon & Wilson has been paid in full.

If Client disputes Shannon & Wilson's invoice, only the disputed portion(s) may be withheld from payment, and the undisputed portion(s) shall be paid.

Records of Shannon & Wilson's direct and indirect costs and expenses pertinent to its compensation under this Agreement shall be kept in accordance with generally accepted accounting practices and applicable federal, state, or local laws and regulations. Upon request, such records shall be made available to Client for inspection on Shannon & Wilson's premises and copies provided to Client at cost.

## **ARTICLE 5 – CLIENT'S RESPONSIBILITIES**

Client shall grant or obtain free access to the project site for all equipment and personnel necessary for Shannon & Wilson to perform its services.

## **ARTICLE 6 – STANDARD OF CARE / ABSENCE OF WARRANTIES / NO RESPONSIBILITY FOR SITE SAFETY OR CONTRACTOR'S PERFORMANCE**

### **Standard of Care**

The standard of care for all professional services performed or furnished by Shannon & Wilson under this Agreement shall be the skill and care ordinarily exercised by other members of Shannon & Wilson's profession, providing the same or similar services, under the same or similar circumstances, at the same time and locality as the services were provided by Shannon & Wilson. The construction, alteration, or repair of any object or structure by Shannon & Wilson shall be performed in a good and workmanlike manner in accordance with general industry standards, and conform to this Agreement. Shannon & Wilson warrants for one (1) year from substantial completion of the Work, all goods delivered hereunder shall be new and free from defects in material or workmanship, and shall conform to the specifications, drawings, or sample(s) specified or furnished, if any, and shall be merchantable and fit for their intended purpose(s). Shannon & Wilson warrants that Shannon & Wilson has good and marketable title to all goods delivered hereunder, and that all goods delivered hereunder shall be free and clear of all claims of superior title, liens, and encumbrances of any kind.

Subsurface explorations and testing identify actual subsurface conditions only at those points where samples are taken, at the time they are taken. Actual conditions at other locations of the project site, including those inferred to exist between the sample points, may differ significantly from conditions that exist at the sampling locations. The passage of time or intervening causes may cause the actual conditions at the sampling locations to change as well.

Interpretations and recommendations made by Shannon & Wilson shall be based solely upon information available to Shannon & Wilson at the time the interpretations and recommendations are made.

Shannon & Wilson shall be responsible for the technical accuracy of its services, data, interpretations, and recommendations resulting therefrom, and Client shall not be responsible for discovering deficiencies therein. Shannon & Wilson shall correct any substandard work without additional compensation, except to the extent that such inaccuracies are directly attributable to deficiencies in Client-furnished information.

### **No Warranties**

Shannon & Wilson makes no guarantees or warranties, express or implied, under this Agreement or otherwise, about Shannon & Wilson's professional services.

### **Client-Furnished Documents**

Shannon & Wilson may use requirements, programs, instructions, reports, data, and information furnished by Client to Shannon & Wilson in performing its services under this Agreement. Shannon & Wilson may rely on the accuracy and completeness of requirements, programs, instructions, reports, data, and other information furnished by Client to Shannon & Wilson. Client shall, only to the fullest extent permitted by law, waive any claims against Shannon & Wilson and its subcontractors, and indemnify and hold Shannon & Wilson and its subcontractors harmless from any claims, liability, or expenses (including reasonable attorneys' fees and costs) arising from Shannon & Wilson's reliance on Client-furnished information, except to the extent of Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract.

### **Site Damage**

Shannon & Wilson shall take reasonable precautions to minimize damage to the project site, but it is understood by Client that, in the normal course of Shannon & Wilson's services, some project site damage may occur, and the correction of such damage is not part of this Agreement unless so stated in Shannon & Wilson's Proposal. Client shall, only to the fullest extent permitted by law, waive any claims against Shannon & Wilson and its subcontractors, and indemnify and hold Shannon & Wilson and its subcontractors harmless from any claims, liability, or expenses (including reasonable attorneys' fees and costs) arising from any project site damage caused by Shannon & Wilson, except to the extent of Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract.

### **Buried Structures**

If there are any buried structures and/or utilities on the project site where subsurface explorations are to take place, Client shall provide Shannon & Wilson with a plan showing their existing locations. Shannon & Wilson shall contact a utility locator service to request that they identify any public utilities. Shannon & Wilson shall use reasonable care and diligence to avoid contact with buried structures and/or utilities as shown. Shannon & Wilson shall not be liable for any loss or damage to buried structures and/or utilities resulting from inaccuracy of the plans, or lack of plans, or errors by the locator service relating to the location of buried structures and/or utilities. Client shall, only to the fullest extent permitted by law, waive any claims against Shannon & Wilson and its subcontractors, and indemnify, and hold Shannon & Wilson and its subcontractors harmless from any claims, liability, or expenses (including reasonable attorneys' fees and costs) arising from damage to buried structures and/or utilities caused by Shannon & Wilson's sampling, except to the extent of Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract.

### **Aquifer Cross-Contamination**

Despite the use of due care, unavoidable contamination of soil or groundwater may occur during subsurface exploration when drilling or sampling tools are advanced through a contaminated area, linking it to an aquifer, underground stream, or other hydrous body not previously contaminated and capable of spreading contaminants off the project site. Because Shannon & Wilson is powerless to totally eliminate this risk despite use of due care, and because sampling is an essential element of Shannon & Wilson's services, Client shall, only to the fullest extent permitted by law, waive any claims against Shannon & Wilson and its subcontractors, and indemnify and hold Shannon & Wilson and its subcontractors harmless from any claims, liability, or expenses (including reasonable attorneys' fees and costs) arising from cross-contamination caused by Shannon & Wilson's sampling, except to the extent of Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract.

### **Opinions of Probable Construction Costs**

If opinions of probable construction costs are included in Shannon & Wilson's Proposal, Shannon & Wilson's opinions of probable construction costs shall be made on the basis of its experience and qualifications and represent its judgment as a professional generally familiar with the industry. Opinions of probable construction costs are based, in part, on approximate quantity evaluations that are not accurate enough to permit contractors to prepare bids. Further, since

Shannon & Wilson has no control over: the cost of labor, materials, equipment, or services furnished by others; the contractor's actual or proposed construction methods or methods of determining prices; competitive bidding; or market conditions, Shannon & Wilson cannot and does not guarantee that proposals, bids, or actual construction cost will not vary from opinions of the components of probable construction cost prepared by Shannon & Wilson. If Client or any contractor wishes greater assurance as to probable construction cost, Client or contractor shall employ an independent cost estimator.

#### **Review of Contractor's Shop Drawings and Submittals**

If review of a contractor's shop drawings and submittals are included in Shannon & Wilson's Proposal, Shannon & Wilson shall review and take appropriate action on the contractor's submittals, such as shop drawings, product data, samples, and other data, which the contractor is required to submit, but solely for the limited purpose of checking for general overall conformance with Shannon & Wilson's design concept. This review shall not include a review of the accuracy or completeness of details, such as quantities; dimensions; weights or gauges; fabrication processes; construction means, methods, sequences or procedures; coordination of the work with other trades; or construction safety precautions, all of which are the sole responsibility of the contractor. Shannon & Wilson's review shall be conducted with reasonable promptness while allowing sufficient time, in Shannon & Wilson's judgment, to permit adequate review. Review of a specific item shall not be construed to mean that Shannon & Wilson has reviewed the entire assembly of which the item is a component. Shannon & Wilson shall not be responsible for any deviations by the contractor in the shop drawings and submittals from the construction documents, which are not brought to the attention of Shannon & Wilson by the contractor in writing.

#### **Construction Observation**

If construction observation is included in Shannon & Wilson's Proposal, Shannon & Wilson shall visit the project site at intervals Shannon & Wilson deems appropriate, or as otherwise agreed to in writing by Client and Shannon & Wilson, in order to observe and keep Client generally informed of the progress and quality of the work. Such visits and observations are not intended to be an exhaustive check or a detailed inspection of any contractor's work, but rather are to allow Shannon & Wilson, as a professional, to become generally familiar with the work in progress in order to determine, in general, whether the work is progressing in a manner indicating that the work, when fully completed, will be in accordance with Shannon & Wilson's general overall design concept. Shannon & Wilson's authority shall be limited to observing, making technical comments regarding general overall compliance with Shannon & Wilson's design concept, and rejecting any work which it becomes aware of that does not comply with Shannon & Wilson's general overall design concept. Shannon & Wilson's acceptance of any non-conforming work containing latent defects or failure to reject any non-conforming work not inspected by Shannon & Wilson shall not impose any liability on Shannon & Wilson or relieve any contractor from complying with their contract documents. All construction contractors shall be solely responsible for construction site safety, the quality of their work, and adherence to their contract documents. Shannon & Wilson shall have no authority to direct any contractor's actions or stop any contractor's work.

If Shannon & Wilson is not retained to provide construction observation of the implementation of its design recommendations, Client shall, only to the fullest extent permitted by law, waive any claims against Shannon & Wilson, and indemnify and hold Shannon & Wilson harmless from any claims, liability, or expenses (including reasonable attorneys' fees and costs) arising from the implementation of Shannon & Wilson's design recommendations, except to the extent of Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract.

#### **No Responsibility for Site Safety**

Except for its own subcontractors and employees, Shannon & Wilson shall not: supervise, direct, have control over, or authority to stop any contractor's work; have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected by any contractor; be responsible for safety precautions and programs incident to any contractor's work; or be responsible for any failure of any contractor to comply with laws and regulations applicable to the contractor, all of which are the sole responsibility of the construction contractors. This requirement shall apply continuously, regardless of time or place, and shall in no way be altered because a representative of Shannon & Wilson is present at the project site performing his/her duties. Notwithstanding anything to the contrary, Shannon & Wilson shall never be deemed to have assumed responsibility for the project's site safety by either contract or conduct. No act or direction by Shannon & Wilson shall be deemed the exercise of supervision or control of any contractor's employees or the direction of any contractor's performance. Any direction provided by Shannon & Wilson shall be deemed solely to ensure the contractor's general overall compliance with Shannon & Wilson's design concept.

#### **No Responsibility for Contractor's Performance**

Except for its own subcontractors and employees, Shannon & Wilson shall not be responsible for safety precautions, the quality of any contractor's work, or any contractor's failure to furnish or perform their work in accordance with their contract documents.

Except Shannon & Wilson's own employees and its subcontractors, Shannon & Wilson shall not: be responsible for the acts or omissions of any contractor, subcontractor or supplier, or other persons at the project site, or otherwise furnishing or performing any work; or for any decision based on interpretations or clarifications of Shannon & Wilson's design concept given without the consultation and concurrence of Shannon & Wilson.

#### **Approval of Contractor's Applications for Payment**

If approval of a contractor's applications for payment are included in Shannon & Wilson's Proposal, Shannon & Wilson shall review the amounts due the contractor and issue a recommendation about payment to Client. Shannon & Wilson's review and approval shall be limited to an evaluation of the general progress of the work and the information contained in the contractor's application for payment and a representation by Shannon & Wilson that to the best of the Shannon & Wilson's knowledge, the contractor has performed work for which payment has been requested, subject to further testing and inspection upon substantial completion. The issuance of a recommendation for payment shall not be construed as a representation that: Shannon & Wilson has made an exhaustive check or a detailed or continuous inspection check of the quality or quantity of the contractor's work; approved the contractors means, methods, sequences, procedures, or safety precautions; or that contractor's subcontractors, laborers, and suppliers have been paid.

## **ARTICLE 7 – CONFIDENTIALITY AND USE OF DOCUMENTS**

#### **Confidentiality**

Shannon & Wilson agrees to keep confidential and to not disclose to any person or entity (other than Shannon & Wilson's employees and subcontractors), without the prior consent of Client, all information furnished to Shannon & Wilson by Client or learned by Shannon & Wilson as a result of its work on the project; provided however, that these provisions shall not apply to information that: is in the public domain through no fault of Shannon & Wilson; was previously known to Shannon & Wilson; or was independently acquired by Shannon & Wilson from third-parties who were under no obligation to Client to keep said information confidential. This paragraph shall not be construed to in any way restrict Shannon & Wilson from making any disclosures required by law. Client agrees that Shannon & Wilson may use and publish Client's name and a general description of Shannon & Wilson's services with respect to the project in describing Shannon & Wilson's experience and qualifications to others.

**Copyrights and Patents** – Shannon & Wilson shall indemnify, hold harmless, and defend Client from any and all actions, damages, demands, expenses (including reasonable attorneys' fees and costs), losses, and liabilities arising out of any claims that any goods or services furnished by Subcontractor infringe any patent, trademark, trade name, or copyright.

**Use of Documents**

All documents prepared by Shannon & Wilson are instruments of service with respect to the project, and Shannon & Wilson shall retain a copyrighted ownership and property interest therein (including the right of reuse) whether or not the project is completed.

