 THE ULTIMATE SUMMER CAMP EXPERIENCE

For campers ages 7-12

CAMP COLOSSAL

Inquisitive minds need to be nourished all year round, so why waste precious summer weeks? Half-day, one-week sessions are designed for specific age groups ranging from ages 7 - 12, students entering 2nd -7th grade. Students can select from a menu of challenging and stimulating offerings designed to encourage continued learning while having fun. Each mini-camp will entice your student to spark new interests in Robotics, Marine Biology, Coding, Broadcasting, Build a Futuristic Car, and Improv/Theater Games.

Camp Hours

Monday-Friday 9:00 a.m.-12:00 p.m.
Dismissal will be prior to lunch
Arrival: 8:45 a.m. - 9:00 a.m.
Dismissal: 12:00 p.m. - 12:15 p.m.

Camp Attire

Campers will receive one camp t-shirt to be worn each day with shorts. Additional t-shirts may be purchased.

Go to www.cedarwoodschool.com for more info.

CAMP SESSIONS

Secret Code with Dash and Dot (2nd - 3rd graders) **June 1-5**
This minicamp will develop a platform for your child to make coding meaningful and fun with empowerment from a certified teacher trained in technology. They will program a robot by first learning a coding language, sending simple commands and then progressing through programming concepts to create complex algorithms. Come find out the SECRET CODE at Cedarwood's Colossal Camp. Registration starts now! Don't wait, this session will fill fast.

Be a Marine Biologist! (4th-7th graders) **June 1-5**
This is a once in a summer opportunity for all kids who love marine life! The Marine Science Summer Program will be a study of saltwater and freshwater ecosystems. Campers will learn about the science involved in creating a saltwater aquarium. They will also learn the basics of using a microscope, while making their own slides. A day will be devoted to the anatomy of different marine animals, where campers will dissect real samples. Campers will also learn about salinity and how to test different collected water samples for salinity using different tools. Campers will come away with a basic understanding of the difference between salt and freshwater ecosystems and why animals are adapted to live in a particular area.

On the Air (4th-7th graders) **June 8-12**
Look out world! Here comes the next big thing in Broadcasting! Your camper will spend time creating, writing, filming and editing their own broadcast pieces. Campers will learn the basics of broadcast journalism through interview techniques, field reports, camera use and production methods. This camp is perfect for those kids who love to be in the spotlight!

Get Going with Smart Cars! (4th - 7th graders) **July 20-24**
Campers will construct the "Self-Driving Car of the Future" as they explore the cutting edge of automotive technology with this futuristic car. Your child will construct the sleek, high-tech car, and then use a tablet or smartphone to control the car's motorized wheels and steer it in any direction. Your child will watch the car as it drives through a virtual, augmented reality city scape.

Improv and Theatre Games (3rd-7th graders) **July 20-24**
Get ready to have some fun! Campers will spend the week learning basic improv techniques, fun theatre games, and performance skills that will be sure to make them laugh, learn and become stars of the stage. Campers will work individually and as one unit to create and perform their own skits and performances. Skills include: mirroring techniques, thinking on your feet, instant recall, and stage directions. The campers are sure to enjoy this creative and exciting experience.

Robotics Club - Snappers Only! (Cedarwood 5th - 7th) **July 27-31**
This session is for SNAPPERS ONLY! Cedarwood School remains committed to transforming the future of education by building a foundation for life and helping every student to succeed. This camp will ignite student engagement and energize learning through real-life problem solving. It is a platform for our new Robotics Club that will be offered in the 2015-2016 school year. The club is designed to engage students in Computer Science, Technology, Engineering, Science and Math, while having fun! Come see if this club is right for you!
