Field Checklist of The Birds of Arizona

1	Observer(s) Date Weather	Time	Total Species
2	Observer(s) Date Weather	Time	Total Species
3	Observer(s) Date Weather	Time	Total Species
4	Observer(s) Date Weather	Time	Total Species
5	Observer(s) Date	Time	Total Species

Checklist of the Birds of Arizona.

This checklist contains 547 species of birds that have been accepted by the Arizona Bird Committee as of May 2009.

This list conforms to the A.O.U. checklist order and nomenclature as of the 51th supplement July 2010.

- **n** = Has bred in Arizona (303 species). A species that has hatched young at least once
- [] = Species in brackets have not been physically documented in Arizona (6 species)
- * = Arizona bird committee review species (171 species).
- # = Sketch details species (47 species)

italics = Species in *italics* are identifiable forms (63 subspecies)

(int) = Introduced (7 species)

(ex) = Extirpated (4 species) previously bred or presumed to have bred in AZ, but no longer occur naturally. they may have been re-introduced but remain un-established.

Species or subspecies marked with an asterisk or pound sign (*, #) should be documented with photographs and or written details. Reports of Arizona Bird Committee review species (*) may be submitted on-line to the Arizona Bird Committee (ABC) at the Arizona Field Ornithologists Website at: www.azfo.org.

Subspecies common names are derived from eBird Taxonomy, available online at:

http://ebird.org/content/ebird/about/ebird-taxonomy

layout and design by Kurt and Cindy Radamaker

Checklist last updated: July 28 2010