Shannon & Wilson grants to Client a non-exclusive, irrevocable, unlimited, royalty-free license to use any documents prepared by Shannon & Wilson for Client. Client may make and retain copies of such documents for their information and use. Such documents are not intended or represented to be suitable for reuse by Client, or others, after the passage of time, on extensions of the project, or on any other project. Any such reuse without written verification or adaptation by Shannon & Wilson, as appropriate for the specific purpose intended, shall be at Client's sole risk, and Client shall, only to the fullest extent permitted by law, waive any claims against Shannon & Wilson and its subcontractors, and indemnify and hold Shannon & Wilson and its subcontractors harmless from any claims, liability, or expenses (including reasonable attorneys' fees and costs) arising from such reuse, except to the extent of Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract. Any verification or adaptation of the documents for extensions of the project or for any other project by Shannon & Wilson shall entitle Shannon & Wilson to additional compensation to be agreed upon by Client and Shannon & Wilson.

Copies of documents that may be relied upon by Client are limited to the printed copies (also known as hard copies) that are signed or sealed by Shannon & Wilson. Text, data, or graphics files in electronic media format are furnished solely for the convenience of Client. Any conclusion or information obtained or derived from such electronic files shall be at the user's sole risk. If there is a discrepancy between the electronic files and the hard copies, the hard copies govern.

Because data stored in electronic media can deteriorate or be modified inadvertently or otherwise without authorization of the data's creator, the party receiving an electronic file agrees that it shall perform acceptance tests or procedures within 60 days after its receipt, after which, unless notice of any errors are given in writing to the delivering party, the receiving party shall be deemed to have accepted the data thus transferred. Any errors reported within the 60-day acceptance period shall be corrected by the party delivering the electronic files at their sole expense. Shannon & Wilson shall not be responsible for maintaining documents stored in electronic media format after acceptance by Client.

When transferring documents in electronic media format, neither Client nor Shannon & Wilson makes any representations as to long-term compatibility, usability, or readability of documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used for the document's creation.

**ARTICLE 8 - INSURANCE**

Shannon & Wilson shall purchase and maintain during the term of this contract, the following insurance coverage at its sole expense:

**Commercial General Liability** - \$1,000,000 each occurrence/\$2,000,000 annual aggregate Bodily Injury/Property Damage Combined Single Limit including Blanket Contractual Liability, Broad Form Products and Completed Operations, Explosion/Collapse/Underground (XCU) Exposures, and Washington Stop Gap coverage.

**Auto Liability** - \$1,000,000 Bodily Injury/Property Damage Combined Single Limit including Owned, Hired, and Non-Owned Liability coverage.

**Umbrella Liability** - \$10,000,000 Bodily Injury/Property Damage combined Single Limit in excess of Commercial General Liability, Auto Liability, and Employers' Liability.

**Workers' Compensation** - Statutory in monopolistic states and \$500,000 per accident/\$500,000 per disease/\$500,000 disease policy aggregate Employers' Liability in non-monopolistic including if applicable, U.S. Longshore & Harbor Workers coverage.

**Professional Liability** - \$5,000,000 per claims/\$5,000,000 annual aggregate for professional errors and omissions including Pollution Liability coverage.

If requested in writing by Client, Shannon & Wilson shall name Client as an additional insured on its Commercial General Liability policy.

If requested in writing by Client, Shannon & Wilson shall deliver to Client certificates of insurance evidencing such coverage. Such certificates shall be furnished before commencement of Shannon & Wilson's services.

Client shall cause Shannon & Wilson and its subcontractors to be listed as additional insureds on any Commercial General Liability insurance carried by Client that is applicable to the project.

Client shall require the project owner to require the general contractor on the project to purchase and maintain Commercial General Liability, Automobile Liability, Workers Compensation, and Employers Liability insurance, with limits no less than set forth above, and to cause Shannon & Wilson and its subcontractors to be listed as additional insureds on that Commercial General Liability insurance. Client shall require the project owner include the substance of this paragraph in the prime construction contract.

All insurance policies shall contain a waiver of subrogation.

**ARTICLE 9 - HAZARDOUS ENVIRONMENTAL CONDITIONS****Disclosure of the Existence of Hazardous Environmental Conditions**

Client has disclosed to Shannon & Wilson all data known to Client concerning known or suspected hazardous environmental conditions, including but not limited to, the existence of all asbestos, PCBs, petroleum, hazardous waste, or radioactive material, if any, located at or near the project site, including its type, quantity, and location, or has represented to Shannon & Wilson that, to the best of Client's knowledge, no hazardous environmental conditions exist at or near the project site.

If any hazardous environmental condition is encountered or believed to exist, Shannon & Wilson shall notify Client and, to the extent required by applicable laws and regulations, the project site owner, and appropriate governmental officials.

**Disposal of Non-Hazardous Samples and Hazardous or Toxic Substances**

All substances on, in, or under the project site, or obtained from the project site as samples or as byproducts (e.g., drill cuttings and fluids) of the sampling process are the project site owner's property. Shannon & Wilson shall preserve such samples for forty-five (45) calendar days after Shannon & Wilson's issuance to Client of the final instrument of service that relates to the data obtained from them. Shannon & Wilson shall dispose of all non-hazardous samples and sampling process byproducts in accordance with applicable law; provided however, any samples or sampling process byproducts that are, or are believed to be, affected by regulated contaminants shall be packaged by Shannon & Wilson in accordance with applicable law, and turned over to Client or left on the

project site. Shannon & Wilson shall not transport, store, treat, dispose of, or arrange for the transportation, storage, treatment, or disposal of, any substances known, believed, or suspected to be affected by regulated contaminants, nor shall Shannon & Wilson subcontract for such activities.

Shannon & Wilson shall, at Client's request (and for additional compensation, if not already included in Shannon & Wilson's Proposal), help Client or the project site owner identify appropriate alternatives for transportation, storage, treatment, or disposal of such substances, but Shannon & Wilson shall not make any independent determination about the selection of a transportation, storage, treatment, or disposal facility.

Client or the project site owner shall sign all manifests for the transportation, storage, treatment, or disposal of substances affected by regulated contaminants; provided however, notwithstanding any other provisions of this Agreement to the contrary if Client directs Shannon & Wilson, Shannon & Wilson's employees, or Shannon & Wilson's agents to sign such manifests and/or to hire for Client or the project site owner a contractor to transport, store, treat, or dispose of the contaminated substances, Shannon & Wilson shall do so only as Client's disclosed agent.

#### **Contaminated Equipment and Consumables**

Client shall reimburse Shannon & Wilson for the cost of decontaminating field or laboratory equipment that is contaminated by regulated materials encountered at the project site and for the cost of disposal and replacement of contaminated consumables. In some instances, the cost of decontamination may exceed the fair market value of the equipment, were it not contaminated, together with the cost of properly transporting and disposing of the equipment. In such instances, Shannon & Wilson will notify Client and give Client the option of paying for decontamination or purchasing the equipment at its fair market value immediately prior to contamination. If Client elects to purchase equipment, Client and Shannon & Wilson will enter into a specific agreement for that purpose. Any equipment that cannot be decontaminated shall be considered a consumable.

#### **Client's Liability for Hazardous or Toxic Materials**

Except to the extent caused by Shannon & Wilson's and its subcontractor's negligent or wrongful acts, errors, omissions, or breach of contract, and only to the maximum extent permitted by law, Client shall: indemnify and hold harmless Shannon & Wilson, its subcontractors and their partners, officers, directors, employees, and agents; from and against any and all actions (whether sounding in tort, contract (express or implied), warranty (express or implied), statutory liability, strict liability, or otherwise), claims (including, but not limited to, claims for bodily injury, death, property damage (including bodily injury, death, or property damage to Shannon & Wilson's own employees), or arising under CERCLA, MTCA, or similar federal, state, or local environmental laws), costs, damages (including without limitation, economic, non-economic, general, special, incidental, consequential), demands, expenses (including, but not limited to, reasonable attorneys' fees and costs of defense), fines, judgments, liens, liabilities, and penalties of any kind whatsoever; arising from the arrangement for and/or ownership, operation, generation, labeling, transportation, storage, disposal, treatment, release, or threatened release of any hazardous or toxic materials, as defined by CERCLA, MTCA, or similar federal, state, or local environmental laws, on and/or from the project site.

## **ARTICLE 10 - ALLOCATION OF RISK**

#### **Indemnification of Client**

To the maximum extent permitted by law, Shannon & Wilson shall: indemnify and hold harmless Client, its appointed and elected officials, partners, officers, directors, employees, and agents; from and against any and all actions (whether sounding in tort, contract (express or implied), warranty (express or implied), statutory liability, strict liability, or otherwise), claims (including, but not limited to, claims for bodily injury, death, property damage, (including bodily injury, death, or property damage to Shannon & Wilson's own employees) or arising under CERCLA, MTCA, or similar federal, state, or local environmental laws), costs, damages (including without limitation, economic, non-economic, general, special, incidental, consequential), demands, expenses (including, but not limited to, reasonable attorneys' fees and costs of defense), fines, judgments, liens, liabilities, and penalties of any kind whatsoever; arising from the negligent or wrongful acts, errors, or omissions, or breach of contract or warranty express or implied, by Shannon & Wilson or any of its subcontractors; but only to the extent of Shannon & Wilson's and its subcontractor's relative degree of fault. In furtherance of these obligations, and only with respect to Client, its appointed and elected officials, partners, officers, directors, employees and agents, Shannon & Wilson waives any immunity it may have or limitation on the amount or type of damages imposed under any industrial insurance, worker's compensation, disability, employee benefit, or similar laws. Shannon & Wilson acknowledges that this waiver of immunity was mutually negotiated.

#### **Limitation of Shannon & Wilson's Liability**

##### **A. Total Liability Limited to Insurance Proceeds**

Notwithstanding any other provisions of this Agreement, and only to the maximum extent permitted by law, the total liability, in the aggregate, of Shannon & Wilson, its subcontractors, and their partners, officers, directors, employees, agents and, or any of them, to Client and/or anyone claiming by, through, or under Client, for any and all actions (whether sounding in tort, contract (express or implied), warranty (express or implied), statutory liability, strict liability, or otherwise), claims (including, but not limited to, claims for bodily injury, death, property damage, (including bodily injury, death, or property damage to Shannon & Wilson's own employees) or arising under CERCLA, MTCA, or similar federal, state, or local environmental laws), costs, damages (including without limitation, economic, non-economic, general, special, incidental, consequential), demands, expenses (including, but not limited to, reasonable attorneys' fees and costs of defense), fines, judgments, liens, liabilities, and penalties of any kind whatsoever, arising out of, resulting from, or in any way related to the project or this Agreement, shall be limited to the insurance proceeds payable on behalf of or to Shannon & Wilson by any insurance policies applicable thereto. If you are unwilling or unable to limit our liability in this manner, we will negotiate this limitation and its associated impact on our approach, scope of work, schedule, and price, with you. You must notify us in writing before we commence our work of your intention to negotiate this limitation and its associated impact on our approach, scope of work, schedule, and price. Absent your prior written notification to the contrary, we will proceed on the basis that our total liability is limited as set forth above.

##### **B. Professional Liability Limited to \$50,000 or 10% of Fee**

With respect to professional errors or omissions only, notwithstanding any other provisions of this Agreement, and only to the maximum extent permitted by law, the total liability, in the aggregate, of Shannon & Wilson, its subcontractors, and their partners, officers, directors, employees, agents, or any of them, to Client and/or anyone claiming by, through, or under Client, for any and all actions (whether sounding in tort, contract (express or implied), warranty (express or implied), statutory liability, strict liability, or otherwise), claims (including, but not limited to, claims for bodily injury, death, property damage (including bodily injury, death, or property damage to Shannon & Wilson's own employees) or arising under CERCLA, MTCA, or similar federal, state, or local environmental laws), costs, damages (including without limitation, economic, non-economic, general, special, incidental, consequential), demands, expenses (including, but not limited to, reasonable attorneys' fees and costs of defense), fines, judgments, liens, liabilities, and penalties of any kind whatsoever, arising out of, resulting from, or in any way related to the professional errors or omissions of Shannon & Wilson, its subcontractors, or their partners, officers, directors, employees, agents or, or any of them, shall not exceed the aggregate total amount of \$50,000.00, or ten percent (10%) of the total compensation actually paid to Shannon & Wilson under this Agreement, whichever is greater. If you are unwilling or unable to limit our professional liability to these sums, we will negotiate the amount of this limitation and its associated impact on our approach, scope of work, schedule, and price, with you. You must notify us in writing before we commence our work of your intention to negotiate the amount of this limitation and its associated impact on our approach, scope of work,

schedule, and price. Absent your prior written notification to the contrary, we will proceed on the basis that our total professional liability is limited to \$50,000.00 or ten percent (10%) of the total compensation actually paid to Shannon & Wilson under this Agreement, whichever is greater.

## **ARTICLE 11 – MISCELLANEOUS**

### **Termination**

This Agreement may be terminated without further obligation or liability by either party, with or without cause (for convenience), upon 30 days prior written notice to the other. Shannon & Wilson shall be entitled to compensation for all services performed prior to the termination of this Agreement. This Agreement may be terminated by the non-breaching party upon any breach of this Agreement that remains uncured after 10 days notice to the breaching party by the non-breaching party. Upon payment of all amounts due Shannon & Wilson, Client shall be entitled to copies of Shannon & Wilson's files and records pertaining to services performed prior to the termination of this Agreement.

