Berkeley Language Center
Professional Development Fellowship Application
For Language Lecturers
Academic Year 2014-2015

The Berkeley Language Center is pleased to announce the availability of two one-semester research fellowships for Unit 18 lecturers or language program coordinators for the academic year 2014-2015 (pending authorization of funding).

These fellowships will provide lecturers with the equivalent of one-course release time to work on individual projects designed to further their own professional development. Research projects might include: designing and developing instructional materials of various kinds; developing innovative uses of technology; developing new course syllabi or curricular innovations or assessment plans; engaging in independent study of an area of relevant literature, including enrolling in a course of relevant interest offered at UC Berkeley; doing an empirical study of some aspect of language learning; preparing a research paper for public presentation or publication in a professional journal. The fellowship culminates in a presentation to the UC Berkeley language community. Past fellows have also presented their research at conferences, or published their work in established journals.

The projects will be undertaken in collaboration with the BLC Director, Rick Kern, and the BLC Associate Director and Director of the Language Media Center, Mark Kaiser. Regular attendance at the weekly research fellows' meetings is required. Lecturers teaching any language at UC Berkeley are eligible to apply. Those teaching less commonly taught languages are particularly encouraged to apply. If you are interested, we strongly encourage you to discuss your research project proposal with either Rick Kern or Mark Kaiser.

Please complete the **fellowship application form**, (downloadable at the BLC website or obtained in B-40 Dwinelle Hall) a two-page description of your project (see specifications on application form), a current CV, and a letter of recommendation by the chair of your department, explaining how your project benefits the teaching and research mission of your department and/or your professional development.
