Dear Parents,

In the event of an emergency or some type of crisis during the school day, the following plans will go into effect:

**Weather/Maintenance Emergency:**

For weather-related/maintenance-issue closings, you will be notified through the school broadcast system, the school e-mail distribution, text message, by the Colonial School District if you reside in their territory or listen to KYW radio/online. When this situation arises during the school day, our Emergency Closing Policy will go into effect. The children will be released according to their usual dismissal routine at the specified time.

**Emergency Closing:**

For an emergency closing such as fire, lock-down, or shelter-in-place, teachers will follow the instructions on the Emergency Release Form that you returned for dismissal. Order of calls will be parents, emergency contact other than parent or authorized person other than parent.

**School Evacuation:**

For an emergency evacuation of the building during the school day such as a bomb threat, the students will go directly to St. Philip Neri Church or if need be, to Whitemarsh Elementary School. We will activate the school broadcast system and notify KYW as the time and place where you can meet your child/children. The faculty and staff will be with the students at all times.

**Civil Emergency:**

If a Civil Emergency is declared by the police or fire departments, a broader plan will go into effect. In conjunction with the Plymouth/Whitemarsh Police Departments and the Office of Catholic Education, we will initiate a "Shelter-in-Place" system. Under these circumstances, no one may enter or leave the building until indicated otherwise by the civil authorities. We will activate the school broadcast system and notify KYW as the time and place where you can meet your child/children. Food and water provisions will be provided for the students and staff.

**Glossary of Terms:**

**Lock Down:** A crisis or event that occurs and requires either all external doors and/or classroom doors to be locked for protection.

**Shelter-in-Place:** A release of a chemical substance into the air or a weather-related emergency like a tornado warning.

Sincerely,  
Mrs. Veneziale

## Saint Philip Neri School presents author

### Elvira Woodruff

**Wednesday, November 11<sup>th</sup>**

We are excited to announce that on November 11<sup>th</sup>, Elvira Woodruff will visit SPN! As the bestselling author of George Washington's Socks and The Ravenmaster's Secret, Ms. Woodruff has written more than twenty books for children. This visit is made possible by money raised from your support of our Scholastic Book Fairs and the SPN Night at Barnes and Noble. Author Visits help reinforce the importance and fulfillment of lifelong reading and writing.

**If you wish to order a book signed by Elvira Woodruff, please return the order form below to Jill Grasso (c/o Robby Grasso, grade 3, room 12) by October 16<sup>th</sup>.**

Students will receive books the day of the author visit.

# SCIENCE EXPLORERS®

After-School

# SCIENCE CLUBS

## Anniversary Special: Mix It Up!

We've picked our top 3 favorite hands-on science activities for this special 3-session club! This is a great program to try if you've never participated in Science Explorers before, or if you want to experience some favorites, this is for you! We'll take some chemistry, throw in a little creativity, and mix in tons of fun! Create our ever popular foaming "Matter Monster", build your own motorized invention, and make groovy lava lamp test tubes!

## Abracadabra!

Hocus Pocus, you're the focus, as you amaze and astound your friends with some awesome science magic! Master the art of illusion and discover the scientific secrets behind these tricks. Use your newfound skills to make an egg sink or float on command, create invisible ink, make water disappear, and shock your family and friends when you walk through a piece of regular copy paper!

## Burps, Belches & Bad Breath

Did you know that mucus is part of your daily diet? Or what part of your body are you producing a cement-like substance? Are there little creatures living on you? What happens to our cells when we sweat? Find out the wacky science going on inside all of us! We'll make our own mucus, create body spray to keep us smelling good, make an explosion of gas bubbles, mix up noisy putty, and use chemistry to show how to neutralize stomach acids. We like to call it a "cool kind of gross"!

## Freaky Physics

What do you get when you take matter and mix in some energy? Freaky Physics! We'll mix up a gas that is heavier than air, change states of matter to make slippery slime, and build a circuit to create an awesome motorized "drawing-bot". Plus see how physics and building are related as our engineering teams compete to see who can build the tallest towers. Test your science skills as we freak out with physics!

## Secrets of Ancient Egypt

Become an Egyptologist as we explore the fascinating world of ancient Egypt. We'll discover how Egyptians used science every day as we construct pyramids, learn how to tell time using the sun, mummify apples, build a model shadoof that was used for irrigation, create your own mummy, and decode Egyptian writings!

## Is There a Doctor in the House?

If you have ever wondered what is running through your veins and what happens to your lunch after you eat it, then join Science Explorers for five fun filled "office visits" that are guaranteed to kick your senses into high gear and stimulate your mind. We'll create edible blood, make a model of the digestive system, build a working lung model, and investigate a real sheep brain! Make no bones about it, the doctor is in!