### **Successors, Assigns, and Beneficiaries**

This Agreement shall be binding upon each party's assigns, successors, executors, administrators, and legal representatives.

Neither Client nor Shannon & Wilson may assign or transfer any rights under or interest in this Agreement without the written consent of the other. No assignment shall release or discharge the assignor from any duty or responsibility under this Agreement.

Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Client or Shannon & Wilson to any third-party. All duties and responsibilities undertaken under this Agreement shall be for the sole and exclusive benefit of Client and Shannon & Wilson. There are no intended third-party beneficiaries. Notwithstanding the foregoing, should a court find a third-party to be a beneficiary of this Agreement, it is the intent of the parties that the judicially created third-party beneficiary be bound by and subject to all of the terms and conditions of this Agreement.

### **Jurisdiction, Venue, and Choice of Law**

Any applicable Statute of Limitation shall be deemed to commence running on the date which the claimant knew, or should have known, of the facts giving rise to their claims, but in no event later than the date of substantial completion of Shannon & Wilson's services under this Agreement. To the maximum extent permitted by law, as a condition precedent to commencing a judicial proceeding, a party shall give written notice of their claims, including all amounts claimed, and the factual basis for their claims, to the other party within one (1) year of when the claimant knew, or should have known, of the facts giving rise to their claims, but in no event later than one (1) year from the date of substantial completion of Shannon & Wilson's services under this Agreement. As a condition precedent to commencing a judicial proceeding, a party shall first submit their claims to non-binding mediation through and in accordance with the rules of the American Arbitration Association.

This Agreement shall be construed in accordance with and governed by the laws (except choice and conflict of law provisions) of the state in which the Project is located.

Any judicial action shall be brought in the state in which the Project is located.

### **Attorneys' Fees**

Should any dispute or claims arise out of this Agreement, whether sounding in tort, contract (express or implied), warranty (express or implied), statutory liability, strict liability, or otherwise, the prevailing party shall be entitled to an award of their reasonable attorneys' fees and costs, including upon appeal and in the enforcement of any judgment. Should neither party prevail on all of their claims or receive all of the relief they sought, then the substantially prevailing party shall be awarded their reasonable attorneys' fees and costs, including upon appeal and in the enforcement of any judgment.

### **Waiver**

A waiver of any of the terms and conditions or breaches of this Agreement shall not operate as a subsequent waiver.

### **Headings**

The headings used in this agreement are for general ease of reference only. They have no meaning and are not part of this Agreement.

### **Integration**

This Agreement, together with all attachments hereto, are incorporated by reference into each other, and supercede all prior written and oral discussions, representations, negotiations, and agreements on the subject matter of this Agreement and represent the parties' complete, entire, and final understanding of the subject matter of this Agreement.

### **Survival**

Notwithstanding completion or termination of this Agreement for any reason, all representations, warranties, limitations of liability, and indemnification obligations contained in this Agreement shall survive such completion or termination and remain in full force and effect until fulfilled.

### **Severability**

If any of the terms or conditions of this Agreement are found to be void or unenforceable for any reason, the remainder of this Agreement shall continue in full force and effect, and the court shall attempt to judicially reform the void or unenforceable provisions to the maximum extent possible, consistent with the original intent expressed in the provisions, to render it valid and enforceable. If the court is unable to reform the provisions to render it valid and enforceable, the court shall strike only that portion which is invalid or unenforceable, and this Agreement shall then be construed without reference to the void or unenforceable provisions.

**SHANNON & WILSON, INC.**  
Geotechnical and Environmental Consultants

Date: June 20, 2008  
To: Mr. Jorge Garcia  
Lochner

## **IMPORTANT INFORMATION ABOUT YOUR WETLAND DELINEATION/MITIGATION AND/OR STREAM CLASSIFICATION PROPOSAL**

Imagine purchasing a development site for \$500,000 only to learn later during construction that a wetland has been discovered, or that drainage through the site has been classified as a "stream," which results in a major redesign of your project. You are legally obligated to obtain the required permits before work may continue. The unanticipated cost of delay and redesign could be \$5 million or more. The risks are real. There is no way of eliminating them, but they can be managed by relying on a qualified wetland and/or stream consultant to perform your site evaluation.

### **THE COST OF NOT ADDRESSING WETLAND/STREAM CONDITIONS ON A SITE CAN BE IMMENSE.**

*Rely on a qualified firm.* Since delays are inherent in the regulatory process associated with wetlands delineation and mitigation, and stream classification, developers must integrate their analyses into the early planning process. Many developers make the serious mistake of assuming that only state and, in particular, local reviews and approvals are required. They often negotiate exclusively with state and local agencies on project design and planning approvals for such activities as grading, sedimentation control, and stormwater management. There are federal, state, and local regulations and ordinances that may apply to projects affecting wetlands and streams. Shortsighted developers may "discover" wetlands/streams on their sites late in the planning process after they have entered into contracts for lot delivery dates and have secured financing contingent on completion deadlines. Developers then learn that in the permit process, many local governments may withhold final plan approval until they receive copies of federal and state approvals, or a statement from the appropriate agencies that such approvals are not required. Federal review at this late stage often results in extensive project redesign to avoid the impacts of wetlands and streams. The attendant delays usually affect a project's economic viability.

It is essential to work with a consulting firm that can provide a team of wetland scientists/stream ecologists disciplined in hydrology, biology, water quality, soil science, stream and riparian ecology, and fisheries biology. The firm should have a working knowledge of the appropriate methods for classifying streams and delineating/mitigating wetlands, an understanding of the permitting process, and practical experience dealing with the regulatory agencies. The consultant should be able to clearly explain and competently lead you through the process.

Although reliance on a competent consultant is necessary to manage your risk, it does not eliminate your risk. The consultant who performs evaluations generally are engaged to determine if a site is affected. If they could see the unseeable, the consultant would know precisely where to look and what methods to apply, but consultants are not clairvoyant. Even the most rigorous professional evaluation may fail to identify all existing conditions. This potential creates risk. *The risk is yours.* Do not look to your consultant to assume it. Your consultant serves as your professional advisor, providing guidance and opinions based on analysis and judgment. Were professional firms to accept your risks in addition to their own, the cost of performing evaluations would be prohibitive.

### **A FIRM UNCONCERNED ABOUT ITS OWN RISKS CANNOT BE EXPECTED TO CARE ABOUT YOURS.**

It is essential to work with a consultant who understands the processes involved, who can explain them to you clearly, and who can competently apply appropriate measures to reduce the impact of and to your project. The measures usually are pursued in stages, with each step based on information obtained from the previous one.

Wetland delineations determine the location, extent, and type of wetlands present on a site, and include an in-office document review and a field review of the site. The wetland boundaries are identified by a technical evaluation of on-site soil, vegetation, and hydrologic conditions. Wetland boundary flags are placed to mark the wetland edge, and are usually surveyed to accurately determine the location and size of the wetlands. Disturbed and problem area wetlands are more difficult and often take more time to delineate. Disturbed or atypical wetlands are areas that are altered recently or in the past by filling, excavating, clearing, damming, building, avalanches, mud slides, fires, volcanic deposition, and beaver dams, among others. Problem area wetlands are areas that are difficult to identify because of environmental conditions such as soil, vegetation, or hydrologic conditions.

Examples of problem area wetlands include wetlands dominated by upland plant communities, wetlands on glacial till, seasonally flooded wetlands, seasonally vegetated mud flats, and sandy soil wetlands.

Stream identification and classification also determine the location, extent, and type of stream present on a site, including an in-office document review and a file review of the site. The extent of the stream is identified by a technical evaluation of hydrology, physical characteristics, and the presence or absence of fish. Flags are placed to mark the stream's edge and are usually surveyed to accurately determine the location of the stream. Not all streams flow all the time; some are dry during the summer months. Thus, some stream classifications cannot be completed until water is present. Only then can the stream ecologist determine if fish will use the stream. Some salmon use a stream for spawning when water is present. The young fish then migrate to larger rivers or lakes, or to the ocean. Other streams have been channelized and appear to be only a ditch. These are examples of streams that are often difficult to identify.

#### **WAITING UNTIL THE LAST MINUTE CAN CAUSE PROJECT DELAYS AND CAN INCREASE COSTS.**

Because many aspects of a wetland/stream evaluation require regulatory agency involvement, it is essential that you give your consultant adequate lead time. Determining the presence and extent of wetlands/streams at the earliest possible stages in the development process provides time to design a project that addresses possible impacts to on-site wetlands/streams, to design a mitigation program, and to complete the time-consuming permitting process.

Planning for avoidance of wetlands and streams during development can mean the difference between staying within planned project costs and timelines, or incurring overruns. When wetland and stream impacts cannot be avoided, preapplication meetings and negotiations with the U.S. Army Corps of Engineers (Corps) and other government agencies can be an important tool in completing the permitting process in a timely manner.

If the client believes that a wetland/stream is present, a consultant is usually engaged to provide a comprehensive study, followed by a report of findings. Depending on the scope of work, the report will identify and classify the wetland/stream, investigate the required buffer, and determine what activities are regulated by various agencies. This information is vital prior to design and development plans. If impacts to the wetland/stream or its buffers cannot be avoided, the report may discuss procedures necessary to mitigate those impacts.

#### **CERTIFYING THAT CERTAIN WETLAND/STREAM BOUNDARIES EXIST MAY BE RULED A NEGLIGENT ACT.**

Wetland boundaries and stream classifications identified by Shannon & Wilson are considered preliminary until the wetland boundary flags/stream classifications are validated by the Corps and/or the local jurisdictional agency. Validation of the wetland boundaries or stream classification by the regulating agency(s) provides certification, usually written, that the wetland boundaries verified are the boundaries that will be regulated by the agency(s) until a specified date or until the regulations are modified, or that the stream has been properly classified. Only the regulating agency(s) can provide this certification. A prudent consultant can provide only an opinion.

#### **INDEMNIFYING/LIMITING MONETARY EXPOSURE IS IMPORTANT TO THE CLIENT AND THE CONSULTANT.**

Indemnifications are important concerns to consultants because of court rulings that make consultants liable to any party who foreseeably could be damaged by the consultant's negligent acts. As a consequence, consultants engaged by clients could be sued because the consultant's delineation of a wetland or the stream classification effectively destroyed the land's value. Even though the consultant's position would likely be upheld in court, the claim would have to be defended, and the cost of defense might be many times larger than the fee earned for conducting the evaluation. Therefore, most contracts include provisions that make clients responsible for project-related liabilities which consultants are powerless to control.

Also, our client may be sued by a landowner for reduced property value if a wetland or stream is discovered. As a result, the client in the agreement should address this potential problem so that both the client and the consultant are "held harmless" for the possible discovery of wetlands or streams.

# COUNCIL MINUTES

## Regular Meeting July 7, 2009

Mayor Don Gerend called the regular meeting of the Sammamish City Council to order at 6:30 pm.

**Councilmembers present:** Mayor Don Gerend, Deputy Mayor Jack Barry, Councilmembers Mark Cross, Lee Felling, Kathleen Huckabay, and Michele Petitti

**Councilmember absent:** Councilmember Nancy Whitten.

**Staff present:** City Manager Ben Yazici, Deputy City Manager Pete Butkus, Public Works Director John Cunningham, Community Development Director Kamuron Gurol, Parks & Recreation Director Jessi Richardson, Administrative Services Director Mike Sauerwein, City Attorney Bruce Disend, and City Clerk Melonie Anderson.

### Roll Call/Pledge

Roll was called. City Manager Ben Yazici led the pledge.

### Public Comment

Peter Scontrino, 21832 SE 28<sup>th</sup> Street, *(Submitted written comment)*.

Linda Eastlick, PO Box 2574, Issaquah, She does not like the terminology “active use area” in the Shoreline Master Plan, as she feels this might limit the types of activity that could take place on the property.

Mike Collins, 2481 E. Lake Sammamish Parkway NE, He thinks the council is doing a good job with the Shoreline Master Plan.

Jack Rogers, 22708 SE 22<sup>nd</sup> Place, He spoke regarding shoreline buffers and their positive effects on lakes. He does not feel there have been very many studies done to see the effects of buffers in an urban setting like Sammamish.

George Toskey, 2430 238<sup>th</sup> Place NE, *(Submitted written comments)*.

Ginette Toskey, 2430 238<sup>th</sup> Place NE, *(Submitted written comments)*.

Kathy Richardson, 2033 Eastlake Sammamish Parkway NE, She spoke regarding the types of materials that can be used if a dock needs a permit to be replaced. She does not feel Council gave direction on when and if a permit will be required.

Reid Brockway, 167 East Lake Sammamish Shore Lane NE, He commented on the staff memo regarding shoreline vegetation. He feels the memo contains inadequate information to guide the Council in making regulations.

Dwight Martin, He spoke regarding the Bellevue report.

