

Announcing... a Professional Development Workshop

Who Needs Ethics Anyway?

How to Support an Organizational Culture that Supports Ethical Decision Making

You know the feeling. It's that special churn in your gut indicating something is not quite right. Ethical situations and challenges face us every day as fundraisers. Our organizations support important causes funded by countless corporations, grantors, and individuals who expect us to administer our operations with integrity, consistency, effectiveness, and transparency. The fact of the matter is we all need ethical boundaries. Ethics are essential!

Deb Minton of Philanthropia Partners will lead the way to help us start the dialogue within our organizations about creating a culture that supports ongoing ethical standards and decision making. Join us for this engaging dialogue with examples about how to navigate the ethical dilemmas that face our organizations.

Wednesday, October 22 2014
