2. How super works

Superannuation is a means of saving for retirement which is, in part, compulsory. There are different types of contributions that can be made into superannuation (for example, employer contributions, voluntary contributions and Government co-contributions).

Tax savings are provided by the Government; however, there are limitations on contributions to, and withdrawals from, superannuation.

Most people have the right to choose which fund their employer should direct their superannuation guarantee contributions to. If they do not choose a fund, their employer must pay the contributions into a super fund with a MySuper authorised product such as LESF.

Members can normally only access their superannuation after reaching preservation age, or by meeting other conditions of release stipulated by superannuation law, for example, retirement, death or permanent incapacity.

The conditions of release for temporary residents are more limited than those applicable to Australian residents.

There are certain circumstances in which superannuation benefits must be transferred by the Trustee to the Tax Office, for example, small or lost accounts, unclaimed benefits on or after age 65 or for former temporary residents.

The following websites contain information about super and how it works, including information on contributions, limitations on contributions and rules relating to withdrawals from superannuation:

- Australian Taxation Office (ATO) website: www.ato.gov.au/super
- MoneySmart website: www.moneysmart.gov.au/superannuation-and-retirement

You should read the important information about how superannuation works before making a decision. Refer to the **LESF Super PDS Additional Information Guide** available on the Fund's website www.lesf.com.au. The information relating to how superannuation works may change between the time you read this PDS and the day you acquire the product.

4. Risks of super

All investments carry risk, and different strategies may carry different levels of risk, depending on the assets that make up the strategy. For instance, assets with the highest longterm returns may also carry the highest level of short-term risk. Before investing, you should consider the level of risk involved with a particular investment and whether the potential returns justify that risk.

Some of the significant risks of superannuation include:

- the value of investments will vary;
- the level of returns will vary, and future returns may differ from past returns;
- returns are not guaranteed and you may lose some of your money;
- superannuation laws may change in the future;
- the amount of your future superannuation savings (including contributions and returns) may not be enough to provide adequately for your retirement;
- the level of risk you face will vary depending on a range of factors, including your age, investment timeframes, your risk tolerance and where other parts of your wealth are invested.

Other risks associated with investing in LESF may include risks such as:

Interest rate risk

Changes in official interest rates can directly and indirectly impact on investment returns. Generally, an increase in interest rates has a contradictory effect on the state of the economy and thus the valuation of stocks.

Market risk

Changes in legal and economic policy, political events and technology failure can all directly or indirectly create an environment that may influence the value of your investments.

Company specific risk

The value of investments may vary because of changes to management, product distribution or the company's business environment. Another factor that affects risk is the length of time you plan to invest in LESF.

Liquidity risk

There may be a time when investments may not be readily sold (for example, in a falling market where shares may become less liquid). However, trading volumes of stock are generally sufficient to satisfy liquidity requirements when necessary. Note that the liquidity of LESF's investments are not guaranteed.

Derivatives risk

In the case of derivatives, fluctuations in price will reflect movements in the underlying assets, reference rate or index to which the derivatives relate. The use of derivative positions to hedge the risk of physical securities will involve "basis risk" which refers to the possibility that derivatives positions may not move perfectly in line with physical security. As a consequence, the derivative positions cannot be expected to perfectly hedge the risk of the physical security.

Credit risk

The risk of a default of a borrower is prevalent in LESF. The risk is sought to be mitigated to an extent by the knowledge and experience of the investment managers.

The degree to which these risks affect your investment will depend on the investment options(s) you choose. The level of risk you are prepared to accept may depend on a range of factors, including your age, investment time frames, where other parts of your wealth is invested and your tolerance to risk.

Information on the risk level of the MySuper investment option is shown in Section 5, and for all other investment options in the LESF Super PDS Additional Information Guide. In considering the risk profile for each investment option, it should be noted that the Trustee has not applied the Standard Risk Measure (SRM) methodology in determining these risk levels. The SRM is an investment risk classification system developed by the superannuation industry to standardise the disclosure of investment risk.

Risk is expressed by the Trustee, broadly in line with the SRM approach that defines the level of risk based on the expected frequency of negative annual returns over any 20 year period.

It is important to note that the risk level shown is not a complete assessment of all investment risks. Members should still ensure they are comfortable with the risks and potential losses associated with their chosen investment options.

You should read the important information about risks before making a decision. Refer to the **LESF Super PDS Additional Information Guide** available on the Fund's website www.lesf.com.au.

The material relating to the risks of investment with the Fund may change between the time you read this PDS and the day you acquire the product.

Varying Investment Options

The Trustee may at its discretion vary the investment options available within LESF from time to time, and will give notice to members affected by those changes. If the Trustee decides not to continue offering an Investment Option in which a member has nominated to invest in or in which a member's Account has been invested under a default Investment Option, we will send the member a fresh nomination request.

If a member does not send in a valid and complete nomination, his or her Account will be transferred to the default investment option (LESF MySuper).