Rory Crispin, 3032 East Lake Sammamish Parkway NE, He spoke regarding the SMP proposals as they relate to Lake Sammamish. He believes the City should just require an Army Corp permit, rather than writing regulations regarding docks in the SMP.

### **Approval of Agenda**

**MOTION: Councilmember Huckabay moved to amend the Consent Agenda by removing Item #7, contract with Glatting Jackson Kercher Anglin Inc. and placing it under New Business. Motion carried unanimously 6-0.**

### **Proclamations/Presentations**

- **Presentation: Governor's Smart Communities Award**  
Mayor Gerend presented Dawn Flores, Plans Examiner with the award. This award was given to the city for work Ms. Flores did to design 22 "over-the-counter" permit applications.
- **Presentation: Puget Sound Regional Council Transportation 2040 Presentation**  
*(PowerPoint presentation available on the city website at [www.ci.sammamish.wa.us](http://www.ci.sammamish.wa.us))*

### **Consent Calendar**

Payroll for pay period ending June 15, 2009 for pay date June 19, 2009 in the amount of \$261,233.76

Payroll for pay period ending June 30, 2009 for pay date July 2, 2009 in the amount of \$274,710.51

Approval: Claims for period ending July 7, 2009 in the amount of \$3,408,257.50 for Check No. 23840 through Check No. 24005

Resolution: Kampp Family LLC Property - 2009 Public Benefit Rating System (PBRs) Program (R2009-377)

Resolution: Mullen Property -2009 Public Benefit Rating System (PBRs) Program (R2009-378)

Resolution: Ralou Farm LLC Property -2009 Public Benefit Rating System (PBRs) (R2009-379)

Resolution: Final Acceptance Room 214 Remodel/Bayley Construction (R2009-380)

Contract: On-Call Arborist Services/Tree Solutions

Contract: On-Call Geotechnical Services/HWA

Contract: Financial Support/Friends of Issaquah Salmon Hatchery (FISH)

Approval: Notes for June 15, 2009 Study Session

Approval: Minutes for June 16, 2009 Regular Meeting

**MOTION:** To approve consent calendar. Motion carried unanimously 6-0.

### **Public Hearing**

#### **Ordinance: First Reading Annexing Rosemont At Timberline Subdivision Effective July 31<sup>st</sup>, 2009**

Director of Community Development Kamuron Gurol gave a short staff report. This is the first reading of the ordinance. No action is required tonight.

Public Hearing opened at 7:40 pm. There was no public comment. Public Hearing closed at 7:41 pm.

### **Unfinished Business**

#### **Shoreline Master Plan – Council Policy Direction:**

- **All lakes**
  - Docks may be as long as the average length of the nearest docks on either side (assuming the adjacent docks are not “stub docks”) and are limited to ¼ the distance to the opposite shore.
  - Dock height will not exceed 5 feet above the Ordinary High Water level.
  - Docks will be set back at least 15 feet from the waterward extension of the side property line with the exception of joint use docks.
  - The Shoreline Master Program will differentiate Beach Club properties servicing 10 or more lots from single-family residential regulations.
  - The active use area for Beach Clubs will match that of other private shoreline owners and existing Beach Club uses will be “grandfathered” in.
  - When evaluating the need for new structural shoreline stabilization, alternatives to structural stabilization will be considered in the following order of preference:
    - 1. No action (allow the shoreline to retreat naturally)
    - 2. Increased building setback
    - 3. Use of “flexible defense works” constructed of natural materials
  - When considering repair or replacement of shoreline stabilization, alternative restoration will be considered in the following order of priority:
    - Remove bulkhead, place fill, vegetate

- Leave bulkhead, place fill, vegetate
    - Vegetate water side of bulkhead
  - Do not require a CUP for shoreline stabilization, but balance this with additional vegetation requirement
  - Reductions of the “Shoreline Zone” listed in the PC draft SMP, include:
    - A reduction (required prior to other reductions) of 10 feet for planting a 15 foot “shoreline enhancement zone” from the OHWM landward
    - A reduction of 15 feet for the removal of a bulkhead and restoration of shoreline or replacement with “bulkhead alternative” as presented in the “Green Shorelines” handbook
    - A reduction of 10 feet for creation of a durable inclined fill of gravel against the waterside of an existing bulkhead and restoration with native plants only when removal of a bulkhead will result in ecological harm (staff to review further)
- **Lake Sammamish**
  - Allow up to 480 square feet of dock area for single lot service, 700 square feet of dock area for two to nine lot service, and 1000 square feet of dock area for ten or more lot service (Beach Clubs)
  - Beach Clubs will be allowed to have a second dock to service an existing ramp as long as the total area of the docks is within the 1000 square foot dock area allowance
- **Pine and Beaver Lake**
  - Allow up to 480 square feet of dock area for single lot service and 700 square feet of dock area for joint use docks serving two or more lots
  - Vegetation management as directed at the June 2<sup>nd</sup> meeting with the addition that “increased vegetation elsewhere on the lot” be preferably located near drainage areas such as swales or ditches

**Council will consider the following issues on July 7**

- Urban Conservancy Designations
- OHWM

**Council requests for further information**

- Clarify development triggers and thresholds requiring SMP conformance
- Confirmation that planting on fill on the waterward side of a bulkhead is acceptable to COE and NMFS
- Assessment of Urban Conservancy sites and analysis of the possible increase in docks if the 200 foot spacing is not adopted

**Council requests for further information**

- Community beaches
- Ordinary High Water Mark

## **New Business**

### **Contract: SE 24th Street Wetland Monitoring**

Senior Engineer Jed Ireland gave the staff report and showed a PowerPoint presentation (presentation available on city website at [www.ci.sammamish.wa.us](http://www.ci.sammamish.wa.us))

**MOTION:** Councilmember Huckabay moved to authorize the City Manager to sign an amendment with Northwest Landscaping in an amount not to exceed \$20,000. Councilmember Cross seconded. Motion carried unanimously 6-0.

### **Ordinance: First Reading Amending Chapter 14A of the Sammamish Municipal Code**

City Manager Ben Yazici gave the staff report. This is the first reading of the ordinance. No action is required at this time. This ordinance will allow for the payment of impact fees at the time of sale rather than at the time of building permit issuance.

### **Contract: On-Call Walk Ability Design/ Glatting Jackson Kercher Anglin Inc.**

Public Works Director John Cunningham gave the staff report. There are four task areas in this contract: (1) connectivity, (2) provide peer review for the revised Public Works Standards, (3) Town Center Street Standards, and (4) other “On-Call” tasks as identified.

**MOTION:** Councilmember Cross moved to authorize the City Manager to sign a contract with Glatting Jackson Kercher Anglin, Inc., in an amount not to exceed \$75,000. Councilmember Felling seconded. Motion carried unanimously 5-1 with Councilmember Huckabay dissenting.

## **Council Reports**

Mayor Gerend reported the Sammamish Plateau Water and Sewer District will go forward with the SE 20<sup>th</sup> Street Sewer extension.

### **City Manager Report**

Mr. Yazici reported that the City is in the process of purchasing and installing 15-20 digital speed signs. He also reported that the City is looking into joining EGovDelivery. This is a system that lets users sign up to be notified about city issues they are interested in via email.

**Executive Session** – Potential Litigation and Litigation pursuant to RCW 42.30.110(1)(i) and Property acquisition pursuant to RCW 42.30.110(1)(b).

Council adjourned to Executive Session at 10:40 pm. They returned at Meeting adjourned at 11:15 pm. No action was taken.

Melonie Anderson, City Clerk

---

Donald L. Gerend, Mayor

# *STUDY SESSION NOTES*

---

## **Study Session July 14, 2009**

Mayor Don Gerend opened the study session of the Sammamish City Council at 6:30 pm.

### **Public Comment**

### **Topics**

- ✓ Presentation: Thompson and Inglewood Basin Studies
- ✓ Presentation: Stormwater/NPDES GAP Analysis update
- ✓ Update: Pine Lake Study
- ✓ Update: Neighborhood Traffic Management Plan
- ✓ Pavement Management Program

### **Council Reports**

### **City Manager Report**

**Close Study Session**

**10:00 pm**

# COUNCIL MINUTES

## Regular Meeting July 21, 2009

Mayor Don Gerend called the regular meeting of the Sammamish City Council to order at 6:30 pm.

**Councilmembers present:** Mayor Don Gerend, Deputy Mayor Jack Barry, Councilmembers Mark Cross, Lee Felling, Kathleen Huckabay, Michele Petitti and Nancy Whitten.

**Staff present:** City Manager Ben Yazici, Deputy City Manager Pete Butkus, Public Works Director John Cunningham, Community Development Director Kamuron Gurol, Parks & Recreation Director Jessi Richardson, Administrative Services Director Mike Sauerwein, City Attorney Bruce Disend, and Deputy City Clerk Stacy Herman.

### Roll Call/Pledge

Roll was called. Councilmember Cross led the pledge.

### Public Comment

### Approval of Agenda

**MOTION:** Councilmember Cross moved to amend the the agenda by removing item #5 Sammamish Landing Master Plan/Berger from the consent agenda and move it to the beginning of unfinished business. Councilmember Felling seconded. Motion carried unanimously 7-0.

### Consent Calendar

- Payroll for pay period ending July 15, 2009 for pay date July 20, 2009 in the amount of \$267,433.15

**Approval:** Claims for period ending July 21, 2009 in the amount of \$1,278,962.28 for Check No. 24006 through Check No. 24140

**Contract:** City hall Door Repair/Western Entrance Technology, LLC

**Approval:** GovDelivery

**Amendment:** Beaver Lake Park Master Plan/Berger

**~~Amendment:~~** ~~Sammamish landing Master Plan/Berger~~

**Authorization:** Contract Award Chip Seal

**Authorization:** Proceeds Distribution Bellevue Jail Property Sale

**MOTION:** Councilmember moved to approve the consent calendar as amended. Motion carried unanimously 7-0.

### **Unfinished Business**

#### **Sammamish Landing Master Plan**

City manager Yazici reported that the purpose of the \$7900 amendment to the contract with Berger is to conduct a survey on the south side of the Sammamish Landing property to determine the correct boundary of public ownership. Councilmember Cross expressed his concerns regarding the Master Plan.

Parks Director Jessi Richardson updated Councilmember Cross on the Master Plan, public meetings and a preferred alternative plan that will be coming back to council for consideration on September 21<sup>st</sup> and that the plan will be substantially revised from the original.

**MOTION:** Councilmember Huckabay moved to authorize the City Manager to execute a contract in the amount of \$7900 with the Berger Partnership for additional survey work for the Sammamish Landing Master Plan. Councilmember Cross seconded. Motion carried unanimously 7-0.

#### **Ordinance: Second Reading Annexing Rosemont At Timberline Subdivision Effective July 31st 2009 (O2009-262)**

Community Development Director/Assistant City Manager Kamuron Gurol gave the staff report. This is the last council action for the annexation of Rosemont at Timberline Subdivision capstone ordinance. The effective date of the ordinance will be July 31st.

**MOTION:** Councilmember Felling moved to adopt an ordinance (O2009-262) Annexing Rosemont at Timberline Subdivision. Councilmember Petitti seconded. Motion carried unanimously 7-0.

#### **Ordinance: Second Reading Amending Title 14a Of The Sammamish Municipal Code (O2009-263)**

Community Development Director/Assistant City Manager Kamuron Gurol gave the staff report. The amendment to the ordinance would allow a little more leniency for developers/homeowners to pay road and park impact fees. The original ordinance required all fees to be paid at building permit issuance; the revised language will allow a deferred payment at time of lot/house sale with the fee paid through escrow. The sunset clause has been set to expire December 30, 2010.

**MOTION:** Councilmember Felling moved to approve Ordinance O2009-263 amending Title 14a of the Sammamish Municipal Code. Councilmember Huckabay seconded. Motion carried unanimously 7-0.

Community Development Director/Assistant City Manager Kamuron Gurol presented a PowerPoint presentation (Available on the City's website [www.ci.sammamish.wa.us](http://www.ci.sammamish.wa.us)) providing an overview of City Council Policy Direction for the Shoreline Master Plan (SMP). Urban Conservancy and Ordinary High Water Mark information was presented, discussed and included in the packet as the City Council had requested. Next steps, proposed designation changes, individual landowner changes, and effects of Urban Conservancy were also discussed. SMP designations have been renamed from Rural to Shoreline Residential and Conservancy to Urban Conservancy. Mr. Gurol walked Council members through the next steps and reiterated that the Draft SMP is scheduled to be completed early August and the final version completed in September. A public informational meeting is tentatively scheduled for August 17<sup>th</sup>, the public hearing before the City Council is scheduled for September 1, 2009 and adoption of the final SMP is scheduled for September 22<sup>nd</sup>. He welcomed Council Members to attend the public informational meeting.

**Public Comment:**

Peter Scontrino 21832 SE 28<sup>th</sup> Street: He requests that Council eliminate all shoreline enhancement zones in the City of Sammamish SMP.

