Order Management

# Shipping Compliance. Integrated.

Microworks Wine Direct 4.1 – All in one POS solutions!

Wine Direct seamlessly integrates with ShipCompliant for real-time compliance checks and reporting on each order to ensure you are compliant with your direct to consumer sales. Wine Direct automatically updates products on the ShipCompliant portal, downloads sales tax rates, checks compliance real time on all orders entered at the register and back office.

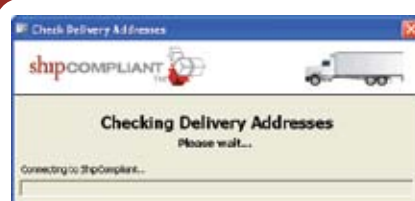

Microworks, founded in 1991 is continually improving Wine Direct and has earned a reputation as a leading and well respected provider of consumer direct sales management software. Our business is founded on service to our customers and a passion for the wine business.

**Here are just a few of the features:**

- Perform real-time compliance checks at time of sale
- Collect accurate sales tax on all orders to any US zip code
- User friendly compliance messages assist sales associates in providing excellent customer service
- Block shipments to prohibited states or dry counties
- Delivery address verification to reduce returned shipments
- Supports Futures and future ship dates
- Perform age verification to insure consumers are of age
- Automatically upload products to ShipCompliant portal to eliminate double entry
- Supports ShipCompliant fulfillment gateway. Sends the order to ship compliant AND your fulfillment house in one click!
- Automatic download of sales tax rates
- Order exception management provides the tools necessary for order conflict resolution
- Check compliance before and after payment is accepted

Wine Direct uses ShipCompliant's delivery verification service to validate shipping addresses on all orders before they ship.

Wine Direct automatically uploads orders to ShipCompliant's rules engine to check orders for compliance and generates an order exception list for shipments to prohibited states, exceeded limits, etc.

Save time and research by automatically downloading sales tax rates for out of state wine shipments to ensure proper sales tax collection and reporting.