Environmental, Social and Ethical Factors and Labour Standards

Labour standards, environmental, social or ethical considerations are not taken into account in the selection, retention or realisation of investments relating to LESF. However, underlying fund managers used may give consideration to these issues.

You should read the important information about investment options, switching and other considerations before making a decision. Refer to the **LESF Super PDS Additional Information Guide** available on the Fund's website www.lesf.com.au.

The material relating to investment options, switching and other considerations may change between the time you read this Statement and the day when you acquire the product.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your Fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better investor services justify higher fees and costs.

Your employer may be able to negotiate to pay lower administration fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website, (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

*The above Consumer Advisory Warning is a government prescribed warning. LESF does not negotiate fees and other costs with members or employers.

This section shows the fees and other costs that you may be charged. The information in the table below can be used to compare costs between different superannuation products. These fees and costs may be deducted from your Account, from the returns on your investment or from the Fund assets as a whole. The fees quoted in this section are exclusive of GST unless otherwise stated.

Additional Explanation of Fees and Costs Tax & Insurance Costs

The tax consequences of your investment in LESF are explained Section 7. The costs of insurance cover provided by LESF are explained in section 8.

WARNING

Additional Adviser Services Fees

Additional fees in the form of an Adviser Service Fee may be paid to your financial adviser. You should consult the Statement of Advice that your adviser gives you in order to understand this fee. The amount of this fee may be negotiated. The adviser may also be paid one-off fees as a fixed amount or as a percentage. Such a fee will only be paid to the Australian Financial Services Licensee whom your adviser represents if you have specifically authorised the Fund to deduct it from your Member Account. In which case, we will redeem units in your selected investment options to do so.

Operational Risk Reserve

As part of the Stronger Super reforms, all superannuation funds are now required to establish and maintain an Operational Risk Reserve (ORR) to specifically cover potential losses arising from operational risks that may affect the Funds' business operations. An operational risk is the risk of a loss resulting from inadequate or failed internal processes, people and systems, or from external events. The ORR may be drawn upon to assist in compensating members or the Fund in the event of an operational risk occurring.

The Trustee will build up the ORR within the Fund to the defined target amount over a transition period leading up to 30 June 2016. The Trustee has established an ORR Transition Plan which details where the ORR will be sourced from. The Fund will establish its ORR by allocating a small amount of earnings prior to unit prices being declared.

Other information about fees Increases or Alterations in the Charges

The Trustee has the power to increase charges at any time, and the Trust Deed of LESF does not impose maximum limits in relation to an increase in charges to members. Normally you will be given 30 days' notice of any increase in charges.

Market and external cost pressures are but two of the circumstances which may give rise to a change in fees and charges.

Expenses of operating LESF (such as investment management fees charged by the underlying fund managers) may change at any time without notice, and any changes in expenses may affect the estimated Investment Fees.

The Insurer may alter insurance premiums on each renewal of LESF's insurance policy.

You should read the important information about fees and costs before making a decision. Go to the **LESF PDS Super Additional Information Guide** available on the Fund's website www.lesf.com.au.

The material relating to fees and costs may change between the time when you read this Statement and the day when you acquire the product.

7. How super is taxed

Taxation may apply to contributions made to LESF, its investment earnings and withdrawals from the Fund, however generally, any taxes applicable to superannuation are at a concessional (lower) rate.

WARNING

If you exceed the applicable contributions caps, there will be taxation consequences.

Contributions Tax

Concessional contributions are sometimes called 'pre-tax contributions' because the contributor can usually claim an income tax deduction. They include employer contributions, salary sacrifice contributions and self-employed contributions that may be claimed as a tax deduction by the payer and any personal contributions where you notify your fund that you intend to claim as an income tax deduction (where eligible).

Concessional contributions are taxed 15% in the super fund, but if you exceed your concessional contributions cap, the excess contributions will be taxed at the individual's marginal tax rate rather than the top marginal tax rate. The amount of excess contributions will also count towards your non-concessional contribution cap.

Non-concessional contributions are generally the after-tax contributions you make to a super fund. They include personal contributions you make from your after-tax pay. They aren't usually taxed when received in the super fund, but if you exceed your non-concessional contributions cap, the excess contributions will be taxed at the top marginal rate.

Tax on Investment Earnings

Investment earnings are taxed at a maximum rate of 15% during the superannuation phase, however, this rate may be reduced by franking credits, foreign tax offsets and concessions on discounted capital gains.

Tax on Benefits

If you're 60 years of age or over, any super benefits you receive such as lump sums and pensions are tax free if you receive them from a taxed source. This means when you receive a super lump sum, or payments from a super income stream, they are tax free in your hands.

If you're under age 60 when you receive your super benefits, the taxable component is assessable income. If you are under preservation age, it will be taxed at 20% plus any applicable levies. If you have reached your preservation age but are aged less than 60, the first \$195,000 for the 2015/16 financial year is tax free, with the remainder taxed at 15% plus any applicable levies.