Mike Collins 2841 E. Lake Sammamish Parkway NE: He commended the City Council on all their hard work on the SMP. He offered to help out in any way he could to finalize the SMP.

Dwight Martin 5101 Sammamish Parkway NE: He requested Council use the 2700 OHWM elevation, as he suggests that it is more consistent with the Army Corp of Engineers and King County. (Comments submitted by Dwight Martin can be made by requesting the City Clerk's Office.)

Gary Smith 5011 E. Lake Sammamish Parkway NE: He discussed shoreline residential and urban conservancy zoning. He has concerns that the Planning Commission recommended zoning of his property (and his neighbor) is now being revised from shoreline residential and changing it back to urban residential.

Mr. Gurol explained that the Planning Commission recommendation for his property to be zoned shoreline residential have not been modified by the City Council. There is no proposal to change the designations for the two lots discussed by Mr. Smith.

Rory Crispin 3023 East Lake Sammamish Parkway SE: He suggests best available science and the goals of the SMA and reduced dock sizes.

Reid Brockway: He commented on May 19<sup>th</sup> SHO City revised version of the SMP and the time and effort spent on it.

Linda Eastlick 2032 222<sup>nd</sup> Avenue SE: She commented on policy direction from July 7<sup>th</sup> on shoreline stabilization. She has concerns with the shoreline to retreat naturally and putting the burden on those who do not have a bulkhead. Suggests it's not necessarily a natural process where there is surface water that washes away the shore in period of heavy rainfall. She encourages green shorelines approach be used, where there is not a form of stabilization. She also commented on the interior setbacks.

Mary Joe 21911 SE 20<sup>th</sup> Street: She encouraged the Council mimic the City of Redmond's shoreline plan, which was accepted by the Department of Ecology, particularly on buffers and setbacks and the impacts to homeowners and their property.

Michael Pizzo 3123 East Lake Sammamish Parkway SE: Has concerns with Urban Conservancy designations.

There was discussion amongst Council Members and revisions made to the policy direction, which is depicted down below.

### **City Council Policy Decisions Shoreline Master Plan**

City Council Direction from July 21, 2009 meeting

#### **Council Policy Direction from July 21, 2009 (new)**

- **All lakes**
  - Public access will be offered by way of public lands (confirmed).
  - Replacement of existing bulkheads will be allowed (confirmed).
  - Retain the designation of Urban Conservancy as mapped in the Planning Commission recommended draft.
  - Consider designing incentives to promote the retention of vegetation within the Urban Conservancy.
  - Delete the requirement for 200 foot spacing between docks within the Urban Conservancy.
  - Delete the prohibition on subdivision within the Urban Conservancy.
  - The Ordinary High Water Mark will be determined by site specific review as defined by the state guidelines.
- **Lake Sammamish**
  - The City will conduct a study to establish a default Ordinary High Water Mark for purposes of administration.
- **Pine and Beaver Lakes**
  - Subdivision of parcels on Pine and Beaver Lake must maintain a minimum lot width of 50 feet at the shoreline (confirmed).

#### **Council Policy Direction from July 7, 2009 (updated after July 21, 2009 to reflect additional Council direction)**

- **All lakes**

- Docks may be as long as the average length of the nearest docks on either side (assuming the adjacent docks are not “stub docks”) and are limited to ¼ the distance to the opposite shore.
  - Dock height will not exceed 5 feet above the Ordinary High Water level.
  - Docks will be set back at least 15 feet from the waterward extension of the side property line with the exception of joint use docks.
  - The Shoreline Master Program will differentiate Beach Club properties servicing 10 or more lots from single-family residential regulations.
  - The active use area for Beach Clubs will match that of other private shoreline owners and existing Beach Club uses will be “grandfathered” in.
  - Do not require a CUP for shoreline stabilization, but balance this with additional vegetation requirement
  - Reductions of the “Shoreline Zone,” listed in the PC draft SMP, include:
    - A reduction (required prior to other reductions) of 10 feet for planting a 15 foot “shoreline enhancement zone” from the OHWM landward
    - A reduction of 15 feet for the removal of a bulkhead and restoration of shoreline or replacement with “bulkhead alternative” as presented in the “Green Shorelines” handbook
    - A reduction of 10 feet for creation of a durable inclined fill of gravel against the waterside of an existing bulkhead and restoration with native plants only when removal of the bulkhead will result in ecological harm (staff to review further)
  - Ensure that trigger and threshold issues (in regard to maintenance and rebuilding) are clearly articulated in the CC draft
- **Lake Sammamish**
    - Allow up to 480 square feet of dock area for single lot service, 700 square feet of dock area for two to nine lot service, and 1000 square feet of dock area for ten or more lot service (Beach Clubs)
    - Beach Clubs will be allowed to have a second dock to service an existing ramp as long as the total area of the docks is within the 1000 square foot dock area allowance
  - **Pine and Beaver Lake**
    - Allow up to 480 square feet of dock area for single lot service and 700 square feet of dock area for joint use docks serving two or more lots
    - Vegetation management as directed at the June 2<sup>nd</sup> meeting with the addition that “increased vegetation elsewhere on the lot” be preferably located near drainage areas such as swales or ditches

**Council will consider the following issues on July 7**

- Urban Conservancy Designations
- OHWM

**Council requests for further information**

- Clarify development triggers and thresholds requiring SMP conformance

- Confirmation that planting on fill on the waterward side of a bulkhead is acceptable to COE and NMFS
  - Assessment of Urban Conservancy sites and analysis of the possible increase in docks if the 200 foot spacing is not adopted
- 

### **Council Policy Direction from June 16, 2009**

- All lakes
  - Use citywide standards for impervious surface limits.
  - Allow subdivision of Urban Conservancy designated lots.
  - Physical and visual access is made available to the public by way of existing public parks, and potentially through street ends and other public lands.
  - Demonstrated need is not necessary for permitting of private residential docks.
  - WDFW approved materials are required for all dock repairs requiring permits.
  - No additional SMP regulation on spacing of private residential docks in the Urban Conservancy.
- Lake Sammamish
  - Interior side yard setbacks to total 15% of lot width, with a minimum 5 foot width for sides of structure.
  - Features per private dock:
    - 1 float
    - 2 boat lifts and 2 PWC lifts OR 4 PWC lifts
  - Features per private joint-use dock:
    - As above, plus:
    - 1 extra boat lift and 1 extra PWC lift
- Pine and Beaver Lake
  - Minimum lot width required for subdivision within Shoreline Jurisdiction: 50 feet
  - Restrict division of lot edge along waterfront edge
  - New lifts are prohibited
  - Existing lifts are “grandfathered”
  - Interior setbacks per zoning code

### **Council will consider the following issues on July 7**

- Beach Club
- Shoreline Stabilization
- Ordinary High Water Mark
- Tree retention/vegetation requirements (clarification of June 2 direction)
- Shoreline Designations
- Policy direction item D-2 (size and length of docks)
- Possible limitation of floats and barges on Pine and Beaver Lakes

### **Council requests for further information**

- Ordinary High Water Mark

- Current state regulations regarding public benefit requirements for subdivision (RCW 58.17.110)
  - Information regarding dock length/area regulations and fill for lifts (ACE and nearby jurisdictions)
  - Information on Best Available Science regarding vegetation retention and impervious surfaces
- 

### **Council Policy Direction from June 2, 2009 (updated June 17, 2009)**

- Lake Sammamish
  - Establish a “Shoreline Zone” of 45 feet
  - Establish a “Shoreline Enhancement Area” of 15 feet
  - Establish a 5 feet Building Setback Line (BSBL) from “Shoreline Zone”
  - Offer incentives that can reduce the “Shoreline Zone” down to 15 feet
  
- Pine and Beaver Lake
  - Establish a “Shoreline Zone” of 45 feet
  - Establish a “Shoreline Enhancement Area” of 15 feet with incentive to reduce to 5 feet for increased vegetation elsewhere on the lot
  - Establish a 5 foot BSBL from “Shoreline Zone”
  - 80% of significant trees within the Shoreline Jurisdiction would be retained
  
- All lakes
  - Vegetation requirements are only applied through new permit application review
  - Vegetation will include a minimum of 75% native plants within the “Shoreline Enhancement Area”; up to 25% of vegetation may be non-natives
  - Allow an active use area that is up to 25% of the “Shoreline Enhancement Area” and no less than 15 feet of the lot width, and specify that the active use area can be non-contiguous
  - Fences within the “Shoreline Enhancement Area” will not exceed 6 feet in height
  - Existing landscape features may be retained and maintained
  
- Primary residences within the “Shoreline Zone” on all lakes
  - Legal and conforming primary residences, existing entirely within or partially extended into the newly established “shoreline zone,” continue to be legal and conforming upon adoption of the updated SMP
  - Such residences may be rebuilt in-kind
  - Indoor and outdoor remodeling and maintenance of such residences is allowed as long as the portion of the structure’s envelope (base and height dimensions) existing within the “shoreline zone” is not enlarged
  - Any reconstruction, beyond in-kind, within the “Shoreline zone” (voluntary or involuntary) triggers mitigation through vegetative restoration in the “Shoreline Enhancement Zone”
  - Expansion of the portion of the primary structure residence located outside the “shoreline zone” is regulated by existing city code

**Council requests for further information**

- Community beaches
- Ordinary High Water Mark

**Council Reports**

***Councilmember Felling:*** He attended Shakespeare in the Park last week and encouraged everyone to attend. He attended National League of Cities and discussed the cash crises in other states, pension spiking and increased pay for public sector vs. private sector.

***Councilmember Petitti:*** She commented on support for the art commission. She is discouraged that there has been no resolution on the Freed House.

***Councilmember Huckabay:*** She commented on the Freed House and the Kellman House. She attended regional transit meeting last week.

***Mayor Gerend:*** Attended the WRIA 8 meeting last week. He updated the Council on the King Conservation District special assessment proposal and how the funds are split. Mayor Gerend drafted a letter to the King Conservation District opposing the reduction and lack of clarity that is currently being proposed.

**City Manager Report**

City Manager Yazici reported that a Commute Trip Reduction grant in the amount of \$500,000, along with several cities is being applied for. It requires the city to match \$250,000. The City of Sammamish share is \$21,487.00 over three years and because there are existing programs that are currently in place, it does not require the City to come up with hard cash.

He explained to Council the Lower Sammamish Commons project is requiring some additional excavating because of the soil conditions. There will be some additional costs associated with the additional work. There is a contingency fund associated with this project, granting the City Manager approval and signing authority for additional work.

**Executive Session – Personnel pursuant to RCW 42.30.110 (1)(g) and Property Acquisition pursuant to RCW 42.30.110 (1)(b)**

Mayor Gerend announced that the session may last an hour or longer and there will action following.

Council retired to Executive Session at 9:40 p.m. and returned at 11:25 p.m.

Councilmember Felling spoke on behalf of the entire City Council regarding the City Manager's evaluation. City Manager Yazici received a stellar evaluation.

**MOTION:** to adjourn. Motion carried unanimously 7-0.

Meeting adjourned at 11:30 pm

---

**Summary Statement:**

The City's Shoreline Master Program (SMP) is proposed to be amended for compliance with State Shoreline Management Act Guidelines as set forth in the Washington Administrative Code 173-27. All jurisdictions in the State of Washington with state shorelines (lakes with surface areas greater or equal to 20 acres and streams with flow of 20 cubic feet per second) are required to undertake this process. The city's shorelines are

currently regulated under the existing SMP, which has been in place with King County since 1978 and with the City of Sammamish since its incorporation. Companion amendments to the Critical Areas Ordinance are included for consistency with the update.

**Background:**

After an extensive public process, the Planning Commission recommended adoption of amendments. The City Council public hearing was convened on March 17, 2009, and an additional public hearing session was held on June 2, 2009. The public hearing was continued to September 1, 2009. The City Council Review Draft includes additional amendments to the plan to be consistent with council direction.

**Financial Impact:**

N/A

**Recommended Motion:**

Motion to close the public hearing.

