Tolmers Trading Price List

(from 1st March 2001)

A S

Welcome to Tolmers Trading.

Tolmers Trading was set up in late 1997 to help local groups around the area purchase clothing at affordable prices. The aim was for the groups to be able to put their own group logo on clothing without having to order large quantities. Since we started we have supplied numerous groups with their personalized garments. We now also supply district and indeed county events with whatever they require.

In the following pages you will see a selection of garments that can be purchased through Tolmers Trading, this is not the full selection and if you cannot see what you are looking for, then please contact me. You will see that the prices are split into three groups, this is to allow you to make savings when purchasing more than one item. e. g. if you know that you want six medium polo shirts then look under that column and you will see that the garments are cheaper than buying singles the only condition is all the garments must be of the same size and colour. There are more savings to be had if you are ordering for county events, that's where the higher quantity column comes in.

We can also provide embroidered and screen printed badges of any shape, size and quantity from the smallest of orders (250) to (20,000 +) at very competitive prices.

I hope that you like what you see in the following pages and I look forward to speaking with you at some time to discuss your requirements.