Tax on Death Benefits

This type of benefit is tax free if it is paid to a person who is a dependant for tax purposes. If it is paid to a non-dependant for tax purposes, the taxed element of the taxable component of the benefit is taxed at a maximum rate of 15% plus any applicable levies. The untaxed element of the taxable component of the benefits is taxed at a maximum rate of 30% plus any applicable levies. A variation to this calculation may occur in certain circumstances.

A death benefit may be paid to a dependant as either an income stream or lump sum, but may only be paid to a non-dependant as a lump sum.

Transfers from other superannuation funds

Generally, no tax will apply to amounts transferred into LESF from other superannuation accounts unless the amount transferred contains an 'untaxed element' (for example, where the amount transferred is a payment from certain superannuation funds for government employees). We are required by law to generally deduct tax at the rate of 15% of the untaxed amount.

WARNING

You should provide your tax file number (TFN) when acquiring this superannuation product. Your employer, when enrolling you into the Fund will usually provide your TFN.

If the Fund doesn't hold your TFN, higher tax will apply to your concessional contributions, and we cannot accept member contributions from you. Also, the tax on super benefits may be higher and it may be more difficult to locate any lost super benefits or to consolidate your superannuation.

Further information on taxation of superannuation benefits can be obtained by calling the Australian Taxation Office on 13 10 20 or by visiting their website at www.ato.gov.au/super.

You should read the important information about how super is taxed before making a decision. Go to the **LESF Super PDS Additional Information Guide** available on the Fund's website www.lesf.com.au.

The material relating to how super is taxed may change between the time when you read this Statement and the day when you acquire the product.

8. Insurance in your super

If LESF Super's Insurer accepts your application, your transferred cover will be applied as follows:

- Death and TPD (or Death-only cover) the amount of cover you transfer from your former fund can be **added** to the existing cover you have with LESF Super or replace the existing cover you have with LESF (as per your application).
- Income Protection (If you are eligible) the amount of cover you transfer from your former fund will replace any existing income protection cover you have with LESF Super.

The rules and premiums of LESF Super's insurance arrangements will apply and may be different to your existing cover. Any exclusions that applied to the cover under the former fund will remain once it is transferred to LESF Super.

Restrictions, terms and conditions apply to the transfer of cover.

For full details of additional cover and transferred cover, please see the LESF Super PDS Insurance Guide.

You can decline to acquire insurance cover or cancel cover by completing an Insurance Application and Variation Form and returning it to us.

All cover provided is subject to the terms and conditions contained in the policy documents. Information about eligibility for cover, cancellation of cover and applicable conditions and exclusions is contained in the LESF Super PDS Insurance Guide.

When joining the Fund through your Employer, you must complete and return the Application Form at the earliest opportunity.

Cooling-off period

A 14-day cooling-off period applies from the earlier of five days from the date your application is accepted or the date we confirm your membership. During this period, you may write to the Trustee to cancel your LESF membership and have any contributions repaid (subject to preservation rules).

We will not deduct any fees from the amount of the repayment. The amount of repayment may, however, be adjusted to take account of any increase or decrease in investment value and any taxes payable in respect of the contributions made. If any of the contributions are subject to preservation requirements, they cannot be repaid in cash but must be transferred to another complying superannuation fund, approved deposit fund or retirement savings account of your choice. We will roll over or transfer these amounts to the superannuation fund, Retirement Savings Account (RSA) or Approved Deposit Fund (ADF) you nominate. Note, if you do not nominate a suitable fund within 28 days your contributions will be transferred to the Fund's Eligible Rollover Fund (ERF). - Your children (including step-child and adult child); or
- · Any person who is wholly or partially financial dependent on you at the time of your death; or
- Any person who is in an "interdependency relationship" with you.

An interdependency relationship means:

- You have a close personal relationship with the person; and
- You live together; and
- One or both of you provide the other with finacial support; and
- One or both of you provide the other with the domestic support and personal care. (A person may however still qualify if you do not live together because one of you suffers from a disability)

A binding nomination ensures that you decide who receives your benefit when you die and in what proportions.

- The nominated proportion of benefit must total 100%.
- A binding nomination becomes invalid when a nominated beneficiary ceases to be a dependant or legal personal representative.
- To be effective a binding nomination must be signed by 2 witnesses who are at least 18 years old and who are not named in the nomination.
- Only your dependants or legal personal representative are eligible to receive your death benefit and that eligibility is determined as at the date of your death.
- If you have revoked and have not made a new binding nomination, or you have not cornfirmed or made a new nomination three (3) years from the date of your binding nomination, then payment of your death benefit to your dependants in accordance with the Trustee's discretion.
- If a dependant nominated to receive a benefit dies before you, or they are no longer a dependant of you at the time of your death, then your benefit will be distributed equally amongst your surviving nominated dependants or your legal personal representative. If there are no surviving dependants or nominated legal personal representative, your death benefit will be paid in accordance with the Trustee's discretion.