**DRAFT**  
**CITY OF SAMMAMISH**  
**WASHINGTON**  
**ORDINANCE NO. O2009 - \_\_\_\_**

---

AN ORDINANCE OF THE CITY OF SAMMAMISH, WASHINGTON, ADOPTING THE 2009 SAMMAMISH SHORELINE MASTER PROGRAM AND REPLACING THE KING COUNTY SHORELINE MASTER PROGRAM ADOPTED BY KING COUNTY ORDINANCE 3688; AMENDING THE CITY OF SAMMAMISH COMPREHENSIVE PLAN; ADOPTING SHORELINE MAPS; AND CODIFYING THE SHORELINE MASTER PROGRAM INTO TITLE 25 OF THE SAMMAMISH MUNICIPAL CODE

WHEREAS, the City incorporated in August of 2009;

WHEREAS, the City Council adopted the City's Comprehensive Plan on September 16, 2003, and the City has enacted zoning consistent with the comprehensive plan; and

WHEREAS, the City Council adopted the Sammamish Municipal Code on October 7, 2003 and subsequent revisions have been made since that time; and

WHEREAS, the City has not adopted a Shoreline Master Program to replace the King County Shoreline Master Program, originally adopted by King County Ordinance 3688 on May 1, 1978; and

WHEREAS, the State of Washington passed the Shoreline Management Act of 1971 governing the adoption of Shoreline Master Programs, as currently set forth within Chapter 58 of Title 90 of the Revised Code of Washington, and subject to the Washington State Department of Ecology's administrative rules contained within Title 173 of the Washington Administrative Code; and

WHEREAS, the City applied for, and obtained a grant from the Washington State Department of Ecology in March of 2006 to assist in the preparation and adoption of a 2009 Sammamish Shoreline Master Program; and

WHEREAS, the City has completed the preparation of supporting information and background material for the 2009 Shoreline Master Program; and

WHEREAS, the City Council adopted lake buffers and other protections associated with Lake Sammamish, Pine Lake, and Beaver Lake as part of Ordinance O2005-193; and

WHEREAS, the new Shoreline Master Program provides for protection and development standards on Lake Sammamish, Pine Lake, and Beaver Lake that are equivalent to, or

provide greater protection than, the protection and development standards contained within Ordinance O2005-193; and

WHEREAS, the City Council intends to repeal those portions of Ordinance O2005-193 that provide for the lake buffers and other protections associated with Lake Sammamish, Pine Lake, and Beaver Lake concurrent with the adoption of the 2009 Sammamish Shoreline Master Program; and

WHEREAS, development applications are reviewed for compliance with these regulations; and

WHEREAS, a State Environmental Policy Act (SEPA) Determination of Non Significance for the proposed 2009 Shoreline Master Program and associated SMC 21A.50 (Critical Areas) amendments was issued on August 26, 2009; and

WHEREAS, in accordance with WAC 365-195-620, a notice of intent to adopt the proposed Sammamish Shoreline Master Program was received by the State of Washington Department of Community, Trade and Economic Development on August 11, 2009; and

WHEREAS, the public process for the proposed amendments has provided for extensive public participation opportunities at more than twenty public meetings and hearings before the Planning Commission and City Council as well as a number of public open houses, and dialogue sessions between June of 2007 and July of 2009; and

WHEREAS, the Planning Commission held public meetings and public hearings in 2007 and 2008 and forwarded a recommend Sammamish Shoreline Master Program to the City Council on January 6, 2009; and

WHEREAS, the City Council considered the proposed Sammamish Shoreline Master Program at a City Council public hearing on March 17, 2009, which was continued on June 2, 2009, and September 1, 2009; and

WHEREAS, the City Council considered the Planning Commission's recommendation, public comment, and other available information.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SAMMAMISH, WASHINGTON, DO ORDAIN AS FOLLOWS:**

**Section 1. Adoption of the Shoreline Master Program.** The 2009 Sammamish Shoreline Master Program set forth in Attachment "A" to this ordinance is hereby adopted.

**Section 2. Repeal of Title 25 of the Sammamish Municipal Code.** Title 25 of the Sammamish Municipal Code, which contains portions of the King County Shoreline Master Program adopted by King County Ordinance 3688, is hereby repealed.

**Section 3. Codification of the Shoreline Master Program.** The City Council authorizes the Community Development Director and City Clerk to codify the regulatory provisions of the Sammamish Shoreline Master Program within Title 25 of the Sammamish Municipal Code for ease of use and reference.

**Section 4. Interpretation.** The City Council authorizes the Community Development Director to administratively interpret these provisions as necessary to implement the intent of the Council.

**Section 5. Severability.** Should any section, paragraph, sentence, clause or phrase of this Ordinance, or its application to any person or circumstance, be declared unconstitutional or otherwise invalid for any reason, or should any portion of this Ordinance be pre-empted by state or federal law or regulation, such decision or pre-emption shall not affect the validity of the remaining portions of this Ordinance or its application to other persons or circumstances.

**Section 6. Effective Date.** This ordinance shall be published in the official newspaper of the City, and shall be transmitted to the Washington State Department of Ecology for review and approval. This ordinance shall become effective on the date that the Department of Ecology issues formal approval of the ordinance.

**ADOPTED BY THE CITY COUNCIL AT A REGULAR MEETING THEREOF ON  
THE \_\_\_ DAY OF \_\_\_\_\_ 2009.**

AN ORDINANCE OF THE CITY OF SAMMAMISH, WASHINGTON, AMENDING CHAPTER 21A.50 (ENVIRONMENTALLY CRITICAL AREAS), OF THE SAMMAMISH MUNICIPAL CODE

WHEREAS, the City Council adopted the City's Comprehensive Plan on September 16, 2003, and the City has enacted zoning consistent with the comprehensive plan; and

WHEREAS, the City Council adopted the Sammamish Municipal Code on October 7, 2003 and subsequent revisions have been made since that time; and

WHEREAS, the adopted City of Sammamish Comprehensive Land Use Plan supports the protection of environmentally critical areas through the adoption of development regulations; and

WHEREAS, the City Council adopted Ordinance O2005-193, which amended the Sammamish Municipal Code to update the City's environmentally critical area regulations to meet the requirements of RCW 36.70A.020, RCW 36.70A.172, and WAC 365-195-900 through 925; and

WHEREAS, prior to adopting Ordinance O2005-193, the City Council undertook an extensive Best Available Science (BAS) review and public process in accordance with the requirements of the GMA, developed Sammamish Municipal Code amendment drafts, prepared environmental documents in accordance with the requirements of the State Environmental Policy Act (SEPA), and held meetings and hearings throughout the code development process; and

WHEREAS, the City Council intends to adopt a new Shoreline Master Program on September 15, 2009, consistent with the requirements of RCW 90.58, WAC 173-26, and WAC 173-27; and

WHEREAS, the new Shoreline Master Program provides for protection and development standards on Lake Sammamish, Pine Lake, and Beaver Lake that are equivalent to, or provide greater protection than, the protection and development standards contained within Ordinance O2005-193; and

WHEREAS, a State Environmental Policy Act (SEPA) Determination of Non Significance for the proposed 2009 Shoreline Master Program and associated SMC 21A.50 (Critical Areas) amendments was issued on August 26, 2009; and

WHEREAS, in accordance with WAC 365-195-620, a notice of intent to adopt the proposed Sammamish Shoreline Master Program was received by the State of Washington Department of Community, Trade and Economic Development on August 18, 2009; and

WHEREAS, development applications are reviewed for compliance with these regulations; and

WHEREAS, the public process for the proposed amendments has provided for public participation opportunities; and

WHEREAS, the City Council considered the proposed amendments at a City Council public hearing conducted on September 1, 2009.

**NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SAMMAMISH, WASHINGTON, DO ORDAIN AS FOLLOWS:**

**Section 1. Amendments to the Municipal Code.** The municipal code amendments set forth in Attachment "A" to this ordinance are hereby adopted.

**Section 2. Severability.** Should any section, paragraph, sentence, clause or phrase of this Ordinance, or its application to any person or circumstance, be declared unconstitutional or otherwise invalid for any reason, or should any portion of this Ordinance be pre-empted by state or federal law or regulation, such decision or pre-emption shall not affect the validity of the remaining portions of this Ordinance or its application to other persons or circumstances.

**Section 3. Effective Date.** This ordinance shall be published in the official newspaper of the City, and shall be transmitted to the Washington State Department of Ecology for review and approval. This ordinance shall become effective on the date that the Department of Ecology issues formal approval of the ordinance.

**ADOPTED BY THE CITY COUNCIL AT A REGULAR MEETING THEREOF ON THE \_\_\_\_ DAY OF \_\_\_\_\_ 2009.**

CITY OF SAMMAMISH

\_\_\_\_\_  
Mayor Don Gerend

## ATTACHMENT A

- SMC 21A.50.060(1) - Partial Exemptions.
- SMC 21A.50.210 - Building Setbacks.
- SMC 21A.50.290(2) - Wetlands – Development Standards.
- SMC 21A.50.351 - Lakes and ponds – Development standards.
- SMC 21A.50.352 - Lake Sammamish buffer – Permitted alterations.

“Plain Text” is existing code language

“~~Strikethrough Text~~” is existing language that will be deleted

“Underline Text” is code language that will be added

**21A.50.060 Partial exemptions.**

- (1) The following developments, activities and uses are exempt from the review process of this chapter, except for the notice on title provisions, SMC 21A.50.180 and 21A.50.190, and the frequently flooded areas provisions, SMC 21A.50.230, and provided such exempt activities are otherwise consistent with the purpose of this chapter and other applicable regulations. The director may apply conditions to an underlying permit or approval to ensure that the activities are consistent with the provisions of this chapter.
- (a) Structural modification of, addition to or replacement of existing legally created structures, except single detached residences in existence before November 27, 1990, which do not meet the building setback or buffer requirements for wetlands, streams, lakes, ponds, ~~or~~ landslide hazard areas, or shoreline setbacks required by the Sammamish Shoreline Master Program, if the modification, addition, replacement or related activity does not increase the existing footprint of the structure lying within the above-described building setback area, critical area or buffer.
  - (b) Structural modification of, addition to or replacement of legally created single detached residences and improvements constructed on existing associated legally created impervious surfaces in existence before November 27, 1990, which do not meet the building setback or buffer requirements for wetlands, streams, lakes, ponds, ~~or~~ landslide hazard areas, or shoreline setbacks required by the Sammamish Shoreline Master Program if the modification, addition, replacement or related activity does not increase the existing total footprint of the residence and associated impervious surface lying within the above-described buffer or building setback area by more than 1,000 square feet over that existing before November 27, 1990, and no portion of the modification, addition or replacement is located closer to the critical area or, if the existing residence is in the critical area, extends farther into the critical area.
  - (c) Maintenance or repair of structures that do not meet the development standards of this chapter for landslide or seismic hazard areas if the maintenance or repair does not increase the footprint of the structure and there is no increased risk to life or property as a result of the proposed maintenance or repair.
  - (d) Select Vegetation Removal Activities. The removal of the following invasive vegetation is allowed with hand labor and/or light equipment; provided, that the appropriate erosion-control measures are used and the area is replanted with native vegetation according to a restoration or enhancement plan that has been approved by the City of Sammamish:
    - (i) Noxious weeds as identified by Washington State or King County noxious weed lists;
    - (ii) Himalayan blackberry (*Rubus discolor*, *R. procerus*);
    - (iii) Evergreen blackberry (*R. laciniatus*);
    - (iv) Ivy (*Hedera* spp.); and
    - (v) Holly (*Ilex* spp.), laurel, Japanese knotweed (*Polygonum cuspidatum*), or any other species on the King County noxious weed list.

Removal of any native vegetation or woody debris from a critical area is prohibited unless the action is part of an approved alteration.
  - (e) Conservation, Preservation, Restoration and/or Enhancement.

- (i) Conservation and preservation of soil, water, vegetation, fish and other wildlife that does not entail alteration of the location, size, dimensions or functions of an existing critical area or buffer; and
- (ii) Restoration and enhancement of critical areas or buffers; provided, that actions do not alter the location, dimensions or size of the critical area or buffer; that actions improve and do not reduce the existing quality or functions of the critical areas or buffers; and that actions are implemented according to a restoration or enhancement plan that has been approved by the City of Sammamish.

...

**21A.50.210 Building setbacks.**

Unless otherwise provided, buildings and other structures shall be set back a distance of 15 feet from the edges of a critical area buffer. ~~The setback from the Lake Sammamish buffer shall be five feet; provided, that the setback shall not be less than required by this chapter or the shoreline master program, whichever is greater.~~ The following may be allowed in the building setback area:

- (1) Landscaping;
- (2) Uncovered decks;
- (3) Building overhangs if such overhangs do not extend more than 18 inches into the setback area;
- (4) Impervious ground surfaces, such as driveways and patios; provided, that such improvements may be subject to special drainage provisions adopted for the various critical areas; and
- (5) Trails.

**21A.50.290 Wetlands – Development standards.**

...

- ~~(2) Wetlands located entirely waterward of the ordinary high water mark of a lake or pond shall be regulated by the buffer and development standards provided for lakes and ponds in SMC 21A.50.351 and 21A.50.352, and by the adopted shoreline master program.~~

...

**21A.50.351 Lakes and Ponds – Development standards.**

~~A development proposal on a parcel or parcels containing a lake, pond or associated buffer or setback shall meet the following requirements:~~

- ~~(1) Lake Sammamish Buffer. A 45-foot standard buffer shall be established from the ordinary high water mark, as defined by the Shoreline Management Act, of Lake Sammamish; provided, that up to 25 percent, or no less than 15 feet, of the lake frontage may be used for shoreline access.~~
- ~~(2) Increased Lake Sammamish Buffers. The department may require the Lake Sammamish buffer to be increased when necessary to protect other fish and wildlife habitat conservation areas. Where the lake exists adjacent to a stream or wetland located~~

~~landward of the ordinary high water mark, the standards that provide greater protection shall prevail. Where the lake buffer includes a landslide hazard area, the buffer width shall be the greater of either the lake buffer or 25 feet beyond the top of the landslide hazard area.~~

~~(3) Lake Sammamish Buffer Reduction. The Lake Sammamish buffer may be reduced when buffer reduction impacts are mitigated using any combination of the following mitigation options and result in equal or greater protection of lake functions. In no case shall the buffer be less than 15 feet. The Lake Sammamish buffer may be reduced by:~~

~~(a) Fifteen feet for:~~

~~(i) Removal of an existing bulkhead located at, below, or within five feet landward of the lake's ordinary high water mark (OHWM) and subsequent restoration of the shoreline to a natural or seminatural state, including restoration of topography, soil composition, and vegetation;~~

~~(ii) Restoration of shoreline to a natural or seminatural state if no bulkhead is present, but other existing unnatural shoreline contours are present; or~~

~~(iii) Preservation of existing natural shoreline conditions if no bulkhead or other unnatural shoreline features are present;~~

~~(b) Ten feet for preservation of existing trees and native vegetation or restoration of native vegetation, as necessary, in the remaining Lake Sammamish buffer to be retained along at least 75 percent of the site's lake frontage. Up to 25 percent by area of preserved and/or restored vegetation can be comprised of noninvasive, nonnative vegetation. Up to 25 percent, or no less than 15 feet, of the lake frontage may be used for shoreline access; provided, that access areas are located to avoid areas of greater sensitivity and habitat value. Restoration of native vegetation shall consist of a mixture of trees, shrubs and groundcover and be designed to improve habitat functions;~~

~~(c) Five feet for preservation of existing native vegetation or restoration of native vegetation, as necessary, in the minimum five-foot wide nearshore area below the lake's ordinary high water mark (OHWM);~~

~~(d) Five feet for preparation of, and agreement to adhere to, a shoreline vegetation management plan that includes appropriate limitations on the use of fertilizer, herbicides, and pesticides as needed to protect lake water quality; and~~

~~(e) Five feet for limiting lawn area to no greater than 20 percent of the lot area. Landscaped areas outside of the lawn and buffer areas shall be maintained or planted in noninvasive vegetation.~~

~~(4) Other Lakes and Naturally Occurring Ponds – New Residence Setback and Tree Retention.~~

~~(a) A 50-foot building setback for new residences shall be established from the ordinary high water mark (OHWM), as defined by the Shoreline Management Act, for lakes and naturally occurring ponds, that are and is other than Lake Sammamish not otherwise regulated by the Sammamish Shoreline Master Program.~~

~~(b) On lots abutting a lake or pond or containing the 50-foot setback area, 25 percent of existing significant trees shall be retained on-site. Half of the significant trees to be retained shall be located within the 50-foot building setback area. Where~~

half of the trees to be retained are not present within the setback area, the remaining number may be retained elsewhere on-site.

**~~21A.50.352 — Lake Sammamish buffer — Permitted alterations.~~**

~~Alterations to the Lake Sammamish buffers are not allowed, except as provided for by complete exemptions, partial exemptions and exceptions in this chapter or as allowed for by this section.~~

- ~~(1) — New development and uses shall be prohibited from the Lake Sammamish buffer, except as provided for in this chapter. Developments associated with water dependent and water enjoyment uses allowed by the shoreline master program are not required to meet the required buffer; provided, that the placement of structures, storage, and hard surfaces within the buffer shall be limited to the minimum necessary for the successful operation of the use. In no case shall surface parking be allowed within the lake buffer;~~
- ~~(2) — Surface water management activity or facility, such as an energy dissipater and associated pipes, is allowed in the Lake Sammamish buffer only if the applicant demonstrates, to the satisfaction of the department, that:
 
  - ~~(a) — No reasonable alternative exists; and~~
  - ~~(b) — The functions of the lake and related buffer are not adversely affected;~~~~
- ~~(3) — Public and private trails are allowed in the Lake Sammamish buffer consistent with the standards and requirements in this chapter, development standards in Chapter 21A.30 SMC, and requirements elsewhere in the SMC. Proposals for constructing viewing platforms, associated access trails, and spur trails must be reviewed by a qualified professional and a critical areas study may be required;~~
- ~~(4) — A dock, pier, moorage, float, or launch facility may be allowed, subject to the provisions of SMC Title 25;~~
- ~~(5) — Enhancement and Restoration. Lake buffer enhancement or restoration not associated with any other development proposal may be allowed if accomplished according to a plan for its design, implementation, maintenance and monitoring prepared by and carried out under the direction of a qualified professional. Restoration or enhancement must result in a net improvement to the functions of the lake ecosystem;~~
- ~~(6) — Restoration Required. Restoration shall be required when the lake buffer is altered in violation of law or without any specific permission or approval by the City. A mitigation plan for the restoration shall conform to the requirements of this chapter; and~~
- ~~(7) — Development may be further regulated by the adopted shoreline master program. (Ord. O2005-193 § 1)~~

# City of Sammamish Shoreline Master Program and associated changes to the Environmentally Critical Areas Code (SMC21A.50) Determination of Non-Significance (DNS) and Adoption of Existing Environmental Documents

**Description of proposal:** The City of Sammamish is adopting a new Shoreline Master Program as required by state law. As part of this adoption certain amendments are also being made to the Environmentally Critical Areas section of the Municipal Code SMC 21A.50. The new SMP has been written to meet the requirements of state statute (RCW90.58) and associated administrative code (WAC173-26, and 173-27) and to achieve the goal of “no net loss” of environmental functions and values.

**Proponent:** City of Sammamish, Department of Community Development

**Location of proposal:** The Sammamish Municipal Code is applicable within the corporate boundaries of the city. The Sammamish Shoreline Master Program is applicable within 200 feet of Pine and Beaver Lakes and Lake Sammamish and their associated wetlands.

**Lead agency:** City of Sammamish, Department of Community Development

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2) (c). This decision was made after review of a completed environmental checklist, non project supplemental questions and responses (non-project review form), and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 14 days from the date below. Comments must be submitted in writing and received by the deadline described below.

**Documents incorporated by reference:** Final Shoreline Master Program Restoration Plan, January 2008; Draft Shoreline Inventory and Characterization Report, June 2007; and the Cumulative Impacts Analysis, dated August 2009.

**Titles, Agency, Adoption Dates and Descriptions of documents being adopted:**

The following documents describe, on a programmatic level, the natural, shoreline, and built environmental features, functions, and values located in the City of Sammamish, and the impacts associated with planned development consistent with the adopted Sammamish Comprehensive Plan:

- City of Sammamish Comprehensive Plan FSEIS (02/03) and FSEIS (09/03).
- Critical Areas Ordinance DNS issued (09/05)

**If the documents being adopted have been challenged (WAC 197-11-630), please describe:**

**Deadline:** Comments must be received at the address above by September 10, 2009 at 5pm per SMC 20.15.070.

## EXECUTIVE SUMMARY

The City of Sammamish is updating its Shoreline Master Program (SMP) (known as Title 25 of the Sammamish Municipal Code) to comply with the Washington State Shoreline Management Act of 1972<sup>1</sup> and the state's shoreline guidelines<sup>2</sup>. As part of this effort, the City is required to evaluate the cumulative impacts of "reasonably foreseeable" future development to verify that the proposed policies and regulations for managing its shorelines are adequate to ensure 'no net loss' of shoreline functions. The Cumulative Impact Analysis provides a planning-level assessment of the effects on the shoreline environment resulting from activities and development under the proposed update of the Sammamish Shoreline Master Program (SMP).

As directed by the state guidelines, the City prepared this Cumulative Impacts Analysis to consider and evaluate<sup>3</sup>:

1. Current circumstances affecting the shorelines and relevant natural processes (Chapters 2 and 3 of this report);
2. Reasonably foreseeable future development and use of the shoreline (Chapters 4 and 5); and
3. Beneficial effects of established or proposed plans and programs under other local, state, and federal laws (Chapter 6).

The analysis conducted for this report includes detailed evaluation of the potential effects of subdivision of property and effects caused by unregulated activities, developments that are exempt from a shoreline substantial development permit, and residential bulkheads, residential piers, and runoff from newly developed properties.

The Sammamish shorelines are largely developed with residential uses. There are limited opportunities for new development within the 200-foot shoreline jurisdiction. Therefore, major changes in development patterns or use are unlikely. Much of the foreseeable development activity will be redevelopment of existing structures.

For all foreseeable development, the Sammamish SMP includes standards and procedures for evaluating the effects of specific development actions on a case-by-case basis before individual shoreline development projects are approved. To achieve no net loss, the SMP requires each project to avoid impacts, but where that is not possible, to minimize them, then replacing damaged resources through mitigation efforts. The proposed development

---

<sup>1</sup> Revised Code of Washington (RCW) 90.58

<sup>2</sup> Washington Administrative Code (WAC) 173-26, Part III

<sup>3</sup> WAC 173-26-186(8)(d)

standards and mitigation requirements will ensure that new residential development, as it occurs over time, will not affect shoreline resources.

The report demonstrates that commonly occurring shoreline activities and developments within the City will not result in a net loss of ecological functions compared to ‘baseline’ or today’s conditions (see Chapter 7 for additional detail)<sup>4</sup>. The Sammamish SMP has been developed in accordance with the state shoreline guidelines and is consistent with the shoreline management goals and policies established by the Shoreline Management Act. The SMP proposes new shoreline environment designations and development standards for shoreline modifications and uses and establishes strong protections for shoreline functions and processes. The standards restrict activities that would cause adverse impacts to the shoreline environment, require mitigation for allowable impacts, encourage other low impact development (LID) strategies, and provide incentives to restore existing shoreline resources where they would benefit from improvements.

Based on the assessment of these factors, it is anticipated that the individual development actions taken over time in accordance with the proposed update of the Sammamish SMP are not likely to result in a net loss of shoreline ecological functions from existing baseline conditions.

---

<sup>4</sup> For this planning-level assessment, the baseline conditions are the conditions that are generally identified and described in the City’s Final Shoreline Inventory and Characterization Report (ESA Adolfson, June 2007).

# Memorandum

---

DATE: August 26, 2009

TO: Ben Yazici, City Manager

FROM: Kamuron Gurol, Community Development Director

SUBJECT: Sammamish Shoreline Master Program (SMP) Update

---

On August 17, 2009 staff held a public informational meeting on the City Council Review Draft of the Shoreline Master Program (SMP) update. Our goal was to provide information and answer questions to ensure that the residents and stakeholders had accurate information for the continued public hearing on September 1, 2009. Table topics included Pine and Beaver lakes, setbacks and mitigation, non-conformance, and new issues, including stormwater.

This memo summarizes several issues discussed at the August 17<sup>th</sup> meeting and others that staff recommends the Council consider as it completes the SMP update process. Following the completion of public testimony on September 1<sup>st</sup>, we suggest that the Council also review this memo and provide staff with guidance on the topics herein.

## Non-conformance

Concern 1: That all legally established but non-conforming uses and improvements would be required to come into compliance with the SMP.

The SMP does not require that all legal non-conforming uses come into compliance. Generally, when a property owner modifies the footprint of a single family home (SFR) or other improvement, the city's adopted policy is that modification cannot increase the amount of non-conformance, except as specifically allowed by code.

For example, an addition to a residence that is non-conforming with regard to the shoreline setback may be required to improve the vegetation enhancement area (VEA) or make other improvements to the shoreline area. However, the SFR is not required to be relocated, and expansions are allowed in accordance with the criteria identified in the SMP.

Concern 2: That maintenance and repair of existing legal non-conforming uses and improvements might be restricted.

The SMP specifically allows for maintenance and repair of legal non-conforming uses and improvements. For example, a legally constructed stair from a dock to the shoreline could be maintained or replaced in kind.

Concern 3: That the presence of a legal non-conforming use will interfere with the purchase and sale of property.

Staff is not aware of any case where the presence of a legal non-conforming use or improvement has interfered with the purchase and sale of a single family home. Occasionally, staff has taken calls from underwriting companies inquiring about legal non-conforming structures and uses. Staff responds and confirms the allowance to maintain, repair or replace in kind those structures and uses.

Concern 4: That any modification to an existing legal non-conforming use could trigger shoreline vegetation enhancement requirements.

The SMP requires that some expansions of existing legal non-conforming uses be accompanied by shoreline vegetation enhancement area (VEA). However, not all modifications result in this requirement. For example, interior remodels and second story additions within the existing footprint of the house do not trigger a VEA. The VEA would only be triggered by larger footprint expansions (beyond the 200 square foot exemption discussed below) to residences that are currently located wholly or partly within the shoreline setback.

### **Footprint vs. envelope**

Residents were concerned with SMP terms relating to expansion “footprint” or building “envelope”. The expansion provisions that trigger a VEA should refer to the “footprint” that creates additional impervious surface. Staff recommends that this be clarified in the final version of the SMP adopted by the Council.

### **200 square foot exemption**

Staff notes that the exemption for expansion of an existing structure by 200 SF should have language that ensures the exemption is not used more than once. To restate, the first 200 SF of an expansion would be exempt from implementation of a VEA. A larger or subsequent expansion would then trigger the VEA to be provided. Staff suggests the Council consider language that limits the exemption to a one-time use.

## Joint use docks

The Council's policy direction was to require joint use docks for new subdivisions in the Urban Conservancy designation. This provision was unintentionally omitted from the Council Draft SMP and should be included in the final version adopted by the Council. Staff notes that the current SMP effectively requires joint use docks for all subdivisions. Staff recommends that the Council consider retaining this requirement for subdivisions in Shoreline Residential as well for those in Urban Conservancy.

## Tree removal and replacement

Pine and Beaver Lakes: There is an 80% tree retention requirement for the 200 foot shoreline jurisdiction area on Pine and Beaver lakes. The Planning Commission draft proposed that a reduction to 50% be allowed with a two-to-one (2:1) replanting ratio. This was inadvertently omitted from the Council Review draft. Staff recommends that this or another similar provision be included in the final version adopted by the Council.

All Lakes: It is recommended that clarification be included in the final SMP that if significant trees are located within a VEA, they would be required to be retained, with the exception of hazardous trees. Additionally, a replanting requirement for hazard tree removal could be included.

## Schedule

Citizens may continue to testify at the public hearing scheduled on September 1, 2009. Written comments may be sent to the City and will be accepted through the end of the City Council hearing. Council deliberations are planned to begin on September 1 or 8, with a goal of adoption by September 8 or 15.

Please let me know if I can provide you with additional information.

**Final**  
**Shoreline Master Program Staff Notes reflecting**  
**City Council Policy Direction from June 2, 16, July 7, and 21, 2009**

**Council Policy Direction from July 21, 2009 (new)**

- **All lakes**
  - Public access will be offered by way of public lands (confirmed).
  - Replacement of existing bulkheads will be allowed (confirmed).
  - Retain the designation of Urban Conservancy as mapped in the Planning Commission recommended draft.
  - Consider designing incentives to promote the retention of vegetation within the Urban Conservancy.
  - Delete the requirement for 200 foot spacing between docks within the Urban Conservancy.
  - Delete the prohibition on subdivision within the Urban Conservancy.
  - The Ordinary High Water Mark will be determined by site specific review as defined by the state guidelines.
  - Subdivision of parcels on Pine and Beaver Lake must maintain a minimum lot width of 50 feet at the shoreline (confirmed).
  
- **Lake Sammamish**
  - The City will conduct a study to establish a default Ordinary High Water Mark for purposes of administration.

**Council Policy Direction from July 7, 2009 (updated after July 21, 2009 to reflect additional Council direction)**

- **All lakes**
  - Docks may be as long as the average length of the nearest docks on either side (assuming the adjacent docks are not “stub docks”) and are limited to ¼ the distance to the opposite shore.
  - Dock height will not exceed 5 feet above the Ordinary High Water level.
  - Docks will be set back at least 15 feet from the waterward extension of the side property line with the exception of joint use docks.
  - The Shoreline Master Program will differentiate Beach Club properties servicing 10 or more lots from single-family residential regulations.
  - The active use area for Beach Clubs will match that of other private shoreline owners and existing Beach Club uses will be “grandfathered” in.
  - Do not require a CUP for shoreline stabilization, but balance this with additional vegetation requirement.
  - Ensure that trigger and threshold issues (in regard to maintenance and rebuilding) are clearly articulated in the CC draft.
  
- **Lake Sammamish**
  - Allow up to 480 square feet of dock area for single lot service, 700 square feet of dock area for two to nine lot service, and 1000 square feet of dock area for ten or more lot service (Beach Clubs)
  - Allow Beach Clubs to have a second dock to service an existing ramp as long as the total area of the docks is within the 1000 square foot dock area allowance.

NOTE: Staff have revised these notes to reflect terminology used in the City Council Draft Shoreline Master Program.

**Final**  
**Shoreline Master Program Staff Notes reflecting**  
**City Council Policy Direction from June 2, 16, July 7, and 21, 2009**

- Reductions of the “Shoreline Setback,” listed in the PC draft SMP, include:
  - A reduction (required prior to other reductions) of 10 feet for planting a 15 foot “shoreline enhancement zone” from the OHWM landward ;
  - A reduction of 15 feet for the removal of a bulkhead and restoration of shoreline or replacement with “bulkhead alternative” as presented in the “Green Shorelines” handbook;
  - A reduction of 10 feet for creation of a durable inclined fill of gravel against the waterside of an existing bulkhead and restoration with native plants only when removal of the bulkhead will result in ecological harm (staff to review further).
- **Pine and Beaver Lake**
  - Allow up to 480 square feet of dock area for single lot service and 700 square feet of dock area for joint use docks serving two or more lots
  - Vegetation management as directed at the June 2<sup>nd</sup> meeting with the addition that “increased vegetation elsewhere on the lot” be preferably located near drainage areas such as swales or ditches

**Council will consider the following issues on July 7**

- Urban Conservancy Designations
- OHWM

**Council requests for further information**

- Clarify development triggers and thresholds requiring SMP conformance
- Confirmation that planting on fill on the waterward side of a bulkhead is acceptable to COE and NMFS
- Assessment of Urban Conservancy sites and analysis of the possible increase in docks if the 200 foot spacing is not adopted

**Council Policy Direction from June 16, 2009**

- **All lakes**
  - Use citywide standards for impervious surface limits.
  - Allow subdivision of Urban Conservancy designated lots.
  - Physical and visual access is made available to the public by way of existing public parks, and potentially through street ends and other public lands.
  - Demonstrated need is not necessary for permitting of private residential docks.
  - WDFW approved materials are required for all dock repairs requiring permits.
  - No additional SMP regulation on spacing of private residential docks in the Urban Conservancy.
  - Minimum lot width required for subdivision within Shoreline Jurisdiction: 50 feet
  - Restrict division of lot edge along waterfront edge
- **Lake Sammamish**
  - Interior side yard setbacks to total 15% of lot width, with a minimum 5 foot width for sides of structure.

NOTE: Staff have revised these notes to reflect terminology used in the City Council Draft Shoreline Master Program.

**Final**  
**Shoreline Master Program Staff Notes reflecting**  
**City Council Policy Direction from June 2, 16, July 7, and 21, 2009**

- Features per private dock:
  - 1 float
  - 2 boat lifts and 2 PWC lifts OR 4 PWC lifts
- Features per private joint-use dock:
  - As above, plus: 1 extra boat lift and 1 extra PWC lift
- **Pine and Beaver Lake**
  - New lifts are prohibited.
  - Existing lifts are “grandfathered.”
  - Interior setbacks per zoning code.

**Council will consider the following issues on July 7**

- Beach Club
- Shoreline Stabilization
- Ordinary High Water Mark
- Tree retention/vegetation requirements (clarification of June 2 direction)
- Shoreline Designations
- Policy direction item D-2 (size and length of docks)
- Possible limitation of floats and barges on Pine and Beaver Lakes

**Council requests for further information**

- Ordinary High Water Mark
- Current state regulations regarding public interest requirements for subdivision (RCW 58.17.110)
- Information regarding dock length/area regulations and fill for lifts (ACE and nearby jurisdictions)
- Information on Best Available Science regarding vegetation retention and impervious surfaces

**Council Policy Direction from June 2, 2009 (updated June 17, 2009)**

- **Lake Sammamish**
  - Establish a “Shoreline Setback” of 45 feet.
  - Establish a “Shoreline Enhancement Area” of 15 feet.
  - Establish a 5 feet Building Setback Line (BSBL) from “Shoreline Setback.”
  - Offer incentives that can reduce the “Shoreline Setback” down to 15 feet.
- **Pine and Beaver Lake**
  - Establish a “Shoreline Setback” of 45 feet.
  - Establish a “Shoreline Enhancement Area” of 15 feet with incentive to reduce to 5 feet for increased vegetation elsewhere on the lot.
  - Establish a 5 foot BSBL from “Shoreline Setback”.
  - 80% of significant trees within the Shoreline Jurisdiction would be retained.

NOTE: Staff have revised these notes to reflect terminology used in the City Council Draft Shoreline Master Program.

**Final**

**City Council Policy Direction from June 2, 16, July 7, and 21, 2009**

- **All lakes**
  - Vegetation requirements are only applied through new permit application review.
  - Vegetation will include a minimum of 75% native plants within the “Shoreline Enhancement Area”; up to 25% of vegetation may be non-natives.
  - Allow an active use area that is up to 25% of the “Shoreline Enhancement Area” and no less than 15 feet of the lot width, and specify that the active use area can be non-contiguous.
  - Fences within the “Shoreline Enhancement Area” will not exceed 6 feet in height.
  - Existing landscape features may be retained and maintained.
  
- **Primary residences within the “Shoreline Setback” on all lakes**
  - Legal and conforming primary residences, existing entirely within or partially extended into the newly established “Shoreline Setback,” continue to be legal and conforming upon adoption of the updated SMP.
  - Such residences may be rebuilt in-kind.
  - Indoor and outdoor remodeling and maintenance of such residences is allowed as long as the portion of the structure’s envelope (base and height dimensions) existing within the “Shoreline Setback” is not enlarged.
  - Any reconstruction, beyond in-kind, within the “Shoreline Setback” (voluntary or involuntary) triggers mitigation through vegetative restoration in the “Vegetation Enhancement Area”.

*Lake Sammamish*

- Expansion of the portion of the primary structure residence located outside the “Shoreline Setback” is regulated by existing city code.

*Pine and Beaver Lakes*

- Expansion of the primary structure residence is subject to Shoreline VEA requirements.

**Council requests for further information**

- Community beaches
- Ordinary High Water Mark

## CITY COUNCIL AGENDA BILL

---

**Subject:**

East Lake Sammamish Parkway NE Phase 1B - NE 18<sup>th</sup> Place to 2200 Block – Construction Contract Award

**Meeting Date:** September 1, 2009

**Date Submitted:** August 26, 2009

**Originating Department:** Public Works

**Clearances:**

- |   |  |
|---|--|
| <input checked="" type="checkbox"/> <b>City Manager</b> | <input type="checkbox"/> <b>Police</b>   |
| <input checked="" type="checkbox"/> <b>Public Works</b> | <input type="checkbox"/> <b>Fire</b>     |
| <input type="checkbox"/> <b>Building/Planning</b>       | <input type="checkbox"/> <b>Attorney</b> |

**Action Required:**

Authorize the City Manager to award and execute a contract with SCI Infrastructure, LLC for construction of the East Lake Sammamish Parkway NE Phase 1B - NE 18<sup>th</sup> Place to 2200 Block and administer a construction contingency.

**Exhibits:**

1. Bid Results

---

**Budgeted Amount:** \$15,866,500 in the adopted 2009-2010 project budget (Transportation Capital Improvement Fund and and Surface Water Capital Fund)

---

**Summary Statement:**

The Public Works Department recommends that the City Council authorize the City Manager to award and execute a contract with SCI Infrastructure LLC for construction of the East Lake Sammamish Parkway NE Phase 1B Project - NE 18<sup>th</sup> Place to 2200 Block.

On August 5, 2009 the City of Sammamish publicly opened seven bids for the East Lake Sammamish Parkway Phase 1B project. SCI Infrastructure LLC submitted the lowest bid in the amount of \$2,743,595.60. Staff has determined that SCI Infrastructure LLC is both responsive and responsible.

**Background:**

The City was successful in receiving \$3.5M in Federal stimulus funding for the ELSP Phase 1B project. This funding was granted through an intensely-competitive regional evaluation

process. At the April 7 regular meeting, Council adopted Resolution, R2009-364, accepting these funds for use on the Phase 1B project.

The Phase 1B improvements will continue the ELSP roadway widening approximately one-quarter mile further north to the 2200 block. Similar to the Phase 1A improvements, the roadway will be widened to three lanes with either a center turn lane or raised landscape median, bike lanes, curb and gutter, and a sidewalk on the east side. Retaining walls, native landscaping and enhanced stormwater treatment facilities are integrated into the roadway improvements. No illumination is included in this phase. This phase of East Lake Sammamish Parkway improvements include the widening and upgrades to the existing bridge.

Additional project background is included in the ELSP construction contract authorization agenda bill that was included in the December 16, 2008 agenda packet (<http://www.ci.sammamish.wa.us/ViewImage.aspx?AttID=5409>)

### **Financial Impact:**

The cost of the construction of East Lake Sammamish Parkway Phase 1B plus the anticipated cost of the construction management is being reimbursed 100% by the \$3.5 Million federal stimulus grant that the City Council accepted at the April 7 regular meeting (Council adopted Resolution, R2009-364).

Construction Contract (SCI)	\$2,743,595.60
Construction Contingency	\$256,404.40
Construction Management	\$500,000.00
<b>Total Phase 1B</b>	<b>\$3,500,000.00</b>

### **Recommended Motion:**

Move to authorize the City Manager to award and execute a contract with SCI Infrastructure, LLC for construction of the East Lake Sammamish Parkway NE Phase 1B - NE 18<sup>th</sup> Place to 2200 Block in the amount of \$2,743,595.60 and administer a construction contingency in the amount of \$256,404.40.
